Project Name:	Muni Metro East Expansion Phase 2 - MME & 1399 Marin Interim Improvements
Grant Recipient:	San Francisco Municipal Transportation Agency

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Facilities - MUNI
Current Prop K Request:	\$1,899,677
Supervisory District(s):	District 10

REQUEST

Brief Project Description

Develop two sites, 1399 Marin and an empty 4-acre lot adjacent to the Muni Metro East (MME) light rail storage and maintenance facility, to provide temporary storage of Muni buses during planned reconstruction of other vehicle maintenance and storage facilities. The project is timed to provide an interim facility for storage and maintenance of trolley coaches during redevelopment of the Potrero trolley coach maintenance yard. The MME site will eventually be re-developed to provide parking and maintenance infrastructure for an expanded light rail fleet.

Detailed Scope, Project Benefits and Community Outreach

See detailed scope description, attached.

Project Location

601 25th Street & 1399 Marin Street

5YPP/STRATEGIC PLAN INFORMATION

Type of Project in the Prop K 5YPP/Prop AA Strategic Plan?	Named Project
Is requested amount greater than the amount programmed in the relevant 5YPP or Strategic Plan?	Less than or Equal to Programmed Amount
Prop K 5YPP Amount:	\$1,899,677

The Muni Metro East Expansion – MME and 1399 Marin Interim Improvements project is part of SFMTA Building Progress Program, a \$1.2 billion multi-year effort to renovate and modernize SFMTA facilities. The first major rebuild project in the Program is the Potrero Yard Modernization Project to replace the obsolete two-story maintenance building and bus yard located at Bryant and Mariposa streets with a three-story, efficient bus maintenance and storage garage. The project is commencing developer procurement and design. Construction is expected to begin in 2023, and will require relocation of the Potrero Yard's fleet, and its operations and maintenance functions.

The Muni Metro East Expansion – MME and 1399 Marin Interim Improvements project will develop two sites to provide temporary facilities for bus parking and maintenance during the re-build of Potrero Yard.

1. A vacant 4-acre lot adjacent to the Muni Metro East Facility (MME), will be converted into a bus parking facility to support the temporary operation of the Potrero trolley operations division. In the future, these baseline improvements will be converted for the storage of up to 36 light rail vehicles, and possible construction of a maintenance building for light rail vehicles as the light rail fleet grows and additional fleet storage capacity is needed. Increasing the capacity of the site will provide vehicle storage capacity for future expansion of both the bus and light rail fleets. It will also be a "swing facility" for interim storage of transit vehicles while other vehicle storage/maintenance facilities are reconfigured, expanded and/or rebuilt as planned in SFMTA's 2017 Facilities Framework.
2. All the proposed expansion space at the MME bus yard will be needed for bus storage, leaving no room for maintenance activities and equipment. Therefore, SFMTA is proposing to redevelop space at its bus yard at 1399 Marin. 1399 Marin is currently used for new bus acceptance, where SFMTA receives new buses for inspection, testing and modification before they are placed into service. The facility at 1399 Marin will not later be redeveloped into a future LRV yard and will continue to support the rubber tire fleet after Potrero is re-built.

Planning for expansion of the MME facility began in early 2019, funded by a Prop K allocation of \$3.5 million, and expected to be complete in December 2020. The Planning and Design phases of the subject project will overlap to facilitate an accelerated project schedule. SFMTA has finalized the scope of early construction work (i.e. MME expansion site improvements), and will begin final design of those elements while the rest of the project scope (i.e. the 1399 Marin facility improvements) is still being developed. SFMTA also plans to compress the bid-and-award process by including the Early Works scope in the Potrero Developer contract, allowing construction to start in the same fiscal quarter that the contract for the Marin facility improvements will be advertised. Cost estimates prepared as part of conceptual engineering reports earlier in the planning phase will be updated in upcoming preliminary engineering reports. Updated cost estimates are a deliverable of the Prop K grant for the planning phase.

Improvements to the MME expansion site will include:

- Paved bus parking for trolley buses including overhead contact system and yard lighting
- New Bus Wash Building, approximately 3200 square feet
- New Fare Collection Building, approximately 3200 square feet
- Mobile Trailers to house operations staff

- Security/ Muni Meet & Greet Building for general yard security and Muni Operations for the control of incoming/ outgoing buses)
- Bio-swale and underground cistern to address the SFPUC storm water management requirements
- Electrical, communication and other miscellaneous work.

The Muni Metro East Expansion project will also renovate the existing SFMTA facility at 1399 Marin to accommodate temporary trolley bus maintenance activities.

Improvements to the 1399 Marin site will include:

- Re-size roll up door openings to allow better clearance for bus movements
- Replace entire floor slab to provide smooth working surface for maintenance operations
- Add new storm drainage features to minimize flooding within building and on site
- Replace existing generator
- Repair existing shed building roof and siding
- Relocate restrooms from interior to staff trailer to clear space for shop and storage
- New canopy structure to provide additional maintenance capacity
- Replace site fencing/ gates
- Re-pave entire site
- New Overhead Catenary System (OCS) to charge trolley buses in a portion of the yard
- New site lighting
- New site utilities (water, electrical, air, CCTV, data)

SCHEDULE DETAILS

SFMTA anticipates a Categorical Exemption and that an EIR will not be required, as the project was included as part of the EIR for the Eastern Neighborhoods area plan. Project is on an accelerated schedule, with overlapping planning and design phases.

Outreach:

- > Project team presented the project to Dogpatch Neighborhood Association in July 2020. Outreach team developed Project website: <https://www.sfmta.com/projects/muni-temporary-trolley-bus-facility-muni-metro-east-and-1399-marin>.
- > Project Manager and SFMTA Real Estate team has been coordinating with nearby neighbors and stakeholders, including the Navigation Center at 25th, the Port and property owners along Cesar Chavez.

A new round of outreach will be initiated in the upcoming quarter once team has Service Plan impacts to share with the community.

MME Option 3B - Potrero Early Works Agreement for Construction Services

Variant 2 - late construction bidding*

12/21/2020 DRAFT

***Assumptions**

65% design deliverable cannot be utilized to bid construction services concurrent with the Potrero RFP process initiated in February

**To avoid having the building permit become the critical path, site permit must include the pavement design with engineered soil stabilization and balancing (overexcavation and lightweight fill, for example)

Deliverables

1. Quarterly progress reports shall include % complete of the funded phase, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
2. With the first quarterly progress report (due April 30, 2021), SFMTA shall provide 2-3 photos of existing conditions and evidence of environmental clearance. This is a deliverable of the Prop K allocation for Muni Metro East Expansion Phase 2 - planning.
3. Upon completion of design of the early implementation scope, SFMTA shall provide evidence of completion of 100% design (e.g. copy of certifications page) of drainage, street design, electrical supply and other improvements to be constructed prior to completion of design of the full project. In addition the SFMTA shall provide an updated scope, schedule, budget, and funding plan for construction of the near-term improvements. This deliverable may be met with an allocation request for construction.
4. Upon completion, SFMTA shall provide evidence of completion of 100% design (e.g., copy of certifications page) of the 1399 Marin improvements, as well as updated scope, schedule, budget, and funding plan for construction. This deliverable may be met with an allocation request for construction.

Prop K/Prop AA Allocation Request Form

FY of Allocation Action:	FY2020/21
Project Name:	Great Highway Traffic Management
Grant Recipient:	San Francisco Municipal Transportation Agency

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Traffic Calming
Current Prop K Request:	\$424,971
Supervisory District(s):	District 04

REQUEST

Brief Project Description

In order to manage the changing traffic patterns associated with the current usage of the Great Highway and ensure safety for all users of the multimodal system it is necessary to make strategic investments in a suite of comprehensive traffic management measures. This request funds the construction of traffic management measures at strategic locations throughout the road network adjacent to the Great Highway in District 4. The SFMTA will construct 25 speed cushions, two stop signs on the Lower Great Highway, six changeable message signs, and one speed table.

Detailed Scope, Project Benefits and Community Outreach

The project will construct traffic calming measures that preserve and protect quieter neighborhood streets, and divert traffic to key corridors while also improving safety conditions for all road users. The traffic calming measures will help to direct traffic to larger capacity roadways such as Sunset Boulevard, Lincoln Way, 19th Avenue and Sloat Boulevard. These traffic calming measures aim to reduce the traffic volume and speed on local streets in District 4 that have seen changes in traffic since the Great Highway has been repurposed as a car-free corridor and public open space.

This project proposes to construct 25 speed cushions, 1 speed table, 2 stop signs and 6 changeable message signs. The locations will be finalized by the end of January 2021, upon approval from Commissioner Mar. Proposed list of traffic calming measures:

Lower Great Highway, Lincoln Way to Irving St: speed cushion

Lower Great Highway, Irving St to Judah St: speed cushion

Lower Great Highway, Judah St to Kirkham St: speed cushion

Lower Great Highway, Lawton St to Moraga St: speed cushion

Lower Great Highway at Moraga St: speed table

Lower Great Highway, Moraga St to Noriega St: speed cushion

Lower Great Highway, Noriega St to Ortega St: speed cushion

Lower Great Highway, Ortega St to Pacheco St: speed cushion

Lower Great Highway, Pacheco St to Quintara St: speed cushion

Lower Great Highway, Quintara St to Rivera St: speed cushion

Lower Great Highway, Rivera St to Santiago St: speed cushion

47th Ave, Lincoln Way to Irving St: speed cushion

47th Ave, Wawona St to Sloat Blvd: speed cushion

48th Ave, Lincoln Way to Irving St: speed cushion

48th Ave, Rivera St to Santiago St: speed cushion

48th Ave, Santiago St to Taraval St: speed cushion

Six changeable messaging signs at key locations

Stop signs at Lower Great Highway at Quintara and Moraga

See attached for location maps and photographs of the project area.

The project aligns with the Transportation Authority's District 4 Mobility Study [NTIP Planning]. In recent District 4 Mobility Study outreach events attended by a diverse array of stakeholders, the SFMTA committed to expanding the use of traffic management measures at strategic locations throughout District 4.

5YPP/STRATEGIC PLAN INFORMATION

Type of Project in the Prop K 5YPP/Prop AA Strategic Plan?	New Project
Is requested amount greater than the amount programmed in the relevant 5YPP or Strategic Plan?	Less than or Equal to Programmed Amount
Justification for Necessary Amendment	
5-Year Prioritization Program (5YPP) Amendment: The recommended allocation is contingent upon amendment of the Traffic Calming 5YPP to add the subject project and reprogram \$424,971 from the Sloat Skyline Intersection Improvements (design phase) project, which is delayed. With this amendment, there would be \$614,029 in remaining Prop K funds available for allocation to Sloat Skyline Intersection Improvements.

Fund Source	FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	Total
PROP K EP-138	\$318,728	\$106,243	\$0	\$0	\$0	\$424,971

Deliverables

1. QPRs will provide the percent complete for construction, include a list of locations with improvements completed in the previous quarter and the types of improvement(s) at each location, 2 - 3 digital photos of work in progress or completed work, a list of locations and the improvement(s) anticipated to be constructed in the upcoming quarter, and any issues that may impact delivery, in addition to the standard requirements for QPRs (see Standard Grant Agreement for details).

2. SFMTA will provide the final list of locations by February 5, 2021, as approved by the District Supervisor

Special Conditions

1. SFCTA will not reimburse expenses for the construction phase activities until Transportation Authority staff has received evidence of completion of design (e.g. copy of certifications page, internal design completion documentation, design completion work-order, or similar).

Pending Allocation/Appropriation

Board Approved Allocation/Appropriation

FOOTNOTES:

- 1 5YPP amendment to accommodate allocation of \$596,420 for Central Richmond Traffic Safety (Resolution 20-003, 7/23/2019)
 Advancing Equity through Safer Streets: Reduced by \$596,420 in FY2019/20 to \$153,580.
 Central Richmond Traffic Safety: Added project with \$596,420 in FY2019/20.
- 2 Strategic Plan and 5YPP amendment to accommodate allocation of \$5,226,200 and programming of \$2,500,000 for Vision Zero Quick-Build Program Implementation (Resolution 20-003, 7/23/2019)
- 6th Street Safety Improvements: Reduced by \$5,226,200 in FY2019/20 to \$4,000,000.
 Funds advanced from outside of current 5YPP period: \$1,250,000 advanced to FY2020/21, and \$1,250,000 advanced to FY2021/22.
 Vision Zero Quick-Build Program Implementation: Added project with \$5,226,200 in FY2019/20, \$1,250,000 in FY2020/21, and \$1,250,000 in FY2021/22.
- 3 5YPP amendment to accommodate allocation of \$1,253,103 for Application-Based Traffic Calming Program FY18/19 Cycle Implementation (Resolution 20-009, 09/24/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$53,103 from \$100,899 to \$47,796.
 Application-Based Local Streets Traffic Calming Program: Programming increased by \$53,103 from \$1,200,000 to \$1,253,103 in FY2019/20.
- 4 5YPP amendment to accommodate allocation of \$203,192 for Application-Based Traffic Calming Program - FY19/20 Cycle Planning (Resolution 20-009, 09/24/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$203,192 from \$304,091 to \$100,899.
 Application-Based Local Streets Traffic Calming Program FY19/20 Cycle Planning: Added project with \$203,192 in FY2019/20.
- 5 5YPP amendment to accommodate allocation of \$50,000 for Bayview Community Based Transportation Plan (Resolution 20-014, 10/22/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$50,000 from \$100,899 to \$50,899.
 Bayview Community Based Transportation Plan: Added project with \$50,000 in FY2019/20.
- 6 5YPP amendment to accommodate allocation of \$600,000 for District 11 Traffic Calming [NTIP Capital] (Resolution 20-014, 10/22/2019).
 NTIP Placeholder: Reduced by \$600,000 from \$2,850,000 to \$2,250,000.
 District 11 Traffic Calming [NTIP Capital]: Added project with \$600,000 in FY2019/20.
- 7 5YPP amendment to fund District 3 Pedestrian Safety Improvements [NTIP Capital] (Resolution 2020-041, 4/14/2020).
 NTIP Placeholder: Reduced from \$2,250,000 to \$1,954,400
 District 3 Pedestrian Safety Improvements [NTIP Capital]: Added project with \$295,600 in Fiscal Year 2019/20 for construction.
- 8 5YPP amendment to accommodate allocation of \$50,000 for Bayshore Blvd/Cesar Chavez St/Potrero Ave Intersection (The Hairball - Segments F & G) - Additional Funds (Resolution 20-0XX, Cumulative Remaining Capacity: Reduced from \$50,899 to \$899 in FY2020/21.
 Bayshore Blvd/Cesar Chavez St/Potrero Ave Intersection (The Hairball - Segments F & G) - Additional Funds: Added project with \$50,000 in FY2020/21.
- 9 To accommodate funding of Buchanan Mall Bulbouts - Golden Gate and Turk [NTIP Capital] (Resolution 2020-XXX, 06/23/2020):
 NTIP Placeholder: Reduced from \$1,954,400 in FY2019/20 to \$1,654,400.
 Buchanan Mall Bulbouts - Golden Gate and Turk [NTIP Capital]: Added project with \$300,000 in FY2020/21.
- 10 Cost-neutral 5YPP amendment to accommodate requested cash flow for 6th Street Safety Improvements (Resolution 20-XX, 09/22/2020).
 Ocean Avenue Safety Improvements: Slowed cash flow between FY2020/21 and FY2022/23 from FY2020/21 and FY2021/22 by delaying \$385,000 in cash flow from FY 2020/21 to Safer Taylor (Construction): Reduced programming from \$1,022,499 to \$0 in FY2020/21.
 Excelsior Neighborhood Traffic Calming (Construction): Delayed \$1,300,000 in cash flow from FY2021/22 to FY2022/23.
 6th Street Safety Improvements: Advanced cash flow from FY2022/23 to FY2020/21 (\$500,000) and FY2021/22 (\$2,207,499).

11. 5YPP amendment to accommodate allocation of \$750,000 for Slow Streets Program (Resolution 21-0XX, 09/xx/2020).
 Vision Zero Quick-Build Implementation: Reduced placeholder from \$1.25 million to \$500,000 in FY2020/21.
 Slow Streets Program: Added project with \$750,000 in FY2020/21.
12. 5YPP amendment to fund Upper Market Street Safety Improvements [NTIP Capital] (Resolution 2021-016, 10/27/2020).
 Cumulative Remaining Programming Capacity: Reduced from \$1,023,398 to \$0.
 Safer Taylor (Design): Reduced programming from \$359,292 to \$198,877 in FY2019/20.
 Upper Market Street Safety Improvements [NTIP Capital]: Added project with \$1,183,813 in FY2020/21.
13. 5YPP amendment to fund Citywide Daylighting (Resolution 21-020, 11/17/2020).
 Advancing Equity through Safer Streets: Reduced from \$153,580 to \$0 in FY2019/20.
 Safer Taylor Street: Reduced from \$198,877 to \$0 in FY2019/20.
 Vision Zero Quick-Build Program Implementation: Reduced from \$500,000 to \$352,457 in FY2020/21.
 Citywide Daylighting: Added project with \$500,000 in FY2020/21 design and construction funds.
14. To accommodate funding of District 7 FY20 Participatory Budgeting Priorities [NTIP Capital] (Resolution 2021-023, 06/23/2020):
 NTIP Placeholder: Reduced from \$1,654,400 in FY2019/20 to \$1,521,800.
 District 7 FY20 Participatory Budgeting Priorities [NTIP Capital]: Added project with \$132,600 in FY2020/21.
15. To accommodate funding of Excelsior Neighborhood Traffic Calming (Resolution 2021-023, 12/15/2020):
 Excelsior Neighborhood Traffic Calming (PS&E): Reduced from \$520,000 to \$0 FY2019/20.
 Excelsior Neighborhood Traffic Calming (Construction): Reduced from \$2,080,000 to \$2,050,000 in FY2020/21.
 Excelsior Neighborhood Traffic Calming: Added project with \$550,000 in FY2020/21 design and construction funds.
16. 5YPP amendment to accommodate allocation of \$100,000 for Safe Streets Evaluation (Resolution 21-xxx, 02/23/2021).
 Safe Streets Evaluation: Advanced \$100,000 from FY21/22 to FY20/21.
17. 5YPP amendment to accommodate allocation of \$424,971 for Great Highway Traffic Management (Resolution 21-xxx, 02/23/2021).
 Vision Zero Quick-Build Program Implementation: Delayed \$100,000 from FY20/21 to FY21/22.
 Sloat Skyline Intersection Improvements (Design): Reduced from \$660,000 in FY2019/20 to \$235,029.
 Great Highway Traffic Management: Added project with \$424,971 in FY2020/21 construction funds.

Prop K/Prop AA Allocation Request Form

FY of Allocation Action:	FY2020/21
Project Name:	Safe Streets Evaluation Program
Grant Recipient:	San Francisco Municipal Transportation Agency

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Traffic Calming, Bicycle Circulation/Safety
Current Prop K Request:	\$250,000
Supervisory District(s):	Citywide

REQUEST

Brief Project Description

The SFMTA's Safe Streets Evaluation Program tracks progress and measures performance for key traffic calming, bicycle, and pedestrian safety projects throughout San Francisco that support the Vision Zero initiative to eliminate traffic-related fatalities in the city. The requested funds will be used to support pre-and-post data collection and analysis of various bicycle, pedestrian, and traffic calming projects, including Quick-Builds and COVID-related Slow Streets. This request will result in Annual Safe Streets Evaluation Reports for 2020 and 2021.

Detailed Scope, Project Benefits and Community Outreach

See attached.

Planning/Conceptual Engineering (PLAN)

5YPP/STRATEGIC PLAN INFORMATION

Type of Project in the Prop K 5YPP/Prop AA Strategic Plan?	Named Project
Is requested amount greater than the amount programmed in the relevant 5YPP or Strategic Plan?	Greater than Programmed Amount
Prop K 5YPP Amount:	\$250,000
Justification for Necessary Amendment	

The subject request includes an amendment to the Traffic Calming 5-Year Prioritization Program as follows:

- > Advance \$100,000 programmed to Safe Streets Evaluation from FY21/22 to FY20/21.
- > Delay \$100,000 programmed to Vision Zero Quick-Build Program Implementation from FY20/21 to FY21/22. This program is fully funded in FY20/21 with Prop K Pedestrian Circulation and Safety category funds and TNC Tax funds (allocated October 2020). Additional Prop K funds are not needed in FY20/21.

The subject request includes an amendment to the Bicycle Circulation and Safety 5-Year Prioritization Program as follows:

- > Advance \$100,000 programmed to Safe Streets Evaluation from FY21/22 to FY20/21.
- > Delay \$100,000 programmed to The Embarcadero at Pier 39/Fisherman's Wharf - Complete Street Improvements from FY20/21 to FY21/22, which is delayed.
- > Reprogram \$50,000 in funds deobligated from projects completed under budget.

Background

The San Francisco Municipal Transportation Agency (SFMTA) requests Prop K funding in the amount of \$250,000 to continue the Safe Streets Project Evaluation Program. Initiated in 2017, the SFMTA's Safe Streets Evaluation Program tracks progress and measures performance for key traffic calming, bicycle, and pedestrian safety projects throughout San Francisco that support the Vision Zero initiative to eliminate traffic related fatalities in the city.

With funding from the SFCTA, in May 2019 the SFMTA published the first Safe Street Evaluation Year-End Report, detailing the agency's effectiveness in advancing the city's goals and Vision Zero efforts over the course of 2018. Over the course of the past two years, the program has grown to offer important insights into progress made and lessons learned. The program has proven vital to the Vision Zero Quick Build Program, a recent policy change that allows for quickly built pedestrian and bicycle safety improvements on the city's High Injury Network and iterative design changes. The Program has also proved invaluable in helping the agency respond to the COVID crisis and making our street design work more equitable and responsive to communities most impacted by the intertwined crises of COVID, traffic deaths, and structural racism.

This document summarizes program goals, work completed to date, and the scope of work for which funding is requested.

Purpose of Evaluation

The goals of the Safe Streets Evaluation Program are to:

- Inform opportunities to refine a project's design: By collecting location-specific data related to transportation behaviors, project design elements are analyzed for their effectiveness and areas are targeted for refinement.
- Communicate the effects of a project to the public, decision makers and other transportation professionals: Evaluation results are shared with members of the public so they may understand the impact of the SFMTA's work on their experience of the city, or with decision makers who want to understand the effects of safety-related infrastructure investments.
- Support the use of innovative design treatments: Also referred to as "proof-of-concept," project evaluations are often used to analyze innovative design treatments that are new to San Francisco. The data associated with proof-of-concept project evaluations are used to demonstrate the applicability of national or international best practices to the local context.
- Streamline the design of future projects that incorporate similar elements: Project evaluations use consistent metrics and analysis techniques to allow for tracking trends over time.

Progress to Date

The Safe Streets Project Evaluation Program has made significant progress over the last two years, largely due to consistent funding from the SFCTA. Since its initiation in 2017, the Program has published two Year-End Reports, established a program website, produced numerous fact-sheets and communication documents, and most importantly- has been effectively used to measure performance and make important adjustments to a wide range of bicycle, pedestrian, and traffic calming projects. Today, the Program serves as a model for other cities and has been presented at numerous national conferences.

For the 2019 and 2018 Safe Streets Project Evaluation Year-End Reports, please visit www.sfmta.com/safestreetsevaluation.

Data Collection

For this Program, data is collected through third-party vendors. Vendors/contractors collect information using pneumatic tubes in the roadway to collect vehicle and bike speed/average daily traffic and LIDAR guns (manually operated) to collect vehicle turning speed. Video footage is also used to collect standard intersection vehicle, bike, and pedestrian counts, and to collect less standard information such as yielding/conflict behavior, compliance, and parking/loading data.

This video is typically taken from an aerial or birds eye view and typically at low level resolution, thus protecting privacy. Any information reduced from video footage is always presented anonymously in aggregate via an excel worksheet to protect privacy. Lastly, video footage is collected and reduced/analyzed by the third-party vendor to ensure objectivity when measuring project performance. The SFMTA only reviews video footage on occasion when performing quality checks on the vendor's deliverables. When conducting quality checks, the SFMTA views video footage via a dropbox link and the footage not saved to SFMTA servers. A typical still shot from video data collection is shown below:

Figure 1: Typical Video Still - 2nd and Howard Streets

Below is a privacy clause from SFMTA's contract with Kittleson Associates/Quality Counts (data collection vendor):

"Quality Counts is dedicated to maintaining the privacy of all individuals involved in our studies. While conducting typical traffic studies in the public realm requires viewing and tabulating movements of vehicles and people, video footage is collected in standard definition making it impossible to effectively view faces, license plates, or any other personally identifiable information. In unique cases where origin-destination/travel time or parking studies using license plate tracking is requested or required, license plate digits can be truncated to ensure anonymity of study subjects. Furthermore, all video and documentation that is part of any study is available only to the requesting agency/client. Video and other files are not publicly available or accessible."

FY20-21 Proposed Project Evaluation List

The SFMTA identified a Proposed Project Evaluation List for current or future projects that will require evaluation in FY20-21 (see Table 1 on the next page), as well as summary analysis projects that will aggregate some individual project findings. Projects were selected for evaluation based on three basic criteria: (1) projects that incorporate innovative treatments, (2) garner public interest, and/or (3) require feedback to make design changes. In addition to projects that meet these criteria, some COVID-related projects are being evaluated to understand both benefits and trade-offs to some of the agency's temporary relief projects. Lastly, all Quick Build projects continue to be evaluated and are included in the Proposed Project Evaluation List.

Evaluation Key Staff

To date, an Evaluation Team has been formed to manage the Project Evaluation Program and meets monthly. The Evaluation Team has identified a Program Manager and Program Staff, who will dedicate a portion of their time to the Safe Streets Project Evaluation Program including introducing the program to staff and developing a database/tracking system for ongoing evaluation work.

3	City-wide Measures: Left Turns/ Rectangular Rapid Flashing Beacons (RRFBs)/Flashing Yellow Left Turn/Speed Limit Changes	Fall 2021	2022
4	COVID related work- Summary and Analysis	Spring 2021	2022
5	Quick Builds - Before/After Summary Analysis	Fall 2021	2022
6	Tenderloin - Before/After Neighborhood Analysis	Spring 2021	2021
7	Valencia Street - All Phases- Before/After Neighborhood Analysis	Fall 2021	2022

Notes:

*The project list for the 2020 Year End Report is not finalized but will likely include a summary of 2019 Quick Build Projects including projects on Leavenworth St., Golden Gate Ave., Bayview Ave., Folsom St. and the Embarcadero, as well as some COVID-related projects on Fell St., Jones St., Page St. and the Slow Streets Program. Please note many of our anticipated 2020 project evaluations have been delayed due to the pandemic.

**The Accessibility Evaluation will include an analysis of how aspects of different projects across the city have affected people with disabilities. An example question is whether or not wheelchair users are able to cross the bike lane to get to transit boarding islands.

***As-needed studies generally include unplanned requests for evaluation such as queue studies to understand congestion as it relates to emergency response. Due to the dynamic nature of Sustainable Streets work, there is often need for spot-evaluation and iterative design changes.

Program Scope to be Funded by Prop K

The SFMTA has created an estimated budget for the Safe Streets Project Evaluation Program for FY 20/21 that totals approximately \$250,000 for the 22 projects targeted for evaluation and seven summary evaluations. This budget includes funding for SFMTA staff time (Program Manager and Program Staff), pre-and-post project data collection, development of data standards and consultant contracts. Proposed consultant contracts will be advertised in a competitive bid process.

Program Schedule and Milestones

The SFMTA expects to continue its evaluation work through the Safe Streets Project Program Evaluation to extend over an 18-month period. Certain aspects of the program have already been initiated and will continue through Summer 2022, such as data collection for projects on the Proposed Evaluation Project List. The Program will develop the third annual report: *2020 Safe Streets Evaluation Findings Report* in June 2021, and the fourth annual report: *2021 Safe Streets Evaluation Findings Report* in June 2022. Throughout the 18-month funding period, the program will publish individual project findings through Fact Sheets published on our website.

Proposed Tasks and Deliverables

Because there are multiple projects to evaluate, each of the timelines per task will overlap as some project will be at the beginning stages of evaluation while others are further along. Proposed deliverables during the course of the Program cycle include the following:

Task 1 Project Initiation and Management

Cost: \$25,000

Task Timeline: January 2021 to June 2022 (ongoing)

Responsible Party: SFMTA staff

Deliverables:

Deliverable 1A: Kick-off Meeting with the SFCTA

Deliverable 1B: Quarterly Progress Updates

Deliverable 1C: As-needed Presentations

Task 2 Data Collection Phase 1

Cost: \$50,000

Task Timeline: February - June 2021

Responsible Party: SFMTA staff/Consultants

Deliverables:

Deliverable 2A: As-needed Updates

Task 3 Develop 2020 Annual Safe Streets
Evaluation Report

Cost: \$25,000

Task Timeline: March to June 2021

Responsible Party: SFMTA staff/Consultants

Deliverables:

Deliverable 3A: Annual Safe Streets Project Evaluation Program Report

At the end of fiscal year, the Evaluation Team will create an annual report with a selection of data and findings that showcase progress made.

Task 4 Data Collection Phase 2

Cost: \$50,000

Task Timeline: June- December 2021

Responsible Party: SFMTA staff/Consultants

Deliverables:

Deliverable 4A: As-needed Updates

Task 5 Data Collection Phase 3

Cost: \$50,000

Task Timeline: January- June 2022 Responsible

Party: SFMTA staff/Consultants

Deliverables:

Deliverable 5A: As-needed Updates

Task 6 Develop 2021 Annual Safe Streets
Evaluation Report

Cost: \$25,000

Task Timeline: March to June 2022

Responsible Party: SFMTA staff/Consultants

Deliverables:

Deliverable 6A: Annual Safe Streets Project Evaluation Program Report

At the end of fiscal year, the Evaluation Team will create an annual report with a selection of data and findings that showcase progress made.

Task 7 Complete Individual Project
Evaluations

Cost: \$10,000

Task Timeline: January 2021- June 2022 (ongoing)

Responsible Party: SFMTA staff/Consultant

Deliverables:

Deliverable 7A: Project Evaluation Fact Sheets

In June 2021, the SFMTA will publish project evaluation fact sheets from Phase 2 of Data Collection.

Task 8 Database Development

Cost: \$15,000

Task Timeline: January 2021 to June 2022 (ongoing)

Responsible Party: SFMTA staff, interagency city staff

Deliverables:

Deliverable 8A: Draft Database Prototypes

Note: Currently the program has separate excel files for the data and analysis of all of our project evaluations. We would like to combine these into a searchable database that can be used to aggregate findings across projects and years.

Task 7 Complete Individual Project Evaluations

Task Timeline: January 2021-June 2022 (ongoing)

Task 8 Database Development

Task Timeline: January 2021-June 2022 (ongoing)

PROJECT OUTREACH:

Outreach for each traffic calming, bicycle or pedestrian safety project occurs within the scope/schedule of each project and is outside the domain of the Safe Streets Evaluation Program. Outreach of the Evaluation Program and its findings will occur after the year-end report is published in June 2021 and June 2022 and consists of outreach and review by WalkSF and SFBC, presentations to the Vision Zero Task Force, Transportation Authority Board, and SFMTA Board of Directors, and typically presentations of SFMTA work to sister agencies and cities at national conferences such as NACTO.

FOOTNOTES:

- 1 5YPP amendment to accommodate allocation of \$596,420 for Central Richmond Traffic Safety (Resolution 20-003, 7/23/2019)
 Advancing Equity through Safer Streets: Reduced by \$596,420 in FY2019/20 to \$153,580.
 Central Richmond Traffic Safety: Added project with \$596,420 in FY2019/20.
- 2 Strategic Plan and 5YPP amendment to accommodate allocation of \$5,226,200 and programming of \$2,500,000 for Vision Zero Quick-Build Program Implementation (Resolution 20-003, 7/23/2019)
- 6th Street Safety Improvements: Reduced by \$5,226,200 in FY2019/20 to \$4,000,000.
 Funds advanced from outside of current 5YPP period: \$1,250,000 advanced to FY2020/21, and \$1,250,000 advanced to FY2021/22.
 Vision Zero Quick-Build Program Implementation: Added project with \$5,226,200 in FY2019/20, \$1,250,000 in FY2020/21, and \$1,250,000 in FY2021/22.
- 3 5YPP amendment to accommodate allocation of \$1,253,103 for Application-Based Traffic Calming Program FY18/19 Cycle Implementation (Resolution 20-009, 09/24/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$53,103 from \$100,899 to \$47,796.
 Application-Based Local Streets Traffic Calming Program: Programming increased by \$53,103 from \$1,200,000 to \$1,253,103 in FY2019/20.
- 4 5YPP amendment to accommodate allocation of \$203,192 for Application-Based Traffic Calming Program - FY19/20 Cycle Planning (Resolution 20-009, 09/24/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$203,192 from \$304,091 to \$100,899.
 Application-Based Local Streets Traffic Calming Program FY19/20 Cycle Planning: Added project with \$203,192 in FY2019/20.
- 5 5YPP amendment to accommodate allocation of \$50,000 for Bayview Community Based Transportation Plan (Resolution 20-014, 10/22/2019).
 Cumulative Remaining Programming Capacity: Reduced by \$50,000 from \$100,899 to \$50,899.
 Bayview Community Based Transportation Plan: Added project with \$50,000 in FY2019/20.
- 6 5YPP amendment to accommodate allocation of \$600,000 for District 11 Traffic Calming [NTIP Capital] (Resolution 20-014, 10/22/2019).
 NTIP Placeholder: Reduced by \$600,000 from \$2,850,000 to \$2,250,000.
 District 11 Traffic Calming [NTIP Capital]: Added project with \$600,000 in FY2019/20.
- 7 5YPP amendment to fund District 3 Pedestrian Safety Improvements [NTIP Capital] (Resolution 2020-041, 4/14/2020).
 NTIP Placeholder: Reduced from \$2,250,000 to \$1,954,400
 District 3 Pedestrian Safety Improvements [NTIP Capital]: Added project with \$295,600 in Fiscal Year 2019/20 for construction.
- 8 5YPP amendment to accommodate allocation of \$50,000 for Bayshore Blvd/Cesar Chavez St/Potrero Ave Intersection (The Hairball - Segments F & G) - Additional Funds (Resolution 20-0XX, Bayshore Blvd/Cesar Chavez St/Potrero Ave Intersection (The Hairball - Segments F & G) - Additional Funds: Added project with \$50,000 in FY2020/21.
 Cumulative Remaining Capacity: Reduced from \$50,899 to \$899 in FY2020/21.
- 9 To accommodate funding of Buchanan Mall Bulbouts - Golden Gate and Turk [NTIP Capital] (Resolution 2020-XXX, 06/23/2020):
 NTIP Placeholder: Reduced from \$1,954,400 in FY2019/20 to \$1,654,400.
 Buchanan Mall Bulbouts - Golden Gate and Turk [NTIP Capital]: Added project with \$300,000 in FY2020/21.
- 10 Cost-neutral 5YPP amendment to accommodate requested cash flow for 6th Street Safety Improvements (Resolution 20-XX, 09/22/2020).
 Ocean Avenue Safety Improvements: Slowed cash flow between FY2020/21 and FY2022/23 from FY2020/21 and FY2021/22 by delaying \$385,000 in cash flow from FY 2020/21 to Safer Taylor (Construction): Reduced programming from \$1,022,499 to \$0 in FY2020/21.
 Excelsior Neighborhood Traffic Calming (Construction): Delayed \$1,300,000 in cash flow from FY2021/22 to FY2022/23.
 6th Street Safety Improvements: Advanced cash flow from FY2022/23 to FY2020/21 (\$500,000) and FY2021/22 (\$2,207,499).

11. 5YPP amendment to accommodate allocation of \$750,000 for Slow Streets Program (Resolution 21-0XX, 09/xx/2020).
 Vision Zero Quick-Build Implementation: Reduced placeholder from \$1.25 million to \$500,000 in FY2020/21.
 Slow Streets Program: Added project with \$750,000 in FY2020/21.
12. 5YPP amendment to fund Upper Market Street Safety Improvements [NTIP Capital] (Resolution 2021-016, 10/27/2020).
 Cumulative Remaining Programming Capacity: Reduced from \$1,023,398 to \$0.
 Safer Taylor (Design): Reduced programming from \$359,292 to \$198,877 in FY2019/20.
 Upper Market Street Safety Improvements [NTIP Capital]: Added project with \$1,183,813 in FY2020/21.
13. 5YPP amendment to fund Citywide Daylighting (Resolution 21-020, 11/17/2020).
 Advancing Equity through Safer Streets: Reduced from \$153,580 to \$0 in FY2019/20.
 Safer Taylor Street: Reduced from \$198,877 to \$0 in FY2019/20.
 Vision Zero Quick-Build Program Implementation: Reduced from \$500,000 to \$352,457 in FY2020/21.
 Citywide Daylighting: Added project with \$500,000 in FY2020/21 design and construction funds.
14. To accommodate funding of District 7 FY20 Participatory Budgeting Priorities [NTIP Capital] (Resolution 2021-023, 06/23/2020):
 NTIP Placeholder: Reduced from \$1,654,400 in FY2019/20 to \$1,521,800.
 District 7 FY20 Participatory Budgeting Priorities [NTIP Capital]: Added project with \$132,600 in FY2020/21.
15. To accommodate funding of Excelsior Neighborhood Traffic Calming (Resolution 2021-023, 12/15/2020):
 Excelsior Neighborhood Traffic Calming (PS&E): Reduced from \$520,000 to \$0 FY2019/20.
 Excelsior Neighborhood Traffic Calming (Construction): Reduced from \$2,080,000 to \$2,050,000 in FY2020/21.
 Excelsior Neighborhood Traffic Calming: Added project with \$550,000 in FY2020/21 design and construction funds.
16. 5YPP amendment to accommodate allocation of \$100,000 for Safe Streets Evaluation (Resolution 21-xxx, 02/23/2021).
 Safe Streets Evaluation: Advanced \$100,000 from FY21/22 to FY20/21.
17. 5YPP amendment to accommodate allocation of \$424,971 for Great Highway Traffic Management (Resolution 21-xxx, 02/23/2021).
 Vision Zero Quick-Build Program Implementation: Delayed \$100,000 from FY20/21 to FY21/22.
 Sloat Skyline Intersection Improvements (Design): Reduced from \$660,000 in FY2019/20 to \$235,029.
 Great Highway Traffic Management: Added project with \$424,971 in FY2020/21 construction funds.

Project Name:	Tenderloin Traffic Safety Improvements [NTIP Capital]
Grant Recipient:	San Francisco Municipal Transportation Agency

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Pedestrian Circulation/Safety
Current Prop K Request:	\$177,693
Supervisory District(s):	District 06

REQUEST

Brief Project Description

Building on past neighborhood-wide efforts in the Tenderloin, including daylighting and signal retiming, the SFMTA is proposing to reduce the speed limit from 25 to 20 miles per hour on all applicable corridors and to implement no turn on red prohibitions at 54 intersections. These changes would be accomplished by installing approximately 395 signs. Restricting turns on red would reduce the number of conflicts and injuries between people in cars and on foot. Studies also show that lowering speeds greatly improves a pedestrian's chance of survival in the event of a collision.

Detailed Scope, Project Benefits and Community Outreach

The NTIP funds will be used to fund outreach efforts as well as materials and SFMTA Sign Shop labor to install new speed limit and no turn on red signs neighborhood-wide for these new traffic safety improvements. Approximately 54 intersections in the Tenderloin will receive the no turn on red prohibition, and every applicable corridor, based on the engineering and traffic surveys, in the Tenderloin will have its speed limit lowered from 25 mph to 20 mph. It is estimated that this work will require approximately 395 new no turn on red and speed limit signs.

The Tenderloin is disproportionately impacted by traffic crashes, especially collisions primarily caused by excessive vehicle speed. Lowering speed limits to better reflect multimodal Tenderloin streets can yield tangible safety benefits. Vehicle speed is the number predictor of crash severity. A pedestrian struck at 20 mph vs 25 mph has double the chance of survival. Cities across the United States and abroad have lowered default vehicle speed limits with tangible changes in vehicle speed and crash reduction. For example, Seattle, Washington posted 20 mph speed limits on several corridors, and absent any engineering or enforcement changes, speeds went down, especially among the fastest drivers. As a result, injury crashes were reduced by 20% on these corridors. Similar results were found in Portland, Oregon where the city recently introduced a citywide 20 mph de facto speed limit. Travel speeds before and after the speed limit changes will be collected as part of this work.

The standard methodology for setting speed limits rounds the 85th percentile speed from an Engineering and Traffic Survey to the nearest 5 mph increment and can be reduced by another 5 mph increment if there are special conditions. Section 22358.4 of the California Vehicle Code allows local authority to make this adjustment based on the Engineering and Traffic Survey. In the Tenderloin, the 85th percentile speed limits range from 20 to 26.4 mph on the streets, with an average of 23.54 mph, and these streets are all part of the City's High Injury Vision Zero network.

In the Tenderloin with its heavy pedestrian traffic, there is often little opportunity to make turns on red, which creates scenarios with drivers block pedestrian crosswalks while looking left trying to find a gap in oncoming traffic. Drivers quickly executing their turn may fail to see a pedestrian legally crossing from the right which can result in an injury collision. In a DPH-MTA study of crashes at signalized intersections, turns on red accounted for nearly 20% of these crashes, and these crashes were largely clustered in the Tenderloin. Banning turns on red have been standing policy in New York City for several decades and has recently been introduced in cities such as Washington, DC. Banning turns on red minimizes pedestrian-vehicular exposure which decreases the likelihood of a collision.

Community Outreach:

E5-66

- November 2020: Presentation to the Tenderloin Traffic Safety Task Force
- Early February 2021: Blog post and press release about 20 mph and No Turn on Red proposals
- February-April 2021: Notification of the speed limit change and turn prohibitions through 1) paper collateral at key neighborhood-serving hubs, 2) SFMTA Facebook and Twitter accounts, 3) SFMTA blog post and press release, 4) Variable Message Signs and Changeable Message Signs notifying drivers of traffic safety changes, and 5) Safe Spot posters at intersections with new turn prohibitions

Construction:

- February 19, 2021: Public Hearing for both 20 mph and No Turn on Red proposals, with notifications posted at least 10 days in advance of the meeting
- March 16, 2021: MTA Board approval for the 20 mph changes (No Turn on Red does not require SFMTA Board approval)
- February-April 2021: Implementation

The Transportation Authority's NTIP is intended to strengthen project pipelines and advance the delivery of community supported neighborhood-scale projects, especially in Communities of Concern and other neighborhoods with high unmet needs.

SCHEDULE DETAILS

Community Outreach:

- November 2020: Presentation to the Tenderloin Traffic Safety Task Force
- Early February 2021: Blog post and press release about 20 mph and No Turn on Red proposals
- February-April 2021: Notification of the speed limit change and turn prohibitions through 1) paper collateral at key neighborhood-serving hubs, 2) SFMTA Facebook and Twitter accounts, 3) SFMTA blog post and press release, 4) Variable Message Signs and Changeable Message Signs notifying drivers of traffic safety changes, and 5) Safe Spot posters at intersections with new turn prohibitions

Construction:

- February 19, 2021: Public Hearing for both 20 mph and No Turn on Red proposals, with notifications posted at least 10 days in advance of the meeting
- March 16, 2021: MTA Board approval for the 20 mph changes (No Turn on Red does not require SFMTA Board approval)
- February-April 2021: Implementation

Deliverables

- Quarterly progress reports shall include percent complete for speed limit sign installation and no-turn-on-red sign installation, photos of work being performed, upcoming project milestones (e.g. ground-breaking, ribbon-cutting), and delivery updates including work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, lists of locations completed and remaining to be completed, and any issues that may impact delivery, in addition to all other requirements described in the Standard Grant Agreement.
- Prior to public distribution of paper collateral and posters, SFMTA shall provide electronic examples of outreach materials.
- Upon completion of project, SFMTA shall provide 2-3 photos of installed signs and lists of all locations where signs were installed.

Special Conditions

- Reimbursement of costs for implementation of speed limit signs (\$81,624) is conditioned upon the SFMTA Board approving the speed limit changes proposed in this project (anticipated March 16, 2021).

Notes

- Quarterly progress reports will be shared with the District 6 Supervisor.

San Francisco County Transportation Authority

Prop K/Prop AA Allocation Request Form

FY of Allocation Action:	FY2020/21
Project Name:	District 4 Mobility Improvements Study - Additional Funds [NTIP Planning]
Grant Recipient:	San Francisco County Transportation Authority

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Transportation/Land Use Coordination
Current Prop K Request:	\$60,000
Supervisory District(s):	District 04

REQUEST

Brief Project Description

At the request of District 4 Supervisor Gordon Mar, the Transportation Authority, in partnership with SFMTA, began conducting the District 4 Mobility Study at the end of 2019 to understand the travel profile and patterns of District 4 residents, identify travel markets with high shares of single-occupancy vehicle (SOVs) trips, and explore short and medium-term strategies to reduce trips by SOVs. This request would provide funds for the study to include additional scope to analyze future promenade and roadway concepts on the Great Highway between Sloat and Lincoln.

Detailed Scope, Project Benefits and Community Outreach

BACKGROUND

Commissioner Gordon Mar is coordinating a community plan for District 4 known as Sunset Forward. To inform that effort, he asked the Transportation Authority to complete the transportation component to study how the residents of his district get around. Past studies have shown that residents of District 4 have high rates of single-occupant vehicle (SOV) use. Reducing SOV use can provide a number of potential benefits for the district. Decreased vehicle miles traveled correlates with increased safety for all road users and results in lower greenhouse gas emissions. In addition, with more people taking other modes to commercial districts, merchants can benefit from alleviated congestion, decreased parking demand and increased number of visitors. For these reasons, the Commissioner requested that the Transportation Authority, in partnership with SFMTA, explore ways to shift residents to other modes with the goals of improving health, livability and economic vitality in District 4 and addressing climate change at a local level. For all tasks, SFMTA work will be funded with General Fund funds.

Study Objectives

1. Understand how residents in District 4 get around with a focus on different travel markets with high shares of SOV use.
2. Identify short (within 1-2 years) and medium-term (within 3-5 years) transportation recommendations to decrease use of SOVs by District 4 residents and increase trips by non-SOV modes such as transit, walking, bicycling, shuttles, carpools, and new mobility options.
3. Engage District 4 residents in developing mobility solutions, and engage merchants in developing solutions for customers accessing their businesses.

Proposed Study Questions:

1. How do District 4 residents get around? What is the existing magnitude and mode share for all trips by residents? What is the magnitude and mode share for trips in various travel markets (based on trip characteristics such as distance and purpose)?
2. Which travel markets have the highest shares of single-occupancy vehicle (SOV) usage by District 4 residents?
3. What are the factors that lead residents to choose SOVs as their preferred mode choice in each travel market? What barriers prevent residents from using non-SOV modes in each travel market?
4. What types of short- and medium-term transportation solutions may we recommend to increase the share of trips by non-SOV modes for each travel market?
5. How can these solutions be funded and implemented?

E5-80

SCOPE OF WORK

Task 1 - Project Management

The Transportation Authority will conduct overall project management and consultant procurement.

*Lead: Transportation Authority

*Deliverable: Consultant task order or contract

Task 2 - Review Previous and Current Planning Efforts

Draw from current ConnectSF/San Francisco Transportation Plan Statement of Needs work to understand District 4 travel patterns. Review past and existing transportation-related planning efforts for District 4 and the Sunset District. This includes The Sunset District Blueprint completed by former Supervisor Katy Tang's office (2014), the Improving West Side Transit Access Strategic Analysis Report completed by the Transportation Authority (2016), the Ocean Beach Master Plan completed by the City and SPUR (2012), and the Sunset District Transit Survey completed by the District 4 Supervisor's Office in previous San Francisco Municipal Transportation Agency (SFMTA) Travel Decision Surveys. Staff will also identify planned medium-term bicycle, pedestrian, and transit improvements for District 4 already identified in SFMTA's Capital Improvement Program and other plans.

*Lead: Transportation Authority

*Consult: SFMTA

*Deliverable: Summary of findings and recommendations from other previous and current studies and planning efforts

Task 3 - Existing Conditions

Analyze existing and new data (anticipated MTC/SFCTA household travel diary survey data) to provide a profile of how District 4 residents travel. Document the magnitude of trips and overall mode share of District 4 residents as well similar analysis for specific travel markets among those trips. Travel markets to investigate may be broken out based on trip characteristics such as distance (internal to district, within San Francisco and trips with destinations/origins outside of San Francisco) and purpose (non-discretionary/commute trips vs. discretionary trips) and stratified by mode, and traveler demographics (income, age). Trips between Golden Gate Park and District 4 is a travel market that will be included in this analysis. Note: School transportation will be excluded as this trip type will be studied separately through the forthcoming San Francisco School Transportation Study.

*Lead: Transportation Authority

*Partner: SFMTA

*Deliverable: Memo summarizing existing conditions and trip market analysis

Task 4 - Goals Identification and Travel Market Needs and Challenges

Based on findings from Task 3, identify key travel markets with high SOV mode share. For each travel market, document existing needs and challenges. Needs identification is about understanding factors and tradeoffs (e.g. speed, reliability, safety, cost) that lead to residents' current mode choice within each travel market. It may also include identifying specific congestion trouble spots or safety hot spots with site visits, data collection and analysis as warranted. Conduct outreach to identify community goals for mobility improvements, share existing conditions findings and collect input on the needs and challenges for each travel market. All outreach will be coordinated with Commissioner Mar's office and conducted in Cantonese and potentially other languages as warranted. Conduct focus groups to identify barriers to residents' use of non-SOV modes (carpooling, taking transit, and/or using active modes). Outreach will include engagement of local community-based organizations and merchant groups throughout the district. Special focus on merchant corridor needs, such as increasing parking turnover and customer access to businesses, in District 4's major commercial corridors. The major commercial corridors to engage are Judah, Noriega, (especially outer Judah and Noriega) and Irving and Taraval.

*Lead: Transportation Authority

*Partner: SFMTA

*Deliverable: Memo summarizing the outreach activities and feedback on goals and challenges by travel market

Task 5 - Mobility Solutions Development

For each of the key travel markets, educate the community about options and collaborate with partner agencies (SFMTA and SF Planning Department) and community members to develop short- and medium-term solutions to increase mode share by non-SOV modes. Solutions will be developed based on needs and challenges identified in Task 4 and may include:

- bicycle or pedestrian facilities improvements
- transit enhancements or circulator services
- commercial corridor traffic strategies
- parking management strategies
- piloting new mobility services
- commute alternative programs (carpool/vanpool services and/or incentives)
- land use strategies
- streetscape and other improvements that support placemaking and creating a pedestrian-friendly environment,

particularly in commercial corridors.

Solutions developed will be described at a conceptual planning level (without any preliminary engineering) and will include high-level or unit-based cost estimates. Conduct outreach with residents and stakeholders to get feedback on solution concepts. Evaluate solutions based on their potential to shift trip modes and/or occupancy. Potential additional outreach: Follow-up with focus groups from Task 4 to workshop solutions for their specific travel market and provide desired prioritization of strategies.

*Lead: Transportation Authority

*Partner: SFMTA

*Consult: SF Planning Department

*Deliverable: Memo summarizing outreach activities and feedback received

*Deliverable: Memo summarizing recommended short- and medium-term solutions

Task 6 – Funding and Implementation Plan

Develop an implementation plan for the recommended solutions. Provide potential funding sources, service partner opportunities and roadmap for implementation.

*Lead: Transportation Authority

*Partner: SFMTA

*Deliverable: Memo of Funding and Implementation Plan

[NEW - TO BE FUNDED BY THIS REQUEST] Task 7 – Great Highway Concepts Analysis

Develop and evaluate alternative concepts for the future of the Great Highway between Sloat Blvd and Lincoln Way. This include data collection and analysis of concepts, identifying complementary street changes needed for each concept, and conducting Great Highway-specific outreach. In addition, this the Great Highway analysis requires coordination with partners at the SFMTA and Recreation and Parks Department (RPD) on understanding costs, operational issues and policy/plan consistency of concepts.

*Lead: Transportation Authority

*Partner: SFMTA, RPD

*Deliverable: Memo summarizing outreach activities and feedback received

*Deliverable: Evaluation of Future Great Highway Concepts

*Deliverable: Recommendations for the Future of the Great Highway

Final Report

Produce a draft and final report documenting the Study methods, findings and recommendations for approval. Present to Transportation Authority Commissioner Mar, Citizens Advisory Committee and Board.

*Lead: Transportation Authority

*Partner: SFMTA

*Deliverable: Draft Report

*Deliverable: Final Report and CAC/Board presentation and adoption.

The Transportation Authority's NTIP is intended to strengthen project pipelines and advance the delivery of community supported neighborhood-scale projects, especially in Communities of Concern and other neighborhoods with high unmet needs.

Deliverables

- Upon completion of outreach, provide memo summarizing outreach activities and feedback received
- Upon completion, provide evaluation of Future Great Highway Concepts and recommendations for the Future of the Great Highway. This deliverable can be satisfied by including this information in the final report for the previously funded District 4 Mobility Improvements Study [NTIP Planning] (SGA 144-901088)

Notes

- Quarterly progress reports will be shared with the District 4 Supervisor.
- All deliverables and conditions for SGA 144-901088 continue to apply to this project.

REQUEST

Brief Project Description

For this project, PCJPB will update and upgrade the Geographical Information System (GIS) system to facilitate the planning, engineering, and maintenance programs, as well benefits to many other departments. It will provide automated data uploading, utility locating equipment with Global Positioning System (GPS), and new data collecting policies and procedures.

Detailed Scope, Project Benefits and Community Outreach

This project will:

- Develop a Caltrain GIS to facilitate planning, engineering and maintenance
- Update utility location information
- Update data collection standards
- Purchase software licenses for the GIS
- GPS Satellite grid and cellular access for automated data uploads
- Purchase utility locating and automated data uploading equipment with GPS that will provide high quality utility data.
- Develop data quality standards and policies and procedures for updating data (including a grading system for the quality of the data collected)
- Convert previously collected utility data into GIS format and incorporate it into the new GIS system

Brief Project Description

This project will perform state of good repair capital maintenance on Caltrain's Bombardier Cars. Caltrain's Cab and Coach Car fleet failures are increasing and it is extremely important to support the state of good repair programs to maintain the Passenger Coach fleet. The current fleet needs to be maintained and operated as they will remain in service after electrification; providing our daily San Jose to Gilroy service.

Detailed Scope, Project Benefits and Community Outreach

This project will perform capital maintenance on Caltrain Bombardier cars to maintain the cars in a state of good repair. Maintenance scheduled may include, but is not limited to: mid-life overhaul, replacement of 480 V power cables, anti-skid stair tread, batteries, cab refurbishment, HVAC overhauls, seat and window replacement, center carpet replacement, PA system repairs and lighting. The current fleet needs to be maintained and operated as they will remain in service after electrification; providing our daily San Jose to Gilroy service.

Brief Project Description

The stations state of good repair project provides improvements and repairs to structures at various stations along the Caltrain right of way to maintain assets in a state of good repair.

Detailed Scope, Project Benefits and Community Outreach

This project will perform capital maintenance at various stations along the Caltrain stations which may include but is not limited to corrosion mitigation, rain shelter replacements, schedule and sign casing replacement, concrete repairs, repair and replace station building roofs, bathroom repairs and other capitalized maintenance items. These repairs are intended to keep these assets in a state of good repair and to provide consistent service to Caltrain patrons.

EXPENDITURE PLAN INFORMATION

Prop K EP categories:	Guideways - PCJPB
Current Prop K Request:	\$500,000
Supervisory District(s):	District 06, District 10

REQUEST

Brief Project Description

JPB will identify the priority of the grade crossings based on the recommendations from the Grade Crossing Hazard Analysis report. Once the grade crossings are identified, JPB will design the safety improvements at the JPB grade crossings.

Detailed Scope, Project Benefits and Community Outreach

JPB will identify the grade crossings that need improvements from the latest 2018 Grade Crossing Hazard Analysis report and develop plans and specifications for the selected crossings. Between 5-10 grade crossings would be selected for an updated design. Because each grade crossing is unique, there will be variations to the design for each crossing.

The notice to proceed (NTP) is anticipated for April 2021. JPB anticipates:

- Completion of the 35% design package (including design drawings) by October 2021
- Completion of the 65% design package (including technical plans and specifications) by April 2022
- Completion of the 100% design package (technical plans and specifications that will be inserted into the Invitation For Bid (IFB) package.) by October 2022

REQUEST

Brief Project Description

For this project, JPB with the help of the consultant will collect data from the video surveillance cameras at all 42 grade crossings along the Caltrain corridor. The data gathered would include but not limited to the number of vehicles crossing at the grade crossings and driving behaviors of the vehicles. The data would help identify the grade crossings that need improvement and help determine what safety mitigations to include such as installing medians, pedestrian gates, guard railings, pavement markers and markings and signage.

Detailed Scope, Project Benefits and Community Outreach

JPB with the help of the consultant will install surveillance cameras at all 42 at-grade crossings along the Caltrain corridor. The video data collected will be analyzed looking at traffic conditions at each grade crossing. It will also help determine traffic counts and driving behaviors of the vehicles, looking for incidents and/or near misses at the crossings. All the data collected from this analysis helps determine what safety mitigations to include such as installing medians, pedestrian gates, guard railings, pavement markers and markings and signage. Data will be collected at all grade crossings along the corridor from San Francisco to Gilroy. There are 2 at-grade crossings in San Francisco (Mission Bay and 16th Street) and data will be collected from those two grade crossings.

The notice to proceed (NTP) is anticipated for April 2021. Video recording and other data will be collected and available by December 2021. A summary report of the findings from the data collection will be available April 2022. The data and analysis will be included and updated in the latest Grade Crossing Hazard Analysis Report, anticipated October 2022.

REQUEST

Brief Project Description

This project will design a replacement for the 118 year old San Francisquito Creek Bridge.

Detailed Scope, Project Benefits and Community Outreach

This project entails the preliminary design for the replacement of the San Francisquito Creek Bridge. The bridge is nearing the end of its useful life and needs to be replaced before its structural condition deteriorates. The project will also design improved bridge abutments to reduce the effects of erosion from the creek.

In Fall 2019, \$600k in funding was approved (\$120k of which was Prop K) for a preliminary feasibility study at the 15% Design Phase. These funds were also used to cover the cost for TASI support during surveying work in the right-of-way and JPB support costs. The additional \$2M in funding (\$227.5k of which is Prop K) will be used to start the next phase of the project that includes planning and outreach efforts, environmental assessments and documents, progress towards with 35% Design Phase, and JPB support costs.

Brief Project Description

JPB will perform minor repairs to Caltrain civil structures, including corrosion mitigation, bird netting, minor concrete repairs and other capitalized maintenance items identified through bridge and structure inspections. These repairs are intended to keep these assets in a state of good repair.

Detailed Scope, Project Benefits and Community Outreach

JPB will perform minor repairs to Caltrain civil structures, including corrosion mitigation, bird netting, minor concrete repairs and other capitalized maintenance items identified through bridge and structure inspections. These repairs are intended to keep these assets in a state of good repair.

Work planned in San Francisco includes installing block wall to prevent trespasser encampment at the Cesar Chavez Bridge, performing concrete repairs to the bridge due to a fire caused by trespasser encampment at the Jerrold Avenue Bridge, and securing the Quint Street Bridge with barriers and/or fencing to prevent trespasser encampment.

Project Location

Systemwide

Project Phase(s)

Design Engineering (PS&E), Construction (CON)

Justification for Multi-phase Request

Multi-phase allocation is recommended given the short duration of the design phase (2 months) and the straightforward nature of the project.

Brief Project Description

The Systemwide Track Rehabilitation Program is an ongoing annual project to keep the Caltrain's railroad track and structures in a state of good repair.

Detailed Scope, Project Benefits and Community Outreach

This project includes multiple work items that are consistent from year to year. These activities may include, but are not limited to: replacement of rail and ties, replacement of track components, thermite welds, track grinding, ballast replacement, track surfacing, vegetation removal, minor structural repairs, switch repairs, weed abatement and regulatory inspections.

Project Location

Systemwide
