(5/23/21 5:00 pm) First the Emergency vehicles drove south to Taraval via the Lower Great Highway. Then they had to drive all the way south to Sloat on the Lower Great Highway, get out of their truck, unlock the gates at Sloat, and drive north on the Upper Great Highway negotiating through bicyclists and any pedestrians that were on the lane with them before they could finally stop and attempt to help. When every second counts that might save a life, this needless delay is

madness. OPEN THE GREAT HIGHWAY!

madness. OPEN THE GREAT HIGHWAY!
