

# PRIORITIZING POTENTIAL PROJECTS

Some money may available in the next few months. What should we ask for?

The ideas listed below have all been mentioned in previous community studies of the Tenderloin. Please place dots next to the projects that you would like to see happen soon!

Dots	Project
	Improve lighting of the sidewalks
	Make intersections safer with more curb bulbs and ramps
	Re-time traffic signals to favor transit and slow cars
	Install red-light running cameras at some stop lights
	More cleaning of sidewalks and bus stops
	Expand availability of Lifeline Fast Pass for low-income individuals
	Pave the Geary / O'Farrell bus-only lane with color to keep cars out
	Install NextBus Muni real-time arrival information at stops to tell how many minutes until the next bus arrives
	Other Ideas? Write them here.
