

Priority Development Areas in San Francisco

Priority Development Areas (PDAs) are locally-identified, infill development opportunity areas within existing communities that are primed for a pedestrian- and bicycle-friendly environment served by transit. At least 70% of San Francisco's OBAG funds must be given to projects in PDAs in order to support location of new jobs and housing near transit. A project lying outside a PDA but connecting to or providing access to a PDA may count towards the minimum. For more detail on PDAs, visit the Bay Area Vision website: www.bayareavision.org/initiatives/prioritydevelopmentareas.html.
