Top Vis Valley Projects:

San Bruno Ave bike lanes & traffic safety

Mansell St Streetscape

Connect Vis Valley Greenway

Sunnydale transit access & safety

Final Plan – Mansell St

Above: Mansell Street facing west from Somerset Street

Below: Proposed cross-section for Alternative B, Mansell Street facing west from Somerset Street

Mansell Street Improvements Legend:

- 1 Widen median and construct sidewalk-level shared-use path. This orientation eliminates conflicts with transit and parking, but introduces additional conflicts at intersections, as well as additional costs compared to an on-street bikeway.
- 2 Construct bus bulbs and/or curb extensions and relocate bus stops to improve access to Muni buses and shorten crossing distances for people walking. Coordinate with 29 Sunset Improvement Project.
- 3 Retain on-street parking and loading on Mansell St. Narrow parking lane from 11 feet to 8 feet to accommodate bikeway.

Final Plan – Mansell St

What we've heard so far:

- Preference for walking path in the median
- More traffic-calming, especially near the High School
- Downhill bike lane should be protected & next to median
- Median won't be safe enough to be used as a community space

Next Steps:

Continued Design

Consider & evaluate 3 different design options

Community Collaboration

How do we create a space people will embrace?

Grant Application & Implementation

Grant applications following Plan adoption

Final Plan - Policy Recommendations

Reflecting community-voices & needs not directly addressed through infrastructure projects:

- **Community Partnerships**
- **Transit Safety & Transit Service**
- **Facilitate Local Trips**
- **Multi-Lingual Access to Services**
- **Bike Education & Access**
- **Support Community-led Greening**
- **Parking Demand & Management**
- **Diverse Communities – Diverse Needs**

Next Steps

- Adopt Final Plan – March 2023
- Traffic Calming & NTIP – Summer 2023
- Grant Applications & Implementation - 2024
