

BD031020 RESOLUTION NO. 20-XX

RESOLUTION ALLOCATING \$1,819,800 IN PROP K SALES TAX FUNDS, WITH CONDITIONS, FOR TWO PROJECTS

WHEREAS, The Transportation Authority received two requests for a total of \$1,819,800 in Prop K local transportation sales tax funds, as summarized in Attachments 1 and 2 and detailed in the attached allocation request forms; and

WHEREAS, The requests seek funds from the Other Upgrades to Major Arterials and Pedestrian Circulation/Safety categories of the Prop K Expenditure Plan; and

WHEREAS, As required by the voter-approved Expenditure Plan, the Transportation Authority Board has adopted a Prop K 5-Year Prioritization Program (5YPP) for each of the aforementioned Expenditure Plan programmatic categories; and

WHEREAS, Both of the requests are consistent with the relevant 5YPPs for their respective categories; and

WHEREAS, After reviewing the requests, Transportation Authority staff recommended allocating a total of \$1,819,800 in Prop K funds, with conditions, for two projects, as summarized in Attachment 3 and detailed in the attached allocation request forms, which include staff recommendations for Prop K allocation amounts, required deliverables, timely use of funds requirements, special conditions, and Fiscal Year Cash Flow Distribution Schedules; and

WHEREAS, There are sufficient funds in the Capital Expenditures line item of the Transportation Authority's approved Fiscal Year 2019/20 budget to cover the proposed actions; and

WHEREAS, At its February 26, 2020 meeting the CAC approved a motion of support for the Mission Street Excelsior Safety Project, and the CAC was briefed, but did not act on the District 3 Pedestrian Safety Improvements [NTIP Capital] project, since the allocation request was still under development at that time; now, therefore, be it

RESOLVED, That the Transportation Authority hereby allocates \$1,819,800 in Prop K funds, with conditions, as summarized in Attachment 3 and detailed in the attached allocation request forms; and be it further

RESOLVED, That the Transportation Authority finds the allocation of these funds to be in conformance with the priorities, policies, funding levels, and prioritization methodologies established in the Prop K Expenditure Plan, the Prop K Strategic Plan and the relevant 5YPPs; and be it further

BD031020 RESOLUTION NO. 20-XX

RESOLVED, That the Transportation Authority hereby authorizes the actual expenditure (cash reimbursement) of funds for these activities to take place subject to the Fiscal Year Cash Flow Distribution Schedules detailed in the attached allocation request forms; and be it further

RESOLVED, That the Capital Expenditures line item for subsequent fiscal year annual budgets shall reflect the maximum reimbursement schedule amounts adopted and the Transportation Authority does not guarantee reimbursement levels higher than those adopted; and be it further

RESOLVED, That as a condition of this authorization for expenditure, the Executive Director shall impose such terms and conditions as are necessary for the project sponsor to comply with applicable law and adopted Transportation Authority policies and execute Standard Grant Agreements to that effect; and be it further

RESOLVED, That as a condition of this authorization for expenditure, the project sponsor shall provide the Transportation Authority with any other information it may request regarding the use of the funds hereby authorized; and be it further

RESOLVED, That the Capital Improvement Program of the Congestion Management Program, the Prop K Strategic Plan and the relevant 5YPPs are hereby amended, as appropriate.

Attachment 1: Summary of Requests Received

						Le	veraging		
Source	EP Line No./ Category ¹	Project Sponsor ²	Project Name	Current Prop K Request	Total Cost for Requested Phase(s)	Expected Leveraging by EP Line ³	Actual Leveraging by Project Phase(s) ⁴	Phase(s) Requested	District(s)
Prop K	31, 38, 40	SFMTA	District 3 Pedestrian Safety Improvements [NTIP Capital]	\$ 819,800	\$ 819,800	NA	0%	Design, Construction	3
Prop K	40	SFMTA	Mission Street Excelsior Safety Project	\$ 1,000,000	\$ 3,000,000	25%	67%	Design	11
-			TOTAL	\$ 1,819,800	\$ 3,819,800	20%	52%		

Footnotes

¹ "EP Line No./Category" is either the Prop K Expenditure Plan line number referenced in the 2019 Prop K Strategic Plan or the Prop AA Expenditure Plan category referenced in the 2017 Prop AA Strategic Plan, including: Street Repair and Reconstruction (Street), Pedestrian Safety (Ped), and Transit Reliability and Mobility Improvements (Transit).

² Acronym: SFMTA (San Francisco Municipal Transportation Agency)

³ "Expected Leveraging By EP Line" is calculated by dividing the total non-Prop K funds expected to be available for a given Prop K Expenditure Plan line item (e.g. Pedestrian Circulation and Safety) by the total expected funding for that Prop K Expenditure Plan line item over the 30-year Expenditure Plan period. For example, expected leveraging of 90% indicates that on average non-Prop K funds should cover 90% of the total costs for all projects in that category, and Prop K should cover only 10%.

⁴ "Actual Leveraging by Project Phase" is calculated by dividing the total non-Prop K or non-Prop AA funds in the funding plan by the total cost for the requested phase or phases. If the percentage in the "Actual Leveraging" column is lower than in the "Expected Leveraging" column, the request (indicated by yellow highlighting) is leveraging fewer non-Prop K dollars than assumed in the Expenditure Plan. A project that is well leveraged overall may have lower-than-expected leveraging for an individual or partial phase.

Attachment 2: Brief Project Descriptions ¹

EP Line No./ Category	Project Sponsor	Project Name	Prop K Funds Requested	Project Description
31, 38, 40	SFMTA	District 3 Pedestrian Safety Improvements [NTIP Capital]	\$819,800	Pedestrian safety improvements at two intersections, as evaluated and recommended through District 3 Pedestrian Safety Improvements [NTIP Planning] project. The specific improvements include adding a pedestrian scramble at the intersection of Kearny Street and Jackson Street and opening a new crosswalk at the intersection of Columbus Avenue, Green Street, and Stockton Street connecting the northeast and southwest corners. Design engineering is expected to be complete in December 2020. Construction schedule is dependent on whether these improvements can be implemented via a change order to SF Public Works' existing John Yehall Chin School Safe Routes to School construction contract. If a change order to this contract is viable, the SFMTA anticipates that construction could be completed by summer 2021. If a change order is not viable, the SFMTA will seek to implement these improvements through a future signal upgrade project anticipated to be advertised in 2021 and constructed in Fiscal Year 2022/23.
40	SFMTA	Mission Street Excelsior Safety Project	\$1,000,000	Pedestrian safety, transit reliability, and loading improvements on Mission Street between Geneva Avenue and Trumbull Street and on Geneva Avenue between Mission and Prague streets. The project's goals are to: increase safety for all users of the corridor, especially people who walk, bike, and take transit; improve transit reliability on the most used bus routes in the neighborhood (8 Bayshore, 14 Mission, 14R Mission Rapid, 49 Van Ness/Mission); and, enhance the business district through loading improvements. Scope includes bulb-outs, traffic signals, new pedestrian crossings, transit bulbs, transit stop improvements and changes, and loading and color curb management. Project will be implemented with a Public Works paving project. SFMTA anticipates completing design by Summer 2021.
		TOTAL	\$1,819,800

REQUEST

Brief Project Description

Pedestrian safety improvements at two intersections, as evaluated and recommended through the District 3 Pedestrian Safety Improvements [NTIP Planning] project. The specific improvements include adding a pedestrian scramble at the intersection of Kearny Street and Jackson Street and opening a new crosswalk at the intersection of Columbus Avenue, Green Street, and Stockton Street connecting the northeast and southwest corners.

Detailed Scope, Project Benefits and Community Outreach

The recommended improvements include a pedestrian scramble at Kearny/Jackson and opening a new crosswalk connecting the northeast and southwest corners at Columbus/Green/Stockton. These improvements were evaluated and recommended through the District 3 NTIP planning effort and have undergone preliminary engineering.

The scope of construction for opening a new crosswalk at Columbus/Green/Stockton includes:

- 2 new curb ramps.
- 2 new pedestrian countdown signals.
- Replacing damaged conduit across north leg of intersection and adding new conduit and wiring connecting the northeast corner to the median.
- Replacing damaged combination streetlight and traffic signal pole on median.
- Expanding/realigning median.

The scope of construction for adding a pedestrian scramble at Kearny/Jackson includes:

- 4 new pedestrian countdown signals.
- 1 new traffic signal pole and signal heads at northeast corner.
- 1 new combination streetlight and traffic signal pole, mast arm and signal heads at northeast corner.
- New conduits and wiring across the north, south and east legs of the intersection.

Opening a new crosswalk at Columbus/Green/Stockton would provide dramatic time and distance savings for pedestrians traveling between the northeast and southwest corners, thereby increasing pedestrian convenience and reducing pedestrian violations that put pedestrians at risk for collisions. This intersection is on San Francisco's Vision Zero High Injury Network, with nine injury collisions reported in the past five years, eight of which involved pedestrians. Under existing conditions, depending on the direction of travel and when they arrive during the traffic signal cycle, it can take an able-bodied person nearly three minutes to walk between the northeast and southwest corners if they obey pedestrian signals. Many pedestrians are unwilling to tolerate these detours and delays and are observed crossing against pedestrian signal indications or crossing between corners without marked crosswalks. These pedestrian challenges have been called out by two neighborhood organizations, the Telegraph Hill Dwellers and North Beach Neighbors, who have requested the City implement a pedestrian scramble and expand the small median island to create a pedestrian refuge. The SFMTA has investigated a pedestrian scramble at this intersection but determined that it would substantially increase delay for pedestrians, transit and other vehicles.

Implementing a pedestrian scramble at Kearny/Jackson would improve pedestrian safety at the northeast corner of

Portsmouth Square and complement pedestrian scrambles implemented or planned at neighboring intersections (a scramble exists at Kearny/Clay and is planned to be implemented at Kearny/Washington in spring 2020). The intersections of Kearny/Jackson and Kearny/Washington are both on San Francisco's Vision Zero High Injury Network, with eight injury collisions reported in the past five years, four of which involved pedestrians. These two intersections each have more than 1,000 pedestrian crossings during peak hours. Through the D3 NTIP planning effort, the SFMTA determined that a scramble could be implemented at Kearny/Washington with minimal traffic signal upgrades and is planning to implement the improvements in spring 2020. However, a scramble at Kearny/Jackson requires extensive signal upgrade work.

The Transportation Authority's NTIP is intended to strengthen project pipelines and advance the delivery of community supported neighborhood-scale projects, especially in Communities of Concern and other neighborhoods with high unmet needs.

Project Location

Intersections of Columbus/Green/Stockton and Kearny/Jackson

Project Phase(s)

Design Engineering (PS&E), Construction (CON)

Justification for Multi-phase Request

Multi-phase allocation is recommended to support the District Supervisor's desire for the SFMTA to implement this pedestrian safety project as soon as possible and to facilitate potential inclusion of the work as a change order to SF Public Works' existing John Yehall Chin Safe Routes to School construction contract.

SCHEDULE DETAILS

Assuming funds are available by June 2020, the design engineering phase is expected to be completed by December 2020. The SFMTA has initiated discussions with Public Works to implement these improvements via a change order to an existing Public Works project (2483J John Yehall Chin School Safe Routes to School) that includes pedestrian bulb outs and associated traffic signal upgrades at several intersections including at the northwest corner of Kearny/Jackson. The construction contract for this project was recently awarded, and construction is scheduled to begin in summer 2020. If a change order to this project is viable, the SFMTA anticipates that construction could be completed by summer 2021. If a change order to this project is not viable, the SFMTA will seek to implement these improvements through a future signal upgrade project anticipated to be advertised in 2021 and constructed in 2022-23.

Deliverables

- 1. Quarterly progress reports (QPRs), which will be shared with the District 3 Supervisor, shall contain a percent complete by location, percent complete of the overall project, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
- 2. With the first quarterly progress report due July 15, 2020, provide 2-3 photos of typical before conditions.
- 3. Upon project completion, provide evidence of completion of 100% design (e.g. copy of certifications page) and an updated scope, schedule, budget, and funding plan for construction.

Special Conditions

- 1. The recommended allocation is contingent upon amendment of the Prop K Pedestrian Circulation and Safety 5YPP. See attached 5YPP amendment for details.
- 2. The Transportation Authority will only reimburse SFMTA up to the approved overhead multiplier rate for the fiscal year that SFMTA incurs charges.

REQUEST

Brief Project Description

Pedestrian safety, transit reliability, and loading improvements on Mission Street between Geneva Avenue and Trumbull Street and on Geneva Avenue between Mission and Prague Streets. Project will 1) provide safer, more comfortable walking and biking environments on Mission and Geneva; 2) provide safer, more predictable driving environment on Mission and Geneva; and 3) improve transit reliability on Mission and Geneva. Scope includes bulb-outs, traffic signals, new pedestrian crossings, transit bulbs, transit stop improvements and changes, and loading and color curb management.

Detailed Scope, Project Benefits and Community Outreach

Mission Street and Geneva Avenue are part of San Francisco's Vision Zero High Injury Network – the 13% of city streets where 75% of the severe and fatal collisions occur. Over the last seven years, five community members were killed and at least 323 people were injured in collisions in the project area. Additionally, on some blocks of the project corridor, the eight Muni lines that serve the area have average speeds below 5 mph. The project will seek to address these issues, while making loading improvements to support the over 300 existing storefronts along Mission and Geneva streets.

The project's goals are to:

- * Increase safety for all users of the corridor, especially people who walk, bike, and take transit
- * Improve transit reliability on the most used bus routes in the neighborhood
- * Enhance the business district through loading improvements

From late 2017 to 2018, the project team conducted outreach to better understand the issues and problems that the community faces when using Mission Street and Geneva Avenue, including one-on-one meetings, door-to-door loading surveys, participation in four Excelsior and Outer Mission Neighborhood Strategy meetings, and neighborhood walk-throughs. In late 2018 and early 2019, SFMTA hosted a series of workshops with project stakeholders to refine the conceptual plan to better reflect the community's needs. In April 2019, the project team hosted two open houses to present the refined designs to the wider community and collected feedback that was used to create the final proposal. The project proposal was revised and approved by the SFMTA Board of Directors in September 2019.

Staff are currently designing 'quick-build' improvements – including 'painted safety zones' to improve visibility at corners, curb management enhancements, and transit stop changes – expected to begin construction in spring 2020.

The detailed design phase of the project funded with this allocation request will include design of civil improvements (bulbouts and sidewalk extensions) and new/modified traffic signals.

Project scope:

- * 6 new traffic signals
- * 4 signal modifications and timing changes along corridor
- * Up to 35 corner bulb-outs, 4 transit bulbs, and 1 transit island
- * Visibility daylighting along corridor
- * 3 raised crosswalks

- * Adjusted transit stops
- * Curb management to support businesses
- * Bikeway improvements (on Geneva)

Deliverables:

- 1. Traffic signal designs (pole placement and signal timing)
- 2. Civil designs for bulb-outs, islands, raised crosswalks, etc.
- 3. Striping designs for lane/curb re-configurations

All improvements (safety, transit, signal upgrades) are planned to be jointly delivered with a re-paving contract by Public Works starting in late 2021. It it possible that implementation of the project will include multiple construction phases. A task within the detailed design scope is cost estimates per element, which will inform what can be built with the initial project and what might need to be included later. If phased, transit improvements (e.g., bus bulbs), safety improvements at high-collision locations, and signal upgrades will be prioritized.

Project Location

Mission Street between Geneva Avenue and Trumbull Street; Geneva Avenue between Mission and Prague Streets

Project Phase(s)

Design Engineering (PS&E)

5YPP/STRATEGIC PLAN INFORMATION

Type of Project in the Prop K 5YPP/Prop AA Strategic Plan?	·
Is requested amount greater than the amount programmed in the relevant 5YPP or Strategic Plan?	Less than or Equal to Programmed Amount
Prop K 5YPP Amount:	\$1,000,000

Right of Way				
Design Engineering (PS&E)	Oct-Nov-Dec	2019	Apr-May-Jun	2021
Advertise Construction	Jul-Aug-Sep	2021		
Start Construction (e.g. Award Contract)	Oct-Nov-Dec	2021		
Operations				
Open for Use			Oct-Nov-Dec	2022
Project Completion (means last eligible expenditure)			Jan-Feb-Mar	2023

SCHEDULE DETAILS

Community outreach during the detailed design phase will be minimal, focused on working with stakeholders (e.g., property owners/tenants) on particular considerations/issues that arise during design. This project is being coordinated with a scheduled paving project led by Public Works; it may also coordinate with utility work – the paving scope will follow the schedule of this project.

Deliverables

- 1. Quarterly progress reports shall provide updates on the status of the construction phase funding plan and efforts to secure discretionary (competitive) grants and local funds, as well as updates on the percent complete for the overall project, and all other requirements described in the Standard Grant Agreement (SGA).
- 2. Upon project completion (anticipated by June 2021), provide evidence of completion of 100% design (e.g. copy of certifications page), as well as an updated scope, schedule, budget and funding plan (which can be met with a submittal of a Prop K allocation request for construction).

Special Conditions

1. The Transportation Authority will only reimburse SFMTA up to the approved overhead multiplier rate for the fiscal year that SFMTA incurs charges.

Metric	Prop K	Prop AA
Actual Leveraging - Current Request	66.67%	No Prop AA
Actual Leveraging - This Project	95.2%	No Prop AA

Memorandum

AGENDA ITEM 8

DATE: February 28, 2020

TO: Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 3/10/2020 Board Meeting: Allocate \$1,819,800 in Prop K Sales Tax Funds, with

Conditions, for Two Projects

RECOMMENDATION □ Information ☒ Action	□ Fund Allocation
Allegate \$1,910,900 in Brank funds with conditions to the Con	□ Fund Programming
Allocate \$1,819,800 in Prop K funds, with conditions, to the San Francisco Municipal Transportation Agency (SFMTA) for:	\square Policy/Legislation
 District 3 Pedestrian Safety Improvements (NTIP Capital) (\$819,800) 	□ Plan/Study
2. Mission Street Excelsior Safety (\$1,000,000)	□ Capital Project Oversight/Delivery
SUMMARY	☐ Budget/Finance
Attachment 1 lists the requests, including requested phases and	☐ Contract/Agreement
supervisorial districts for the subject projects. Attachment 2 provides brief project descriptions. Attachment 3 contains the staff	□ Other:
recommendations. At its February 26 meeting, several Citizen Advisory Committee members commented on the District 3	
Pedestrian Safety Improvements project, noting that pedestrian	
scrambles can be confusing. They suggested that the SFMTA educate the public on how to use pedestrian scrambles with	
signage and outreach prior to and concurrent with implementation. We shared this information with the District 3	
office which is following up with SFMTA staff	

DISCUSSION

Attachment 1 summarizes the subject allocation requests, including information on proposed leveraging (i.e. stretching Prop K sales tax dollars further by matching them with other fund sources) compared with the leveraging assumptions in the Prop K Expenditure Plan. Attachment 2 provides brief project descriptions. Attachment 3 summarizes the staff recommendations for the requests, highlighting special conditions and other items of interest. Allocation Request Forms for the projects are attached, with more detailed information on scope, schedule, budget, funding, deliverables and special conditions.

FINANCIAL IMPACT

The recommended action would allocate \$1,819,800 in Prop K funds. The allocation would be subject to the Fiscal Year Cash Flow Distribution Schedules contained in the attached Allocation Request Forms.

Attachment 4 shows the approved Fiscal Year 2019/20 allocations and appropriations to date, with associated annual cash flow commitments as well as the recommended allocation and cash flow amounts that are the subject of this memorandum.

Sufficient funds are included in the Fiscal Year 2019/20 budget to accommodate the recommended action. Furthermore, sufficient funds will be included in the Fiscal Year 2020/21 budget to cover the recommended cash flow distribution for that fiscal year.

CAC POSITION

At its February 26, 2020 meeting the CAC unanimously approved a motion of support for the Mission Street Excelsior Safety Project. The SFMTA's request for District 3 Pedestrian Safety Improvements [NTIP Capital] was presented to the CAC for information and feedback and not action because SFMTA and Public Works were still assessing the capital project's funding plan, as well as the schedule and whether the scope of work could implemented via a change order to the existing John Yehall Chin Safe Routes to School construction contract. We are recommending that consideration of this request advance directly to the March Board meetings to support Chair Peskin's desire for the SFMTA to implement this pedestrian safety project as soon as possible and to facilitate potential inclusion of the work as a change order to the aforementioned contract.

The CAC expressed support for the 3 Pedestrian Safety Improvements [NTIP Capital] project, although some members conveyed their concerns that pedestrian scrambles could be confusing to use and that the SFMTA could help educate the public with signage and outreach prior to and concurrent with implementation of this this type of signal infrastructure. Transportation Authority staff responded that we would convey this request to the Board, and SFMTA staff were at the CAC meeting and noted this request.
