Footnotes

¹ "EP Line No./Category" is either the Prop K Expenditure Plan line number reterenced in the 2019 Prop K Strategic Plan or the Prop AA Expenditure Plan category referenced in the 2017 Prop AA Strategic Plan, including: Street Repair and Reconstruction (Street), Pedestrian Safety (Ped), and Transit Reliability and Mobility Improvements (Transit) or the Traffic Congestion Mitigation Tax (TNC Tax) category referenced in the Program Guidelines.

² Acronyms: SFCTA (San Francisco County Transportation Authority); SFMTA (San Francisco Municipal Transportation Agency)

³ "Expected Leveraging By EP Line" is calculated by dividing the total non-Prop K funds expected to be available for a given Prop K Expenditure Plan line item (e.g. Pedestrian Circulation and Safety) by the total expected funding for that Prop K Expenditure Plan line item over the 30-year Expenditure Plan period. For example, expected leveraging of 90% indicates that on average non-Prop K funds should cover 90% of the total costs for all projects in that category, and Prop K should cover only 10%.

"Actual Leveraging by Project Phase" is calculated by dividing the total non-Prop K, non-Prop AA, or non-TNC Tax funds in the funding plan by the total cost for the requested phase or phases. If the percentage in the "Actual Leveraging" column is lower than in the "Expected Leveraging" column, the request (indicated by yellow highlighting) is leveraging fewer non-Prop K dollars than assumed in the Expenditure Plan. A project that is well leveraged overall may have lower-than-expected leveraging for an individual or partial phase.

EP Line No./ Project **Prop K Funds Project Name Project Description** Category Sponsor Requested The Muni Metro Core Capacity Study will identify a package of projects to provide muchneeded capacity and reliability improvements for Muni Metro. Together, selected strategies will provide Muni rail customers faster, longer trains, providing a more reliable quality of service for time-sensitive trips. The outcome of the Study will be a package of projects that would be eligible and competitive for a Federal Transit Administration (FTA) Core Capacity grant application to the Capital Investment Grant program, as well as further definition of investments along key surface segments of the Metro rail system with a focus on the M-line between West Portal and San Francisco State University. The Study will be conducted in two phases. Phase 1 includes but is not limited to prior study review, identifying performance targets, and an initial draft program of core capacity SFMTA, Muni Metro Core projects. Phase 2 would use inputs from Phase 1 to refine and advance a program of \$ 16 1,150,000 Capacity Study SFCTA feasible projects that would achieve the target level of capacity improvement, and complete technical and analytical work to ready an application package for entry into the FTA Capital Investment Grant program. Phase 1 will be complete by September 2022. Phase 2 will be complete by March 2024. This request includes \$150,000 for SFCTA staff to perform an enhanced level of project support and technical oversight given the potential benefits to the entire Muni system and to help position projects to apply for a very competitive discretionary federal grant program.

EP Line No./ Category	Project Sponsor Project Name		Prop K Funds Requested	Project Description					
38	SFMTA	20 MPH Speed Limit Reductions	\$ 750,000	Every year in San Francisco, about 30 people lose their lives and over 500 more are severely injured while traveling on city streets. Beginning January 2022, the City has increased flexibility to reduce speed limits under Assembly Bill 43 (AB43). Using AB43, SFMTA plans to reduce speed limits from 25 mph to 20mph on key business activity districts. Requested Prop K funds would be used to reduce speed limits on up to 46 business activity districts throughout the city, and support with compliance strategies including education and outreach. Implementation is expected to begin in Summer 2022 and be complete in Fall 2024. A list of 35 potential corridors is included in the attached Allocation Request Form. The remaining 11 corridors will be identified and legislated by the end of 2022.					
39	SFMTA	Bike to Work Day 2022	\$ 41,758	Bike to Work Day (BTWD), also called "Bike to Wherever Day" out of respect to the many San Francisco residents currently out-of-work or working from home, is an annual event promoting cycling as a viable commuting option. This year BTWD will be held on May 20, 2022. Prop K funds will cover the sponsorship costs for BTWD through a contract between SFMTA and the San Francisco Bicycle Coalition. This request will fund event promotion and event-day services in all 11 supervisorial districts such as energizer stations with educational materials and activities, as well as SFMTA contract management and oversight.
