## **1. Introduction**

In November 2022, San Francisco voters approved Proposition L (Prop L), extending the ½-cent sales tax to fund transportation improvements and approving a new 30-year Expenditure Plan, which superseded the prior Proposition K Expenditure Plan. The Prop L Expenditure Plan determines eligibility for sales tax funds through a list of 28 programs. It also sets caps for the maximum amount of Prop L funds that will be available for specific programs over the 30-year Expenditure Plan period, totaling up to an estimated \$2.6 billion (2020 \$'s). In order to fully fund the programs, the Expenditure Plan assumes that the Prop L dollars will leverage (or match) another \$23.7 billion (2020 \$'s) in other federal, state, regional, and local funds for a total program cost of \$26.3 billion (2020 \$'s). Some of those leveraged funds will be distributed to San Francisco through funding formulas. In other cases, San Francisco project sponsors will have to aggressively compete for discretionary funds in order to fully fund the Expenditure Plan programs.

The Expenditure Plan includes a number of requirements, including the development of 5-Year Prioritization Programs (5YPPs) as a condition for receiving allocations in each program in the Expenditure Plan. The 5YPPs are intended to provide a stronger link between project selection and expected project performance, to support on time, on-budget project delivery, and optimize use of federal, state and regional matching funds. Other major benefits of the 5YPPs include:

- Provide transparency about how Prop L projects are prioritized,
- Enable public input early and throughout the planning process, and
- Improve agency coordination within and across projects at the earlier stages of the planning process.

The desired outcome of the 5YPPs is the establishment of a strong pipeline of grantready transportation projects that can be advanced as soon as funds (including Prop L, federal, state, and other funds) are available. The 5YPPs are critically important to help achieve the leveraging needed to fully fund the Expenditure Plan programs.

As its centerpiece, each 5YPP contains a 5-year Program of Projects (or project list), ideally including project descriptions, schedule milestones, cost estimates, and full funding plans showing Prop L funds by fiscal year and other matching funds. The Program of Projects or project list for Pedestrian and Bicycle Facilities Maintenance is contained in Section 7 of this document.

## 2. Eligibility and Expected Fund Leveraging

### 2.1 | ELIGIBILITY

Eligibility for Pedestrian and Bicycle Facilities Maintenance as identified in the voter approved Prop L Expenditure Plan is as follows, with amounts shown in millions of 2020 dollars:

"Public sidewalk repair and reconstruction citywide. Maintenance of additional pedestrian facility improvements including stairways, retaining walls, guardrails, and rockfall barriers. Maintenance of pedestrian and bicycle safety improvements, including but not limited to safe-hit posts, painted safety zones, green bike lanes, and crosswalks. Rehabilitation of other bicycle facilities such as paths. Includes project development and capital costs. Sponsor Agencies: SFMTA, SAS. [SFPW]. Total Funding: \$84.6M; EP: \$19M."

SFMTA stands for San Francisco Municipal Transportation Agency, and SAS stands for Department of Sanitation and Streets. In the November 8, 2022 election, San Francisco voters approved Prop B, retaining the Sanitation and Streets Commission, but eliminating the Department of Sanitation and Streets and transferring its duties back to San Francisco Public Works (SFPW).

### 2.2 | EXPECTED FUND LEVERAGING

Leveraging Prop L funds against non-Prop L fund sources is necessary to fully fund the Expenditure Plan programs. Prop L sales tax funds will be used as seed funding for planning and project development to make projects competitive for discretionary fund sources, and to serve as local match needed to secure federal, state, regional, and other grant funding.

Based on Priority 1 (conservative forecast) funding levels, for Pedestrian and Bicycle Facilities Maintenance, the Prop L Expenditure Plan assumes that for every \$1 of sales tax revenue spent, on average it would be leveraged by about \$3.45 in non-Prop L funds. The Transportation Authority reviews leveraging at the project and project phase (e.g. planning, design, construction) level as well as for each Expenditure Plan program as a whole.

## 3. Public Engagement

Transportation Authority staff conducted public engagement to inform the development of the 5YPPs. This section summarizes feedback heard from that engagement, as well as information provided by project sponsors regarding public engagement and community support.

During the Prop L Expenditure Plan development, the Transportation Authority conducted a robust outreach process from Spring 2021 - Winter 2022. The New Expenditure Plan for San Francisco's Half-Cent Sales Tax for Transportation: Outreach Findings report can be found on the Transportation Authority website. Key themes emerged from this process including a strong desire to improve safety and accessibility for pedestrians and people who ride bicycles.

As part of development of the 2023 5YPPs, the Transportation Authority conducted outreach and hosted public meetings to gather input about which specific projects and project types should be funded through Prop L in the next five years and to seek input on how to select projects for each Expenditure Plan program. The meetings included a virtual meeting for interested members of the former Expenditure Plan Advisory Committee who helped develop Prop L and representatives of equity-focused community-based organizations; a virtual town hall; and presentations at community group meetings, as requested. There was also an online multi-lingual survey and opportunities for public input through the Transportation Authority's website and at multiple Transportation Authority Community Advisory Committee and Transportation Authority Board meetings. The Transportation Authority website also includes a list of staff contacts to facilitate public engagement directly with project sponsors.

To learn more, visit sfcta.org/ExpenditurePlan. The findings from the 5YPP outreach process will be published on this webpage in September 2023.

## 4. Performance Measures

Prop L requires the establishment of performance measures for each program in the Expenditure Plan. The intent is to demonstrate the system performance benefits of sales tax projects (e.g. reduced transit travel time), to ensure funds are being used cost effectively, and to inform programming of future Prop L funds, as well as programming and prioritization of other funds by the Transportation Authority (e.g. Transportation Fund for Clean Air, Prop AA Vehicle Registration Fee funds).

After reviewing San Francisco's Congestion Management Program and consulting with eligible sponsoring agencies, the Transportation Authority recommends that the

following performance measures be applied to projects included in the Pedestrian and Bicycle Facilities Maintenance 5YPP:

- Number of sidewalk locations repaired
- Number of new delineators installed
- Miles of existing bike lanes repainted
- Number of bicycle boxes repainted
- Number of spot locations repaved in bike lanes
- Number of miles converted from delineator separated bikeway to concrete separated bikeway

## 5. Project Delivery Snapshot

Since this is the inaugural Prop L 5YPP, we are looking to the prior Prop K sales tax program to assess project delivery trends for similar types of projects. Project delivery for previously-funded projects is one important consideration when we evaluate project sponsors' proposed requests for Prop L funding, particularly with respect to project readiness.

As required by the Prop L Expenditure Plan, the next 5YPP update will be informed by a citywide geographic distribution of sales tax project allocations and the distribution of projects located in Equity Priority Communities and/or benefiting disadvantaged populations.

### **Prop K Project Delivery**

Prop K has funded SFPW's public sidewalk repair program and SFMTA's bike facility maintenance program since 2004.

Table 1 shows the Project Status of open Pedestrian and Bicycle Facilities Maintenance grants under Prop K.

### Table 1. Prop K Project Status

SPONSOR	PROJECT NAME	PHASE(S) FUNDED	FY OF ALLOCATION	CURRENT ALLOCATION	REMAINING BALANCE	OPEN FOR USE?
SFMTA	Bicycle Facility Maintenance	Construction	2021/22	\$400,000	\$368,954*	
SFMTA	Bicycle Facility Maintenance	Construction	2022/23	\$200,000	\$200,000	

SPONSOR	PROJECT NAME	PHASE(S) FUNDED	FY OF ALLOCATION	CURRENT ALLOCATION	REMAINING BALANCE	OPEN FOR USE?
SFPW	Public Sidewalk and Curb Repair	Construction	2019/20	\$552,659	\$552,659*	Yes
SFPW	Public Sidewalk and Curb Repair	Construction	2020/21	\$612,238	\$612,238	Yes
SFPW	Public Sidewalk and Curb Repair	Construction	2022/23	\$637,680	\$637,680	Yes

Projects are shown in alphabetical order.

\*Invoice pending.

SFPW has completed the approved scope of work and fully expended all of the annual Prop K grants for its public sidewalk repair. Billing, however, was delayed due to SFPW staffing issues.

With respect to improving project delivery for bicycle facilities maintenance, especially in light of the increased need for this work as quick-builds, slow streets, and the bicycle network continue to expand, SFMTA is considering several strategies: looking for contracting opportunities (e.g., bike rack maintenance), using longer-lasting, costeffective materials to reduce maintenance needs, and filling staff vacancies.

## 6. Project Prioritization

The intent of establishing and documenting a methodology to select proposed projects is to provide the Transportation Authority Board, the public, and project sponsors with a clear understanding of how projects are prioritized for funding within each Prop L program. Working in consultation with project sponsors and drawing upon the Transportation Authority's experience with prioritizing projects for grant funding, Transportation Authority staff developed a set of Prop L program-wide criteria to help select projects in each of the 28 Prop programs. In addition, most programs also have program-specific criteria to inform priorities such as improving transit reliability and travel time or replacing assets at the end of their useful lives. The Prop L program-wide criteria include:

- Project readiness
- Relative level of need or urgency
- Benefit to disadvantaged populations
- Level and diversity of community support
- Leveraging

The above criteria, along with any program-specific criteria, are scored for each proposed project. In addition, the evaluation process also considers a fair geographic distribution and cost-effectiveness.

San Francisco's <u>Equity Priority Communities</u> are an important factor in assessing projects and benefits to disadvantaged populations. See the map on the Transportation Authority's website: <u>https://epc-map.sfcta.org/</u>

The Project Scoring Table in Section 7 shows the Prop L program-wide criteria, the program-specific criteria, criteria definitions, and maximum possible points for projects proposed for the Pedestrian and Bicycle Facilities Maintenance 5YPP. For each proposed project, the project sponsors first scored the project and then Transportation Authority staff reviewed and refined the scoring, as needed, to ensure consistent application of the prioritization criteria.

## 7. Project List

This section shows how each project proposed for funding from the Prop L Pedestrian and Bicycle Facilities Maintenance program ranked based on the prioritization methodology described in Section 6; the 5-Year Program of Projects or Project List recommended for Prop L funds; and Anticipated Leveraging. The Project Information Forms with details on scope, schedule, cost, funding are included in Appendix A.

The recommended project list would advance funds over 2.5 times the pay-go amount in the first five years of the 30-year Program. The need for advancing Prop L funds is due to lower pay-go funding available in the first 5 years due to Prop K carry forward obligations, which has the highest cash flow in the first 3 years (FY 2023/24 - FY 2025/26) and the project sponsors' desire to maintain or increase these annual maintenance programs. For example, in FY 2023/24 SFPW proposed programming represents a modest decrease over Prop K levels (e.g., \$612,238 vs. \$518,000), which they offset by increased matching funds (see Anticipated Leveraging later in this section). SFMTA's proposed programming represents an expansion over Prop K levels (\$400,000 in FY 2021/22 and \$200,000 in FY 2022/23 vs. Prop L FY 2023/24 \$459,000). The increased need reflects an increase in the amount of quick-builds, slow streets, and bicycle network improvements citywide that require maintenance, but as noted in the Anticipated Leveraging section below, SFMTA needs to identify matching funds to stretch the sales tax funds further. We will keep closely monitoring delivery and work with sponsors to support increased leveraging over the next five years. This information will inform the next 5YPP update where we will evaluate the need to advance funds in this program.

### Prop L Project Submissions Evaluation - EP 16 Pedestrian and Bicycle Facilities Maintenance

			P	Prop L-Wide Criter	ia		Program Spe	ecific Criteria

#### Prop L Project Submissions Evaluation - EP 16 Pedestrian and Bicycle Facilities Maintenance

Leveraging: Highest possible score is 4. Project demonstrates actual or potential leveraging of Prop L funds, as indicated in the funding plan. Factors to consider include the status of other fund sources and the likely competitiveness for securing non-Prop L funds from discretionary sources.

Sidewalk Repair - Safety: Highest possible score is 4. Priority will be given to locations with reports of trip-and-fall accidents and locations with the highest likelihood of generating claims against the City and County of San Francisco. Points are based on the safety information presented in the Project Information Form.

Sidewalk Repair - Proximity to Key Resources: Highest possible score is 2. Priority will be given to locations in proximity to community assets serving vulnerable populations (senior centers, hospitals), bus stops, and areas with high pedestrian volumes.

Bicycle and Pedestrian Facilities - Safety - High Injury Network: Highest possible score is 3. Project is located on the High Injury Network.

Bicycle and Pedestrian Facilities - Need: Highest possible score is 3. Project replaces asset at end of its useful life or repairs or replaces damaged/worn assets.

### 2023 Prop L 5-Year Project List (FY 2023/24 - FY 2027/28) 16- Pedestrian and Bicycle Facilities Maintenance Programming Year

Pending July 25, 2023 Board Meeting

				Fisca	Year of Alloc	ation		
Agency	Project Name	Phase	2023/24	2024/25	2025/26	2026/27	2027/28	Total

Public Sidewalk and Curb Repair	Construction				\$230,000	\$538,000		\$768,000
Public Sidewalk and Curb Repair	Construction					\$242,000	\$564,000	\$806,000
Cash Flow Re	equested in 2023 5YPP	\$155,000	\$878,000	\$912,000	\$990,000	\$1,107,000	\$564,000	\$4,606,000
Cash Flow in 2023 Draft	Strategic Plan Baseline	\$199,748	\$399,495	\$399,495	\$399,495	\$399,495	\$0	\$1,797,729
Cumulative Remain	ing Cash Flow Capacity	\$44,748	(\$433,757)	(\$946,262)	(\$1,536,766)	(\$2,244,271)	(\$2,808,271)	(\$2,808,271)

### Anticipated Leveraging

The table below compares Prop L Expenditure Plan assumptions with anticipated leveraging for the recommended projects based on the Project Information Forms. At time of allocation, Transportation Authority staff will again compare the actual leveraging to the expected leveraging.

### Table 2. Prop L Leveraging: Expected vs. Proposed for Fiscal Years 2023/24 - 2027/28

PROGRAM	EXPECTED LEVERAGING IN EP (NON-PROP L FUNDS)	ANTICIPATED LEVERAGING (NON-PROP L FUNDS)
Pedestrian and Bicycle Facilities Maintenance (overall project list)	77.5%	26.6%
Public Sidewalk and Curb Repair (SFPW)		34.1%
Bicycle Facilities Maintenance (SFMTA)		0%

Anticipated Prop L leveraging for the proposed 5-year project list is significantly below expected leveraging in the Expenditure Plan (26.6% overall vs. 77.5%). SFPW's Public Sidewalk and Curb Repair sub-program anticipates leveraging ranging from 43% in FY 2023/24 to 23% in FY 2027/28. The first three years have better leveraging as SFPW has proposed an increased TDA Article 3 match using a surplus accumulated from prior years.

SFMTA is not proposing any leveraging for the Bicycle Facilities Maintenance subprogram during this five-year period. We encourage SFMTA to identify sources of matching funds to improve leveraging and to avoid depleting funds too quickly if SFMTA projects a need for a similar level of expenditure in subsequent years. We will re-evaluate anticipated leveraging when we receive allocation requests, particularly for FYs 2024/25 and beyond, and expect to see a non-zero amount.

We will work with SFMTA and SFPW to identify other funding sources for these types of capital maintenance projects, such as the General Fund, Traffic Congestion Mitigation Tax (TNC Tax), and SFMTA operating funds (including the Prop B General Fund set aside).

Transportation Authority staff encourages SFMTA to identify additional fund sources for this program to increase leveraging for bicycle facility maintenance consistent with Expenditure Plan expectations and to avoid depleting funds too quickly. Transportation Authority staff will expect improved leveraging at the time of submittal of the allocation requests, particularly for FYs 2024/25 and beyond. Potential revenue sources include, but are not limited to TNC Tax and SFMTA matching contributions.

Please fill o	Prop L Supplemental Information ut each question listed below (rows 2-8) for all projects.
Project Name	Bike Facility Maintenance
Relative Level of Need or Urgency (time sensitive)	Historically, the SFMTA uses these funds annually or biannually and given the increase in quick build and separated bikeway projects- there is a relative need for these funds. While not urgent, if not granted, bike facilities will become poorly maintained and less effective.
Prior Community Engagement/Level and Diversity of Community Support (may attach Word document):	The SFMTA continually received requests from the public to improve existing bike facilities that are not maintained. While bicycle maintenance does not have its own outreach process, issues regarding maintenance often come up by members of the public in other public meeting settings. These comments are delivered to the Project Manager to allocate resources and make improvements.
Benefits to Disadvantaged Populations and Equity Priority Communities	The SFMTA tracks existing bicycle facilities throughout the city and City staff including planners and engineers and SFMTA shop staff identify locations for improvements. Implementing staff keep a running list of potential improvement locations and requests and prioiritize locations in Equity Priority Communities.
Compatability with Land Use, Design Standards, and Planned Growth	Yes
San Francisco Transportation Plan	Safety and Livability
<u>Alignment (SFTP)</u>	Bike Facility Maintenance improves bicycle lanes throughout San Francisco, resulting in more people feeling comfortable while riding a bicycle or scooter- resulting in less Vehicle Miles Traveled.
that are required to be fille	iteria that are specific to each Expenditure Plan program. The questions ed out for each program will auto-populate once the Prop L program is selected on the Scope & Schedule tab.
16	- Pedestrian and Bicycle Facilities Maintenance
Safety (Bicycle and Pedestrian Facilities - Sub- program)	Bike Facility Maintenance improvements occur throughout San Francisco including on the High Injury Network (HIN). The SFMTA prioritizes proactive maintenance work on the HIN.
Need (Bicycle and Pedestrian Facilities - Sub- program)	This project specifically replaces assets at the end of useful life and repairs and replaces materails specific to bike facilities. Examples include traffic delineators, bikeway markings including green roadway paint and thermoplastic and concrete islands separated bikeways from traffic vehicle lanes.

Proposed leveraging ranges from 43% in FY 23/24 to 23% in FY 27/28. In the first three fiscal years, SFPW is contributing additional unspent TDA Article 3 funds from prior years.

Please fill o	Prop L Supplemental Information ut each question listed below (rows 2-8) for all projects.
Project Name	Public Sidewalk and Curb Repair
Relative Level of Need or Urgency (time sensitive)	Failure to correct sidewalk deficiencies increases risk of trip-and-fall injuries to the public, as well as subsequent City and County of San Francisco's (CCSF) exposure to claims and lawsuits. New locations continuously become priorities as a result of SFPW's ongoing inspections, daily complaints, and reports of trip-and-fall accidents. Locations may need to be addressed on an expedited basis if there is potential significant impact to pedestrian access.
Prior Community Engagement/Level and Diversity of Community Support (may attach Word document):	Public sidewalk and curb repair locations are determined by a combination of both ongoing SFPW inspections and inspections informed by public complaints and reports of trip-and-fall accidents. They are generally prioritized based on project readiness, community support, time sensitive urgency, geographic equity, and proximity to federal, state, school, and housing authority properties, undeveloped lands, roadway structures (i.e. stairways, tunnels, bridges, and retaining walls), as well as locations with special surface sidewalks.
Benefits to Disadvantaged Populations and Equity Priority Communities	The public sidewalk and curb repair program addresses locations Citywide, and geographic equity and proximity to high use areas are two criteria that helps inform prioritization of repairs. A subset of the project will inevitably be located in Equity Priority Communities, but locations are primary driven by public complaints and reports of repair needs. All repairs directly benefit the public through improved pedestrian access and safety.
Compatability with Land Use, Design Standards, and Planned Growth	Yes
San Francisco Transportation Plan Alignment (SFTP)	Equity, Safety and Livability
	Equity - The Sidewalk and Curb Repair Program considers geographic equity when programming locations to ensure improved pedestrian safety and access in all areas of the City. Safety and Livability - Repairing sidewalk and curb damage and defects provides safety and access improvements to pedestrians and disabled persons.
	iteria that are specific to each Expenditure Plan program. The questions ed out for each program will auto-populate once the Prop L program is selected on the Scope & Schedule tab.
	- Pedestrian and Bicycle Facilities Maintenance
Safety (Sidewalk Repair - Sub-program)	Yes
Proximity to Key Resources (Sidewalk Repair - Sub- program)	Yes, project readiness, community support, time sensitive urgency, geographical equity, and proximity to community assets are all prioritization criteria.
