

Downtown Congestion Pricing Study

Study Update and Contract Amendment

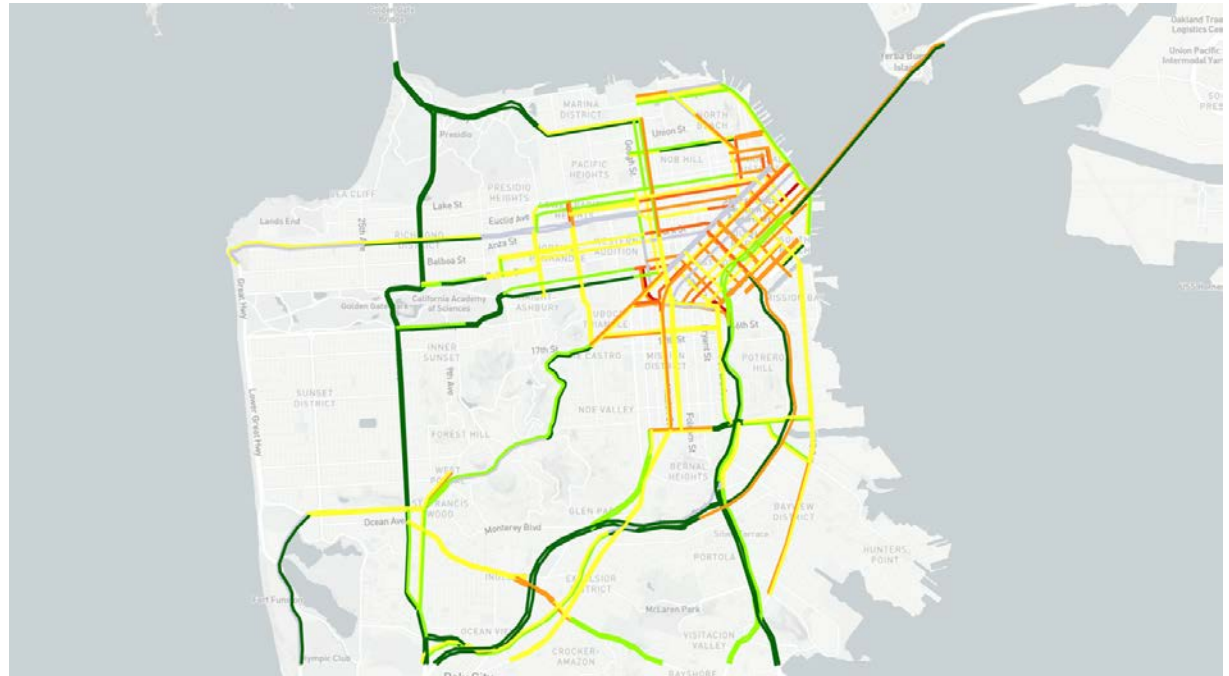

San Francisco
County Transportation
Authority

Agenda Item 10

May 27, 2020

SF traffic in April 2020

Coronavirus has dramatically changed our daily lives

**San Francisco
County Transportation
Authority**

SF traffic in 2019

Congestion in San Francisco had reached record levels

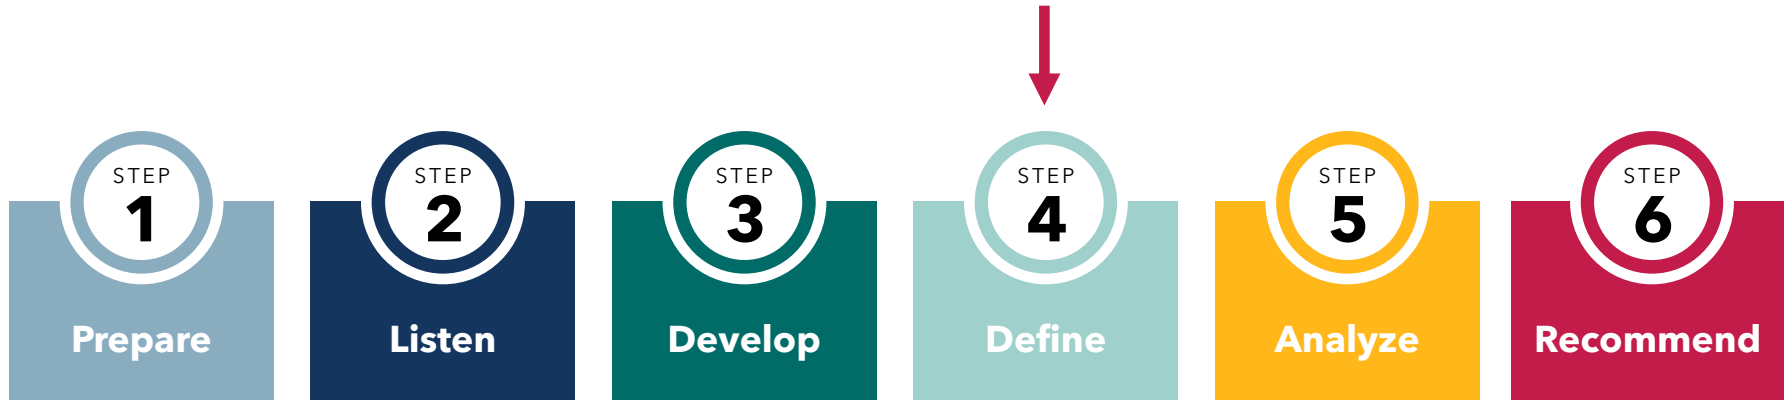

**San Francisco
County Transportation
Authority**

Study process

San Francisco
County Transportation
Authority

Outreach to date

Policy Advisory Committee

Technical Advisory Committee

Listening sessions with key
stakeholders

Congestion survey

Started co-creation workshops

San Francisco
County Transportation
Authority

Co-creation Workshops in Tenderloin, Excelsior, Bayview

Goals of congestion pricing

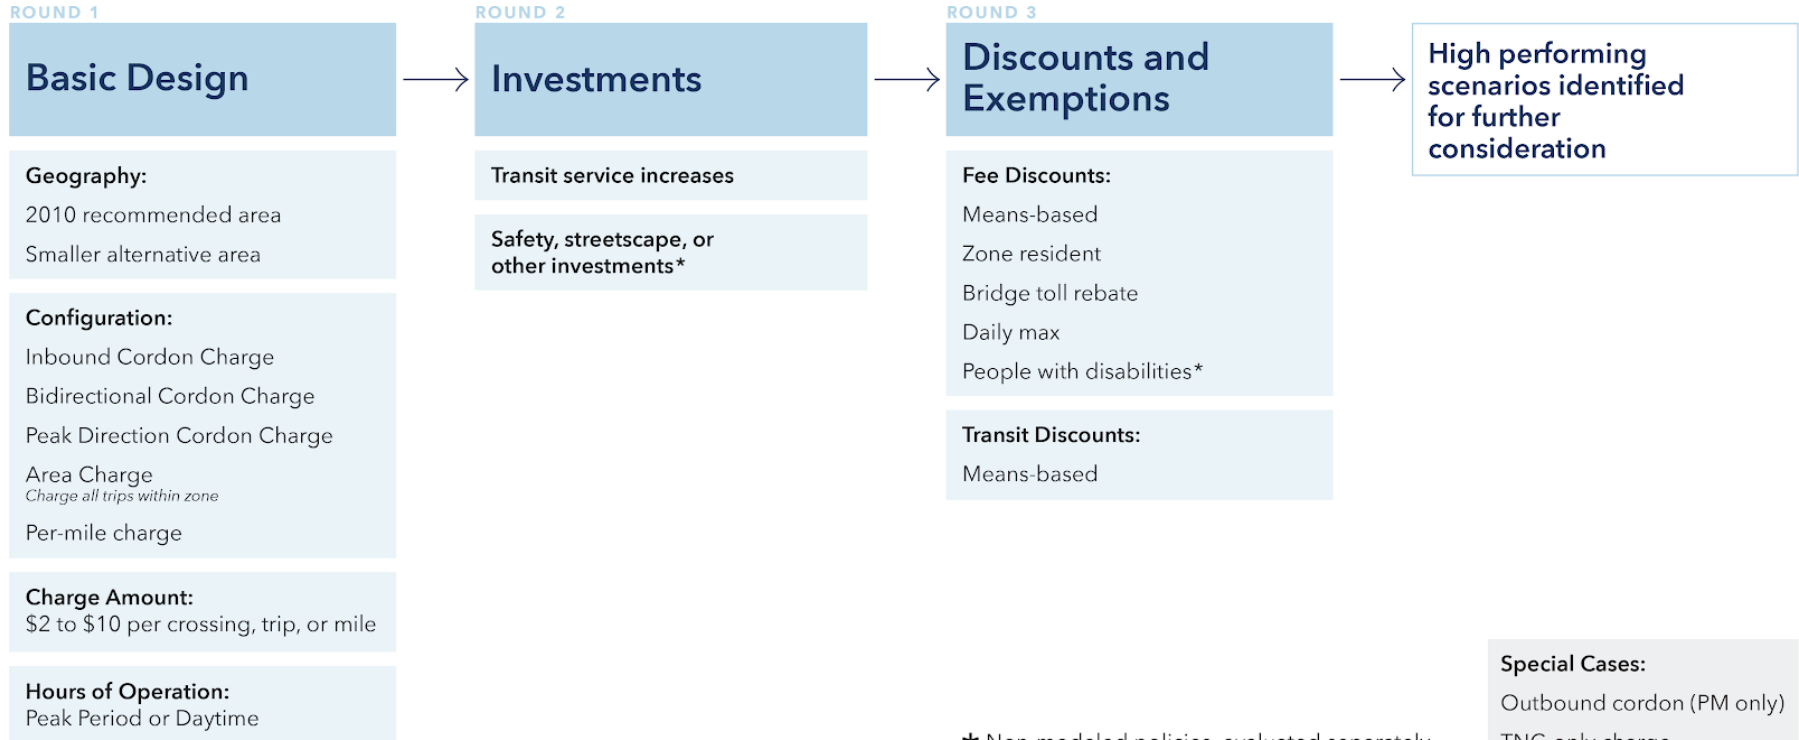

By reducing peak car trips
downtown by at least 15%,
we could...

- Get traffic moving
- Increase safety
- Clean the air
- Advance equity

San Francisco
County Transportation
Authority

Initial Scenario Modeling

* Non-modeled policies, evaluated separately

Study shifts due to COVID

Pause and adjust outreach

- Remote workshops with CoC partners
- Virtual activities and presentations

Flexible timeline based on stakeholder availability

Focus on how an equitable program could be part of recovery

San Francisco
County Transportation
Authority

Contract amendment

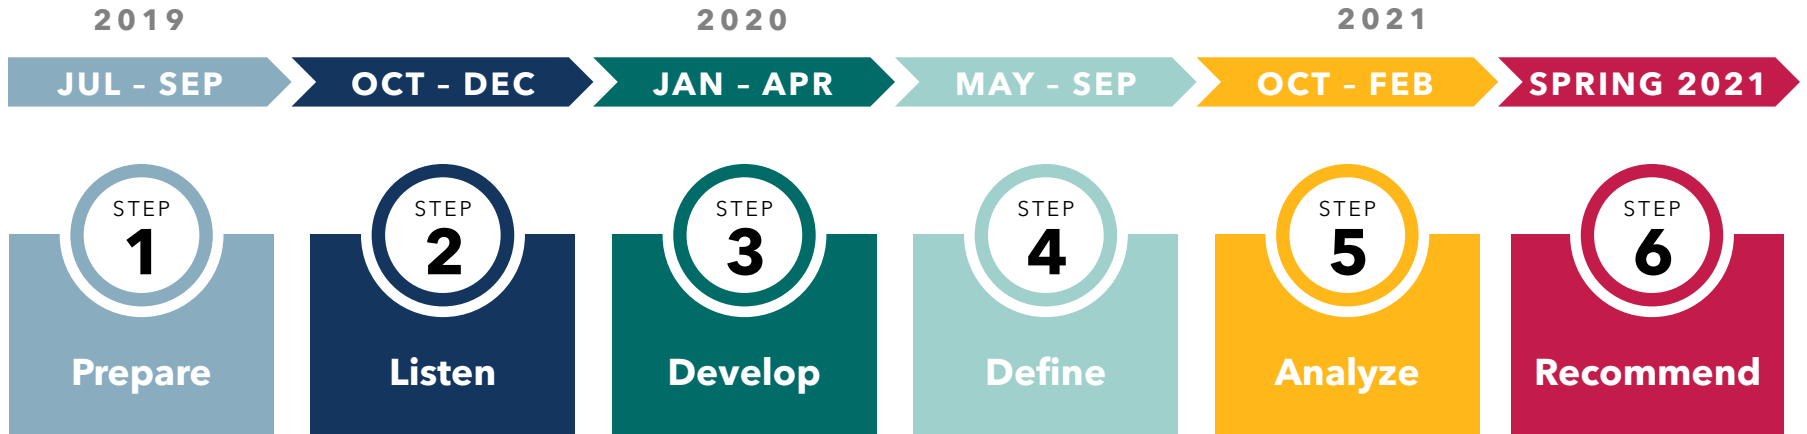

Study scope increased based on stakeholder input:

- More PAC meetings, co-creation, regional outreach
- Translations for more multilingual outreach
- Extend timeline
