Southeast Rail Station Study (SERSS) Update

- Study Overview
- Station Options
- Public Outreach
The City is planning for the future of rail in the southeastern part of San Francisco.

We want to restore regional rail access to the Bayview-Hunters Point communities.

The Pennsylvania Avenue Extension (PAX) tunnel could require the redesign or relocation of 22nd Street Station.

Starting in 2020, the Planning Department and partner agencies conducted a planning study to determine what station locations could address these needs.

We recommend that the City plan for two Caltrain stations in this area in the future:

- A station at or near the existing 22nd Street Station
- A new station in the Bayview
Potential Station Locations
