## BACKGROUND

The Transportation Authority has an 11-member CAC and members serve two-year terms. Per the Transportation Authority's Administrative Code, the Board appoints individuals to fill open CAC seats. Neither staff nor the CAC make recommendations on CAC appointments, but we maintain a database of applications for CAC membership. Attachment 1 is a tabular summary of the current CAC composition, showing ethnicity, gender, neighborhood of residence, and affiliation. Attachment 2 provides similar information on current applicants, sorted by last name.

## PROCEDURES

The selection of each member is approved at-large by the Board; however, traditionally the Board has had a practice of ensuring that there is one resident of each supervisorial district on the CAC. Per Section 5.2(a) of the Administrative Code, the CAC:

“...shall include representatives from various segments of the community, such as public policy organizations, labor, business, senior citizens, the disabled, environmentalists, and the neighborhoods; and reflect broad transportation interests.”

An applicant must be a San Francisco resident to be considered eligible for appointment. Applicants are asked to provide residential location and areas of interest but provide ethnicity and gender information on a voluntary basis. CAC applications are distributed and accepted on a continuous basis. CAC applications were solicited through the Transportation Authority’s website, Commissioners’ offices, and email blasts to community-based organizations, advocacy groups, business organizations, as well as at public meetings attended by Transportation Authority staff or hosted by the Transportation Authority. Applications can be submitted through the Transportation Authority’s website at [www.sfcta.org/cac](http://www.sfcta.org/cac).

All applicants have been advised that they need to appear in person before the Board in order to be appointed, unless they have previously appeared. If a candidate is unable to appear before the Board on the first appearance, they may appear at the following Board meeting in order to be eligible for appointment. An asterisk following the candidate’s name in Attachment 2 indicates that the applicant has not previously appeared before the Board.

## **FINANCIAL IMPACT**

The requested action would not have an impact on the proposed Fiscal Year 2020/21 budget.

## **CAC POSITION**

None. The CAC does not make recommendations on the appointment of CAC members.

### Statement of qualifications:

I am a longtime advocate for active transportation. Transportation justice is a key to making public spaces and economic opportunities in the San Francisco Bay Area accessible to people of all ages, economic strata and abilities. I offer a depth of personal and professional advocacy experience and a lifelong passion for community engagement and education. I would look forward to applying my skills and vision to serve the County Transportation Agency Citizens Advisory Committee.

My resume below details my my roles with public and non-profit organizations and select community groups. I draw attention to my accomplishments as a San Francisco Bicycle Coalition program manager, where I created outposts for youth and families engagement, with focus on people of color and geographically and economically marginalized communities.

Thank you!  
Nancy Buffum

### Statement of objectives:

Public transportation is sewn into the blood of San Francisco's working class. Whether you are a young adult in college or a senior reaching retirement, hundreds of thousands of people regularly rely on our City's transit networks to get to work, home, and to commercial centers every day. As a resident of the Sunset, I have seen how unreliable transit has become over the past few years. Efforts to upgrade Twin Peaks left thousands of residents waiting hours for shuttles to arrive in place of the L-metro line. Ripple effects from the poor planning of the Twin Peaks Improvement Project cut service for routes such as the 29, 7, and 28 which could be felt throughout our district. Senior citizens were left standing upwards of 40 minutes at bus stops because SFMTA failed to hire or train enough drivers to meet the needs of our citizens. I want to change these policies that have hurt our community and focus on implementing changes to speed up transit service and to make it more accessible for seniors and communities of color. I will advocate for more express routes in D4 and for bus-only lanes to help reduce crowding and address our growing Muni ridership. I will advocate for more ADA accessible Muni Metro stops — no person in a wheelchair should ever have to travel 5-6 stops away from their home in order to get on a Muni train — that is unacceptable.

San Francisco should keep all of these residents in mind when planning for upgrades to our transportation systems. As an Asian American, I am better equipped to understand the needs of our predominantly Asian American community in D4 and I will work continuously to ensure that we have better language accessibility for our monolingual populations and more opportunities for people of color to get hired with MTA. As a member of the SFCTA's CAC, I will be a fierce and vocal advocate for my neighborhood and do what I can to ensure that all of our district's constituents can have their voices uplifted and represented.

#### Statement of objectives:

I would like all San Francisco transit organizations to consider the needs of disabled people and how they have a right to easily accessible public transportation as well. In particular I would like SF Muni to fix and maintain elevators in all metro stations. I would also like to work with transit agencies to have timed transfers to between agencies to make peoples commute less time consuming and address the issues some folks may not like to use public transportation. Additionally I would like to work with agencies to address the growing concern for public safety on BART given the violent attacks people have suffered from particularly within the last year. I would also like to work on how to remediate the issue of homeless people on public transportation because they have no where else to go.

#### Statement of qualifications:

My wife and I have lived in San Francisco for almost 6 years, without a car. We rely on Muni (and other public transit), bikes, and car-share services (like Zipcar) for our transportation.

We have two young children, so I am familiar with bringing children and strollers on transit, walking with children, and biking with children. (According to the American Community Survey, only about 3.6% of 4+ person households in our zip code have no car) We love not driving - it makes us more connected to our district, its sub-neighborhoods, and local spots.

Before we moved to San Francisco, we lived in Palo Alto and commuted to San Francisco, and I was involved with Caltrain advocacy. Today, I am involved with the San Francisco Bicycle Coalition and bicycle advocacy, and also support Walk SF.

I believe in the power of the SFCTA to make San Francisco a better city. Better transportation can lower pollution, make neighborhoods more livable, and save lives.

#### Statement of objectives:

\* Focus on Muni reliability and predictability.

\*\* For example, a 20 minute headway can be acceptable for some routes if you can predict when the vehicle will arrive, and there aren't missed vehicles, but not being able to rely on the bus to arrive can push people to drive or take a Lyft or Uber.

\*\* N switchbacks are often disruptive. I would like to ensure they remain rare, limited to when there's a train only a couple minutes behind.

\*\* I would love to help the N Rapid program move forward.

\*\* 29 overcrowding affects many Sunset residents. I would like to ensure that 29 service strengthens.

\*\* Better signal priority for Muni vehicles will help provide more service, making Muni more competitive without high additional costs.

\* Safety of walking and bicycling.

\*\* I believe neighborhoods where people feel safe bicycling and walking are neighborhoods where people feel happier in general.

\* In D4, this may mean more intersection daylighting, traffic calming, and potentially traffic diverters.

**Statement of qualifications:**

I am a commuter from the avenues to SOMA, five days a week with two children in SF public schools. I commute by MUNI or bicycle and absolutely rely on good transit policies.

**Statement of objectives:**

My goal is to make sure the needs of west side transit and bicycle commuters are considered in San Francisco transportation policy. For too long commutes from the west side have been slow and unreliable. Projects like the Transit Effectiveness Policy have been watered down in favor of a few vocal people who favor a car centric transit policy.
