The Potrero Hill Neighborhood Transportation Plan, led by the San Francisco County Transportation Authority in partnership with BRIDGE Housing/Rebuild Potrero, and the residents of the Potrero Terrace and Annex, has identified a need for pedestrian safety and transit amenity enhancements throughout the neighborhood. Landscape architects have created initial designs for intersection improvements that will reduce the speed of cars, create a comfortable space for children on walking school bus routes and other pedestrians, provide weather protection for transit patrons, and beautify public spaces.

FIGURE 1 (below) shows the locations for intersection improvements as well as the two elementary schools that terminate the walking school buses.

One of the intersections identified is 25th/Texas/Dakota. Figures 2, 3, and 4 (see other side) show existing conditions and a conceptual design of what an improvement might look like. We would like to get your input on this design and understand any concerns you might have.

Please contact Thu Banh, Rebuild Potrero Program Director, at 415-321-3535 or tbanh@bridgehousing.com, to discuss further. For more information about the Potrero Hill Neighborhood Transportation Plan, visit www.sfcta.org/potrero or contact Michael Schwartz (415-522-4823 or Michael.Schwartz@sfcta.org).

We are making intersections safer and more comfortable along the Walking School Bus Routes!
PROJECT BACKGROUND
WHAT... IS THE PEDESTRIAN SAFETY & WALKING SCHOOL BUS PROJECT?

Temporary roadway and public space improvements to enhance pedestrian safety and provide new community gathering areas.
WHAT... IS THE PEDESTRIAN SAFETY & WALKING SCHOOL BUS PROJECT?
Temporary roadway and public space improvements to enhance pedestrian safety and provide new community gathering areas.

WHY... IS THE PROJECT BEING IMPLEMENTED?
To respond to community desires for immediate pedestrian safety improvements during Rebuild Potrero construction.
WHAT...IS THE PEDESTRIAN SAFETY & WALKING SCHOOL BUS PROJECT?
Temporary roadway and public space improvements to enhance pedestrian safety and provide new community gathering areas.

WHY...IS THE PROJECT BEING IMPLEMENTED?
To respond to community desires for immediate pedestrian safety improvements during Rebuild Potrero construction.

WHO...IS INVOLVED IN THE PROJECT?
YOU!
