SUMMARY In February 2019, the Board allocated \$160,000 in Prop K funds to the San Francisco Municipal Transportation Agency (SFMTA) for administration of the San Francisco Safe Routes to Schools (SRTS) non- infrastructure program, which very recently transitioned from the Department of Public Health (DPH) to the SFMTA. This funding was conditioned upon the SFMTA providing an update to and seeking feedback from the Board and Citizens Advisory Committee on the SRTS program, including how the program is being designed to reach all San Francisco Unified School District (SFUSD) schools, advance mode shift, and implement the school area engineering program (see below and Attachment 1 for details). SFMTA will attend the July 23 Board meeting to provide the required update and to answer any questions the Board		 Plan/Study Capital Project Oversight/Delivery Budget/Finance Contract/Agreement Other: 				

DISCUSSION

may have.

Background.

Over the last 18 months, the SFMTA has been working with its partners to refocus San Francisco's SRTS program priorities in the following ways: expanding the program to all 103 San Francisco public schools; strengthening communication and coordination among partners; and, by 2030, achieving new programmatic goals for reducing single family vehicle trips from 48% to 30% and reducing school area collisions by 50%.

In early 2019, the Board allocated \$160,000 in Prop K funds to the SFMTA to help fund the program, with the following condition:

• By June 2019, SFMTA staff will provide an update to and seek feedback from the Transportation Authority Board and Citizens Advisory Committee on the San Francisco Safe Routes to School program, including how the program is being designed to reach all SFUSD schools, advance mode-shift, and implement the school area engineering program.

SFMTA was in the process of hiring a new coordinator in June and requested a one-month extension to the deliverable, which was acceptable to Chair Peskin. This position is now filled.

For the 2019-20 and 2020-21 school years, San Francisco's SRTS non-infrastructure program will be funded with \$2,813,264 in federal One Bay Area Grant (OBAG) funds approved by the Board in January 2018 and Prop K.

Reaching All SFUSD Schools.

For the past decade, the SRTS non-infrastructure program targeted approximately 30 schools to provide in-depth support and education (27 schools were included in the 2018-19 school year). Under the new framework, the SFMTA will provide outreach and education to promote mode shift and safety at all 103 non-charter San Francisco public schools, and educational events will be open to all members of the school community rather than to a specific subset of schools. Over the past year, SFMTA staff have worked with SFUSD, DPH and the Safe Routes SF partners to identify strategies for making this three-fold increase in outreach. The resulting workplan identifies new outreach efforts and a tiered approach to help ensure that all school communities are engaged and that the program's core equity commitments are met, including:

- <u>In-person, on the ground outreach</u>. These efforts will involve staff from the SF Safe Routes to Schools partnership visiting schools, engaging the community, and providing program visibility. Examples of this work include:
 - SRTS displays at 103 schools set up at the beginning of the 2019-20 school year.
 - Offering on-site tabling at 103 schools within the fall semester to share information about upcoming events and ways to get involved, and to sign parents and teachers up for SRTS updates.
- <u>Opt-in activities at all schools</u>. With the expansion to all schools, some offerings will be available for schools to provide. Safe Routes staff will support schools in setting up the programs and in cases where schools may have fewer resources, provide the programs directly to ensure that school communities are not limited by parent or teacher availability.
- <u>Multi-school/community events</u>. Safe Routes staff will host trainings that are open to the school community on subjects ranging from bicycle learn-to-ride programs for youth, to how to set up a volunteer crossing guard program, and other efforts to support safe access to schools.

SFMTA will produce program materials in multiple languages to meet the school community's needs.

Reduce Driving to School.

The re-envisioned non-infrastructure program will be more focused on safety and mode shift to improve school area safety by reducing conflicts in the school drop off zones, and to support SFUSD sustainability goals of reducing driving trips to school.

In the beginning of the school year, the SFMTA will focus on expanding Walk & Roll to School Day, rolling out a pilot Transit to School Day, and outreach activities, all of which will be evaluated for

effectiveness. General program outreach and education activities will focus on providing tips and information on the "four fun ways" to get to school - walking, biking, transit, and carpooling. The SRTS program team will also identify a small number of schools that have the potential to help achieve the mode shift goal, and then pilot tactics that can be rolled out to larger numbers of schools and eventually the whole district, if they are shown to be effective and replicable.

Coordination with the Schools Engineering Program.

The SFMTA's Engineering and Livable Streets subdivisions will continue to implement Prop K funded capital projects that improve safety in the vicinity of public and private schools throughout the city. SFMTA will prioritize safety projects based on collision history, school size, and other factors.

With the new outreach program's expanded reach to 103 schools, the SFMTA Schools Coordinator will be able to collect input from a more schools, connecting them with the SFMTA's Engineering and Livable Streets staff and ensuring that school communities receive updates on how their requests are being addressed. This integrated communications approach is on top of some specific actions that are already underway, including baseline traffic engineering assessment at 103 schools, approval of speed humps at 19 school locations, selection of five schools for Walk Audits in the fall semester, and continued improvements to the Crossing Guard program including training for how to set up a volunteer crossing guard program.

Next Steps.

The OBAG funds are conditioned upon the SFMTA providing annual progress reports on how the SRTS non-infrastructure project is doing with respect to achieving the established goals for mode shift and safety. SFMTA will provide its first progress report by July 2020, which we will share with Board members.

SF Safe Routes to Schools Program Update

Miriam Sorell TDM Program Manager

SRTS Program Funding

San Francisco County Transportation Authority

- Prop K: Local match for OBAG project and various schools engineering projects
- OBAG: Funding for non-infrastructure program for 2019-20 and 2020-21 School years (\$2.813 million)
- SFMTA: Ongoing programs include MTAP, Crossing Guards, Traffic Operations and more

Transition to SFMTA

18 months of planning

8 key partners

Over 50 meetings (& counting!)

Refocused Program Priorities

- Expand number of schools reached
- New programmatic goals
 - By 2030, reduce single family vehicle trips from the current 48% to 30%
 - By 2030, reduce school area collisions by 50%
- Stronger coordination and communication

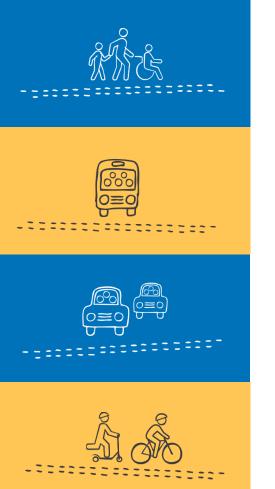

Reaching All Schools

- Safety programs (such as crossing guard and engineering) available to all 240+ public and private schools, prioritized by collision history and school size
- Mode shift outreach expanded from 27 schools to all 103 non-charter public schools including:
 - SRTS Displays
 - On-site tabling
 - Trainings open for all
 - Opt-in model
 - Multilingual materials

Reduce Driving to School

- Scale up efforts to promote "Four Fun Ways" – Walking, Carpool, Transit, Biking
 - Lessons from Behavior Change science
 - Ensure how-to information easily accessible
- Kick-off School year with greater emphasis on Walk & Roll to School Day
- First Transit to School Day
- Smaller pilots at individual schools place emphasis on evaluating impacts

Reduce Collisions

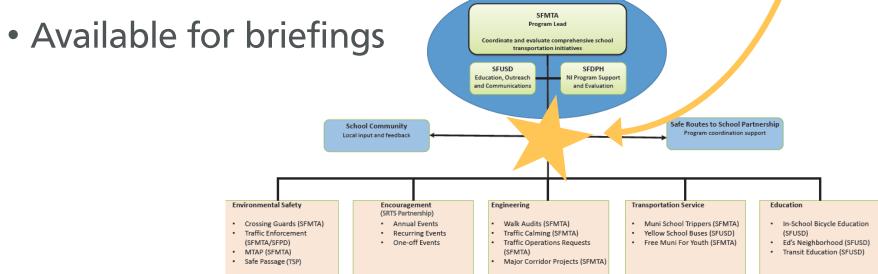

- Baseline traffic engineering assessment at 103 schools
- 19 school locations approved for speed humps
- Will finalize 5 schools for Walk Audits in fall semester
- Continue to improve Crossing Guard program

Coordination & Communication

Welcome Ana Vasudeo – ana.vasudeo@sfmta.com

- Dedicated SRTS Coordinator housed at SFMTA
- Proactive communication with stakeholders
