Agenda

COMMUNITY ADVISORY COMMITTEE Meeting Notice

DATE: Wednesday, June 28, 2023, 6:00 p.m.

LOCATION: Hearing Room, SFCTA Offices

Join Zoom Meeting: https://us02web.zoom.us/j/84625889169

Meeting ID: 846 2588 9169

One tap mobile:

+16699006833,,84625889169# US (San Jose)

+16694449171,,84625889169# US

Dial by your location:

Bay Area: +1 669 900 6833 US (San Jose)

Toll-free: 833 548 0276

833 548 0282 877 853 5247

Find your local number: https://us02web.zoom.us/u/kpPFEJCSe

PUBLIC COMMENT DURING THE MEETING:

To make public comment on an item, when the item is called, members of the public participating by Zoom wishing to speak should use the "raise hand" feature or dial *9. When called upon, unmute yourself or dial *6. In order to get the full Zoom experience, please make sure your application is up to date.

MEMBERS: Kevin Ortiz (Chair), Kat Seigal (Vice Chair), Sara Barz, Rosa

Chen, Najuawanda Daniels, Mariko Davidson, Calvin Ho, Sean Kim, Jerry Levine, Rachael Ortega, and Eric Rozell

Remote Access to Information and Participation

This meeting will be held remotely and will allow for remote public comment pursuant to AB 361, which amended the Brown Act to include Government Code Section 54953(e) and empowers local legislative bodies to convene by teleconferencing technology during a proclaimed state of emergency under the State Emergency Services Act so long as certain conditions are met.

Written public comment may be submitted prior to the meeting by emailing the Clerk of the Transportation Authority at clerk@sfcta.org or sending written comments

Board Meeting Notice - Agenda

*Additional Materials

Next Meeting: July 26, 2023

Items considered for final approval by the Board shall be noticed as such with **[Final Approval]** preceding the item title.

The meeting proceedings can be viewed live or on demand after the meeting at www.sfgovtv.org. To know the exact cablecast times for weekend viewing, please call SFGovTV at (415) 554-4188 on Friday when the cablecast times have been determined.

The Legislative Chamber (Room 250) and the Committee Room (Room 263) in City Hall are wheelchair accessible. Meetings are real-time captioned and are cablecast open-captioned on SFGovTV, the Government Channel 26 or 99 (depending on your provider). Assistive listening devices for the Legislative Chamber and the Committee Room are available upon request at the Clerk of the Board's Office, Room 244. To request sign language interpreters, readers, large print agendas or other accommodations, please contact the Clerk of the Transportation Authority at (415) 522-4800. Requests made at least 48 hours in advance of the meeting will help to ensure availability. Attendees at all public meetings are reminded that other attendees may be sensitive to various chemical-based products.

If any materials related to an item on this agenda have been distributed to the Board after distribution of the meeting packet, those materials are available for public inspection at the Transportation Authority at 1455 Market Street, Floor 22, San Francisco, CA 94103, during normal office hours.

Individuals and entities that influence or attempt to influence local legislative or administrative action may be required by the San Francisco Lobbyist Ordinance [SF Campaign & Governmental Conduct Code Sec. 2.100] to register and report lobbying activity. For more information about the Lobbyist Ordinance, please contact the San Francisco Ethics Commission at 25 Van Ness Avenue, Suite 220, San Francisco, CA 94102; (415) 252-3100; www.sfethics.org.

DRAFT MINUTES

Community Advisory Committee

Wednesday, May 24, 2023

1. Committee Meeting Call to Order

Chair Ortiz called the meeting to order at 6:02 p.m.

CAC members present at Roll: Sara Barz, Rosa Chen, Najuawanda Daniels, Mariko Davidson, Sean Kim, Jerry Levine, Rachael Ortega, Kevin Ortiz, Eric Rozell, and Kat Siegal (10)

CAC Member Absent at Roll: Calvin Ho (1)

2. Chair's Report - INFORMATION

Chair Ortiz reported that outreach was conducted for the District 1 Multimodal Transportation Study through June and that a multilingual survey was available on the project website. Next, Chair Ortiz announced that the Transportation Authority was conducting outreach for Prop L implementation and project prioritization, noting that there was a multilingual survey available online until June 30th and a virtual Town Hall on June 20th. Finally, Chair Ortiz welcomed Sean Kim to the CAC as the new District 1 representative.

Member Kim introduced himself, stating that he was a small business owner, originally from South Korea, who used multiple modes of transportation to get his family around the Richmond district and the city at large.

There was no public comment.

Consent Agenda

- 3. Approve the Minutes of the April 26, 2023 Meeting ACTION
- 4. Internal Accounting Report, Investment Report, and Debt Expenditure Report for the Nine Months Ending March 31, 2023 INFORMATION*
- 5. State and Federal Legislation Update INFORMATION*

There was no public comment on the Consent Agenda.

Member Levine moved to approve the Consent Agenda, seconded by Member Rozell.

The Consent Agenda was approved by the following vote:

Ayes: CAC Members Barz, Chen, Daniels, Davidson, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (10)

Absent: CAC Member Ho (1)

Page 2 of 12

End of Consent Agenda

6. Adopt a Motion of Support to Adopt the Ocean Avenue Mobility Action Plan [NTIP Planning] – ACTION*

Aliza Paz, Principal Transportation Planner, presented the item per the staff memorandum.

Member Barz stated that she was a member of the task force and supported the plans but wished that the infrastructure recommendations would have gone farther.

Member Davidson stated that she and her family used the corridor frequently and it was great to see improvements. She echoed Member Barz's comments about there being a need for more robust infrastructure and stated that as a cyclist she wanted to see more protected bike lanes, especially on arterial roads.

Member Rozell stated that he would like more information on why the plan proposes the sharrows and asked what wayfinding was incorporated in the project. He stated that the mix of lane styles could be confusing so there needed to be very visible wayfinding.

Mx. Paz responded that way finding would be a part of the next phase of detailed design.

Member Rozell stated that he liked the idea of mountable curbs but that he believed that wayfinding should be included in the first phase.

Vice Chair Siegal echoed the comments of the other members and asked if daylighting was recommended for all the project intersections.

Mx. Paz responded that the plan appendix lists which recommendations were made for each intersection and that daylighting was recommended for most of the intersections.

Vice Chair Siegal asked why daylighting was not recommended for all the intersections.

Mx. Paz responded that there were certain intersections limited by design concerns.

Member Ortega asked if the study had considered removing cars from the K train lane.

Michael Rhodes, San Francisco Municipal Transportation Agency (SFMTA), responded that they had evaluated that possibility, but it was not ultimately recommended.

During public comment, Paula Katz stated that train stops should not be removed along the K-line. She stated that it would create a hardship for seniors, riders with disabilities, and other mobility issues. She pointed out that the SFMTA surveys only asked if the respondent was ok with stop removals, not if they were ok with making seniors and those with mobility challenges walk further.

Alyssa Chung stated that she was supportive of the recommendations but was concerned about the lack of protected bike lanes and inadequate traffic calming. She stated that her family bikes down Holloway Avenue frequently and she has had a few close calls. She stated that there needed to be more robust infrastructure improvements to protect cyclists and pedestrians.

Page 3 of 12

Justin stated that he bikes down Holloway but did not often see other bikers. He supported better bike infrastructure and hoped that it would lead to more people feeling comfortable biking.

Chair Ortiz asked how many bus stops would be removed.

Michael Rhodes stated that they recommended removing one at the intersection of Westgate and Cerritos because the island was shorter than the train car and because the street was curved, the island could not be lengthened.

Chair Ortiz asked how close the next nearest train stop was.

Mr. Rhodes stated that it was at Aptos Middle School, a short block away.

Chair Ortiz asked if it would be possible to move the Westgate stop up one block.

Mr. Rhodes responded that they could look into that and they would need to consider the geometry. He stated that SFMTA would be doing community outreach as a part of the final stop removal proposal and that those results would be shared with senior leadership.

Member Barz asked what was the limitation on dedicated bike lanes on Holloway.

Mx. Paz stated that some blocks of Holloway had many driveways that make protected bikeways difficult to install. They also explained that some blocks of Holloway have existing curb extensions / rain gardens which would need to be removed in order to add bi-directional separated bike lanes.

Member Barz asked about whether traffic calming could still be considered, such as whether Holloway could become a neighborway in the future.

Mx. Paz stated that this was correct.

Member Barz asked whether this recommendation could be added to the report.

Rachel Hiatt, Deputy Director for Planning, responded that SFMTA could describe how new neighborways would be designated. She added that in order to change the recommendations in the report, the Task Force should weigh in, to respect the process of the Task Force making the study recommendations.

Member Barz moved to approve the item, seconded by Member Davidson.

The item was approved by the following vote:

Ayes: CAC Members Barz, Chen, Davidson, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (10)

Abstain: CAC Member Daniels (1)

Absent: CAC Member Ho (1)

7. TNCs 2020: A Profile of Ride Hailing in California – INFORMATION*

Joe Castiglione, Deputy Director for Technology, Data, and Analysis, presented the item per the staff memorandum.

Member Rozell stated that he was concerned with the accuracy of the reported data and asked how the TNCs could be held accountable.

Page 4 of 12

Mr. Castiglione responded that the report was meant to shine a light on the data and that the lack of integrity of the data was surprising. He added that one of the ways the Transportation Authority could do that was by engaging with the California Public Utilities Commission (CPUC) and that both the Transportation Authority and SFMTA had flagged these issues for the CPUC over a year ago.

Member Levine echoed Member Rozell's comments and stated that the data was unacceptable and not very useful. He stated that he was especially concerned with the public safety data and that data needed to be consistent and accurate.

Chair Ortiz asked about Prop D tax revenue.

Mr. Castiglione responded that using the data to understand Prop D revenue posed some challenges because a lot of the information that was reported by the CPUC had been redacted and that made it hard to audit tax revenue collection.

Deputy Director LaForte added that Prop D was a per trip tax and that data was extremely limited as far as who paid what. She emphasized that this was one reason why this report was so important.

Member Levine asked when the next report would be.

Director Castiglione stated when unreacted data becomes available, the Transportation Authority would provide an update.

Chair Ortiz asked whether San Francisco had joined with Los Angeles and San Diego to advocate against TNCs to the CPUC.

Director Castiglione responded that the Transportation Authority worked mostly with SFMTA and the Mayor's office to coordinate on TNC issues. He stated that while other cities have not been as active as San Francisco, they are involved.

Member Davidson asked if there was any talk of penalizing companies for withholding data. She asked if there was any standardized reporting or definitions.

Mr. Castiglione replied that there have been discussions about potential actions regarding potential penalties, but that ultimately that was the discretion of the Commissioners.

During public comment, Edward Mason stated that this was a result of the culture of convenience and that TNCs were having a negative economic and climatic effect.

8. Adopt a Motion of Support to Adopt the Proposed Fiscal Year 2023/24 Budget and Work Program – ACTION*

Lily Yu, Principal Management Analyst, presented the item per the staff memorandum.

There was no public comment.

Member Barz moved to approve the item, seconded by Vice Chair Siegal.

The item was approved by the following vote:

Ayes: CAC Members Barz, Chen, Daniels, Davidson, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (10)

Absent: CAC Member Ho (1)

Page 5 of 12

9. Adopt a Motion of Support to Adopt the Octavia Improvements Study Final Report [NTIP Planning] - ACTION*

Rachel Hiatt, Deputy Director for Planning, presented the item per staff memorandum.

Vice Chair Siegal stated that she was generally supportive of the report recommendations but would like to see more robust infrastructure improvements including pedestrian bulb outs at every intersection along Oak and Fell Streets. She also stated that she wanted more aggressive intersection treatments to meter traffic. She asked why raised sidewalks were generally limited to side streets and not on the Boulevard.

Case Hildreth, SFMTA, responded that they would get pushback both internally and from the San Francisco Fire Department as raised sidewalks created a challenge for them on multi-lane streets with high volumes of vehicles. He said SFMTA planned to pilot raised sidewalks in the Tenderloin and would evaluate the results.

Vice Chair Siegal asked why the signals cannot be timed across Octavia Street.

Casey Hildreth responded that it was tricky because it would lead vehicles to get backed up and have to wait longer. It was assumed that this would cause driver frustration leading to increased bad driving behavior. He stated that the intersection of Market and Octavia was the bottleneck and any changes to signal timing would require a ripple effect of needed signal changes stretching all the way to downtown.

Vice Chair Siegal expressed support for the recommendation to study a dedicated HOV/transit lane on Oak, and asked why the lane would end at the Wiggle and whether it could be extended further along Oak.

Deputy Director Hiatt responded that SFMTA was installing a Quickbuild project on Oak Street west of the Wiggle that would mirror the protected bike lane on Fell Street.

Member Ortega supported the proposed regional transit hub at Civic Center as she believed the city needed more transit centers outside of the Downtown.

Member Kim stated that he had a different view from some of the members. He explained that small businesses owners need to drive to locations like the south bay and produce market or have vendors from the south bay travel to businesses, and that they use Octavia Boulevard for these trips, along with other cross town routes such as 19th Avenue. He stated that the traffic calming recommendation for the Octavia side streets is a better balance between the needs of safety and the need for traffic flow.

Member Barz asked for clarification about the regional bus network recommendation.

Deputy Director Hiatt responded that SamTrans conducted an Express Bus Feasibility Study pre pandemic which recommended routes serving the west side of San Francisco, but those routes were not being implemented because of the financial impacts of the pandemic on transit. Ms. Hiatt explained that the recommendation for regional express bus planning would include revising that study for post pandemic conditions.

There was no public comment.

Vice Chair Siegal moved to approve the item, seconded by Member Levine.

Page 6 of 12

The item was approved by the following vote:

Ayes: CAC Members Barz, Chen, Daniels, Davidson, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (10)

Absent: CAC Member Ho (1)

10. Adopt a Motion of Support to Adopt the Prop L Strategic Plan Baseline - ACTION*

Anna LaForte, Deputy Director for Policy and Programming, and Amelia Walley, Program Analyst, presented the item per the staff memorandum.

Member Kim expressed that as a new member, he was unsure of what specifically to ask and requested a general explanation for a beginner.

Ms. LaForte acknowledged that the item was complicated and went on to explain that Prop L passed in November and superseded Prop K. She stated that the last of the Prop K allocations were allocated in March and that the Transportation Authority was developing the Strategic Plan and 5-Year Prioritization Programs (5YPPs) in order to implement Prop L. She remarked that these documents were how the Transportation Authority manages the program on a financial basis and provides transparency to the Board and the public. She also noted that agencies would still need to request allocation of funds from the Board later on, but that programming status was very important.

Vice Chair Siegal commented that she would like to see the Strategic Plan specifically call out and prioritize Vision Zero projects given the number of fatalities last year and the upcoming deadline.

Member Barz asked if each Prop L programs' share of revenue was set in the ballot measure

Ms. LaForte confirmed that was correct.

Member Barz asked how the new project delivery oversight guidelines were taking shape.

Ms. LaForte responded that the Transportation Authority has had project delivery oversight guidelines on a [major capital] projects on a project basis and anticipated basing the new guidelines on what the Transportation Authority has been doing in order to oversee that a given project is advancing according to scope, schedule, budget, and funding plan.

Member Barz commented that the new guidelines sound like an evolution of existing guidelines and asked if the intent was to avoid projects taking a long time and ballooning in cost.

Ms. LaForte replied that those were things that the Transportation Authority hoped to achieve with these guidelines. She continued that the Transportation Authority felt that if it was funding projects, it should be engaged in oversight and even if pitfalls could not be avoided, they could at least be assessed, risk could be managed, and the CAC and Board could be kept aware.

Page 7 of 12

Member Rozell echoed Vice Chair Siegal's earlier comment and emphasized a desire to expedite the Vision Zero mission.

Chair Ortiz asked for further detail on the BART Core Capacity rail car replacement contract.

Ms. LaForte replied that the contract was for expansion vehicles and that the Transportation Authority was working closely with funding partners as part of a larger conversation.

Chair Ortiz opined that BART district counties should identify warehouse space so that BART could assemble and manufacture its own cars to save time and resources.

During public comment, Edward Mason remarked that given the context of multiple store closures recently, it would be a challenge to maintain revenue. He expressed concern about the instruments used to generate investment income considering interest rates and pointed to Silicon Valley Bank as an example. He referenced the Central Subway project's change orders and cost overruns and wondered if there was a need for an Auditor General, or if that was something the Transportation Authority could take on, similar to the Valley Transportation Authority.

Roland Lebrun commented that BART cars were being manufactured in the East Bay already. He said he thought it would be great if the CAC would advocate for the manufacture of high-speed trains at the same factory. He stated that as far as megaprojects go, he believed Central Subway went well. He said that the Valley Transportation Authority was being audited by the State of California and that results were scheduled to be published in October. He said the Federal government would be next.

Vice Chair Siegal moved to approve the item, seconded by Member Chen.

The item was approved by the following vote:

Ayes: CAC Members Barz, Chen, Daniels, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (9)

Absent: CAC Members Davidson and Ho (2)

11. Adopt a Motion of Support to Adopt Guidance for Development of the 2023 Prop L 5-Year Prioritization Programs - ACITON*

Mike Pickford, Senior Transportation Planner, presented the item per the staff memorandum.

Member Ortega asked how major projects like Central Subway were funded.

Mr. Pickford replied that larger projects tended to have more complex funding plans and that locally controlled funding sources like the Prop L sales tax were helpful for matching outside funding sources including state and federal grants. He said that funding large projects was often a process of packaging multiple funding sources together.

Member Kim asked about the status of the District 1 Mobility Study and the 19th Avenue Subway Study and whether those projects would be included in 5YPPs.

Page 8 of 12

Mr. Pickford replied that the District 1 Mobility Study was funded through the Prop K Neighborhood Program. He said that Prop L Expenditure Plan included a dedicated program for the Neighborhood Transportation Program and that staff expected to recommend \$700,000 in funding for each district in that program over the coming five years, which would be the same as the prior five years. Mr. Pickford said that this item was outlining the process through which individual projects would be selected to be included in 5YPPs, adding that the item before the CAC did not identify individual projects yet.

Anna LaForte replied that recommendations coming out of neighborhood plans, such as the District 1 Mobility Study or the District 5 or District 7 studies that were considered earlier in the meeting would potentially be eligible for Prop L funding. She said that Prop L Neighborhood Transportation Program funds were intended to help with early phases of these projects, such as planning and design, to help them compete for larger grant sources and that Prop L could provide matching funds.

Ms. LaForte said other programs such as Muni Metro Core Capacity would help projects advance to compete for big money at the federal level. She said that the Portal/Downtown Rail Extension (DTX) project was competing for funds from the Federal Capital Investment Grant Program. She said it was important to put local funds on DTX to demonstrate local commitment and qualify the project for \$3.3 billion from the federal government.

Chair Ortiz expressed concern that the Neighborhood Transportation Program and Equity Priority Transportation Program were toward the bottom of the list of 28 programs in Prop L and that that did not demonstrate a commitment to those programs. He said that focusing on the neighborhoods and interconnecting them with transportation would really help bring back a lot of trust.

Chair Ortiz also recommended conducting some in-person town halls, in addition to the planned virtual town hall. He suggested working and partnering with community-based organizations in equity priority communities, especially Chinatown, the Mission, and Bayview. He suggested working with partners who had previously been involved in community-based transportation plans and that had a preexisting network to plug into.

Chair Ortiz also said that it was a problem that BART was outsourcing developing and manufacturing rail cars rather than doing that work in house. He said he would like to prioritize potentially looking at a project to manufacture rail cars.

Mr. Pickford replied that the Expenditure Plan programs were not in priority order and that the Expenditure Plan established the proportion of funds for each program, so they do not compete with one another.

Mr. Pickford said that staff were available to present on Prop L to community-based organizations at their meetings. He asked if CAC members had suggestions for organizations with upcoming meetings that may be interested in receiving a presentation.

Ms. LaForte said that the Transportation Authority sent out an email to community-based organizations regarding rescheduling the town hall to June 20th from 6pm to 7pm and notifying them that the online survey had been extended through the end of June.

Page 9 of 12

During public comment, Roland Lebrun said that BART cars would be maintained at the Hayward facility. He said that there would be a massive maintenance facility just north of Diridon Station. He said that he wanted to echo Ms. LaForte's comments about the importance of local match funding for DTX. He said regarding the Development Oriented Transportation program that there would need to be more of that type of investment. He said that intermodal planning was important for areas like the boundary between San Francisco and San Mateo counties near Candlestick Point. He said that this area would have 20,000 jobs and 10,000 housing units and that we need to make transportation work with this development. He said that developers would pay for most of the infrastructure.

Vice Chair Siegal moved to approve the item, seconded by Member Kim.

The item was approved by the following vote:

Ayes: CAC Members Barz, Chen, Kim, Levine, Ortega, Ortiz, Rozell and Siegal (8)

Absent: CAC Members Daniels, Davidson, and Ho (3)

12. San Francisco Municipal Transportation Agency Commuter Shuttle Bus Program - INFORMATION*

Phillip Cranna, SFMTA Enforcement and Legal Affairs Manager, and Danny Yeung, Permits and Administration Acting Manager, presented the item per the staff memorandum.

Member Levine stated that he was worried about the large number of unlicensed or unpermitted vehicles on the streets. He stated that the information that was publicly reported did not seem to go anywhere. He stated that enforcement of these violations needed to be stepped up, especially as commuter bus ridership plummeted but the buses still blocked traffic.

Mr. Cranna responded that SFMTA had a staffing shortage but had explored shifting taxi investigators over to monitor commuter shuttle buses.

Mr. Yeung stated that there was a wide range and variety of shuttle buses, so it was not accurate to think of the commuter shuttle bus operators as all the same.

Member Levine stated that based on the feedback that the CAC had heard from members of the public, there needed to be more enforcement.

Mr. Yeung stated that the program was voluntary and not all commuter shuttle bus companies participated, for example casino and tour buses. He stated that SFMTA only controlled the local shuttle stops.

Member Rozell expressed similar concerns about the number of unpermitted buses that have been reported. He stated that he would like forced participation in the program. He asked if there was any relationship between the number of commuter buses on a street and it being included in the high injury network.

Vice Chair Siegal questioned if the program was limited to cost recovery or if it could generate revenue.

Page 10 of 12

Mr. Yeung responded that a state mandate limited the program to cost recovery, including staff time, but ultimately did not give them much power.

Vice Chair Siegal asked what the basis for the state mandate was.

Mr. Cranna stated that it was Proposition 26 that limited the program to cost recovery.

Mr. Yeung elaborated that the law stated that agencies cannot impose or raise a tax without voter approval.

Chair Ortiz asked for clarification about the difference between a parking violation and an administrative violation of the program permit terms.

Mr. Cranna stated that as a requirement of companies getting a permit is that they abide by the program rules and if they violate those rules their permit can be revoked.

Chair Ortiz followed up and asked if SFMTA could set its own fines amount.

Mr. Cranna stated that the maximum amount was \$1,000.

Chair Ortiz asked if we could enforce the \$1,000 fine for every double-parking violation.

Mr. Cranna stated that there was a matrix which guided how SFMTA set fine amounts and often it was hard to tell exactly what the violation was.

Mr. Yeung stated that most of the participants in the program abided by the rules.

Chair Ortiz stated that there needed to be more deterrence of bad commuter shuttle bus behavior.

Mr Cranna stated that SFMTA had done what it could with its resources but unfortunately moving violations required the police to catch buses in the act.

Member Rozell stated that scooters had technology that indicated when they were being ridden on the sidewalk and concluded that buses could have a similar set up.

During public comment Edward Mason stated that commuter shuttle buses began to appear around 20 years ago and there was no environmental impact report. He stated that Parking Control Officers enforcement was down in recent years.

Paula Katz stated that the commuter shuttle bus companies should be assessed a tax to operate in the city. She stated that the buses did not help most people and that they symbolized the culture of convenience.

Kevin Wallace sated that technology companies came in the city 10 years ago as carpet bagger who just wanted to make money. He stated that he observed the rules broken every day and that there needed to be more enforcement.

Chair Ortiz asked why commuter shuttle buses were not regulated similar to taxis.

Mr. Cranna responded that the commuter shuttle buses fell under the CPUC's jurisdiction, so SFMTA did not have the authority to regulate and that was why the program was voluntary.

Member Levine stated that the City should develop more control over the commuter shuttle buses.

Page 11 of 12

Other Items

13. Introduction of New Business - INFORMATION

Member Barz stated that the San Francisco Chronicle published a story about SFMTA's lack of traffic enforcement. She asked what was SFMTA's strategy for traffic enforcement, how they prioritized for safety, and how they chose their routes.

Member Rozell echoed Member Barz's comments and specified that there should be a focus on enforcement of the five most deadly traffic violations. He then reiterated his previous request for information on the requirements of sub-contractors to meet ADA compliance. He stated anecdotally that he had seen multiple instances of ADA ramps being out of compliance.

Vice Chair Siegal asked for a breakdown of how much SFMTA and SFPD spent on traffic enforcement and how they worked together.

Chair Ortiz asked for a report on how many crosswalks had been daylighted in equity priority communities. He requested representative from Assemblymember Ting's and Senator Wiener's offices present to the CAC about what their offices were doing about traffic enforcement and the transit fiscal cliff.

Member Rozell requested a presentation from SFMTA and more information on the plans to extend the hours of parking meters.

Member Ortega echoed Member Rozell's comments and asked what the reasoning behind the expansion was.

Vice Chair Siegal requested a data report on the speed reductions in the Tenderloin.

Member Kim requested information on SFMTA's future plans for parking enforcement.

Member Barz asked for information on how transit would be funded if there was no state bailout. She stated that while the decision was still pending, Assemblymember Ting's advocacy was not adequate and the Assembly needed to pass a new budget that included more funding for transit.

Member Rozell requested information about traffic enforcement in relation to the High Injury Network.

Chair Ortiz requested that Assemblymember Ting and Senator Weiner appear before the Transportation Authority Board to discuss the transit fiscal cliff.

During public comment, Roland Lebrun stated that it may be appropriate to start having two CAC meetings a month.

14. Public Comment

During public comment, Ed Mason stated that commuter shuttle buses had clogged streets and damaged the environment but the fees the companies paid did not cover those costs. He stated that SFMTA was losing potential revenue and that the cost were passed on to the taxpayers. He closed by saying that ridership was down and commuter bus companies should be assessed a taxi medallion fee of \$250,000 to operate.

Paula Katz stated that she appreciated the timer that showed how much time callers

Page 12 of 12

had remaining to make their comment.

Roland Lebrun requested that Clerk Saunders show a video about the 22nd Street Caltrain station and its lack of intermodal connections to other transit operators.

15. Adjournment

The meeting was adjourned at 9:36 p.m.

San Francisco County Transportation Authority Agenda Item 4

State Legislation - June 2023

(Updated June 6, 2023)

To view documents associated with the bill, click the bill number link.

Staff is recommending a new oppose unless amended position on Assembly Bill (AB) 825 (Bryan) as shown in **Table 1**.

Table 2 shows the status of active bills on which the Board has already taken a position, or that staff has been monitoring as part of the watch list.

Table 1. Recommended New Positions

Recommended	Bill #	Title and Summary	
Positions	Author		
Oppose Unless Amended	AB 825	Vehicles: bicycles on sidewalks.	
Amended	Bryan D	Existing law authorizes a local authority to adopt rules and regulations regarding the operation of bicycles on public sidewalks. San Francisco has chosen to implement a prohibition of bicycles on sidewalks except for riders under 13 years of age, primarily due to safety concerns given the city's narrow sidewalks and high concentration of pedestrians. AB 825 would authorize the operation of bicycles on sidewalks statewide, unless the adjacent street has a striped or otherwise separated bicycle lane or trail. It would also require cyclists to yield to pedestrians and not exceed 10 miles per hour. It would remove the existing option for local jurisdictions to adopt alternate rules and regulations about bicycle use on sidewalks that are reflective of local conditions. We are recommending an oppose unless amended position, as the bill would introduce significant new dangers for pedestrians, in particular seniors, people	
		with disabilities. Further, the proposed 10 miles per hour speed limit is too high and would be, in practicality, unenforceable.	
		SFMTA has submitted a letter to the author detailing their concerns and hopes to work with him on amendments that would retain discretion for San Francisco and other jurisdictions to determine whether and where to authorize sidewalk riding. We understand that one of the author's major objectives for introducing the legislation is to address the social harms created by policing public spaces, which disproportionately impact Black, Latin American, and low income people. We will support SFMTA in advancing an alternative way to accomplish this, such as the approach of Assemblymember Ting's bill last year (AB 2147) which prohibited enforcement of jaywalking laws statewide.	

San Francisco County Transportation Authority Agenda Item 4

Table 3. Bill Status for Positions Taken in the 2023-24 Session

Below are updates for the two-year bills for which the Transportation Authority have taken a position or identified as a bill to watch. Updates to bills since the Board's last state legislative update are italicized.

Adopted Positions / Monitoring Status	Bill # Author	Bill Title	Update to Bill Status ¹ (as of 06/08/2023)
	ACA 1 Aguiar-Curry D Haney D Principal Coauthor: Wiener D	Local government financing: affordable housing and public infrastructure: voter approval. Reduces the voter threshold from two-thirds to 55% for a city, county, or special district to approve a bond measure that funds the construction, reconstruction, rehabilitation, or replacement of public infrastructure, affordable housing, or permanent supportive housing.	Assembly Local Government
Support	AB 251 Ward D	California Transportation Commission: vehicle weight safety study. Requires the formation of a task force to study the relationship between vehicle weight and injuries to vulnerable road users and the costs and benefits of a passenger vehicle weight fee.	Senate Transportation
	AB 361 Ward D	Vehicles: video imaging of bicycle lane parking violations. Authorizes the use of automated forward-facing cameras on parking enforcement vehicles for the purpose of citing parking violations in bicycle lanes.	Senate Transportation
	AB 645 Friedman D	Vehicles: speed safety system pilot program. Establish a pilot safety program, including limited authorization of speed safety cameras.	Senate Desk
Watch	AB 6 Friedman D	Transportation planning: regional transportation plans: Solutions for Congested Corridors Program: reduction of greenhouse gas emissions. Increases state involvement in regional Sustainable Communities Strategy development and requires projects nominated to receive SCCP funds to demonstrate how it would contribute to achieving the state's greenhouse gas emission reduction targets.	Senate Desk

San Francisco County Transportation Authority Agenda Item 4

AB 7 Friedman D	Transportation: planning: project selection processes.	Senate Desk
	Requires state transportation agencies to incorporate a wide range of principles into their project identification processes (including vision zero, resiliency, ZEV infrastructure, not increasing passenger VMT) and requires the next update to the California Transportation Plan include a financial element.	
AB 761 Friedman D	Transit Transformation Task Force. Establishes a task force to develop policies to grow transit ridership and improve the transit experience, requiring a report to the Legislature by January 1, 2025.	Senate Transportation

¹Under this column, "Chaptered" means the bill is now law, "Dead" means the bill is no longer viable this session, and "Enrolled" means it has passed both Houses of the Legislature. Bill status at a House's "Desk" means it is pending referral to a Committee.

Memorandum

AGENDA ITEM 5

DATE: June 20, 2023

TO: Transportation Authority Board

FROM: Carl Holmes - Deputy Director for Capital Projects

SUBJECT: 06/27/23 Board: Major Capital Project Update: Caltrain Modernization Program

RECOMMENDATION ☑ Information ☐ Action	☐ Fund Allocation
None. This is an information item.	☐ Fund Programming
SUMMARY	☐ Policy/Legislation
The Caltrain Modernization (CalMod) program is a \$2.72	☐ Plan/Study
billion suite of projects, which includes Positive Train Control (PTC) and the Peninsula Corridor Electrification Project (PCEP).	⊠ Capital Project Oversight/Delivery
PTC was completed in December 2020. PCEP is comprised of electrification of the Caltrain line between San Jose and San	☐ Budget/Finance
Francisco, upgrade of the signal system, and the procurement	☐ Contract/Agreement
of electric multiple-unit vehicles (EMUs). As of April 30, 2023, PCEP has expended 82.19% of its current budget. Work is	□ Other:
continuing on the installation of the Overhead Contact System	
(OCS) poles, cantilever arms, and contact wire, and the traction power facilities are nearing completion. The first four	
EMU trainsets have been delivered and are undergoing static	
testing. On June 5, 2023, the first train was run on the	
project's drill track under OCS power, a most anticipated	
event. The current PCEP Baseline Budget is \$2.44 billion, and	
the project is fully funded. In January 2023, Caltrain received	
\$367 million from the state's Transit and Intercity Rail Capital Program which, together with the previously awarded \$43	
million from the federal Omnibus Appropriations Bill, fully	
covers the \$410 million funding shortfall resulting from the	
December 2021 Baseline Budget adjustment. The planned	
revenue service date is September 2024. Caltrain staff will	
attend the June 27 Board meeting to provide a brief project	
update.	

Agenda Item 11 Page 2 of 5

BACKGROUND

CalMod is a \$2.72 billion suite of sustainable projects that will electrify and upgrade the performance, operating efficiency, capacity, safety, and reliability of Caltrain commuter rail service, while improving air quality and reducing greenhouse gas emissions. CalMod includes the PTC Project, which was completed on December 17, 2020, and the PCEP, which has two components: electrification of the Caltrain line between San Jose and San Francisco; and the purchase of EMUs to operate on the electrified railroad. Revenue service is scheduled for September 2024.

The CalMod Program will improve system performance with faster, more reliable service while minimizing equipment and operating costs. The CalMod Program is critical to the long-term financial sustainability of Caltrain. The improvements will extend for 52 miles from San Francisco to San Jose and will also prepare the alignment for the future High-Speed Rail blended system. The Federal Transit Administration (FTA) approved the Full Funding Grant Agreement for the project in 2017.

Like any large capital project, the CalMod funding plan relies on contributions from multiple funding partners including the three Peninsula Corridor Joint Powers Board (PCJPB) member counties (San Francisco, San Mateo, and Santa Clara), the Transportation Authority, MTC, and the California High-Speed Rail Authority (CHSRA), in addition to the FTA. Funding contributions were codified in a series of memorandums of agreement, of which the latest included an oversight protocol. The three PCJPB counties have provided a local contribution of \$80 million each to the CalMod program. The Transportation Authority provided about \$41 million, primarily from the Prop K sales tax and One Bay Area Grant programs. The San Francisco Municipal Transportation Agency provided the remaining \$39 million of San Francisco's local contribution from the Prop AA General Obligation Bond.

The Funding Partners oversight protocol for CalMod requires the Executive Director of Caltrain to attend a Board of Supervisors meeting twice a year to provide an update on the CalMod Program. With the concurrence of the President of the Board of Supervisors, the updates since 2019 have taken place at Transportation Authority Board meetings.

DISCUSSION

The paragraphs below provide a brief status update on the CalMod program.

Positive Train Control (PTC) [COMPLETED]. This \$329.3 million project is complete. PTC is an advanced signal system that equipped the corridor with federally mandated safety technology. Caltrain received conditional approval of the PTC Safety Plan from the Federal Railroad Administration (FRA) in December 2020. PTC is currently in Revenue Service and is fully interoperable with all tenants. Caltrain's Interoperable Electronic Train Management System is now certified by the FRA as a mixed PTC system. Caltrain has established a followon maintenance agreement with Wabtec Corporation, the project's contractor.

Agenda Item 11 Page 3 of 5

Peninsula Corridor Electrification Project (PCEP). As of April 30, 2023, expenditures on the PCEP reached \$2.04 billion, 82.19% of the \$2.44 billion current budget. Work is progressing on both the Electrification and the Vehicles components of the project.

Electrification design-build contract. In August 2016, Caltrain awarded the Design-Build Electrification contract to Balfour Beatty Infrastructure in the amount of \$697 million. The contract was initially issued with a \$108 million Limited Notice to Proceed, which was followed by full Notice to Proceed on June 19, 2017.

Overhead Contact System (OCS) poles, cantilever arm, and wire installation continues. OCS foundations are complete and pole installation is 99% complete. Contact wire installation is 84% complete. Completion of all work on the OCS is anticipated for October 2023.

Work continues on the ten Traction Power Facilities. Nine of the ten Traction Power Substations are over 90% complete, with the exception of Power Substation 3. Punchlist work is underway.

Signals and Communication Systems construction also continues. Signal cutovers for Segment 3 (Palo Alto, Mountain View, and Sunnyvale) were completed in April 2023. As of that date, the project has completed cutovers for Segments 2, 3 and 4. Only Segment 1 (San Francisco) remains. It is expected to be complete by October 2023.

Tunnels. [COMPLETED] Work on modifications to the 100-year-old San Francisco tunnels reached Substantial Completion on September 17, 2020, and Final Acceptance was reached in December 2020.

Vehicles. On September 6, 2016, Caltrain gave a limited Notice to Proceed to Stadler Rail for the \$551 million EMU contract to design and fabricate 96 electric vehicles. After receipt of the Full Funding Grant Agreement, Caltrain issued the full Notice to Proceed on June 1, 2017. Subsequently, Caltrain executed an option for an additional 37 cars, bringing the total to 133 cars. In accordance with the Buy America provisions of the FTA funding, the vehicles are being manufactured by Stadler US at its new facility in Salt Lake City, Utah.

The first four trainsets have been delivered to Caltrain and are undergoing static testing prior to dynamic testing on Segment 4 (Santa Clara to San Jose). Two additional trainsets have been completed and are in storage at the Stadler facility. The balance of the original 14 trains will be delivered by March 2024 and the 19th and final trainset's anticipated arrival is in summer 2024. Trains 15 through 19 represent additional trainsets purchased with funding outside of the PCEP budget.

Operator training has been underway since August 2022 and will continue until all operators are trained, anticipated by the end of June 2023.

On June 5, the first train was run on the project's drill track under OCS power.

Central Equipment and Maintenance Facility. [COMPLETED] Located in San Jose since 2007, this facility accommodates inspections, maintenance, repair, train washing, and storage for the rail fleet. As part of the PCEP, the facility just went through an overhaul to accommodate the new electric vehicles. All work at the facility was completed in July 2022.

Agenda Item 11 Page 4 of 5

Cost and Schedule. The current Baseline Budget for the PCEP, adopted by the PCJPB in December 2021, is \$2.44 billion. The December 2021 change to the Baseline Budget represented an increase of \$462 million over the original Baseline Budget.

The current budget includes a total of \$90 million in contingency: \$50 million in a shared risk pool and \$40 million in allocated and unallocated contingency. As of April 30, 2023, \$74.86 million in contingency remained. The Revenue Service date remains unchanged for September 2024, which includes a six-month contingency.

Funding. The project is now fully funded. On January 31, 2023, Caltrain received \$367 million from the state's Transit and Intercity Rail Capital Program (TIRCP) which, together with the previously awarded \$43 million from the federal Omnibus Appropriations Bill, fully covers the \$410 million funding shortfall resulting from the December 2021 Baseline Budget adjustment. Achieving full funding had the added benefit of pushing off Caltrain's projected operating deficit for two years (i.e., anticipated operating deficit of \$33 million is now in Fiscal Year 2025/2026) by freeing up Measure RR funds that would have otherwise been needed to help close the funding gap.

Progress Reports. Detailed CalMod monthly reports are provided to the Caltrain Board and are publicly available. Peninsula Corridor Electrification Project reports are located at:

http://www.caltrain.com/projectsplans/CaltrainModernization/CalMod Document Librar y.html - electric

Challenges and Opportunities. There are some challenges that may impact Caltrain's ability to complete CalMod, even within a new schedule and budget. The Risk Management Team meets on a monthly basis to evaluate risks and make any needed adjustments. The results of the most recent Monte Carlo quantitative risk analysis forecasted a reduced risk to the budget and schedule. Broadly, this analysis indicates that the program is headed in the right direction. The primary risk items that we are monitoring include the risks that:

- TASI (Caltrain's operating contractor) may not have sufficient field support resources (Rail Worker in Charge, watchmen, flaggers, signal maintainers) for testing.
- Delivery of permanent low voltage (power for power drops for new signal and wayside power cubicle locations along PCEP alignment may delay schedule.
- Potential for Stadler's sub-suppliers to fall behind schedule or delays in parts supply chain result in late completion of vehicles.
- OCSs construction productivity continues to fall below what's required to meet the scheduled completion of October 2023.
- Short-circuit test failure at traction power substation-2 may signal a larger issue.

The Transportation Authority's PMO continues to oversee the project in accordance with the

Agenda Item 11 Page 5 of 5

Funding Partners Oversight Protocol.

FINANCIAL IMPACT

None. This is an information item.

CAC POSITION

None. This is an information item. The Community Advisory Committee will consider this item at its June 28, 2023 meeting.

Attachment:

1. Caltrain Electrification Presentation

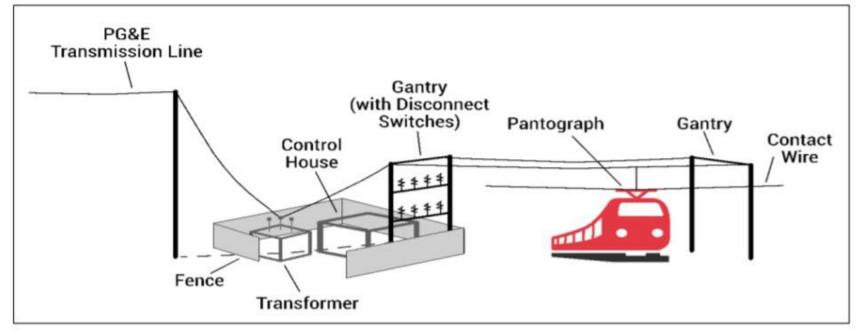

Transition from Diesel to Electric

First Electric Commuter Railroad in CA

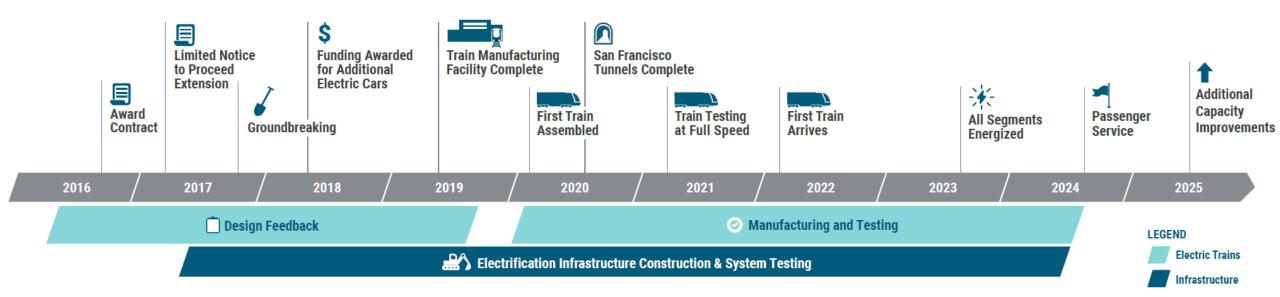

- 25KV Overhead Contact System (used by highspeed rail system)
- 19 EMU 7-car trainsets (replaces 75% of diesel fleet)
- Two-Speed Check signal system (approved by FRA, UP and CHSRA)

2

Timeline

Project Milestones

Overhead Contact System

- 99% of poles installed
- 86% of wire installed
- Overhead Contact System construction completion in October 2023

Electric Trains

- Drill tracks live runs started June 5, 2023
- Main track live runs Summer 2023
- All train cars in production
- 4 trainsets on site at Caltrain; next two trainsets expected fall 2023
- Pre-Revenue Service: Spring 2024
- Revenue Service: September 2024

Caltrain Fiscal Cliff Update

Caltrain Projected Operating Deficit

FOR MORE INFORMATION

WWW.CALTRAIN.COM

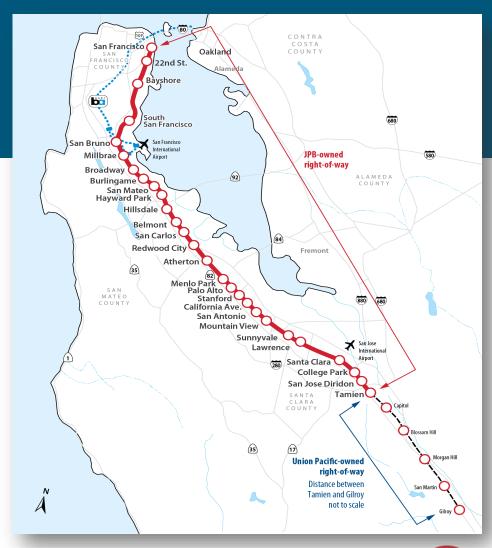

Caltrain Corridor Overview

Caltrain Corridor

- 77 miles of track from end to end
- 31 stations
- Bi-directional commute
- 41 at-grade crossings
- Pre-pandemic:
 - 7th largest commuter rail in the country
 - 70% farebox recovery
 - Over 18 million Unlinked Passenger Trips (UPT) in 2019
 - Frequently overcrowded trains, standing room only

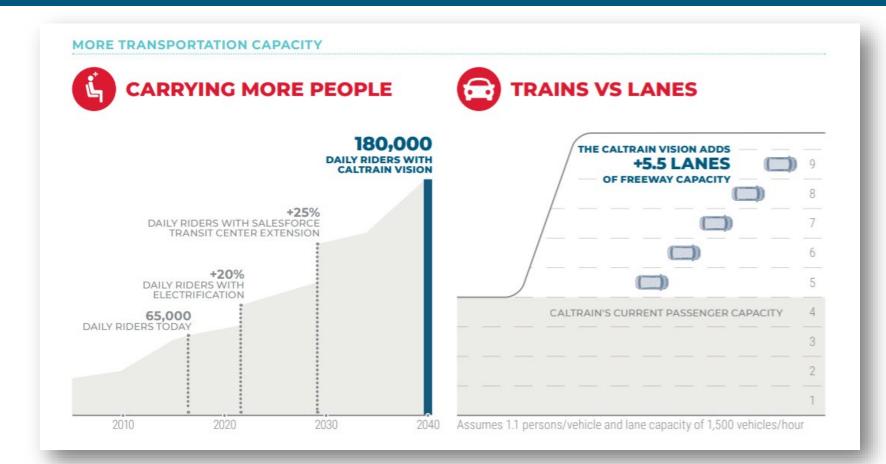

Corridor Growth 40% Increase

By 2040, an additional 1.2 million people will work and live within 2 miles of the Caltrain corridor.

2040 Vision Zero Emission Future

Caltrain's 2040 future service vision supports regional growth, arrival of high-speed rail, and more equitable, sustainable service.

Transformational Moment

Electrification will help Caltrain become a cleaner, more efficient component of the transportation network.

Steam 1860s

Diesel 1950s to present

Electric 2024

A Connected Future

- Electrified Caltrain corridor will enable additional investments expanding the Bay Area intercity rail network.
- Existing and future tenants
 - Capital Corridor (Amtrak)
 - Altamont Corridor Express
 - California High Speed Rail
- Expansion projects
 - San Francisco Downtown Extension
 - San Jose Diridon Station Rebuild
 - Grade Separations

California High-Speed Rail, Draft Business Plan, Pg. 23

Electrification Project Benefits

Safety

 Crash energy management technology (meets FRA Alternate Compliance requirements for mixed traffic).

 Crash absorption system protecting train driver and passengers (meets FRA crashworthiness standard).

 Latest generation of vehicle control systems including detailed diagnostic features.

• Improved braking performance.

Sustainability

- Eliminates 2.09 million tons of carbon emissions.
- Future Caltrain will carry equivalent of 5½ lanes of freeway traffic.

Replacing old diesel trains with new electric trains will reduce GHG emmissions and improve air quality

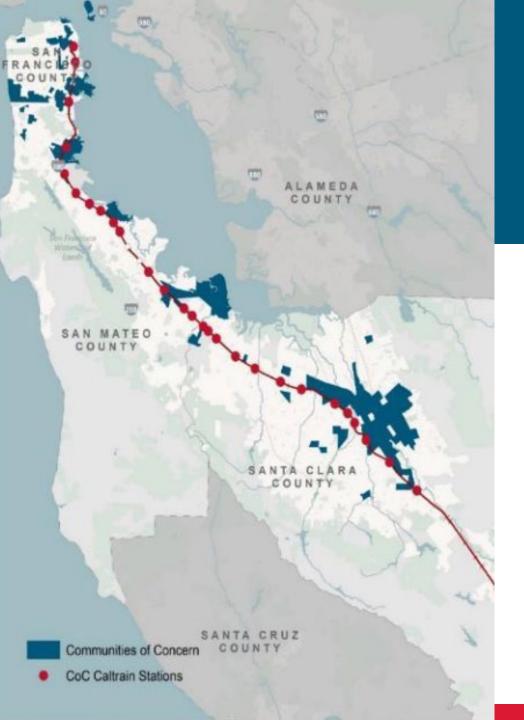

Energy Independence

- Reduce dependance on foreign energy sources; Rely on cleaner, renewable domestic energy sources.
- California committed to renewable and zero-carbon energy resources supplying 100% electric retail sales to customers by 2045.
- EMU trains include regenerative braking for additional energy savings

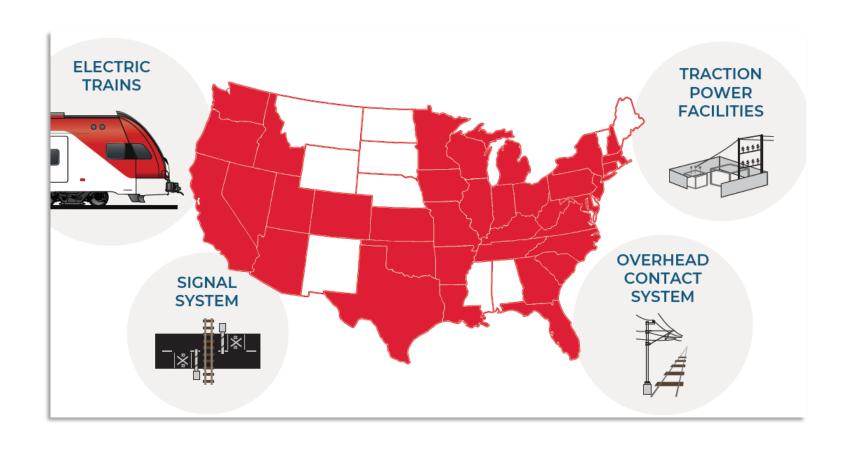

Equity

- Decreases emissions and noise pollution in communities of concern
- Benefits disadvantaged communities:
 - San Francisco (Bayview)
 - Santa Clara
 - Redwood City
 - San Bruno
 - South San Francisco
- Improves mid-day and off-peak service for essential workers

Economic Growth and Job Creation

33,000 Jobs Created in 36 States

Buy America Compliant

- Stadler (Switzerland based company) opened first facility in the US with guarantee of Caltrain Electrification Project contract
- Stadler Salt Lake City Facility:
 - 400+ employees
 - Local apprenticeship program
- Additional foreign suppliers opening US locations in order to be Buy America compliant

Memorandum

AGENDA ITEM 6

DATE: June 22, 2023

TO: Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 7/11/2023 Board Meeting: Adopt Four 2023 Prop L 5-Year Prioritization Programs

and Amend the Prop L Strategic Plan Baseline

RECOMMENDATION □ Information ⊠ Action	\square Fund Allocation
Adopt four 2023 Prop L 5-Year Prioritization Programs (5YPPs)	☑ Fund Programming
Paratransit	☐ Policy/Legislation
Street Resurfacing, Rehabilitation and Maintenance Declaration and Discuss Facilities Maintenance	☐ Plan/Study
Pedestrian and Bicycle Facilities MaintenanceNeighborhood Transportation Program	☐ Capital Project Oversight/Delivery
Amend the Strategic Plan Baseline	☐ Budget/Finance
SUMMARY	☐ Contract/Agreement
The Prop L Expenditure Plan requires development of a 30-year Strategic Plan and for each of the 28 Expenditure Plan programs	☐ Other:

(Attachment 1), a 5YPP to identify the specific projects that will be funded over the next five years. Board adoption of these documents is a prerequisite for allocation of Prop L funds from the relevant programs. In June 2023, the Board gave initial approval for the Strategic Plan Baseline and the guidance for development of the 2023 Prop L 5YPPs covering the 5-year period starting July 1, 2023. Among other features, the Baseline established the initial budget or amount of cash flow by fiscal year available to each program. To spread out the workload for staff and project sponsors, we are bringing 5YPPs to the Board in 3 rounds, with this first round in July comprised of just four 5YPPs with time sensitive needs for allocation of funds. Project sponsors have submitted allocation requests (part of a separate item on this agenda) that are conditioned upon approval of three of the subject 5YPPs. We are recommending concurrent adoption of an amendment to the Strategic Plan Baseline to incorporate the recommended programming and cash flow for the five-year project lists in the subject 5YPPs. The Pedestrian and Bicycle Facilities Maintenance and Neighborhood Transportation

Page 2 of 7

Program 5YPPs require advancement of funds in the first five years primarily to provide sufficient funding given the lower available cash in that period due to carryforward Prop K obligations (e.g., remaining grant balances). This results in about a 2.4% (\$15.1 million) increase in debt costs in the Baseline. The accelerated funding to support SF Paratransit operations is already included in the Baseline. We will bring the remaining 5YPPs to the Board for approval this fall, followed by adoption of the final 2023 Strategic Plan.

BACKGROUND

The 5YPPs result in multi-year project lists with associated sales tax programming commitments that support a steady project pipeline, enabling project sponsors to plan ahead, facilitating their ability to secure other funding sources to leverage Prop L and fully fund projects and to line up staff resources to deliver projects. The 5-year look ahead also enables coordination between projects. When a project is ready to advance, the project sponsor can request allocation of funds from the Board based on the programming commitment in the relevant 5YPP.

The 5YPPs also provide transparency about how Prop L projects are prioritized. We work in close collaboration with project sponsors eligible for Prop L funds from a particular program, as well as any other interested agencies, to develop each 5YPP. Input from the Board, sponsors, and the public inform the 5YPP process.

Final Board adoption of the 2023 Prop L Strategic Plan Baseline is anticipated at the June 27, 2023 meeting. The Baseline establishes the amount of sales tax revenues that will be available on an annual basis to each of the 28 programs, by fiscal year, through 2053 based on their proportional share of available revenues established in the Expenditure Plan. For 23 of the 28 programs, the Baseline set the pay-as-you-go annual funding levels for each program which project sponsors will use to identify their proposed lists of projects to fund in the next five years as part of 5YPP development. Through the 5YPP process, project sponsors can make requests to advance sales tax funds for specific projects, as needed to support project delivery.

For the remaining 5 programs - BART Core Capacity, Caltrain Downtown Rail Extension (The Portal), Muni Maintenance, and Paratransit, the Baseline advanced cash flow in advance of 5YPP development. This was done primarily to meet the needs of two major transit projects:

• The Portal/Caltrain Downtown Rail Extension is seeking the \$300 million Prop L programming commitment needed to meet a Federal Transit Administration Capital Investment Grants (CIG) funding milestone in August 2023. The project is seeking a \$3+ billion CIG grant.

Page 3 of 7

 BART Core Capacity is seeking \$100 million in the first 10 years of the Expenditure Plan, including a partial allocation this fall to exercise an option on its railcar replacement contract.

This approach provides a more realistic picture of financing costs for The Portal and BART Core Capacity, while ensuring we can meet other programs' requests for advancing funds.

DISCUSSION

Each 5YPP document includes the following sections:

- **Eligibility and Expected Fund Leveraging**. Leveraging Prop L funds against non-Prop L fund sources is necessary to fully fund the Expenditure Plan programs. For each 5YPP, we provide the Expenditure Plan program description of eligible project types and project sponsors, and highlight leveraging expectations established in the 30-year Expenditure Plan.
- Public Engagement. We are continuing to conduct public engagement to
 inform the development of the 2023 5YPPs. This section summarizes feedback
 heard from that engagement, as well as information provided by project
 sponsors regarding public engagement and community support.
- **Performance measures.** Each program includes performance measures to demonstrate the system performance benefits of sales tax projects (e.g. reduced transit travel time) and inform programming of future Prop L funds and other fund sources programmed by the Transportation Authority. The performance measures are informed by San Francisco's Congestion Management Program and developed in consultation with sponsor agencies.
- **Project Delivery Snapshot.** Project delivery for previously-funded sales tax projects is an important consideration when we evaluate project sponsors' proposed requests for Prop L funding, particularly with respect to project readiness. Since this is the inaugural Prop L 5YPP, this section lists open Prop K grants and describes project delivery challenges that apply to each program and what agencies are doing to address those challenges. Future 5YPP updates will include the delivery status of projects funded by Prop L.
- Project Prioritization. All projects are evaluated according to Prop L wide
 prioritization criteria as described in the 5YPP project readiness, relative
 level of need or urgency, benefits to disadvantaged populations, level and
 diversity of community support, and leveraging as well as criteria that we
 always consider safety, cost-effectiveness, and a fair geographic distribution.
 Many programs have additional program-specific criteria to inform priorities,

Page 4 of 7

such as replacing assets at the end of their useful lives, multi-modal benefits, and proximity to key resources.

- Project List. This section includes the Project Scoring Tables that indicate
 how each project performs against the prioritization criteria. It also includes
 the 5-Year Project List with programming and cash flow (i.e. proposed Prop L
 reimbursement schedule) by fiscal year, and anticipated leveraging of nonProp L funds in the 5YPP compared to the expected leveraging in the
 Expenditure Plan, calling out if anticipated leveraging is significantly below
 expectations and how that will be addressed.
- **Project Information Forms.** The 5YPP appendices include a Project Information Form for each proposed project. It includes information on the scope, schedule, cost, and funding plan, in addition to supplemental information that supports project evaluation using the prioritization criteria.

Round 1 5YPPs. We are recommending approval of the four enclosed 5YPPs. Highlights from each 5YPP are described below.

Paratransit. This Prop L program funds paratransit operations: door-to-door van, taxi, and other transportation services for seniors and people with disabilities who are unable to use fixed route transit service. The Transportation Authority advanced funds for the Paratransit program in the Prop L Strategic Plan Baseline beyond the pay-as-you-go amounts to provide funding stability for this critical program. The baseline includes \$13 million in FY 2023/24 with an annual inflationary increase until funds run out.

Anticipated leveraging in this 5YPP (61%) is below expected leveraging in the Expenditure Plan (81.1%). For FY 2023/24, the lower than usual leveraging is due to SFMTA reducing contributions to Paratransit from its operating budget and relying solely on the sales tax (including \$2 million in Prop K cost savings, plus Prop L) to fill the gap. We recognize the fiscal challenges facing SFMTA resulting from the City's slow recovery from the pandemic and the impact of remote work, both of which are depressing the General Fund, fare revenues, and other sources that support SFMTA's operating budget. We will work with agency staff seeking to improve leveraging in future years, including increasing SFMTA's contribution, looking to other funding sources (e.g., FTA formula funds, BART's contribution) to keep pace with increased costs or at least grow over time, and identifying new revenue sources for this important program. We will also continue to closely monitor annual Paratransit costs, de-obligating any leftover sales tax funds and returning them to the Paratransit program in Prop L for future use.

Street Resurfacing, Rehabilitation and Maintenance. This program has two subprograms: Repaving and Reconstruction of City Streets, and Replacement of Street

Page 5 of 7

Repair and Cleaning Equipment. SFPW has not requested advancement of funds. Expected leveraging for the Street Resurfacing, Rehabilitation, and Maintenance program is 94.7%, which is based on the leveraging for the entire street resurfacing program rather than just Prop L-funded projects. Anticipated leveraging is good (64%) for the proposed paving projects. Anticipated leveraging for SFPW's entire 5-year street resurfacing program, including Prop L and non-Prop L funded projects, exceeds leveraging assumptions at 98%. The full 5-year street resurfacing program funding plan is shown in Appendix C to this 5YPP. There are not as many funding options for street repair and cleaning equipment. SFPW is seeking a modest General Fund contribution for equipment, pending approval in the City's budget.

Pedestrian and Bicycle Facilities Maintenance. This program funds public sidewalk and curb repair (unrelated to tree damage, which is covered by Prop E) by SFPW and bicycle facility maintenance by SFMTA. The recommended project list would advance funds over 2.5 times the pay-go amount in the first five years of the 30-year program. The need for advancing Prop L funds is due to lower pay-go funding available in the first five years resulting from Prop K carry forward obligations, which has the highest cash flow in the first three years (FYs 2023/24 -2025/26) and the project sponsors' desire to maintain or increase these annual maintenance programs. For example, in FY 2023/24 SFPW proposed programming represents a modest decrease over Prop K levels (e.g., \$518,000 vs. \$612,238), which they offset by increased matching funds. SFMTA's proposed programming represents an increase over Prop K levels (\$400,000 in FY 2021/22 and \$200,000 in FY 2022/23) vs. Prop L (FY 2023/24 in \$459,000). SFMTA's increased need reflects growth in the amount of quick-builds, slow streets, and bicycle network improvements citywide that require maintenance.

Anticipated Prop L leveraging for the proposed 5-year project list is significantly below expected leveraging in the Expenditure Plan (26.6% overall vs. 77.5%). SFPW's Public Sidewalk and Curb Repair anticipates leveraging ranging from 43% in FY 2023/24 to 23% in FY 2027/28. The first three years have better leveraging as SFPW has proposed an increased State Transportation Development Act Article 3 match using a surplus accumulated from prior years. SFMTA is not proposing any leveraging for the Bicycle Facilities Maintenance. We encourage SFMTA to identify matching funds to improve leveraging and avoid depleting funds too quickly. We will re-evaluate anticipated leveraging when we receive allocation requests, particularly for FYs 2024/25 and beyond, and expect to see a non-zero amount. We will work with SFMTA and SFPW to identify other funding sources for these types of capital maintenance projects, such as the General Fund, Traffic Congestion Mitigation Tax (TNC Tax), and SFMTA operating funds (including the Prop B General Fund set aside).

Page 6 of 7

Neighborhood Transportation Program. Since 2014, the Prop K Neighborhood Transportation Program has provided funds for Transportation Authority Board members to direct funds to community-based, neighborhood-scale planning and capital efforts. Ultimately, each Board members recommends which project(s) will be funded with a Neighborhood Transportation Program grant, subject to Board approval.

Largely continuing the approach followed under Prop K, Appendix B to this 5YPP includes the new Prop L Neighborhood Program Guidelines that describe the types of planning and capital projects that can be funded, and the process for developing a project proposal. Minor guideline changes include combining the prior planning and capital grant amounts for each office into one 'bucket' that can be used for eligible NTP planning and/or capital grants; and project eligibility is expanded to cover any project type eligible under Prop L, while retaining the neighborhood-scale focus. Examples of expanded project eligibility include incentives-based travel demand management projects, electric vehicle charging infrastructure, and new mobility pilots.

Consistent with the Neighborhood Program Guidelines, the proposed project list is primarily comprised of placeholder programming that will be updated when the Board takes action to approve specific Neighborhood Program projects for funding. The 5YPP project list also includes funding for the SFCTA and SFMTA Neighborhood Program Coordinators who facilitate the identification and scoping of potential projects consistent with the program guidelines.

We have proposed advancement of funds for the Neighborhood Transportation Program in this 5YPP period at over double the pay-go amounts in order to continue Prop K funding levels for the program with \$700,000 available for each district supervisor to recommend for Neighborhood Program planning and capital projects. At this time, we do not anticipate recommending advancement of funds in the future 5YPP periods as pay-go amounts are expected to be sufficient to fund the program.

Strategic Plan Baseline Amendment. Concurrent with Board adoption of the 5YPPs, we make corresponding updates to the Strategic Plan Baseline to reflect the recommended programming and cash flow schedules for the proposed projects. In some cases, we may recommend advancement of sales tax funds to support project delivery, which results in financing costs and lowers the overall amount of funds available for project costs in the Expenditure Plan program(s) advancing funds. As noted above, in this first round of 5YPPs, we recommend advancing funds as requested by sponsors in the Pedestrian and Bicycle Facility and Neighborhood Transportation Program 5YPPs. These are relatively small programs (\$19 million and \$46 million in 2020 \$, respectively) with relatively modest advancement requests so

Page 7 of 7

the impact on overall debt needs is correspondingly small - about a 2.4% (or \$15.1 million) increase in debt costs estimated in the Baseline.

Next Steps. We are working with project sponsors to develop the remaining 23 5YPPs and anticipate bringing them to the Board for adoption in the fall in two groups, followed by adoption of the final 2023 Prop L Strategic Plan for in November/December 2023. Meanwhile, we are continuing outreach and public engagement efforts, just having hosted a virtual Town Hall on June 20. We encourage the public to submit input on what types of projects they want to see funded in the next five years by completing the survey on our website that is open through June 27. The survey is available in English, Chinese, Spanish, and Filipino. The survey and a link to request a presentation on Prop L are on our website at sfcta.org/ExpenditurePlan. We will bring a summary of outreach findings to the Community Advisory Committee and Board this fall.

FINANCIAL IMPACT

There is no impact on the proposed FY 2023/24 agency budget. The Prop L Strategic Plan is an important long-range financial planning tool for the Transportation Authority as it forecasts sales tax revenues and establishes the maximum annual reimbursement for each of the Expenditure Plan programs, and estimates debt needs to advance funds to support project delivery. However, allocation of funds and issuance of any debt are subject to separate approval actions by the Board.

CAC POSITION

The Community Advisory Committee will consider this item at its June 28, 2023 meeting.

SUPPLEMENTAL MATERIALS

- Attachment 1 List of the 28 Programs in the Prop L Expenditure Plan
- Attachment 2 Strategic Plan Baseline Amendment Programming & Cash Flow by FY
- Attachment 3 Amended Prop L Strategic Plan Sources and Uses
- Enclosure 2023 Prop L 5 Year Prioritization Programs (4)

Attachment 1. Programs in the Prop L Expenditure Plan

Board approval of a 5-Year Prioritization Program or 5YPP is a prerequisite for allocation of Prop L funds from that program. As part of the 5YPP development process, for some of the 28 programs, we have created sub-programs to help track minimum funding amounts established in the Expenditure Plan for certain projects types (e.g. Safe Routes to School education and outreach), to group like projects together to facilitate project ranking, and/or to help ensure funding is set aside for key priorities (e.g. transit vehicle replacement and capital maintenance).

- 1. Muni Reliability and Efficiency Improvements
- 2. Muni Rail Core Capacity

AGENDA ITEM 7

DATE: June 22, 2023

TO: Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 7/11/2023 Board Meeting: Allocate \$998,000 and Appropriate \$100,000 in Prop

L Funds, with Conditions, and Allocate \$300,000 in Prop AA Funds for 4 Requests

RECOMMENDATION □ Information ☒ Action	□ Fund Allocation
Allocate \$898,000 in Prop L funds to San Francisco Public	☐ Fund Programming
Works (SFPW), with conditions, for:	☐ Policy/Legislation
1. Street Repair and Cleaning Equipment (\$380,000)	☐ Plan/Study
2. Public Sidewalk and Curb Repair (\$518,000)	□ Capital Project Oversight/Delivery
Allocate and Appropriate \$200,000 in Prop L funds, with conditions, to the San Francisco Municipal Transportation	☐ Budget/Finance
Agency (SFMTA) and SFCTA for:	☐ Contract/Agreement
3. Neighborhood Transportation Program (NTP) Coordination (SFMTA \$100,000, SFCTA \$100,000)	□ Other:
Allocate \$300,000 in Prop AA funds to Transbay Joint Powers Authority (TJPA) for:	
4. Salesforce Transit Center Wayfinding Phase 1B (\$300,000)	
SUMMARY	
These are the first three Prop L allocation requests to advance to the Board for approval. Consistent with the Expenditure Plan, the Prop L allocations are conditioned upon Board adoption of the Prop L 5-Year Prioritization Program (5YPP) for the relevant programs (i.e., Street Resurfacing, Rehabilitation, and Maintenance; Pedestrian and Bicycle Facility Maintenance; and the Neighborhood Transportation Program) and amendment of the Strategic Plan Baseline to incorporate the programming and cash flow for the recommended 5-year	

project lists. These actions are part of a separate item on this

Agenda Item 7 Page 2 of 3

agenda. Attachment 1 lists the requests, including phase(s) of work and supervisorial district(s). Attachment 2 provides brief descriptions of the projects. Attachment 3 contains the staff recommendations. Project sponsors will attend the meeting to answer any questions the Board may have regarding these requests.

DISCUSSION

Attachment 1 summarizes the subject requests, including information on proposed leveraging (i.e., stretching Prop L sales tax dollars further by matching them with other fund sources) compared with the leveraging assumptions in the Prop L Expenditure Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan. Attachment 2 includes brief project descriptions. Attachment 3 summarizes the staff recommendations for each request, highlighting special conditions and other items of interest. An Allocation Request Form for each project is attached, with more detailed information on scope, schedule, budget, funding, deliverables and special conditions.

FINANCIAL IMPACT

The recommended action would allocate \$998,000 and appropriate \$100,000 in Prop L funds, with conditions, and allocate \$300,000 in Prop AA. The allocations and appropriation would be subject to the Fiscal Year Cash Flow Distribution Schedules contained in the attached Allocation Request Forms.

Attachment 4 shows the Prop L and Prop AA Fiscal Year 2023/24 allocations and appropriations approved to date, with associated annual cash flow commitments as well as the recommended allocation and cash flow amounts that are the subject of this memorandum.

Sufficient funds are included in the proposed Fiscal Year 2023/24 annual budget. Furthermore, sufficient funds will be included in future budgets to cover the recommended cash flow distributions in those fiscal years.

CAC POSITION

The CAC will consider this item at its June 28, 2023, meeting.

300,000

1,789,760

1,098,000 \$

Footnotes

"EP Line No./Category" is either the Prop L Expenditure Plan line number referenced in the 2023 Prop L Strategic Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan, including: Street Repair and Reconstruction (Street), Pedestrian Safety (Ped), and Transit Reliability and Mobility Improvements (Transit) or the Traffic Congestion Mitigation Tax (TNC Tax) category referenced in the Program Guidelines.

TOTAL

\$

"Expected Leveraging By EP Line" is calculated by dividing the total non-Prop L funds expected to be available for a given Prop L Expenditure Plan line item (e.g. Pedestrian and Bicycle Facilities Maintenance) by the total expected funding for that Prop L Expenditure Plan line item over the 30-year Expenditure Plan period. For example, expected leveraging of 90% indicates that on average non-Prop L funds should cover 90% of the total costs for all projects in that category, and Prop L should cover only 10%.

² Acronyms: SFCTA (San Francisco County Transportation Authority), SFPW (San Francisco Public Works), SFMTA (San Francisco Municipal Transportation Agency), TJPA (Transbay Joint Powers Authority)

⁴ "Actual Leveraging by Project Phase" is calculated by dividing the total non-Prop L, non-Prop AA, or non-TNC Tax funds in the funding plan by the total cost for the requested phase or phases. If the percentage in the "Actual Leveraging" column is lower than in the "Expected Leveraging" column, the request (indicated by yellow highlighting) is leveraging fewer non-Prop L dollars than assumed in the Expenditure Plan. A project that is well leveraged overall may have lower-than-expected leveraging for an individual or partial phase.

SFPW plans to purchase additional street repair and cleaning equipment with an estimated \$2.8 million in General Fund, subject to approval of the CCSF annual budget.

EP Line No./ Category	Project Sponsor	Project Name	Prop L Funds Requested	Prop AA Funds Requested	Project Description
215	SFPW	Street Repair and Cleaning Equipment	\$ 380,000	\$ -	This request would fund the purchase of one full size street sweeper to replace equipment that has exceeded its useful life. The equipment will have the newest safety features available, and improve safety for workers and efficiency of street cleaning and repair work. The equipment is California Air Resources Board compliant and will meet current emissions standards. SFPW expects to receive the equipment funded by this request by March 2025.
216	SFPW	Public Sidewalk and Curb Repair	\$ 518,000	\$ -	Public Works is responsible for repairing sidewalks around City-maintained trees, adjacent to City properties, and at the angular returns of all intersections. The passage of Proposition E (2016) resulted in annual funding set-aside to maintain all street trees in the public right-of-way and for sidewalk repairs due to City-maintained trees. Any other damaged public sidewalks, curb and gutters, and angular returns, not due to tree damage, will be repaired with Prop L funds and State Transportation Development Act, Article 3 funds. SFPW expects to complete the work funded by this request by June 2024.
225	SFCTA/ SFMTA	Neighborhood Transportation Program (NTP) Coordination	\$ 200,000	\$ -	This request provides support for a Neighborhood Transportation Program (also known as the Neighborhood Program or NTP) Coordinator role at both the Transportation Authority and the SFMTA to support Transportation Authority Board members' efforts to identify potential NTP projects, to develop proposed scope, schedule, budget and funding to support allocation requests, and to conduct project delivery oversight. The attached allocation request form includes the NTP Guidelines that provide additional detail on how NTP projects are identified and developed in collaboration between SFCTA, SFMTA, and District Supervisors. This request would fund work to be done in FY 2023/24.
703	ТЈРА	Salesforce Transit Center Wayfinding Phase 1B	\$ -	\$ 300,000	Requested funds will improve the Salesforce Transit Center's wayfinding system by replacing 100 of the 318 media players at interactive and non-interactive kiosks throughout the Transit Center that have reached the end of their useful life. This project was recommended in the TJPA's Wayfinding Gap Analysis (2020) to improve the reliability and functionality of the wayfinding system. It would improve the commuter and visitor experiences by connecting them quickly and more efficiently to transit connections and to the public open space and activities provided at the Center's rooftop park. This project is consistent with the Metropolitan Transportation Commission's (MTC) current standards for wayfinding and supports a smoother rollout of MTC's new regional standards (when completed) to support seamless transit connections across the region. TJPA expects to complete the work funded by this request by December 2023.

EXPENDITURE PLAN INFORMATION

PROP L Expenditure Plans	Neighborhood Transportation Program
Current PROP L Request:	\$200,000
Supervisorial District	Citywide

REQUEST

Brief Project Description

The Transportation Authority's Neighborhood Program (NTP) funds planning, development, and implementation of community-based, neighborhood-scale transportation improvements. This request provides support for a NTP Coordinator role at both the Transportation Authority and the SFMTA to support Transportation Authority Board members' efforts to identify potential NTP projects, to develop proposed scope, schedule, budget and funding to support allocation requests, and to conduct project delivery oversight.

Detailed Scope, Project Benefits and Community Outreach

The requested Prop L funds will enable the San Francisco Municipal Transportation Agency (SFMTA) and Transportation Authority staff to work with district supervisor offices, implementing agencies, and community stakeholders to support Transportation Authority Board members' efforts to identify potential NTP projects and to develop proposed scope, schedule, budget and funding information to support allocation of NTP grants, as well as project delivery oversight. It also includes ongoing support of the NTP including regular communications with the district supervisors' offices regarding progress on NTP projects.

The NTP Guidelines are attached and provide additional detail on how NTP projects are identified and developed in collaboration between SFCTA, SFMTA, and District Supervisors.

Project Location

Funding enables support of projects in all supervisorial districts.

Overview

WHY WAS THE NEIGHBORHOOD PROGRAM CREATED?

The Transportation Authority's Neighborhood Program (also known as the Neighborhood Transportation Program) is intended to focus on community-based neighborhood-scale transportation improvements. The Transportation Authority developed the Neighborhood Program in 2014 under Prop K, the predecessor to Prop L. It was created in response to mobility and equity analysis findings from the San Francisco Transportation Plan (SFTP) 2040 and to the public and the Transportation Authority Board's desire for more focus on neighborhoods, especially in Equity Priority Communities and other underserved neighborhoods.¹ The SFTP 2050 (December 2022) reaffirmed the importance of the Neighborhood Program by including it in its investment plan, noting that neighborhood transportation plans establish a pipeline of grant-ready projects throughout the city that reflect community priorities, such as street safety, mode shift, transit accessibility, and mobility.

WHAT DO WE WANT TO ACHIEVE WITH THE NEIGHBORHOOD PROGRAM?

The purpose of the Neighborhood Program is to build community awareness of, and capacity to provide input to, the transportation planning process and to advance delivery of community-supported neighborhood-scale projects. The latter can be accomplished through strengthening project pipelines and helping move individual projects more quickly toward implementation, especially in Equity Priority Communities and other neighborhoods with high unmet needs.

WHAT TYPE OF WORK DOES THE NEIGHBORHOOD PROGRAM FUND?

Neighborhood Program Planning funds can be used for community-based planning efforts in San Francisco neighborhoods, especially in Equity Priority Communities or other underserved neighborhoods and areas with vulnerable populations (e.g. seniors, children, and/or people with disabilities). Specifically, Neighborhood Program Planning funds can be used to support neighborhood-scale efforts that identify a community's transportation needs, identify and evaluate potential solutions, and recommend next steps for meeting the identified needs. Neighborhood Program Planning funds can also be used to complete additional planning/conceptual engineering for existing planning projects that community stakeholders regard as high priority. Recommendations resulting from Neighborhood Program Planning projects should be eligible for Neighborhood Program Capital funds, other Prop L programs, and/or additional sources.

¹ https://www.sfcta.org/policies/equity-priority-communities

Neighborhood Program Capital funds can be used for implementation of Neighborhood Program Planning grant recommendations, or of other communitysupported, neighborhood-scale projects that have already been identified.

All Neighborhood Program efforts must address one or more of the following SFTP priorities:

- Improve safety for pedestrians, cyclists and/or other street users
- Encourage walking, biking, and/or transit use
- Improve transit accessibility and/or reliability
- Improve mobility for Equity Priority Communities or other underserved neighborhoods and vulnerable populations (e.g., seniors, children, and/or people with disabilities)

Ultimately, Neighborhood Program efforts should prioritize and lead to the implementation of community-supported, neighborhood-scale capital improvements that can be funded by the Transportation Authority's Prop L transportation sales tax and/or other sources.

HOW MUCH FUNDING IS AVAILABLE? ARE THERE LOCAL MATCH REQUIREMENTS?

The Neighborhood Program provides \$700,000 in Prop L funding for each supervisorial district to use over the next five years (Fiscal Years 2023/24 - 2027/28). The Neighborhood Program includes funds for Planning efforts and Capital project development and implementation. There is no prescribed proportion of funds between Planning and Capital; however, historically, \$100,000 has been programmed for Planning and \$600,000 for Capital for each district. Planning funds can be used for one planning effort or multiple smaller efforts. No local match is required for planning grants, though it is strongly encouraged.

The Neighborhood Program Capital program funds are intended as matching funds for implementation of Neighborhood Program Planning grant recommendations or to fund other community-supported, neighborhood-scale projects that already have been identified and are being prepared for delivery in the next five years. Neighborhood Program Capital funds must leverage other non-Prop L funds to help achieve the Prop L leveraging assumptions for the Neighborhood Program. Exceptions may be granted on a case-by-case basis with consideration given to, among other factors, whether other funding options exist and the status of overall Neighborhood Program leveraging to date.

Eligibility

Eligible project types are community-based neighborhood-scale transportation improvements that are eligible for other 2022 Transportation Expenditure Plan programs and result in public-facing benefits. Examples of eligible Planning and Capital efforts are described below.

WHAT TYPES OF PLANNING EFFORTS CAN BE FUNDED?

Examples of eligible planning efforts include:

- Project-level plans or conceptual designs for smaller efforts (e.g. advancing conceptual design of a high priority project identified in a prior community planning effort, safety project concepts development, and transportation demand management planning including neighborhood parking management studies).
- Identification and advancement of design of low-cost enhancements (e.g. new crosswalks, sidewalk bulbouts) to coordinate their construction with paving projects.
- District-wide needs and prioritization processes (e.g. the District 1 Multimodal Transportation Study).
- Traditional neighborhood transportation plan development (e.g. Mission Bay School Access Plan, Western Addition Community-Based Transportation Plan).
- Corridor plans (e.g. Valencia Long-Term Bikeway Study, Alemany Realignment Study, Ocean Avenue Mobility Action Plan).

The expectation is that Neighborhood Program funds will be leveraged like other Prop L funds. This leveraging would be necessary to fully fund some of the larger scale and more intensive efforts listed above. (A traditional neighborhood transportation plan might run \$300,000; a corridor plan could be much more expensive, depending on the scope). Without leveraging, a \$100,000 Neighborhood Program Planning grant could fund the smaller-scale planning efforts noted in the first three bullet points.

All Neighborhood Program Planning efforts must include a collaborative planning process with community stakeholders such as residents, business proprietors, transit agencies, human service agencies, neighborhood associations, non-profit or other community-based organizations and faith-based organizations. The purpose of this collaboration is to solicit comments from these stakeholders, review preliminary findings or designs with them, and utilize their perspective in identifying potential strategies and solutions for addressing transportation needs.

WHAT TYPES OF CAPITAL EFFORTS CAN BE FUNDED?

Neighborhood Program Capital grants are intended to advance recommendations from Neighborhood Program Planning effort recommendations or other community-supported, neighborhood-scale plans and studies. For example, Neighborhood Program Capital funds could be used to fund design of a project that could then apply for construction funding from a competitive grant source.

Examples of eligible capital efforts include, but are not limited to, design and implementation of:

- Sidewalk bulbouts, crosswalks, and traffic calming measures (e.g. speed humps)
- New and upgraded bicycle lanes and paths
- New and upgraded traffic signals, including flashing beacons to improve safety for street users
- Bus stop improvements
- Transportation Demand Management pilots (e.g. to encourage walking, biking or transit use; to implement recommendations from a neighborhood parking management study)

The expectation is that Neighborhood Program funds will be leveraged like other Prop L funds. This leveraging would be necessary to fully fund some of the larger scale and more intensive efforts listed above.

WHO CAN LEAD A NEIGHBORHOOD PROGRAM EFFORT?

Neighborhood Program efforts can be led by Prop L project sponsors, other public agencies, and/or community-based organizations. The grant recipient, however, must be one of the following Prop L-eligible sponsors: the San Francisco County Transportation Authority (Transportation Authority or SFCTA), the San Francisco Municipal Transportation Agency (SFMTA), San Francisco Public Works (SFPW), or the Planning Department. If a non-Prop L sponsor is leading the Neighborhood Program project, it will need to partner with a Prop L sponsor or request that a Prop L sponsor act as a fiscal sponsor.

HOW WILL PROPOSALS BE SCREENED FOR ELIGIBILITY?

In order to be eligible for a Neighborhood Program grant, a project proposal must satisfy all of the following screening criteria:

- Project sponsor is one of the following Prop L project sponsors:
 SFCTA, SFMTA, SFPW, San Francisco Planning Department or is a community-based organization partnering with a Prop L-eligible sponsor that is the grant recipient and fiscal sponsor.
- Project is eligible for funding from Prop L.

- If a project is seeking funds for planning/conceptual engineering phase, a modest amount of the overall grant may be applied toward environmental clearance (typically for categorical exemption types of approvals), but this may not represent a significant portion of proposed expenditures.
- Cumulative Neighborhood Program requests for a given supervisorial district do not exceed the maximum amount available for each supervisorial district (i.e., \$700,000 in each 5-year cycle).
- Project will address at least one of the SFTP priorities: improve safety for pedestrians, cyclists and/or other street users; encourage walking, biking and/or transit use; improve transit accessibility and/or reliability; and improve mobility for Equity Priority Communities or other underserved neighborhoods and at-risk populations (e.g., seniors, children, and/or people with disabilities).
- Project is neighborhood-oriented and the scale is at the level of a neighborhood or corridor. The project may be district-oriented for efforts such as district-wide prioritization efforts, provided that the scope is compatible with the proposed funding.
- Project must include or be recommended by a collaborative planning process with community stakeholders.
- Planning projects shall be proposed to be completed within two years.

Note that all proposed capital projects will be evaluated in accordance with Prop L prioritization criteria, specifically: readiness, urgency, benefits to disadvantaged populations, leveraging, cost effectiveness, and safety.

WHAT SPECIFIC ACTIVITIES AND EXPENSES ARE ELIGIBLE FOR REIMBURSEMENT?

Eligible Neighborhood Program Planning costs include: community surveys, data gathering and analysis, community meetings, charrettes, focus groups, planning and technical consultants, outreach assistance provided by community-based organizations, developing prioritized action plans, conceptual or 30% design drawings, cost estimates, and bilingual services for interpreting and/or translation services for meetings.

Eligible Neighborhood Program Capital costs include: final or 100% design drawings, construction-related activities, requests for contracting proposals, contracting bid selection, notice of construction, procurement of materials, and construction. Public engagement activities supporting the design and construction phases are also eligible costs.

Further details on eligible expenses are included in the Prop L Standard Grant Agreement that is executed by the Transportation Authority and the Prop L grant recipient.

Project Initiation and Scoping

WHERE DO NEIGHBORHOOD PROGRAM PROJECT IDEAS COME FROM?

The Neighborhood Program provides funds for each district supervisor to direct funds to community-based, neighborhood-scale planning and capital efforts. Ultimately, the district supervisor (acting in their capacity as a Transportation Authority Board commissioner) will recommend which project(s) will be funded with a Neighborhood Program grant. All projects must be consistent with the adopted guidelines.

Anyone can come up with a Neighborhood Program grant idea, including, but not limited to, a District Supervisor, agency staff, a community-based organization, or a community member. There is no pre-determined schedule or call for projects for the Neighborhood Program grants. Rather, each Transportation Authority Board member will contact the Transportation Authority's Neighborhood Program Coordinator when they are interested in exploring Neighborhood Program proposals. Board members may already have an idea in mind, seek help from agency staff in generating ideas, and/or solicit input from constituents and other stakeholders. See below for how these ideas are vetted and turned into Neighborhood Program grants.

HOW DOES AN IDEA DEVELOP INTO A NEIGHBORHOOD PROGRAM GRANT?

Initiating a request: The District Supervisor initiates the process by contacting the Transportation Authority's or SFMTA's Neighborhood Program Coordinator with a planning or capital proposal, a request to help identify potential planning or capital project ideas, or to help with a formal or informal call for projects for their respective district.

The Transportation Authority and the SFMTA have designated Neighborhood Program Coordinators who will work collaboratively to implement the Neighborhood Program grant program. The Neighborhood Program Coordinators will work with the District Supervisor and any relevant stakeholders throughout the Neighborhood Program proposal identification and initial scoping process. They will be responsible for seeking input from appropriate staff within their agencies, as well as from other agencies depending on the particular topic.

Vetting Ideas and Scoping: Once contacted by a District Supervisor, the SFCTA and SFMTA Neighborhood Program Coordinators will establish a dialogue with the Supervisor and agency staff to develop an understanding of the particular neighborhood's needs and concerns that could be addressed through a Neighborhood Program project, to evaluate an idea's potential for addressing identified issues, and to explore whether complementary planning or capital efforts are underway, in the pipeline, or have already occurred.

This step in the process is necessarily iterative and collaborative in nature. It involves working with the District Supervisor to identify an eligible Neighborhood Program proposal and reaching agreement on the purpose and need, what organization will lead/ support the effort, developing a summary scope, identifying desired outcomes and/or deliverables, and preparing an initial cost estimate and funding plan.

Neighborhood Program grant funds are modest, but a great deal can be accomplished depending on how the effort is scoped and how it leverages other resources (e.g., existing plans, staff, other fund sources, concurrent planning and design efforts, etc.). The checklist shown in Table 1 reflects elements that are typically necessary to support a strong Neighborhood Program proposal.

Agreement on Roles and Responsibilities: As the project scope begins to solidify, another key aspect to address is determining the lead agency and identifying the roles of other agencies and stakeholders that need to be involved. The SFCTA and

SFMTA Neighborhood Program Coordinators will assist with this effort, which requires consideration of multiple factors such as how well the Neighborhood Program proposal matches an agency's mission and goals; current priorities; staff resource availability during the proposal timeframe; and availability of consultant resources to address staff resource constraints. The Transportation Authority is willing to provide access to its on-call consultants to assist with Neighborhood Program efforts if that is found to be a viable approach to a particular proposal.

Agreeing upon the lead agency and the timing of the effort are important outcomes of the scoping phase. Based on prior experience and feedback from project sponsors, it is clear that the implementing agency's participation in the project initiation and scoping process and involvement in the effort in some form (from leading the effort to strategically providing input and reviewing key deliverables) helps ensure that the recommendations stemming from the study will be prioritized sooner rather than later in that agency's work program.

Requesting allocation of funds: The designated grant recipient must complete a Prop L allocation

Table 1.

Checklist for Developing a Strong Neighborhood Program Grant Proposal

Does your proposal have...?

- Clear purpose/need statement and goals
- Clear list of deliverables/outcomes
- Well-defined scope, schedule, and budget
- Clear and diverse community support
- Coordination with other relevant planning efforts
- Inclusive community engagement strategy
- Equity Priority Community or underserved community focus
- Appropriate funding/leveraging commensurate with proposed scope
- Implementation model (lead agency; agency and community roles defined)

request form that details the agreed-upon scope, schedule, cost and funding plan for the project. Transportation Authority staff will review the allocation request to ensure completeness and compliance with Prop L requirements. Once it is finalized, the funding request will go through the next monthly Transportation Authority Board cycle for approval. This involves review and action by the Community Advisory Committee and Transportation Authority Board.

Grant Award Terms

All Neighborhood Program projects must adhere to the Prop L Strategic Plan policies and the requirements set forth in the Prop L Standard Grant Agreement (available upon request). The sections below highlight answers to a few commonly asked questions.

For More Information

Visit the Transportation Authority's website at sfcta.org/policies/neighborhood-program or contact one of the Neighborhood Program coordinators:

TRANSPORTATION AUTHORITY

Anna LaForte 415.522.4805 anna.laforte@sfcta.org

SFMTA

Jamie Parks 415-646-2121 jamie.parks@sfmta.com

ARE THERE TIMELY USE OF FUNDS DEADLINES?

Planning efforts must be completed within two years of the grant award.

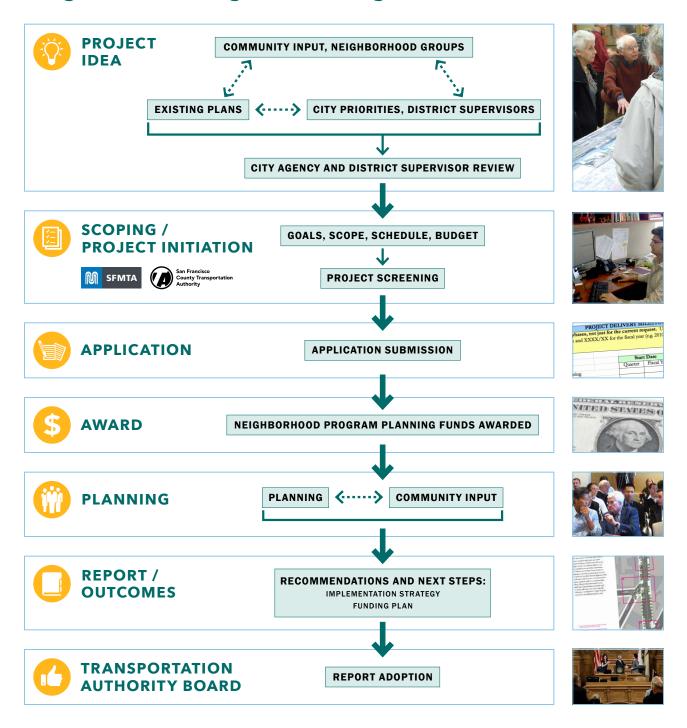

If a planning or capital grant recipient does not demonstrate adequate performance and timely use of funds, the Transportation Authority may, after consulting with the project sponsor and relevant District Supervisor, take appropriate actions, which can include termination or redirection of the grant.

WHAT ARE THE MONITORING, REPORTING, AND ATTRIBUTION REQUIREMENTS?

Neighborhood Program grants will be subject to the same monitoring, reporting and attribution requirements as for other Prop L grants. Requirements are set forth in the Prop L Standard Grant Agreement and include items such as including appropriate attribution on outreach fliers and reports, preparing quarterly progress reports, and submitting a closeout report upon project completion.

Upon completion of each planning project, project sponsors will report to the Transportation Authority Board on key findings, recommendations, and next steps, including implementation and funding strategy. For Neighborhood Program Planning grants, the Board will accept or approve the project's final report.

Neighborhood Program Planning Grant Process Flow-chart

The Neighborhood Program is funded by grants of Proposition L local transportation sales tax funds.

PROP L Expenditure Plans	Hiture Plans Pedestrian and Bicycle Facilities Maintenance	
Current PROP L Request:	\$518,000	
Supervisorial District	Citywide	

REQUEST

Brief Project Description

Repair of damaged public sidwalk, curb and gutters, and angular returns not related to street tree damage

Detailed Scope, Project Benefits and Community Outreach

Public Works is responsible for repairing sidewalks around City-maintained trees, adjacent to City properties, and at the angular returns of all intersections. The passage of Proposition E in November 2016 resulted in annual funding set-aside to maintain all street trees in the public right-of-way. Tree Maintenance Fund (TMF) funds for sidewalk repairs due to City-maintained trees. Any other damaged public sidewalks, curb and gutters, and angular returns, not due to tree damage, will be repaired with Prop L funds and State Transportation Development Act, Article 3 (TDA-3) funds.

SFPW currently has a backlog of over 1,000 requested repairs to damaged public sidewalks, curb and gutters, and angular returns not related to street tree damage. Instead, damage at these locations is typically caused by trucks driving up on curbs, old age, heavy equipment, vehicular accidents, poor original construction. Provided is a list of outstanding repair locations, which will be used to identify work for this funding request. At an average cost of \$75 per square foot, and \$300 per linear foot, SFPW expects to address approximately 200 sidewalk and curb repair requests on an annual basis with Prop L and TDA funds.

Locations are determined by a combination of SFPW inspection and public complaints, and will be prioritized based on project readiness, community support, and time sensitive urgency. In addition to these locations, SFPW anticipates that emergency response may be required at locations fronting federal, state, school, and housing authority properties, undeveloped lands, roadway structures (i.e. stairways, tunnels, bridges, and retaining walls), as well as locations with special surface sidewalks such as Market Street bricks and Mission Street tiles. Any substitutions of locations would be made in accordance with the 5YPP prioritization criteria.

New locations continuously become priorities as a result of SFPW's ongoing inspections, daily complaints, and reports of trip-and-fall accidents. The locations identified in the current prioritized sidewalk repair list may change based on higher-need locations that cannot be anticipated at this time. SFPW has the flexibility to prioritize and complete locations on an expedited basis if there is potential significant impact to pedestrian access and/or have the highest likelihood of generating

104

claims against the City and County of San Francisco (CCSF). However, failure to correct sidewalk deficiencies, whether they front public or private properties, increases CCSF's exposure to claims and lawsuits resulting from trip-and-fall injuries.

Current PROP L Request:	\$380,000
Supervisorial District	Citywide

REQUEST

Brief Project Description

Purchase 1 piece of street repair and cleaning equipment to replace equipment that has exceeded its useful life - 1 full size street sweeper. This requested equipment is California Air Resources Board compliant and will meet current emissions standards.

Detailed Scope, Project Benefits and Community Outreach

San Francisco Public Works requests \$380,000 to purchase 1 full size street sweeper. The requested equipment is replacing equipment that has exceeded its useful life and will improve safety for workers and improve the efficiency of street cleaning and repair work. The equipment will have the newest safety features available. The regenerative air sweeper is for street cleaning. SFPW will purchase additional street repair and cleaning equipment with an estimated \$2.8 million in General Funds (subject to approval of the CCSF annual budget).

Deliverables

- 1. Quarterly progress reports shall provide the status of this purchase, including whether the equipment has been ordered, received, or placed into service as of the end of the previous quarter.
- 2. Quarterly progress reports shall include 2-3 digital photos of the piece of equipment approved for service during the prior quarter, including at least one photo showing the Prop L logo affixed to the equipment.

Special Conditions

1. The recommended allocation is contingent upon approval of the Prop L Street Resurfacing, Rehabilitation, and Maintenance 5-Year Prioritization Program and amendment of the Prop L Strategic Plan Baseline, which is a separate item on this agenda.

FY of Allocation Action:	FY2023/24		
Project Name:	alesforce Transit Center Wayfinding Phase 1B		
Grant Recipient:	Transbay Joint Powers Authority		

EXPENDITURE PLAN INFORMATION

PROP AA Expenditure Plans	Prop AA Transit Projects
Current PROP AA Request:	\$300,000
Supervisorial District	District 06

REQUEST

Brief Project Description

The Transbay Joint Powers Authority is requesting Prop AA funding to improve the Salesforce Transit Center's wayfinding system by replacing 100 media players at interactive and non-interactive kiosks throughout the Transit Center. This project would improve reliability and functionality of the wayfinding system, improving the commuter and visitor experiences by connecting them quickly and more efficiently to their transit connections and to the public open space and activities provided at the Center's rooftop park.

Detailed Scope, Project Benefits and Community Outreach

In March of 2020, Transbay Joint Powers Authority hired a consultant to provide a 'Gap Analysis' review of visitor-facing wayfinding at the Salesforce Transit Center. The project examined both static and digital information systems and identified areas of improvement around the Center. This analysis was conducted in coordination with MTC and transit operator staff. Digital signage in and around the Center is made up of over 300 screens, 300 media players, content management systems, and data infrastructure throughout the Salesforce Transit Center.

The current Wayfinding Improvement Plan at the Salesforce Transit Center includes three phases of work, meant to improve the Center's static and digital wayfinding ecosystem as it is today, identifies areas for improvement over the next 1-2 years, and provides high level cost estimates for improving Wayfinding in the long term, as high-speed rail is realized in the 2030's.

Phase 1 is primarily focused on Digital Enhancements and includes three subphases. The wayfinding improvement plan for Salesforce Transit Center was recently revised so that deliverables with independent utility could be performed immediately, with others that are co-dependent being done later. MTC and transit operator staff assisted by providing feedback in the development of this updated approach.

Phase 1.A is currently in progress, with a new Wayfinding Application expected to be completed by June 30, 2023. This work included four workstreams that focused on 1) Wayfinding Application Interface, 2) Network and Hardware research, 3) User and Market Projects, and 4) Dashboard

content management tool, and has been funded with \$275,000 in TJPA sources and \$200,000 in RM-2 bridge tolls.

Phase 1.B represents this current request for \$300,000 in Prop AA funding and would provide the baseline equipment needed to run the new Wayfinding application smoothly and consistently. Currently, most screens (standard and touch) are capable of displaying the Wayfinding Application and other media. The current Media Players are able to operate the application but are slow, less responsive to touch and commands, and often require technical support, since they are at the end of their useful life. For these reasons, TJPA is requesting to install and set up 100 (of 318 total) new Media players that will deliver immediate noticeable improvements across the Center, providing independent utility and allowing for a smoother rollout of MTC's new Regional Standards, when completed.

Phase 1.C would replace the remaining equipment around the Center, including: 218 (of 318 total) Media Players, 40 touch screens & overlays, 180 standard screens, and static directional signage to better align with MTC's current regional standards. The cost and schedule for implementing Phase 1C is dependent on securing additional funds, including a current request for Community Project funds in the FFY24 Federal transportation appropriation bill. The minimum cost estimate is \$586,700. With additional funds, more extensive static directional signage could be implemented.

Phase 2 (FY24/25) Design and install permanent physical signage using MTC's new regional standards and industry best practices. The cost estimate and schedule for this effort will be developed in coordination with MTC's roll-out of MTC's updated regional standards currently under development.

Phase 3 (FY33/34) Integration of High Speed Rail and CalTrain on levels B1 and B2 into the TJPA Wayfinding System. The cost estimate for this effort will be prepared in conjunction with the detailed design work for the DTX project.

See attached scope file for more information.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

From SFCTA Excel Application – Line 8: Detailed Scope (may attach Word document): Please describe the project scope, benefits, coordination with other projects in the area (e.g. paving, MuniForward, Vision Zero), and how the project would meet the Prop AA screening and prioritization criteria as well as other program goals (e.g., short-term project delivery to bring tangible benefits to the public quickly). Describe how this project was prioritized. Attach maps, drawings, photos of current conditions, etc. to support understanding of the project.

Brief Project Justification

The Transbay Joint Powers Authority is requesting funding to augment the Salesforce Transit Center's wayfinding system. The Salesforce Transit Center is a multimodal transportation hub in downtown San Francisco measuring over 4.5 football fields in length, over four city blocks, and with six levels. The wayfinding system within the complex features both static and digital signage with over 300 screens and media players, and robust network infrastructure that requires updating to allow riders to efficiently navigate and access the transportation connections provided by several Bay Area transportation operators at and near the facility and the four-block long rooftop park, the neighborhood open space resource. Updates to the wayfinding signage will allow better access and provide an enjoyable experience of the Center, supporting facility access for all transit passengers and visitors, including individuals with disabilities, and the many local passengers traveling on the several Title VI-designated minority transit lines serving the Center. This wayfinding project will include replacing a targeted portion of the existing signage infrastructure coupled with updating digital wayfinding software and content. Improving the wayfinding system at the Center will allow transit riders to easily get to where they need to go, while allowing nearby residents and visitors to the San Francisco Bay Area to enjoy the retail offerings and park amenities offered at the Center. The funding requested through this Prop AA funding will address the Program's programmatic goals of enhancing pedestrian safety, and improve transit mobility at the Salesforce Transit Center, located in San Francisco. As part of the TJPA's Wayfinding Program, developed as a result of a 2020 Wayfinding Gap Analysis Study, a Wayfinding Improvement Plan was created, some of which is already underway.

At the time of the Prop AA Programming, TJPA worked with consultants to identify and prioritize items that are most effective and timely in enhancing the wayfinding experience at the transit center. Originally, it was thought that replacing the screens, housing, and media players (mini computer) in (37) interactive kiosks was best. However, after researching the existing components, it was determined that replacing as many of the end-of-lifecycle media players would have the biggest and most immediate positive impact, by improving reliability and functionality of the content being displayed. While the current screens are in need of replacement, many still function well and will be enhanced by simply replacing the media player only at this time. The change in strategy is due to the screens dependence on media players and "touch overlay" to truly realize the upgrade in technology. For example, replacing 37 interactive kiosks would enhance the experience on the Ground floor, but would not address the issues present on the remaining 260+ digital signs around the Center, including the ones serving the Bus Deck – leading to an inconsistent and unreliable experience after leaving the Ground floor. By replacing the computers/media players, we can prevent outages and downtime,

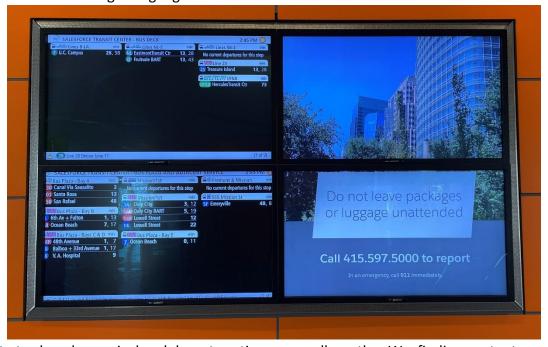

Project Name: Salesforce Transit Center Wayfinding Phase 1, Page 1

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

which currently occurs with existing end-of-lifecycle media players. Not only does this strategy better support visitors, it also allows the funding to provide independent utility immediately, and does not preclude TJPA from implementing MTC's new regional standards. Thus, the TJPA followed the recommendation to instead strategically replace (100) media players in both interactive and non-interactive digital signage throughout the center.

Example of Non-interactive digital signage:

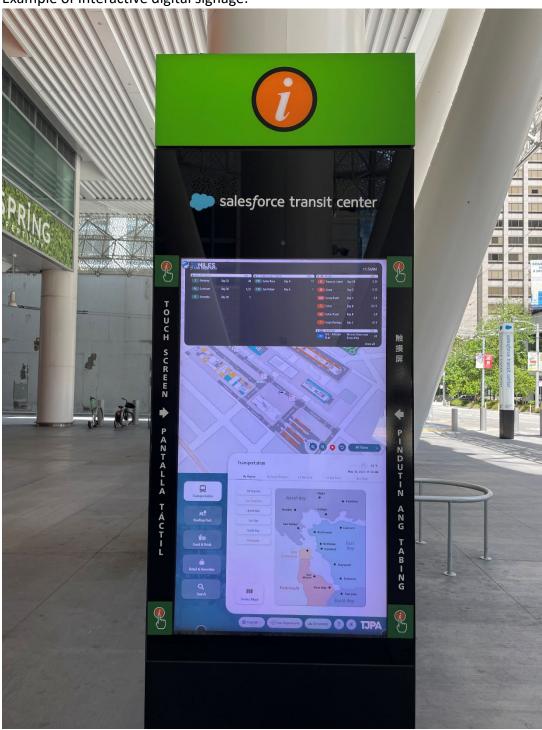

^{*}Images rotate to show bus arrival and departure times, as well as other Wayfinding content.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Example of Interactive digital signage:

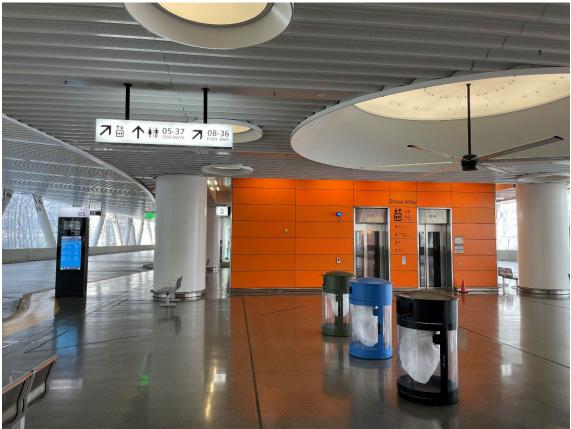

^{*}Touch screens make these kiosks "interactive". The new media players work with both interactive and non-interactive digital signage.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Examples of static signage:

*Static Bus Bay directional signage and Floor specific wayfinding near elevators.

The subsequent phases for the overall Wayfinding project would include replacement of the digital screens, the housing of the kiosks, and other static wayfinding signage enhancements within the Transit Center. Implementation of physical signage changes in the Transit Center will follow MTC's new Regional Mapping Project, and is subject to securing additional funds.

About the Salesforce Transit Center

The Center is a modern regional transit hub connecting the Bay Area and ultimately the State of California through: Alameda-Contra Costa Transit (AC Transit), Bay Area Rapid Transit, Peninsula Rail Joint Powers Board (Caltrain), Golden Gate Transit, Greyhound, San Francisco Municipal Transportation Agency (SFMTA), SamTrans, WestCAT Lynx, Amtrak, paratransit and future High Speed Rail connection from San Francisco to Los Angeles/Anaheim. The Center extends four city blocks long and has 100,000 square feet of diverse retail, including a significant number of locally-owned businesses, a 5.4-acre Rooftop Park that offers free public programming and activities and a robust public art program. The Center is built to receive a GOLD Leadership in Energy and Environmental Design (LEED) certification and is highly sustainable with grand light-filled spaces

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

and a unique façade. It is a world-class iconic destination, bringing local residents, transit riders, and visitors together daily to where they need to go and/or to enjoy the many amenities this transportation hub offers: shops, public open space and public art installations. Before the pandemic, ridership statistics provided by Operators at the Transit Center show that AC Transit accounted for roughly 17,000 riders per day, and SFMTA accounted for 9,000 riders per day. In addition, Golden Gate Transit, Westcat Lynx, and Greyhound contributed roughly 4,000 riders per day. These numbers include both "ons" and "offs". Additionally, over 1,000 people visited the rooftop park daily.

The Transportation Challenge and the Wayfinding Project

The Center was completed in 2018 and included a wayfinding signage system, which consists of directional signs of the Center's levels and 37 bus bays using both digital and non-digital wayfinding systems. Shortly after the Center opened to the public, it was determined through substantial public feedback from commuters and transit agency partners, that the wayfinding and digital systems installed required enhancements. Because of the Center's multimodal makeup, four open levels, and several major entrance and exit points, along with the existence of several Bay Area transportation operators providing service in and around the Center, it is difficult for riders and visitors to navigate where they need to go and how best to get to their transit connections and/or to other parts of the Center. This causes lost time for commuters who miss transport connections, reducing the efficiency of the transit system. Currently, four of the six levels are open to the public:

- 1. The first or ground level houses the bus plaza where services from SFMTA and Golden Gate Transit are provided, with SamTrans and Amtrak located nearby on Mission Street and SF Paratransit located adjacent to the Grand Hall. Retail areas are also on the ground floor level.
- 2. The second level houses Wellness functions, including Fitness SF, Kaiser, Onsite Dental, and Spring Fertility.
- 3. The third level consists of the Bus Deck, which has 37 bays for transit operators AC Transit, Greyhound, Westcat Lynx, and SFMTA's Treasure Island buses.
- 4. The fourth level is the iconic Rooftop Park, which includes a gondola providing direct access from the public Salesforce Plaza and two pedestrian bridges connecting office and residential buildings directly to the park, with a third bridge in the planning stages.

Wayfinding Gap Analysis and Improvement Plan

In 2019, the TJPA, in collaboration with the Metropolitan Transportation Commission (MTC), brought onboard a wayfinding consultant to conduct a Wayfinding Gap Analysis of the Center, involving a comprehensive community outreach process that consisted of in-person interviews and online surveys of Bay Area commuters and visitors to the Center. Through this gap analysis, a Wayfinding Improvement Plan was created in 2020 with a project cost identified.

As part of the Wayfinding Gap Analysis, there were a battery of surveys undertaken as part of the research phase of the study. Alongside site work that assessed the physical legibility and management of the Salesforce

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Transit Center, the study included various methods for understanding the wayfinding needs and experiences of visitors to the facility. The following section summarizes the various community surveys undertaken:

- 1. Bus passengers an intercept interview with passengers waiting for services at stops on the Bus Plaza and Bus Deck. These interviews were intended to capture opinion on wayfinding from the perspective of a transit rider.
- 2. Pedestrian tracking another observational survey that tracked people covertly to watch wayfinding behavior without outside stimulation from the surveyor. This was intended to identify traits and issues for people navigating the building entirely naturally.
- 3. Test journeys an observational survey of participants with little if any previous knowledge of the building designed to question the utility and efficacy of wayfinding for unfamiliar users.
- 4. Frontline staff forums a group discussion with staff and managers who represent frontline touchpoints for visitor questions. The intent being to investigate common issues, techniques for helping people and suggestions to help improve customer service.
- 5. Digital (KC1) kiosk public tests a small sampling of intercepted participants was asked to perform simple tasks using the digital trip planning kiosks. This focused specifically on anecdotal concerns that these tools were under-used and overly complicated.
- 6. Stakeholder survey a self-completion survey of municipal transit operators and other special interests who hold a stake in the success of wayfinding at the facility to obtain insight into issues and opportunities raised by the people or organizations they represent.

These public outreach efforts informed the Wayfinding Improvement Plan, which is robust and necessary to execute this wayfinding signage improvement to enhance transit mobility in the City and throughout the Center. The Wayfinding Project is a part of MTC's Plan Bay Area 2050.

No further public outreach is planned for the installation of the new media players.

Project Cost

The total Wayfinding project cost is \$4.7 million, which is broken down into three phases and addresses the three components listed below. The Phase 1 project is the subject of this request. The Phase 1 cost is \$1,361,700, of which \$475,000 has been allocated (\$200,000 in RM-2) or allocated (\$275,000 TJPA funds). This Wayfinding Phase 1 project will enhance the physical and digital signage and digital support systems in the Center, including the elements identified below:

- 1. Physical signage: Enhance facility identity, intuitive directions, and consistency to MTC regional standards
- 2. Digital and interactive information: Kiosk-based application redesign; application front-end, back-end and content management system development; digital data dashboard design & development; research/recommendations into local network upgrade path, upgraded monitors and media players, and expanded accessibility options
- 3. Design, planning and implementation of the wayfinding and digital systems

Project Name: Salesforce Transit Center Wayfinding Phase 1, Page 6

TJPA PROPOSITION AA FUNDING SUPPORTING APPLICATION

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

The Wayfinding Program's seeks to replace the wayfinding infrastructure and digital wayfinding application by updating the digital systems and screens allowing interactive map and diagram use and accessibility; provide information to limited-English proficient visitors in accordance with the TJPA's Title VI plan; fully operationalize American Disability Act requirements while incorporating the MTC's Regional Transit Wayfinding Guidelines and Standards.

Multi-Agency Coordination and Plan Execution

Improving wayfinding at the Center is a top priority for the TJPA and transit operator partners. The TJPA hosts a monthly meeting with AC Transit, SFMTA and MTC called the Wayfinding Working Group, which seeks to enhance the wayfinding and signage at the Center, implement the Wayfinding Program and work together to pursue funding to advance this Program.

We are underway with the first stage of the Wayfinding Phase 1 project that will update the software and content and strategically replace about 10 of the 37 existing media players in interactive kiosks to enhance wayfinding and signage at the Center. The Wayfinding application development, which is funded by other non-Prop AA sources, will be done and ready for rollout by June 2023. The purchase and installation of the 100 media players (27 interactive, 70 non-interactive, and 3 spares), using Prop AA funds, will occur immediately thereafter. Work can commence upon receipt of the requested Prop AA funding and will be completed by September 2023.

Benefits to the Community

Through Prop AA funding, the updated wayfinding system will make it easier for the Bay Area's diverse communities (from San Francisco, Alameda, Contra Costa, San Mateo, Marin, and Santa Clara counties) of transit riders to navigate the Salesforce Transit Center and reach their connections. The Center is within walking distance to equity priority communities (EPC) found in the MTC's and SFCTA's EPC maps, with riders relying on accessing to their transit connections reliably and quickly.

Through our transit partners that include SFMTA, BART, AC Transit, WestCat Lynx, Golden Gate Transit, SamTrans, paratransit, commuters can take the transit connections to get them to jobs, economic opportunities, cultural destinations and housing. Through the multimodal Center, these communities are provided transit connections to not only multiple locations throughout San Francisco, but also throughout the Bay Area and megaregion. Updating the wayfinding system at this Center will only increase commuters' positive experience of taking transit and increase their motivation to take transit to their connections and increase access to the free activities offered at the rooftop park.

The Center houses SFMTA bus service from the Richmond district through the 5-Fulton and 38-Geary buses plus the Treasure Island (TI) bus service, which is the only bus connection for TI residents to get to San

TJPA PROPOSITION AA FUNDING SUPPORTING APPLICATION

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Francisco. The Center is within walking distance to other SFMTA transit connections, as well, as to the other 8 transit systems found at, within, and in near walking-proximity to the Center.

The Center is a 4-block long open space resource for the equity priority communities in MTC and SFCTA EPC maps. Through this rooftop park, these communities are able to visit and take advantage of the free activities offered throughout the week, which include fitness, crafts, birding and gardening classes.

This TJPA Wayfinding Project funding request meets the following Prop AA screening and prioritization criteria:

- 1. The TJPA is an eligible administering agency per the Prop AA Expenditure Plan guidelines.
- 2. The Wayfinding project is eligible for funding from two (pedestrian safety and transit reliability and mobility improvements) of Prop AA's three programmatic categories.
- 3. Project is seeking Prop AA funds for design, construction and/or procurement phases only.
- 4. Project is consistent with the regional transportation plan as identified through Plan Bay Area 2050.
- 5. Project is consistent with TJPA's adopted budget; existing and planned land uses; adopted standards for urban design and for the provision of pedestrian amenities; and supportiveness of planned growth in transit friendly housing, employment, and services.

For reference, Phase 1 is primarily focused on Digital Enhancements and includes three subphases. The wayfinding improvement plan for Salesforce Transit Center was recently revised so that deliverables with independent utility could be performed immediately, with others that are co-dependent being done later. MTC and transit operator staff assisted by providing feedback in the development of this updated approach.

Phase 1.A is currently in progress, with a new Wayfinding Application expected to be completed by June 30, 2023. This work included four workstreams that focused on 1) Wayfinding Application Interface, 2) Network and Hardware research, 3) User and Market Projects, and 4) Dashboard content management tool, and has been funded with \$275,000 in TJPA sources and \$200,000 in RM-2 bridge tolls.

Phase 1.B represents this current request for \$300,000 in Prop AA funding and would provide the baseline equipment needed to run the new Wayfinding application smoothly and consistently. Currently, most screens (standard and touch) are capable of displaying the Wayfinding Application and other media. The current Media Players, are able to operate the application, but are slow, less responsive to touch and commands, and often require technical support, since they are at the end of their useful life. For these reasons, TJPA is requesting to install and set up 100 (of 318 total) new Media players that will deliver immediate noticeable improvements across the Center, providing independent utility and allowing for a smoother rollout of MTC's new Regional Standards, when completed.

Phase 1.C would replace the remaining equipment around the Center, including: 218 (of 318 total) Media Players, 40 touch screens & overlays, 180 standard screens, and static directional signage to better align with MTC's current regional standards. The cost and schedule for implementing Phase 1C is dependent on securing additional funds, including a current request for Community Project funds in the FFY24 Federal transportation appropriation bill. The minimum cost estimate is \$586,700. With additional funds, more extensive static directional signage could be implemented.

TJPA PROPOSITION AA FUNDING SUPPORTING APPLICATION

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Phase 2 (FY24/25) Design and install permanent physical signage using MTC's new regional standards and industry best practices. The cost estimate and schedule for this effort will be developed in coordination with MTC's roll-out of MTC's updated regional standards currently under development.

Phase 3 (FY33/34) Integration of High Speed Rail and CalTrain on levels B1 and B2 into the TJPA Wayfinding System. The cost estimate for this effort will be prepared in conjunction with the detailed design work for the DTX project.

The Wayfinding project addresses two of the three main programmatic benefits Prop AA funding seeks to address, which include:

- 1. Pedestrian Safety the project will minimize conflicts with other modes, and reduce pedestrian hazards and it will enhance access to transit and/or schools, as there are a number of educational institutions located within the vicinity of the Transit Center.
- 2. Transit Reliability and Mobility Improvements the project will increase transit accessibility and connectivity using wayfinding signs through travel information improvements, and improved connections to regional transit). The multimodal Transit Center connects nine Bay Area transit systems and reduces congestion and transit crowding and are aligned with San Francisco's citywide travel demand management goals.

Early Regional Investment

This investment complements the MTC 's regional efforts to provide an accessible and easily navigable transportation system across the entire region of the Bay Area, with the Salesforce Transit Center at the forefront. Wayfinding is an important strategy element in the Plan Bay Area 2050 enabling a seamless mobility experience for riders. Within the past 12 years, MTC has invested over 12 million dollars into creating an increasingly seamless and coordinated wayfinding system for the region's transportation network and plans to develop regional design standards, a kit of mapping resources, a digital mapping platform, and a regional graphic identity/branding in partnership with Bay Area cities and transit operators. Our efforts at the Center will only help improve commuters' access to the Bay Area's transit system.

current statutes and Transporta	, ,		☐ Budget/Finance
are recommending modification Travel Policies to conform to an			☐ Contract/Agreement
government ordinances and ap			☑ Other: Policies
additional clarity and flexibility	, and reflect admir	nistrative and	
organizational changes since th	ne last update. Att	achment 1	
includes a summary of changes	s proposed in eacl	h policy,	
followed by the proposed Proc	curement and Trav	el policies	
with red-line changes (Attachm	ents 2 and 3, resp	ectively).	

BACKGROUND

We develop and implement policies and procedures to organize and formalize agency activities, and to ensure compliance with current statutes and our objectives. While we are not required to annually review our Procurement and Travel Policies, it is good management practice to do so on a regular or as-needed basis.

Below is a brief description of the Procurement and Travel Policies that are the subject of this memorandum.

Procurement Policy: Guide decisions pertaining to procurement, including the modes, methods, and procedures for acquiring the materials, equipment, and services necessary to carry out the operations of the Transportation Authority.

Agenda Item 8 Page 2 of 2

Travel, Conference, Training, and Business Expense Reimbursement Policy: Establish a set of policies relating to Commissioner and staff travel, conference, training, and business expenses, and establish procedures for reimbursement of eligible requests of Transportation Authority Commissioners.

DISCUSSION

The Board adopted the Procurement and Travel Policies through Resolution 21-13 in September 2020. At our request, Meyers Nave reviewed these policies and based on their reviews, we are recommending changes as summarized in Attachment 1 and redlined in the proposed policies in Attachments 2 and 3.

The most substantive proposed revisions to the Procurement and Travel Policies are to align them with Chapter 12X of the San Francisco Administrative Code. On May 9, 2023, the City and County of San Francisco approved amending its Administrative Code to repeal Chapter 12X, and thereby repealing prohibitions on City-funded travel to a state, and the City entering into a contract with a contractor headquartered in a state that allows discrimination against LGBT individuals, has restrictive abortion laws, or has voter suppression laws. Additionally in the Procurement Policy, we are recommending an increase in the limit for informal and formal bid processes of solicitations for goods and services, supplies, equipment, or materials from \$75,000 to \$100,000 and authorizing the Executive Director to approve and execute contracts not in excess of \$100,000.

FINANCIAL IMPACT

The recommended action would not have an impact on the proposed Fiscal Year 2023/24 budget.

CAC POSITION

The Community Advisory Committee will consider this item at its June 28, 2023 meeting.

SUPPLEMENTAL MATERIALS

- Attachment 1 Summary of Proposed Revisions
- Attachment 2 Proposed Procurement Policy
- Attachment 3 Proposed Travel, Conference, Training, and Business Expense Reimbursement Travel Policy

SECTION	REVISION	REASON	PAGE
SECTION III. PROCUREMENT PROCESS A. GENERAL PROVISIONS	All procurement transactions, regardless of purchasing methodology or dollar value, shall be conducted in a manner that maximizes open and free competition. Solicitation for offers, whether by an informal or formal bid process or through competitive negotiation shall:	Changed gender references to neutral form.	2
	 incorporate a clear and accurate description of the technical requirements for the materials, product, or services to be procured; and 		
	clearly set forth all requirements which bidders must fulfill, and all other factors to be used in evaluating the proposals.		
	All bids or proposals must be submitted to and received at the location designated no later than the exact time and date stated in bid or proposal requirements, and must be date- and time-stamped and logged as received by Transportation Authority personnel. Bids or proposals received after the date and time deadline will be returned unopened and will be considered as disqualified. A bid or proposal may be withdrawn prior to bid or proposal opening for any reason by a bidder or his/hertheir authorized representative, provided a written request to withdraw is received by the Transportation Authority prior to bid or proposal opening. After bid or proposal opening, a bid or proposal may be withdrawn only for material obvious error(s) and subject to written approval by the Executive Director.		
SECTION III. PROCUREMENT PROCESS C. INFORMAL BID PROCESS First paragraph	Solicitations for goods and services that are anticipated to be equal to or less than \$75,000\\$100,000 may go through an informal Request for Proposal (RFP) or bid process. Quotes may be requested by telephone, via the Internet or through the mail from known qualified vendors or from current vendor catalogs and/or websites. Routine purchases in the amount of \$25,000 or less should be distributed equitably among qualified competitively priced suppliers, with consideration given to DBE/LBE utilization as applicable and as permitted by law. It is not permissible to segment the contract or use multiple solicitations for similar goods or services in order to circumvent the limitation for formal solicitation.	Revision to increase limit for an informal Request for Proposal, consistent with proposed changes to Section VII. Contract Administration. The proposed revision remains under the current limit for informal bidding pursuant to federal requirements, 48 Code of Federal Regulations 2.101, amount of \$250,000.	3
SECTION III. PROCUREMENT PROCESS D. FORMAL BID PROCESS	Solicitation of goods and/or services that are anticipated to be in excess of \$75,000 \$100,000 shall be required to go through a formal Request for Proposal (RFP) or Invitation for Bid (IFB) process. An RFP process will also be used to procure professional and technical services as applicable in accordance with the provisions of California Government Code Section 4526 and applicable federal laws and regulations. Award of a contract for professional services will be qualifications-based and will consider multiple factors that will be clearly stated in the RFP, although price may be considered during the negotiation of the contract. Procurement for establishing an on-call or preapproved list of professional services providers shall be based on a qualifications-based process in accordance with state	Revision to increase limit for a formal Request for Proposal, consistent with proposed changes to Section VII. Contract Administration. The proposed revision remains under the current limit for informal bidding pursuant to federal requirements, 48 Code of	3

SECTION REVISION REASON PAGE

and federal law, and price may be taken into consideration when negotiating a contract with a firm selected from such a list to fulfill task orders.

Federal Regulations 2.101, of \$250,000.

4

For procurements anticipated to be in excess of \$75,000 \$100,000, an Invitation for Bids (IFB) process will be used to procure all supplies, equipment, or materials that are standard in nature, character, and quality; easily defined; and/or reasonably accessible in the open market. Award will be made to the lowest responsive and responsible bidder after competitive bidding, except in an emergency declared by the vote of two-thirds of the voting membership of the Board pursuant to California Public Utilities Code Section 131285. If, after rejecting bids received, the Transportation Authority, pursuant to California Public Utilities Code Section 131286, determines and declares by a two-thirds vote of the voting membership of the Board that, in its opinion, the supplies, equipment, or materials may be purchased at a lower price in the open market, the Transportation Authority may proceed to purchase these supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisement.

Solicitation for offers in the formal bid process shall include the following:

- A clear and accurate written description of the project scope and deliverables, and technical requirements for the materials, product, or service being procured;
- Special conditions or restricting policies, policy goals such as DBE/LBE goals, if applicable, patents, liquidated damages, and performance, bid or indemnification requirements;
- 3. Proposed timetable for the project or service;
- 4. General format requirements and number of copies/items (if applicable) to be delivered:
- 5. Date of pre-proposal conference, if applicable;
- 6. A clear definition of the evaluation criteria to be used in evaluating the bids or proposals; and
- 7. Date, time, and place for submission of final bids or proposals.

If a pre-proposal conference is held, a listing of those in attendance showing name(s) of attendees and agency or company represented shall be maintained in the resulting contract files.

Responses to RFPs for professional and technical services shall require identification of the bidders or proposer's key employees and subcontractors. Bidders or

5

Attachment 1 **Procurement Policy**

SECTION REVISION PAGE

proposers shall be required to notify the Transportation Authority of any pending lawsuits or labor disputes that may interfere with the delivery of services.

Procurements in amounts greater than \$75,000 \$100,000 shall require a formal notice process including advertising requests for bids or proposals in local appropriate newspapers or other media outlets. Notice should occur with sufficient time to allow bidders or proposers reasonable time in which to respond. The term "reasonable time" may vary depending on the complexity of the proposed project. Thirty (30) calendar days shall be considered the standard time allotted in notification to potential bidders or proposers. More or less time may be allotted at the determination of the Executive Director.

RFPs and IFBs will be reviewed by a selection panel appointed by the Executive Director. The Executive Director may elect to assemble a separate cost evaluation panel to review cost proposals and evaluate cost assumptions. Based on their reviews and analysis, the selection panel and cost evaluation panel, if any, shall rank bids or proposals. The Executive Director will recommend to the Board award of a contract, based on the results of the procurement process and the recommendations the selection panel and cost evaluation panel, if any, to the bidder or proposer most advantageous to the Transportation Authority. In the case of IFBs, the Executive Director will recommend award to the lowest responsive and responsible bidder or proposer.

Copies of all correspondence, including negative response letters, copies of evaluation sheets/scores, and copies of all bids or proposals not being considered further shall be maintained in the files.

In the event that only a single bid or proposal is submitted, the Transportation Authority shall document its efforts in soliciting responses; and record the history of all correspondence, negotiations, including parties involved, etc. that took place with reference to the award of the resulting contract.

SECTION V. PROHIBITING
CONTRACTING IN STATES
THAT ALLOW
DISCRIMINATION
AGAINST LGBT
INDIVIDUALS AND IN
STATES WITH RESTRICTVE
ABORTION LAWS

On October 14, 2016, through Ordinance 189-16, the City and County of San Francisco prohibited city contracting involving states that allow discrimination against lesbian, gay, bisexual, and transgender individuals. This prohibition became effective on February 11, 2017. On August 9, 2019, through Ordinance 200-19, the City and County of San Francisco prohibited city contracting involving states with certain laws that restrict abortion access. This prohibition became effective January 1, 2020. The list of states banned from contracting under both Ordinances is known as the Covered State List and is maintained and updated by the City Administrator on at least a semiannual basis.

The Ordinances do not automatically apply to the Transportation Authority, since it is a separate governmental entity rather than a City department. In keeping with the public policy objectives leading to the City's adoption of the Ordinances, however,

Delete entire section to align with the repeal of Chapter 12X of the San Francisco Administrative Code. 6-7

SECTION REVISION PAGE

the Transportation Authority has adopted appropriate elements of the contracting prohibitions contained in the Ordinances, as further detailed below. Pursuant to this section, the Transportation Authority shall not: enter into a contract with a contractor that has its United States headquarters in a state on the Covered State List or where any or all of the work on the contract will be performed in a state on the Covered State List, unless it meets one or more of the exemption criteria detailed below.

- 1. This section shall not apply to contracts that meet one or more of the following circumstances:
- 2. The needed services are available only from one source, as supported by sufficient justification.
- 3. The contract is necessary to respond to an emergency which endangers public health or safety.
- 4. There are no qualified responsive bidders or prospective vendors that comply with the requirement of this section; and the needed service, project or property is essential to the Transportation Authority or the public.
- The public interest warrants the granting of an exemption due to potential adverse impact on services.
- 6. The services to be purchased are available under a bulk purchasing arrangement with a federal, state, or local government entity or a group purchasing organization; the purchase under such arrangement will substantially reduce the Transportation Authority's cost of purchasing such services, and the purchase under such arrangement is in the best interest of the Transportation Authority.
- 7. The services are planned to be funded in whole or in part by regional, state, federal, or private funding.
- 8. Application of this ban will violate or would be inconsistent with the terms or conditions of a grant or agreement with a public agency.

Additionally, this section shall not apply to contracts advertised, solicited, initiated, or executed prior to the effective date of this revised policy, including amendments to existing contracts and task orders under existing on-call contracts.

Application of this section does not apply to: (1) work performed on a contract by a subcontractor, subconsultant or supplier; or (2) the supply of off-the-shelf equipment.

SECTION REVISION PAGE

Application of this section does not apply to procurements under on-call contracts, where on-call bench was established prior to the effective date of this revised policy.

If during the term of a contract, the contractor moves its headquarters, or the location from which it will provide services to the Transportation Authority, to a state on the Covered State List, such a move shall not constitute grounds to terminate the contract.

For the purposes of this section, "contract" means an agreement between the Transportation Authority and any person or entity that provides, at the expense of the Transportation Authority, for public works, public improvements, commodities, or services to be purchased, not including contracts for underwriting services for the purchase and sales of Transportation Authority bonds, notes, and other forms of indebtedness.

The Transportation Authority shall document any applicable contract exemption(s) and provide such documentation to the Executive Director prior to execution of the contract by the Transportation Authority, or prior to specific action by the Board authorizing award of the contract to the contractor, if applicable.

SECTION VI.VII.
CONTRACT
ADMINISTRATION

No contractual obligations, administrative or capital, shall be assumed by the Transportation Authority in the excess of its ability to pay as defined by the adopted final budget and the Strategic Plan. Approval of the Board is required prior to the execution of any contract for the procurement of goods or professional services that authorizes payments that in the aggregate exceed \$75,000\sumedocumes 100,000 in a fiscal year. The Executive Director is authorized to approve and execute all such contracts that authorize payments not in excess of \$75,000\sumedocumes 100,000 per fiscal year, provided that the amounts are consistent with the adopted final budget, as amended in accordance with the Fiscal Policy for the current fiscal year or, in the event that the contract was not completed in a single fiscal year, the contiguous fiscal year(s). The Executive Director is authorized to amend contracts to extend time, to add or delete tasks of similar scope and nature, and to increase or reduce the total amount of the contract. The Executive Director may execute such amendments without prior Board approval, if the amount of the amendment does not exceed \$75,000 \$100,000.

All <u>contract procurements and</u> expenditures shall comply with all federal, state, and local statutory requirements and <u>applicable administrative regulations and orders</u>, <u>as well as</u> other legal restrictions placed on the use of <u>said public</u> funds. The Executive Director shall execute all contracts in conformance with the monetary limits established in the adopted final budget. The Executive Director and/or <u>his/hertheir</u> designee has the responsibility for monitoring all contractual agreements for compliance with the terms and conditions established in the

Revision to increase Executive Director's authorization threshold to be in line with comparable transportation agencies and adjust for inflation.

Procurement Policy

Resolution 23-XX

I. INTRODUCTION

The Procurement Policy is designed to guide decisions pertaining to procurement, including the modes, methods, and procedures for acquiring the materials, equipment, and services necessary to carry out the operations of the San Francisco County Transportation Authority (Transportation Authority). This policy is intended to establish the manner in which all Transportation Authority procurement activities shall be conducted, and define the requirements and/or limitations for the Transportation Authority and those individuals, firms or agencies doing business with the Transportation Authority. It is intended to be consistent with the Transportation Authority's Administrative Code, the Proposition K Sales Tax Expenditure Plan (Expenditure Plan), federal and state regulations, and general prudent accounting and financial management practices.

II. SCOPE AND AUTHORITY

The Procurement Policy applies to the operations of the Transportation Authority and is not applicable to the operations of any project sponsoring agencies of the Transportation Authority, unless otherwise specifically provided. The Transportation Authority may enter into an agreement to solicit and award contracts on behalf of a sponsoring agency, if requested and if it is determined to be in the best interest of the Transportation Authority and the sponsoring agency. The award of such contracts shall be for goods and services for programs or projects contained in the Expenditure Plan.

The Procurement Policy provides guidelines for procuring materials and supplies, professional and technical services, and lease and rental agreements. The Procurement Policy is separate from, but shall be applied in conjunction with, the Transportation Authority's Strategic Plan, adopted Fiscal Policy and Disadvantaged Business Enterprise (DBE) and Local Business Enterprise (LBE) Policy, as applicable. Overall policy direction shall be the responsibility of the Transportation Authority Board (Board). Responsibility for implementation of the Procurement Policy, and day-to-day responsibility and authority for structuring, implementing, and managing the Transportation Authority's policies, goals, and objectives, shall lie with the Executive Director. This Policy will be reviewed and updated as required or deemed advisable at least once every three years. Any changes to the policy are subject to approval by the Board at a public meeting.

III. PROCUREMENT PROCESS

Open competition is the basis for efficient, economic, and fair public procurement. It is the policy of the Transportation Authority to competitively bid on the procurement of all goods and services, and to encourage small and local firms to do business with the Transportation Authority. All procurement activities are considered to be contractual obligations

Procurement Policy Page 2 of 9

encompassing financial compensation in return for the rendering of specific goods and/or services. All procurements are to be negotiated on a fixed-price or cost plus fee basis.

A. GENERAL PROVISIONS

All procurement transactions, regardless of purchasing methodology or dollar value, shall be conducted in a manner that maximizes open and free competition. Solicitation for offers, whether by an informal or formal bid process or through competitive negotiation shall:

- 1. incorporate a clear and accurate description of the technical requirements for the materials, product, or services to be procured; and
- 2. clearly set forth all requirements which bidders must fulfill, and all other factors to be used in evaluating the proposals.

All bids or proposals must be submitted to and received at the location designated no later than the exact time and date stated in bid or proposal requirements, and must be date- and time-stamped and logged as received by Transportation Authority personnel. Bids or proposals received after the date and time deadline will be returned unopened and will be considered as disqualified. A bid or proposal may be withdrawn prior to bid or proposal opening for any reason by a bidder or his/hertheir authorized representative, provided a written request to withdraw is received by the Transportation Authority prior to bid or proposal opening. After bid or proposal opening, a bid or proposal may be withdrawn only for material obvious error(s) and subject to written approval by the Executive Director.

The Transportation Authority reserves the right to modify and/or suspend any and all aspects, terms, conditions and requirements of any procurement, to obtain further information from any firm or person responding to the procurement, to waive any informality or irregularity as to form or content of the procurement document or any response thereto, to be the sole judge of the merits of the bids or proposals received, and to reject any or all bids or proposals for any reason provided that such actions are made in accordance with federal and state laws.

Contract awards shall be made only to responsive and responsible contractors that possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as compliance with public policy, record of past performance, and financial and technical resources. False statements in proposals will be a basis for disqualification. All contract awards shall be documented by written purchase order, written contract, or written memorandum. Contracts, including all options therein, will generally be limited to a maximum period of five (5) years.

The Transportation Authority annual budget establishes the monetary limits for the procurement of goods and services subject to this Policy. All procurements, whether formal or informal, shall be in compliance with the Transportation Authority's non-discrimination policy, DBE/LBE Policy, if applicable, and any other Transportation Authority contracting policy in effect at the time of the procurement.

Procurement Policy Page 3 of 9

B. CONFLICT OF INTEREST

No employee, officer or agent of the Transportation Authority shall participate in the procurement process, or in the award or administration of a contract, if such participation would result in a conflict of interest, real or apparent, as defined by state and federal laws. No employee, officer, or agent shall solicit or accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to sub-agreements. The Transportation Authority shall be subject to Articles 1 and 3 of Title 9, Chapter 7 of the California Government Code and the regulations which implement those provisions as well as the San Francisco County Transportation Authority Conflict of Interest Code.

C. INFORMAL BID PROCESS

Solicitations for goods and services that are anticipated to be equal to or less than \$75,000 \$100,000 may go through an informal Request for Proposal (RFP) or bid process. Quotes may be requested by telephone, via the Internet or through mail from known qualified vendors or from current vendor catalogs and/or websites. Routine purchases in the amount of \$25,000 or less should be distributed equitably among qualified competitively priced suppliers, with consideration given to DBE/LBE utilization as applicable and as permitted by law. It is not permissible to segment the contract or use multiple solicitations for similar goods or services in order to circumvent the limitation for formal solicitation.

The informal bid or solicitation process shall include a minimum of three quotes from potential providers to ascertain that the proposed price is fair and reasonable. Transportation Authority files shall maintain support documentation demonstrating that a sufficient number of quotes were obtained.

Except in the case of an emergency, or a finding by the Board by two-thirds vote of all its voting members that, in its opinion, the supplies, equipment or materials may be purchased at a lower price in the open market, awards of contracts for supplies, equipment and materials in excess of \$25,000 shall be awarded to the lowest responsible and responsive bidder. Awards of contracts for supplies, equipment, and materials not in excess of \$25,000 will generally be awarded to the lowest bidder after a competitive process, but other factors including but not limited to delivery date and known performance and, if applicable and permitted by law, DBE/LBE participation may be considered in selecting the vendor.

Awards of contracts for professional services, including legal, financial advisory, private architectural, landscape architectural, engineering, environmental, land surveying, or construction project management firms shall be on the basis of demonstrated competence and on the professional qualifications necessary for the satisfactory performance of the services required, and at a price that is fair and reasonable, in accordance with state and federal laws.

D. FORMAL BID PROCESS

Solicitation of goods and/or services that are anticipated to be in excess of \$75,000 \$100,000 shall be required to go through a formal Request for Proposal (RFP) or Invitation for Bid (IFB) process. An RFP process will also be used to procure professional and technical services as applicable in accordance with the provisions of California

Procurement Policy Page 4 of 9

Government Code Section 4526 and applicable federal laws and regulations. Award of a contract for professional services will be qualifications-based and will consider multiple factors that will be clearly stated in the RFP, although price may be considered during the negotiation of the contract. Procurement for establishing an on-call or preapproved list of professional services providers shall be based on a qualifications-based process in accordance with state and federal law, and price may be taken into consideration when negotiating a contract with a firm selected from such a list to fulfill task orders.

For procurements anticipated to be in excess of \$75,000 \$100,000, an Invitation for Bids (IFB) process will be used to procure all supplies, equipment, or materials that are standard in nature, character, and quality; easily defined; and/or reasonably accessible in the open market. Award will be made to the lowest responsive and responsible bidder after competitive bidding, except in an emergency declared by the vote of two-thirds of the voting membership of the Board pursuant to California Public Utilities Code Section 131285. If, after rejecting bids received, the Transportation Authority, pursuant to California Public Utilities Code Section 131286, determines and declares by a two-thirds vote of the voting membership of the Board that, in its opinion, the supplies, equipment, or materials may be purchased at a lower price in the open market, the Transportation Authority may proceed to purchase these supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisement.

Solicitation for offers in the formal bid process shall include the following:

- 1. A clear and accurate written description of the project scope and deliverables, and technical requirements for the materials, product, or service being procured;
- 2. Special conditions or restricting policies, policy goals such as DBE/LBE goals, if applicable, patents, liquidated damages, and performance, bid or indemnification requirements;
- 3. Proposed timetable for the project or service;
- 4. General format requirements and number of copies/items (if applicable) to be delivered;
- 5. Date of pre-proposal conference, if applicable;
- 6. A clear definition of the evaluation criteria to be used in evaluating the bids or proposals; and
- 7. Date, time, and place for submission of final bids or proposals.

If a pre-proposal conference is held, a listing of those in attendance showing name(s) of attendees and agency or company represented shall be maintained in the resulting contract files.

Responses to RFPs for professional and technical services shall require identification of the bidders or proposer's key employees and subcontractors. Bidders or proposers shall be required to notify the Transportation Authority of any pending lawsuits or labor disputes that may interfere with the delivery of services.

Procurement Policy Page 5 of 9

Procurements in amounts greater than \$75,000 \$100,000 shall require a formal notice process including advertising requests for bids or proposals in local appropriate newspapers or other media outlets. Notice should occur with sufficient time to allow bidders or proposers reasonable time in which to respond. The term "reasonable time" may vary depending on the complexity of the proposed project. Thirty (30) calendar days shall be considered the standard time allotted in notification to potential bidders or proposers. More or less time may be allotted at the determination of the Executive Director.

RFPs and IFBs will be reviewed by a selection panel appointed by the Executive Director. The Executive Director may elect to assemble a separate cost evaluation panel to review cost proposals and evaluate cost assumptions. Based on their reviews and analysis, the selection panel and cost evaluation panel, if any, shall rank bids or proposals. The Executive Director will recommend to the Board award of a contract, based on the results of the procurement process and the recommendations the selection panel and cost evaluation panel, if any, to the bidder or proposer most advantageous to the Transportation Authority. In the case of IFBs, the Executive Director will recommend an award to the lowest responsive and responsible bidder or proposer.

Copies of all correspondence, including negative response letters, copies of evaluation sheets/scores, and copies of all bids or proposals not being considered further shall be maintained in the files.

In the event that only a single bid or proposal is submitted, the Transportation Authority shall document its efforts in soliciting responses; and record the history of all correspondence, negotiations, including parties involved, etc. that took place with reference to the award of the resulting contract.

IV. NONCOMPETITIVE NEGOTIATED AGREEMENTS (SOLE SOURCE)

A noncompetitive, negotiated contract may be developed when special conditions arise. These types of agreements are defined as "Sole Source" agreements. Conditions under which noncompetitive, negotiated contracts may be acceptable include:

- 1. A unique commodity or specialized professional service is known to be available from only one vendor;
- 2. An emergency of such magnitude that cannot permit delay; or
- 3. Competition is determined to be inadequate after solicitation of a number of sources.

In these cases, the Transportation Authority will develop an adequate scope of work, evaluation factors and cost estimate, and conduct negotiations with the vendor to ensure a fair and reasonable cost. The Transportation Authority will document details of the special conditions and retain those details in the respective contract file for audit and grant review purposes.

Procurement Policy Page 6 of 9

V.—PROHIBITING CONTRACTING IN STATES THAT ALLOW DISCRIMINATION AGAINST LGBT INDIVIDUALS AND IN STATES WITH RESTRICTVE ABORTION LAWS

On October 14, 2016, through Ordinance 189-16, the City and County of San Francisco prohibited city contracting involving states that allow discrimination against lesbian, gay, bisexual, and transgender individuals. This prohibition became effective on February 11, 2017. On August 9, 2019, through Ordinance 200-19, the City and County of San Francisco prohibited city contracting involving states with certain laws that restrict abortion access. This prohibition became effective January 1, 2020. The list of states banned from contracting under both Ordinances is known as the Covered State List and is maintained and updated by the City Administrator on at least a semiannual basis.

The Ordinances do not automatically apply to the Transportation Authority, since it is a separate governmental entity rather than a City department. In keeping with the public policy objectives leading to the City's adoption of the Ordinances, however, the Transportation Authority has adopted appropriate elements of the contracting prohibitions contained in the Ordinances, as further detailed below. Pursuant to this section, the Transportation Authority shall not: enter into a contract with a contractor that has its United States headquarters in a state on the Covered State List or where any or all of the work on the contract will be performed in a state on the Covered State List, unless it meets one or more of the exemption criteria detailed below.

- 1.—This section shall not apply to contracts that meet one or more of the following circumstances:
- 2.—The needed services are available only from one source, as supported by sufficient justification.
- 3:—The contract is necessary to respond to an emergency which endangers public health or safety:
- 4:—There are no qualified responsive bidders or prospective vendors that comply with the requirement of this section; and the needed service, project or property is essential to the Transportation Authority or the public.
- 5.—The public interest warrants the granting of an exemption due to potential adverse impact on services.
- 6.—The services to be purchased are available under a bulk purchasing arrangement with a federal, state, or local government entity or a group purchasing organization; the purchase under such arrangement will substantially reduce the Transportation Authority's cost of purchasing such services, and the purchase under such arrangement is in the best interest of the Transportation Authority.

Procurement Policy Page 7 of 9

7.—The services are planned to be funded in whole or in part by regional, state, federal, or private funding.

8. Application of this ban will violate or would be inconsistent with the terms or conditions of a grant or agreement with a public agency.

Additionally, this section shall not apply to contracts advertised, solicited, initiated, or executed prior to the effective date of this revised policy, including amendments to existing contracts and task orders under existing on-call contracts.

Application of this section does not apply to: (1) work performed on a contract by a subcontractor, subconsultant or supplier; or (2) the supply of off-the-shelf equipment.

Application of this section does not apply to procurements under on-call contracts, where on-call bench was established prior to the effective date of this revised policy.

If during the term of a contract, the contractor moves its headquarters, or the location from which it will provide services to the Transportation Authority, to a state on the Covered State List, such a move shall not constitute grounds to terminate the contract.

For the purposes of this section, "contract" means an agreement between the Transportation Authority and any person or entity that provides, at the expense of the Transportation Authority, for public works, public improvements, commodities, or services to be purchased, not including contracts for underwriting services for the purchase and sales of Transportation Authority bonds, notes, and other forms of indebtedness.

The Transportation Authority shall document any applicable contract exemption(s) and provide such documentation to the Executive Director prior to execution of the contract by the Transportation Authority, or prior to specific action by the Board authorizing award of the contract to the contractor, if applicable.

∀I.V. PROCUREMENT PROTEST AND APPEAL PROCEDURES

It shall be the policy of the Transportation Authority to have established protest procedures which shall apply to all procurements of supplies, equipment, and services. A copy of these policies and procedures shall be maintained in the Transportation Authority's offices for general inspection and review by the public. In addition, the Transportation Authority shall provide, upon request, a copy of these protest policies and procedures to all individuals, associations, corporations, and companies with which the Transportation Authority conducts business.

A bidder or proposer that has timely submitted a bid or proposal in response to a procurement of the Transportation Authority may file a protest asserting that the Transportation Authority has failed to follow applicable policies or procedures relative to

Procurement Policy Page 8 of 9

seeking, evaluating, and/or awarding a contract or has failed to comply with relevant specifications or procedures contained in the bid documents or request for proposals. In order to file a protest, the protester must be an actual bidder or proposer whose direct economic interests would be affected by the award of a procurement contract or by the failure to award a procurement contract.

Such protests must be filed within the earlier of five (5) business days after (i) notice, actual or constructive, of the Transportation Authority's finding that the bidder or proposer's bid or proposal is not being considered further or (ii) an award of the contract by the Transportation Authority to another bidder or proposer.

A protest shall be deemed filed when the Transportation Authority actually receives the protest by mail or personal delivery. Failure to file a timely protest shall constitute a waiver of the right to file a protest under these procedures. Within five (5) business days of receipt of an untimely protest, the Transportation Authority shall notify the individual or entity that the protest was untimely and is being rejected. Such notice shall constitute the final decision of the Transportation Authority relative to the untimely protest.

All protests filed must be filed by an actual bidder or proposer responding to the procurement and must be in writing and include the following information:

- 1. Name of individual or entity filing protest;
- 2. Business address and telephone number of individual or entity;
- 3. Name and title of contact person;
- 4. Description of specific procurement and the action or decision being protested;
- 5. A clear and concise statement of the protest, including identification of:
 - a. procedures or specifications contained in bid documents or request for proposals which were allegedly not complied with, or
 - b. specific instance(s) of Transportation Authority failure to follow its policies and procedures;
- 6. Detailed factual support for the protest, including relevant documents or correspondence;
- 7. Desired resolution of the protest; and
- 8. Dated signature of individual, or authorized representative of entity, filing the protest.

The Executive Director shall review and consider all stated concerns and issues alleged to be in non-compliance and issue a decision within five (5) business days of receipt of the protest. If the decision of the Executive Director is not satisfactory to the protesting party, the protesting party may appeal that decision to the Board. The appeal must be filed within five (5) business days of the date of the decision. The appeal must clearly state the basis for disputing the decision of the Executive Director.

Procurement Policy Page 9 of 9

The appeal shall be referred to the Board, which shall consider whether to accept the appeal and hold a hearing on the matter. If a majority of the Board does not wish to accept the appeal, the Board shall defer to the decision of the Executive Director as final.

If a majority of the Board agrees to accept the appeal and holds a hearing on the matter, the protesting party shall be notified of the hearing date and time, which shall be scheduled at the earliest convenience of the Board. At the hearing, the protesting party shall be allowed fifteen (15) minutes to present its case. The Transportation Authority staff shall then be allowed fifteen (15) minutes to present the Transportation Authority's case. The Board may extend these time periods at its discretion.

The Board shall review and act upon the appeal at its next regularly scheduled meeting unless it determines that additional time to consider the appeal is required. The Board shall issue written notification to the protester of its decision which shall constitute the final decision of the Transportation Authority.

∀II.VI. CONTRACT ADMINISTRATION

No contractual obligations, administrative or capital, shall be assumed by the Transportation Authority in the excess of its ability to pay as defined by the adopted final budget and the Strategic Plan. Approval of the Board is required prior to the execution of any contract for the procurement of goods or professional services that authorizes payments that in the aggregate exceed \$75,000\frac{\$100,000}{100,000} in a fiscal year. The Executive Director is authorized to approve and execute all such contracts that authorize payments not in excess of \$75,000\frac{\$100,000}{100,000} per fiscal year, provided that the amounts are consistent with the adopted final budget, as amended in accordance with the Fiscal Policy for the current fiscal year or, in the event that the contract was not completed in a single fiscal year, the contiguous fiscal year(s). The Executive Director is authorized to amend contracts to extend time, to add or delete tasks of similar scope and nature, and to increase or reduce the total amount of the contract. The Executive Director may execute such amendments without prior Board approval, if the amount of the amendment does not exceed \$75,000\frac{\$100,000}{100,000}.

All <u>contract procurements and</u> expenditures shall comply with all federal, state, and local statutory requirements and <u>applicable administrative regulations and orders</u>, as well as other legal restrictions placed on the use of <u>said public</u> funds. The Executive Director shall execute all contracts in conformance with the monetary limits established in the adopted final budget. The Executive Director and/or <u>his/hertheir</u> designee has the responsibility for monitoring all contractual agreements for compliance with the terms and conditions established in the contract and for rendering payment upon completion of services or delivery of goods and materials as agreed.

Travel, Conference, Training, and Business Expense Reimbursement Policy

Resolution 23-XX

I. PURPOSE AND GENERAL POLICY

Purpose. This document establishes a set of policies relating to travel, conference, training, and business expenses, and establishes procedures for reimbursement of eligible San Francisco County Transportation Authority (Transportation Authority) Commissioners and employees, herein referred to as Transportation Authority personnel, for such expenses. These rules and guidelines are designed to safeguard public funds and to ensure the Transportation Authority and its personnel are using the most economical and well-documented procedures in a consistent manner.

General Policy. The Transportation Authority recognizes that in some instances it is necessary and/or convenient for authorized Transportation Authority personnel to incur expenses for travel, training, and other business purposes in connection with the official business of the Transportation Authority. Additionally, the Transportation Authority recognizes the benefit of attendance at meetings, conferences and other functions which advance professional knowledge and provide opportunities to exchange information related to transportation, government operations and issues. The policy of the Transportation Authority is to pay or reimburse Transportation Authority personnel for such expenses, travel, and fees that a reasonable and prudent person would incur when traveling on official business and which serve a Transportation Authority purpose and are deemed necessary and/or advantageous to the Transportation Authority.

Limitations. Travel and meeting expenditures shall not exceed the approved budget, except with justification and documentation, and shall be consistent with associated policies established by the Transportation Authority. Eligible Transportation Authority personnel are entitled to claim reimbursement for actual, reasonable, and necessary expenses for eligible expenses incurred in the discharge of their official duties, subject to the limitations set forth herein.

II. ELIGIBILITY

- A. **Eligible Personnel.** Expenses are authorized for Transportation Authority Commissioners and employees (Transportation Authority personnel). Travel expenses may be authorized for the purpose of conducting business on behalf of the Transportation Authority, including employment interviews.
- B. **Eligible Travel Expenses.** The following expenses are eligible for reimbursement in connection with authorized Transportation Authority business, travel, conferences, meetings, and training, subject to the restrictions identified in this policy. Travel

Page 2 of 10

expenses are subject to review by the Deputy Director for Finance and Administration and will only be approved if deemed reasonable and proper. Reimbursements shall be for actual expenditures (receipts required for expenses greater than \$25) for amounts not to exceed the per diem rates and allowances established by the General Services Administration (GSA) and/or United States Department of Defense (USDOD) as appropriate¹:

- 1. Meals;
- 2. Lodging;
- 3. Transportation charges (including commercial carrier fares, rental car charges, private car mileage allowances, parking, bridge and road tolls, and necessary taxi, transportation network company or public transit fares); and
- 4. Miscellaneous expenses:
 - a. Local and long-distance business telephone calls, faxes, and internet access by the most economical practicable commercial service;
 - b. Registration fees for attending conferences, seminars, conventions, meetings, or other training of professional societies or community organizations;
 - c. Tips to porters, baggage carriers, bellhops, hotel staff, and stewards or stewardesses hospitality staff;
 - d. Purchase of necessary training or conference materials or supplies;
 - e. Business expenses in connection with the preparation of clerical or official reports while on training or travel status; and
 - Unforeseen or unusual expenses which are justified, necessary and substantiated.
- C. **Non-Eligible Travel Expenses.** Transportation Authority personnel are not eligible to claim reimbursement for the following items:
 - 1. Personal telephone calls;

¹ Per diem is an allowance for lodging (excluding taxes), meals, and incidental expenses. The GSA establishes per diem rates for destinations within the continental United States. The United States Department of State establishes the foreign rates.

Page 3 of 10

- 2. Alcoholic beverages and entertainment expenses;
- 3. Constructive expenses, which are those which might have been incurred for Transportation Authority business but were not, such as:
 - if two individuals traveled together to a meeting in one car and each claimed full transportation costs, then one would be making a "constructive" claim, or
 - if an individual on a trip stayed with friends or relatives, it would be "constructive" to claim a lodging expense; and
- 4. Expenses which are excessive or unreasonable as determined by the Deputy Director for Finance and Administration.
- D. **Expense Limitations.** Reimbursement of costs shall be based on the minimum number of days and hours required to transact Transportation Authority business. Costs incurred due to early or late arrival shall be at the traveler's expense unless it is shown that the savings in airfare outweighs other costs. In that event, it is up to the traveler's discretion as to whether he or shethey wishes to take advantage of the reduced airfare by traveling at an earlier/later date.
- E. Cash Advance. Cash advances may be requested to cover anticipated travel expenses for out-of-area or overnight travel if requested a minimum of ten working days before departure. Cash advances shall not be less than \$100 nor more than the estimated expenses listed on the approved travel authorization form. Advances must be refunded immediately when an authorized trip is canceled or indefinitely postponed.

III. TRAVEL AUTHORIZATION

- A. Approval. Before any Transportation Authority paid or reimbursed overnight or out-of-area travel may take place, Transportation Authority personnel must first submit a travel authorization form to their supervisor for approval, who will forward the approved form to the Deputy Director for Finance and Administration to verify that sufficient funds are available in the Transportation Authority's budget for the travel. The Deputy Director for Finance and Administration will forward the approved form to the Executive Director for final approval. Transportation Authority Commissioners must submit the travel authorization form to the Executive Director for pre-approval. The Executive Director is authorized to approve travel requests for Transportation Authority personnel consistent with this policy. The Executive Director will inform the Chairperson of the Transportation Authority of all Commissioner travel requests in excess of \$5,000. All travel requests must be approved in advance, prior to incurring any reimbursable expenses.
- B. Local Travel. Local travel, which does not involve overnight travel, can be reimbursed by the Transportation Authority without pre-verification of travel funds availability but staff

Page 4 of 10

shall obtain verbal approval from their respective supervisor and the Executive Director. If overnight travel is necessary, a travel authorization form shall be submitted prior to incurring reimbursable expenses.

- C. Out-of-Area Travel. Out-of-area travel is defined as 50 miles or more beyond the San Francisco city limits.
- D. **Travel Authorization Form.** The travel authorization form shall list the destination, purpose and justification for the trip, departure and return dates, and the estimated costs for transportation, meals, lodging, registration, and other expenses.

IV.—PROHIBITING STAFF TRAVEL TO STATES THAT ALLOW DISCRIMINATION AGAINST LGBT INDIVIDUALS AND IN STATES WITH RESTRICTIVE ABORTION LAWS

On October 14, 2016, through Ordinance 189-16, the City and County of San Francisco prohibited staff travel to states that allow discrimination against lesbian, gay, bisexual, and transgender individuals. This prohibition became effective on February 11, 2017. On August 9, 2019, through Ordinance 200-19, the City and County of San Francisco prohibited staff travel in states with certain laws that restrict abortion access. This prohibition became effective January 1, 2020.

The list of states banned from travel under both Ordinances is known as the Covered State List and is maintained and updated by the City Administrator on at least a semiannual basis.

The Ordinances do not automatically apply to the Transportation Authority since it is a separate governmental entity rather than a City department. In keeping with the public policy objectives leading to the City's adoption of the Ordinances, however, the Transportation Authority has adopted appropriate elements of the travel prohibitions contained in the Ordinances, as further detailed below. Pursuant to this section, the Transportation Authority shall not: 1) require any of its employees or officers to travel to a state on the Covered State List, or 2) approve a request for Transportation Authority-funded travel to a state on the Covered State List, unless such travel meets one or more of the exemption criteria detailed below.

This section shall not apply to travel that is one or more of the following:

- 1.—Necessary for the enforcement of any state or Transportation Authority law, rule, or policy.
- 2.—Necessary for the defense of any legal claim against the Transportation Authority.
- 3.—Required by city, state, or federal law.
- 4.—Required to meet contractual obligations incurred by the Transportation Authority.
- 5.—Necessary for the protection of public health, welfare, or safety.

Page 5 of 10

For purposes of this section, "travel" does not include landing in a state by plane to make a connecting flight to a destination outside that state, or traversing a state by automobile, train, bus, or otherwise, to reach a destination outside that state.

The Transportation Authority shall document any travel exemption requests and provide them to the Executive Director prior to considering the travel request.

₩-IV. PROCEDURES FOR CLAIMING EXPENSE REIMBURSEMENT

A. **Expense Report.** Any reimbursement for expenses incurred on behalf of the Transportation Authority shall be claimed on an expense report. Expense reports shall be submitted within 45 days of incurring the expenses, and the reports shall be accompanied by adequate documentation supporting the expenses.

The total amount of all expenses pertaining to a particular trip should be accounted for by the traveler on an expense report form. If the total actual cost of a trip exceeds the amount listed on the travel authorization form, justification and documentation of the excess cost must be provided. In the absence of a satisfactory explanation, any amount in excess of the estimated cost approved on the travel authorization form shall not be allowed. If the cash advance exceeds the actual reimbursable expense, then the traveler shall immediately return the excess amount with the expense report.

- B. **Nature of Claim.** Claims must be for actual and necessary expenses consistent with this document; not for "constructive" expenses.
- C. **Per Diem Adjustments.** Per diem claims will be adjusted, using the appropriate per meal rate, in those instances where meals are provided gratis or as part of a registration or any other fee claimed on the expense report.
- D. **Required Information.** Each claim must clearly indicate the date, nature of expense and amount for which reimbursement is being claimed.
- E. Receipts. Receipts or proof of payment must be submitted with the claim to substantiate expenditures for public carrier fares, rental cars, lodging (indicating the single rate), meals, conference, or seminar registration fees, and for any unusual items or items not specifically related to travel. Claims must be recorded and certified on an expense report. For any official business in-transit travel destination, Transportation Authority personnel must provide a receipt and narrative to substantiate claimed travel expenses for lodging and a receipt for any authorized expenses incurred costing over \$25. Itemized receipts shall be obtained and submitted with the expense report. If a receipt cannot be obtained or has been lost for expenses greater than \$25, a statement to that effect shall be made on the expense report and the reason given. In the absence of a satisfactory explanation, the amount involved shall not be allowed.

Page 6 of 10

- F. Commissioner Reports. Transportation Authority Commissioners attending a meeting, conference, or training at the expense of the Transportation Authority shall provide a brief written and oral report of such as part of the Chair's Report which is typically scheduled at the second Transportation Authority Board meeting of the month. at the next regular Board meeting of the Transportation Authority and within the Chair's Report. The report must include a statement of how the Commissioner's attendance has an impact on, or was associated with, Transportation Authority business, and include any materials distributed at the meeting, conference, or training that could be helpful to other Commissioners.
- G. Expenses Not Covered by Transportation Authority Policy. In the event where an expense does not qualify for reimbursement under this policy, to be reimbursable, the expense shall be approved by the Transportation Authority Board, in a public meeting before the expense is incurred, unless the expense is related to lodging in connection with a conference or organized educational activity conducted in compliance with California Government Code s. 54952.2(c), including but not limited to ethics training required by Article 2.4 (commencing with §. 53234) of the Government Code.

₩.V. PREPAYMENT OF CONFERENCE/SEMINAR/TRAINING FEES

All requests for prepayment of conference/seminar/training will be submitted for approval a minimum of ten working days in advance of the conference/seminar/training, unless reasonable justification is provided. If the ten-day requirement cannot be met, Transportation Authority personnel may personally pay registration fees and other expenses at their own risk and seek reimbursement on the expense report.

VII.VI. MEAL EXPENSE

- A. **General.** Transportation Authority personnel may incur expenses for the purchase of meals for persons not employed by the Transportation Authority, with whom the Transportation Authority is transacting business. The name and business affiliation of the person, as well as the purpose of the business meeting, must be included in the expense report. The maximum per-person expenditure shall not exceed a reasonable amount under the particular circumstances and shall not exceed the set per diem amount established by the GSA or USDOD as appropriate. Actual costs shall include reasonable and customary gratuities, but not the cost of alcoholic beverages. All such expenditures for personnel must be approved in advance by the Executive Director.
- B. **Restrictions.** The purchase of non-travel related meals is authorized only when Transportation Authority personnel are required, and where approved in advance by the Executive Director in the following circumstances:

Page 7 of 10

- 1. to attend a breakfast, lunch, or dinner meeting concerning Transportation Authority business affairs because of the official position or duties of the individual;
- 2. to attend a meeting between Commissioners and staff when required to conduct Transportation Authority business outside of normal business hours;
- 3. to attend consecutive or continuing morning, afternoon, and night sessions of a Transportation Authority, Board of Supervisors, city council, commission, district, or other public agency meeting to cover an agenda;
- 4. to act as host for official guests of the Transportation Authority, such as members of examining boards, official visitors, and speakers or honored guests at banquets or other official functions; and
- 5. to attend off-site training events (training workshops, seminars, and retreats) and ready access to reasonably priced meals is not available. The Executive Director may elect to either provide meals to the attendees or authorize individuals to purchase their own meals and claim reimbursement in accordance with provisions of this document.
- C. Local Area Meals. Reimbursement for employee meals in the local area must be associated with Transportation Authority business and must be approved in advance by the Executive Director. Meal expenses incurred prior to authorization will be at the risk of the employee. Meals should not exceed the per diem rates and allowances established by the GSA or USDOD as appropriate. Unusual costs must be justified in writing.
- D. Out-of-Area Meals. Reimbursement for employee meals during periods of approved trips out-of-area must be approved on the travel authorization form. Reimbursement for out-of-area meals will be based on actual costs, for which receipts must be provided for expenditures exceeding \$25; and in accordance with the per diem of the federal standard meal allowance, including single day and total trip meal rates, as established by the GSA or USDOD as appropriate. Unusual costs must be justified in writing.
- E. **Special Functions.** Reimbursement for meals at special functions, such as banquet meals at authorized conferences, professional meetings, or special events or functions, may be eligible for reimbursement at rates different than the per diem allowances. Eligibility for such reimbursements is based on pre-approval by the Executive Director or the Transportation Authority Board in accordance with this policy.

₩HH.VII. LODGING EXPENSES

Reimbursement is allowable for single-room lodging expenses associated with attendance at out-of-area conferences or meetings. The cost of a single room will be reimbursed when travel exceeds the day's duration. Where available, government and group rates must be

Page 8 of 10

requested. No reimbursement is authorized for overnight accommodations within the nine Bay Area counties of Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma unless prior authorization is granted.

Transportation Authority personnel will be expected to be prudent in the choice of lodging and will submit proper documentation to justify the expense. The Executive Director will approve the lodging as part of the approval of the travel request and reserves the right to determine which lodging is prudent, based on economic, comfort, safety, and reasonability considerations. If lodging is required in connection with a conference or activity, lodging shall be at the location where the conference or activity is being held. Lodging costs shall not exceed the maximum group rate published by the conference or activity sponsor, provided that the lodging at the group rate is available at the time of booking. If the group rate is not available and the hotel has no remaining vacancies, comparable lodging that is consistent with the requirements of this policy shall be used. No lodging shall be reimbursed on the final day of a conference or activity unless reasonable justification is provided or unless authorized by the Executive Director.

IX.VIII. MEANS OF TRANSPORTATION

A. **General.** All travel must utilize the most efficient, direct, and economical mode of available transportation. Transportation Authority personnel shall use government and group rates offered by providers of transport where available. If for personal convenience, Transportation Authority personnel travel an indirect route and travel is interrupted, any resulting extra expense will be borne by the individual except for reasons beyond the control of the individual. For employees, any resulting excess travel time, except where beyond the control of the employee, will not be considered work time, but will be charged the appropriate type of leave.

Charges or loss of refunds resulting from failure to cancel reservations in accordance with the carrier's rules and time limits will not be reimbursed, unless it can be shown that such failure resulted from circumstances beyond the control of Transportation Authority personnel.

Unused portions of transportation tickets are subject to refund and, when purchased by the Transportation Authority, the individual traveler is responsible to see that they are turned in promptly to secure such a refund.

- B. **Local Travel.** Transportation Authority personnel are encouraged to make optimum use of available public transit services and carpooling for local area travel. The following modes of transportation are to be used in the following priority:
 - 1. public transportation;
 - 2. privately-owned motor vehicles;
 - 3. taxis, cabs, or transportation network companies; and
 - 4. rental cars, after exhausting all other available options.

Page 9 of 10

C. Air and Rail Travel. Transportation Authority personnel shall use coach-class or equivalent accommodations for air and rail travel whenever possible. Any additional fees for seat location upgrades, seat spacing upgrades, or preferential boarding will not be reimbursed unless documentation is provided that there were no other reasonable options available and unless authorized by the Executive Director for special circumstances (e.g., physical or medical conditions).

D. Automobiles

- 1. Privately-owned Automobile for Official Business
 - a. In instances where Transportation Authority personnel use their private automobiles for transportation between their normal work location and other designated work locations (e.g., the site of a meeting), Transportation Authority personnel may be reimbursed for such mileage based upon the standard mileage rate as established by the GSA. When actual mileage exceeds by 10% the reasonable distance between points, Transportation Authority personnel must justify such excess. Inability to do so will result in the reimbursement being based on mileage for the most direct route. Mileage rate of reimbursement will be adjusted as required. Mileage reimbursement for out-of-area trips shall not exceed the cost of the most efficient and economical direct air rate. Transportation Authority personnel who use their privately-owned motor vehicles for transportation while on official Transportation Authority business must carry at least the minimum automobile liability insurance for privatelyowned motor vehicles as required by the State of California. Reimbursement for this minimum automobile liability insurance coverage shall not be allowed. When using privately-owned motor vehicles, Transportation Authority personnel will not be reimbursed for any damages that may occur.
 - b. Charges for ferries, bridges, tunnels, or toll roads will be allowed. Reasonable charges will also be allowed for necessary parking.
 - c. Property damage to the automobile owned by Transportation Authority personnel incurred without fault or cause of the traveler shall be reimbursed in an amount up to \$250 or the amount of the deductible on the traveler's auto insurance policy, whichever is the lesser amount, for each accident. The Transportation Authority will assume an assignment of subrogation rights up to the amount expended, for recovery of such sums from third parties, known or unknown at the time of such payment.
 - d. In order to be paid mileage for travel which originates other than at the normal work location, the mileage must be in excess of that normally driven from the traveler's residence to and from the normal work location. The requesting

Page 10 of 10

traveler will include justification in the expense report. In the absence of satisfactory justification, the mileage expense shall not be allowed.

2. Rental Automobiles

- a. Rental automobiles may be used when such rental is considered to be more advantageous to the Transportation Authority than the use of other means of transportation. Advance reservations should be made whenever possible and Transportation Authority personnel are expected to be prudent in the selection of an automobile model.
- b. The traveler must obtain full collision coverage. Any additional charge for this coverage will be allowed for reimbursement.
- c. Charges for ferries, bridges, tunnels, or toll roads will be allowed. Reasonable charges will also be allowed for necessary parking.
- E. Other Modes of Transportation. Limousine, taxi, and transportation network company fares will be allowed for travel where public transportation is not practical or available. Examples may include, but are not limited to, travel between transportation terminal and hotel, between hotel and place of business, and between places of business.
- F. **Reimbursement.** Unless otherwise provided above, the Transportation Authority will reimburse its personnel for transportation at the rates established by the GSA or USDOD as appropriate.

X.IX. BAGGAGE

A. Charges incurred for excess baggage will be reimbursed if justified as necessary for the purpose of the trip. An explanation of the circumstances and payment receipts must accompany the claim for reimbursement. Charges for checking and handling of baggage, including reasonable and customary gratuities will be allowed.

Memorandum

AGENDA ITEM 9

DATE: June 23, 2023

TO: Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 7/11/2023 Board Meeting: Approve the Fiscal Year 2023/24 Transportation Fund

for Clean Air Program of Projects

RECOMMENDATION	☐ Information	
Approve the Fiscal Year (FY) 20 Clean Air (TFCA) Program of Pr		ion Fund for

- Short-Term Bike Parking (\$422,963 to the San Francisco Municipal Transportation Agency (SFMTA))
- Taxi Electrification Vehicles (\$186,000 to SFMTA)
- Taxi Electrification EV Infrastructure (\$162,000 to SFMTA)
- Emergency Ride Home (\$116,252 to the Department of the Environment (SFE))
- Program Administration (\$55,535 to the Transportation Authority)

SUMMARY

As the San Francisco TFCA County Program Manager, the Transportation Authority annually develops the Program of Projects for San Francisco's share of TFCA funds. Revenues come from a portion of a \$4 vehicle registration fee in the Bay Area and are used for projects that reduce motor vehicle emissions. After netting out 6.25% or \$55,535 for program administration, as allowed by the Air District, the estimated amount available to program to projects is \$887,215. Following Board approval of the Local Expenditure Criteria in February, we issued a call for projects on March 3. We received four project applications by the May 5 deadline, requesting \$881,281 in TFCA funds compared to the \$887,215 available. We are recommending fully funding SFMTA's two electrification projects (Taxi Electrification - Vehicles and Taxi Electrification - EV Infrastructure) and SFE's Emergency Ride Home program, and slightly exceeding the amount of funds initially requested for SFMTA's Short-Term Bike Parking request to fully use the available funds. This programming is expected to reduce the need for Prop L funds for bike parking and it avoids the loss of TFCA funds to San Francisco since any funds not programmed to

\square Fund Allocation

☐ Capital Project Oversight/Delivery
\square Budget/Finance
☐ Contract/Agreement
☐ Other:

Page 2 of 4

an eligible project by November must be returned to the Air	
District. SFMTA has no objection to this recommendation.	

BACKGROUND

The TFCA Program was established to fund the most cost-effective transportation projects that achieve emission reductions from motor vehicles in accordance with the Bay Area Air Quality Management District's (Air District's) Clean Air Plan. Funds are generated from a \$4 surcharge on the vehicle registration fee collected by the Department of Motor Vehicles in San Francisco. 40% of the funds are distributed on a return-to-source basis to Program Managers for each of the nine counties in the Air District. The Transportation Authority is the designated County Program Manager for the City and County of San Francisco. The remaining 60% of the revenues, referred to as the TFCA Regional Fund, are distributed to applicants from the nine Bay Area counties via programs administered by the Air District.

DISCUSSION

Funds Available. As shown in the table below, the amount of available funds for the FY 2023/24 San Francisco County Program Manager program is comprised of estimated FY 2023/24 TFCA revenues, reconciliation of prior year revenue estimates compared to actual revenue, interest income, de-obligated funds from completed and cancelled prior year TFCA projects, and unspent prior year administrative funds, as shown in the table below.

Estimated TFCA Funds Available for Projects FY 2023/24	
Estimated TFCA Revenues (FY 2023/24)	\$701,000
Reconciliation of Prior Year Revenue Estimate and Actuals	\$53,227
Interest Income	\$909
De-obligated funds from projects completed under budget: • SFMTA's Alternative Fuel Taxicab Incentive Program • SFE's Emergency Ride Home program • CA Interfaith Power & Light's EV Chargers at Faith Institutions project De-obligated funds from cancelled projects: • SF State University's Ford GoBike Memberships for SF State Students program	\$182,154
Prior Year Administrative Funds	\$5,461
Total Funds	\$942,750
Administrative Expense (6.25%)	(\$55,535)
Total Available for Projects	\$887,215

Page 3 of 4

After netting out 6.25% for Transportation Authority program administration, as allowed by the Air District, the amount available for projects is \$887,215.

Prioritization Process. On March 3, 2023 we issued the FY 2023/24 TFCA San Francisco County Program Manager call for projects. We received four project applications by the May 5, 2023 deadline, requesting \$881,281 in TFCA funds compared to the \$887,215 available.

We evaluated the TFCA project applications following the Board adopted prioritization process for developing the TFCA Program of Projects shown in Attachment 1. The first step involved screening projects to ensure eligibility according to the Air District's TFCA guidelines. One of the most important aspects of this screening was ensuring a project's cost effectiveness (CE) ratio was calculated correctly and was low enough to be eligible for consideration. The Air District's CE ratio, described in detail in Attachment 1, is designed to measure the cost effectiveness of a project in reducing air pollutant emissions and to encourage submittal of projects that leverage funds from non-TFCA sources. CE ratio limits are expressed in dollars per ton of emissions reduced and vary by project type. CE limits for FY 2023/24 for relevant project types are: Alternative Fuel Light- and Medium-Duty Vehicles - \$500,000; Alternative Fuel Infrastructure - \$500,000; Ridesharing Projects - Existing - \$150,000; and Bicycle Parking - \$250,000.

We performed our review of the CE ratio calculations in consultation with project sponsors and the Air District. The focus was to ensure that the forms were completed correctly, that values other than default values had adequate justification, and that assumptions were consistently applied across all project applications for a fair evaluation. Inevitably, as a result of our review, we had to adjust some of the submitted CE worksheets. In these cases, we worked with the project sponsor to determine the correct CE ratio and whether or not it exceeded the Air District's CE threshold.

We then prioritized projects that passed the eligibility screening using factors such as project type (e.g., first priority to zero emission projects), cost effectiveness, program diversity, project delivery (i.e., readiness), benefits to Equity Priority Communities, investment from non-public project sponsors, community support, and other considerations (e.g., a sponsor's track record for delivering prior TFCA projects). Our prioritization process also considered carbon dioxide (CO2) emissions reduced by each project. CO2 emissions are estimated in the Air District's CE worksheets but were not a subject of the state legislation that created TFCA and are not a factor in the CF calculations.

Staff Recommendation. Attachment 2 shows the four candidate projects, listed in ranked order based on the scoring criteria and other information, including a brief project description, total project cost, and the amount of TFCA funds requested. Attachment 3 includes a Project Information Form for each project with additional detail on the proposed scope, schedule, cost, and funding plan, as well as proposed deliverables.

We are recommending funding SFE's Emergency Ride Home program at the requested level, which represents a one-time funding increase of \$28,050 from \$88,202 in FY 2022/23 TFCA funds to \$116,252 in FY 2023/24 funds. With this increased funding, SFE will conduct

Page 4 of 4

additional marketing campaigns that they expect to grow participation in the program by an additional 20%. SFE also plans to establish partnerships with community-based organizations, including paying those organizations to help promote the Emergency Ride Home program. We will increase our oversight and involvement to guide and oversee SFE's work to improve the effectiveness of the program, including ensuring that recommendations from the Transportation Authority's Transportation Demand Management Market Analysis (underway) and future Transportation Demand Management Strategic Plan are incorporated. We will also work with SFE to explore coordinating with and leveraging of other transportation demand management efforts like BayPass and Commuter Check outreach, and will seek to strengthen partnerships between SFE and transit operators, such as BART and Muni, that can help promote Emergency Ride Home as a way to encourage more people to return to transit.

We are recommending funding at the requested amount for SFMTA's two electrification projects, Taxi Electrification - Vehicles and Taxi Electrification - EV Infrastructure. After consulting with SFMTA, we are recommending funding the SFMTA's Short-Term Bike Parking request with \$422,963 compared to the requested \$417,029 to fully use all of the available funds. The modest amount of additional TFCA programming will help reduce the potential need to fund bike parking using Prop L funds and avoid the loss of TFCA County Program Manager funds for San Francisco.

Schedule for Fund Availability. We expect to enter into a master funding agreement with the Air District by July 2023 after which we will issue grant agreements for the recommended FY 2023/24 TFCA funds. Pending timely review and execution of the grant agreements by the Air District and project sponsors, we expect funds to be available for expenditure beginning in September 2023. Projects are expected to be completed within two years, unless otherwise specified, per Air District policy.

FINANCIAL IMPACT

The estimated total budget for the recommended FY 2023/24 TFCA program is \$942,750. This includes \$887,215 for the four proposed projects and \$55,535 for administrative expenses. Revenues and expenditures for the TFCA program are included in the proposed Transportation Authority's FY 2023/24 budget, which will be considered for adoption by the Transportation Authority Board on June 27, 2023.

CAC POSITION

The Community Advisory Committee will consider this item at its June 28, 2023 meeting.

SUPPLEMENTAL MATERIALS

- Attachment 1 FY 2023/24 TFCA Local Expenditure Criteria
- Attachment 2 FY 2023/24 TFCA Program of Projects Detailed Staff Recommendation
- Attachment 3 Project Information Forms (4)

Attachment 1

Fiscal Year 2023/24 Transportation Fund for Clean Air (TFCA) LOCAL EXPENDITURE CRITERIA (Adopted 2/28/2023)

The following are the Fiscal Year 2023/24 Local Expenditure Criteria for San Francisco's TFCA County Program Manager Funds.

ELIGIBILITY SCREENING

In order for projects to be considered for funding, they must meet the eligibility requirements established by the Air District's TFCA County Program Manager Fund Policies for Fiscal Year Ending 2024. Consistent with the policies, a key factor in determining eligibility is a project's cost effectiveness (CE) ratio. The TFCA CE ratio is designed to measure the cost effectiveness of a project in reducing motor vehicle air pollutant emissions and to encourage projects that contribute funding from non-TFCA sources. TFCA funds budgeted for the project are divided by the project's estimated emissions reduction. The estimated reduction is the weighted sum of reactive organic gases (ROG), oxides of nitrogen (NOx), and particulate matter (PM) emissions that will be reduced over the effective life of the project, as defined by the Air District's guidelines.

TFCA CE is calculated by inputting information provided by the applicant into the Air District's CE worksheets. Transportation Authority staff will be available to assist project sponsors with these calculations and will work with Air District staff and the project sponsors as needed to verify reasonableness of input variables. The worksheets also calculate reductions in carbon dioxide (CO_2) emissions, which are not included in the Air District's official CE calculations, but which the Transportation Authority considers in its project prioritization process.

Consistent with the Air District's Guidelines, in order to be eligible for Fiscal Year 2023/24 TFCA funds, a project must meet the CE ratio for emissions (i.e., ROG, NOx, and PM) reductions as specified in the guidelines for each project type. Projects that do not meet the appropriate CE threshold cannot be considered for funding.

PROJECT PRIORITIZATION

Candidate projects that meet the cost effectiveness thresholds will be prioritized for funding based on the two-step process described below:

Step 1 - TFCA funds are programmed to eligible projects, as prioritized using the Transportation Authority Board-adopted Local Priorities (see next page).

Step 2 - If there are TFCA funds left unprogrammed after Step 1, the Transportation Authority will work with project sponsors to develop additional TFCA candidate projects. This may include refinement of projects that were submitted for Step 1, but were not deemed eligible, as well as new projects. This approach is in response to an Air District policy that does not allow County Program Managers to rollover any unprogrammed funds to the next year's funding cycle. If Fiscal Year 2023/24 funds are not programmed within 6 months of the Air District's approval of San Francisco's funding allocation, expected in May 2023, funds can be redirected (potentially to non-San Francisco projects) at the Air District's discretion. New candidate projects must meet all TFCA eligibility requirements and will be prioritized based on the Transportation Authority Board's adopted Local Priorities.

Local Priorities

The Transportation Authority's Local Priorities for prioritizing TFCA funds include the following factors:

1. Project Type - In order of priority:

- 1) Zero emissions non-vehicle projects including, but not limited to, bicycle and pedestrian facility improvements, transit priority projects, traffic calming projects, and transportation demand management projects;
- 2) Shuttle services that reduce vehicle miles traveled (VMT);
- 3) Alternative fuel vehicles and alternative fuel infrastructure; and
- 4) Any other eligible project.
- **2. Cost Effectiveness of Emissions Reduced** Priority will be given to projects that achieve high CE (i.e. a low cost per ton of emissions reduced) compared to other applicant projects. The Air District's CE worksheet predicts the amount of reductions each project will achieve in ROG, NOx, PM, and CO₂ emissions. However, the Air District's calculation only includes the reductions in ROG, NOx, and PM per TFCA dollar spent on the project. The Transportation Authority will also give priority to projects that achieve high CE for CO₂ emission reductions based on data available from the Air District's CE worksheets. The reduction of transportation-related CO₂ emissions is consistent with the City and County of San Francisco's 2021 *Climate Action Plan*.
- **3. Project Readiness** Priority will be given to projects that are ready to proceed and have a realistic implementation schedule, budget, and funding package. Projects that cannot realistically commence in calendar year 2024 or earlier (e.g. to order or accept delivery of vehicles or equipment, begin delivery of service, award a construction contract, start the first TFCA-funded phase of the project) and be completed within a two-year period will have lower priority. Project sponsors may be advised to resubmit these projects for a future TFCA programming cycle.
- **4. Community Support** Priority will be given to projects with demonstrated community support (e.g. recommended in a community-based transportation plan, outreach conducted to identify locations and/or interested neighborhoods, or a letter of recommendation provided by the district Supervisor or a community-based organization).
- **5. Benefits Equity Priority Communities** Priority will be given to projects that directly benefit Equity Priority Communities, whether the project is directly located in an Equity Priority Community (see attached map) or can demonstrate benefits to disadvantaged populations.
- **6. Investment from Non-Public Project Sponsors or Partners -** Non-public entities may apply for and directly receive TFCA grants for alternative-fuel vehicle and infrastructure projects and may partner with public agency applicants for any other project type. For projects where a non-public entity is the applicant or partner, priority will be given to projects that include an investment from the non-public entity that is commensurate with the TFCA funds requested.
- **7. Project Delivery Track Record** Projects that are ranked high in accordance with the above local expenditure criteria may be lowered in priority or restricted from receiving TFCA funds if either of the following conditions applies or has applied during the previous two fiscal years:
 - Monitoring and Reporting Project sponsor has failed to fulfill monitoring and reporting requirements for any previously funded TFCA project.
 - Implementation of Prior Project(s) Project sponsor has a signed Funding Agreement for a TFCA project that has not shown sufficient progress; the project sponsor has not implemented the project by the project completion date without formally receiving a time extension from the Transportation Authority; or the project sponsor has violated the terms of the funding agreement.
- **8. Program Diversity** Promotion of innovative TFCA projects in San Francisco has resulted in increased visibility for the program and offered a good testing ground for new approaches to reducing motor vehicle emissions. Using the project type criteria established above, the Transportation Authority will continue to develop an annual program that contains a diversity of project types and approaches and serves multiple constituencies. The Transportation Authority believes that this diversity contributes significantly to public acceptance of and support for the TFCA program.

Attachment 2

San Francisco County Transportation Authority

Fiscal Year 2023/2024 TFCA Program of Projects - Detailed Staff Recommendation

PROJ	ECTS REC	OMMENDED FOR TFCA FUNDS [sorted by project type priority ar	d then co	st-effectiv	veness]					
						Cost	CO_2	Total	TFCA	TFCA
				Project	Prop L	Effectiveness	Tons	Project	Amount	Amount
Rank	Sponsor 1	Project Description	District	Type ²	Eligible	Ratio ³	Reduced ⁴	Cost	Requested	Proposed
		Emergency Ride Home - The Emergency Ride Home program furthers								
		San Francisco's Transit First Policy by incentivizing commuters' usage of								
		sustainable commute modes via a subsidized ride home in the event of a								
		personal emergency. Proposed funding includes budget for continuing paid								
		marketing efforts to increase program awareness. The recommendation								
		includes a one-time increase of \$28,050 compared to the FY 2022/23								
		TFCA funds provided. SFE would use these funds to conduct additional								
		marketing and outreach, which it expects would increase participation in								
		the program by 20%. The Transportation Authority will work closely with								
		SFE on the enhanced outreach, exploring coordinating and leveraging other								
		transportation demand management efforts. We will also work to help								
		build more effective partnerships between SFE and transit operators, such								
		as BART and Muni, that can help promote Emergency Ride Home as a way				\$41,944/ton				
1	SFE	to encourage more people to return to transit.	Citywide	1	Yes	emissions	1,610	\$ 116,252	\$116.252	\$ 116,252
	012	Short-Term Bike Parking - SFMTA will use TFCA funds to plan,	Gity wide	•	100		1,010	Ψ 110,202	\\ \tau_110,202	Ψ 110,202
		coordinate, purchase, and install 1,217 bicycle parking racks in San								
		Francisco, providing an additional 2,434 bicycle parking spaces. Bicycle								
		parking spaces will provide end-of-trip facilities for new bicycle and scooter								
		trips, thereby replacing vehicle trips and reducing motor vehicle emissions.								
		Proposed funding exceeds requested funding in order to fully use the								
		available funds, which reduces potential demand for Prop L funds for bike				\$228,799/ton				
2	SFMTA	parking.	Citywide	1	Yes	emissions	880	\$ 1,042,573	\$417,029	\$ 422,963
		Taxi Electrification - EV Infrastructure - To incentivize electrification								
		of the taxi fleet, SFMTA would use the funds to pay rebates of up to 90%								
		of the cost of procurement and installation work for 2 electric vehicle (EV)								
		fast chargers for shared taxi fleets. Exact locations are yet to be determined,				\$480,489/ton				
3	SFMTA	but will be at taxi yards within San Francisco.	Citywide	3	No	emissions	553	\$ 180,000	\$162,000	\$ 162,000
		Taxi Electrification - Vehicles - This project would fund a rebate								
		program to encourage taxi owners to purchase EVs for use as taxicabs.								
		This grant is expected to fund 21 rebates. Purchase of a new EV could								
		qualify for a \$3,750 rebate, however, higher rebates would be available if								
		the taxi company also scraps an older taxi vehicle. The value of each rebate								
		may vary depending on the age of the vehicle being scrapped. For example,								
		scrapping and replacing an existing 2007 gasoline hybrid with an EV could								
		qualify for \$12,000, while replacing a 2012 gasoline hybrid with an EV								
		could qualify for \$9,500. Rebates would be provided until funds are				\$487,373/ton				
4	SFMTA	exhausted.	Citywide	3	No	emissions	815	\$ 186,000	\$186,000	\$ 186,000

TOTAL \$ 1,524,825 \$ 881,281 \$ 887,215

Total TFCA Funding Available for Projects: \$ 887,215

Attachment 2
San Francisco County Transportation Authority

San Francisco County Transportation Authority Fiscal Year 2023/2024 TFCA Program of Projects – Detailed Staff Recommendation

M:\1. CAC\Meetings\2. Memos\2023\6 June\ltem 9 - TFCA\ATT 2 - TFCA 23-24 Projects

¹Sponsor acronyms include San Francisco Department of the Environment (SFE) and San Francisco Municipal Transportation Agency (SFMTA).

²Priority based on project type is established in the Local Expenditure Criteria, with zero-emissions non-vehicle projects as the highest priority, followed by shuttle services, followed in turn by alternative fuel vehicle projects, and finally any other eligible project.

³The TFCA cost effectiveness ratio (CE) is designed to measure the cost effectiveness of a project in reducing motor vehicle air pollutant emissions and to encourage projects that contribute funding from non-TFCA sources. For 2023/24 the CE limits, in dollars per ton of emissions reduced, for relevant project types are: Bike Parking - \$250,000; Ridesharing Projects - Existing - \$150,000; Alternative Fuel Light- and Medium-Duty Vehicles - \$500,000; Alternative Fuel Infrastructure - \$500,000

⁴CO₂ Reduction is based on tons of carbon dioxide reduced over the lifetime of the project. This figure is calculated in the cost effectiveness worksheet.

Attachment 3

Fiscal Year 2023/24 Transportation Fund for Clean Air County Program Manager Fund Project Information Form

Project Name:	Emergency Ride Home			
Implementing Agency:	San Francisco E	Environment D	epartment	
Project Location:	San Francisco			
Supervisorial District(s):	San Francisco (all)	TFCA Proj. N	Number:	24SF05
Project Manager:	Anna Dagum			
Contact Information Email:	anna.dagum@sfgov.org	-3702		
Partner Agencies (incl. staff contact):				
Brief Project Description (50 words max):	The Emergency Ride Home (ERH First Policy by incentivizing comm via a subsidized ride home in the e	uters' usage of	sustainable	commute modes
Type of Environmental Clearance:				

DETAILED SCOPE:

Please submit Detailed Scope as a separate Word document.

Guidance: Describe project location, purpose, and need, including target population of the project; describe how outcomes of the project will be evaluated. Attach maps, drawings, photos of current conditions, etc. to support understanding of the project scope.

Project Type Specific Guidance:

- -For First- and Last-Mile Connections, indicate the hours of operation, frequency of service, and transit station and employment sites/area served to ensure compliance with Air District policies.
- -For heavy-duty vehicle projects, provide the relevant CARB Executive Orders.
- -For smart growth projects, provide title and approval date of the originating plan.

PROJECT INFORMATION:

Describe benefits to Equity Priority Communities or disadvantaged populations.

Equity Priority Communities, specifically parents and caregivers in these communities, are a key target audience in the outreach and marketing scope of the upcoming grant cycle so that they will benefit from heightened, targeted promotion about the program's offering of a guaranteed ride home in case of emergency.

Demonstrate community support (e.g. cite a community-based transportation plan, outreach conducted to identify locations and/or interested neighborhoods, or attach a letter of recommendation provided by the district Supervisor or a community-based organization).

Emergency Ride Home is an ongoing program critical to supporting San Francisco in reaching its sustainable transportation goals through a reduction in vehicle miles traveled. The program is included in San Francisco's Transportation Demand Management Plan, which is created and managed by Department of the Environment, SFMTA, SF Planning Department, and SFCTA.

188

Fiscal Year 2023/24 Transportation Fund for Clean Air County Program Manager Fund Project Information Form

Describe investment from non-public project sponsors or partners (if applicable) including evidence of commitment by private applicant or partner.

NOTE: Cost-effectiveness worksheets are required for all project types, available at sfcta.org/tfca.

San Francisco Emergency Ride Home Program Scope Transportation Fund for Clean Air – Call for Projects San Francisco Department of the Environment

Project Summary

The Emergency Ride Home (ERH) program advances San Francisco's Transit First Policy and helps the City meet its goal of reducing greenhouse gas emissions 80% below 1990 levels by 2040. It encourages commuters' use of sustainable commute modes by providing a subsidized ride home in the event of a personal emergency. Overall, ERH is a cost-effective program that motivates commuters to walk, bike, take transit, carpool, or vanpool to work instead of driving alone.

Administered by the San Francisco Environment Department (SF Environment) for more than a decade, ERH is available to anyone who commutes to a San Francisco-based job.

During this past grant cycle, SF Environment created new promotional materials that targeted parents and caregivers of San Francisco Unified School District (SFUSD) students who might get sick at school and need to be picked up during the workday. Promotional materials include memorable and sturdy business cards reminding parents/caregivers that they can get reimbursed up to \$150 for a taxi ride from work to their child's school and then home if they commuted via low carbon modes that day. The business card is easy for parents and caregivers to slip into a purse or wallet to remind them that ERH is an available resource. It is supported by an informative trifold with more details about the program. Both pieces of collateral direct viewers to the ERH landing page.

For the next iteration of ERH, SF Environment will provide this collateral to primarily Spanish and Cantonese speaking schools and those in SFCTA-identified Equity Priority Communities. Materials are available in English, Spanish, Chinese, and Filipino. SF Environment assessed interest in both the program and advertising method by contacting seven SFUSD schools — all of which gave positive feedback. SF Environment will leverage its existing relationships with SFUSD and community-based organizations (maintained by its education and outreach teams) to promote ERH at San Francisco schools, daycares, and childcare centers.

SF Environment will launch a paid marketing campaign using this new collateral. *The previous marketing campaign drew more than 32,000 people to the ERH website – a 4,674% increase in unique page views.*

Through this grant cycle's increased outreach and implementation, SF Environment expects to see similar success in its 23/24 marketing campaign and grow program participation by 20%.

SF Environment includes two budget scenarios in this proposal, with varying allocations to paid marketing campaigns:

- Scenario 1: In the higher budget scenario, SF Environment is requesting \$116,252 to continue paid marketing efforts aimed at increasing program awareness. SF Environment will allocate \$60,000 to launch two paid marketing campaigns:
 - An ad campaign during Fall 2023 to coincide with flu season and market ERH to parents and caregivers at San Francisco schools, daycares, and childcare centers
 - o An ad campaign during Summer 2024 targeting the working population of San Francisco
- Scenario 2: In the lower budget scenario, SF Environment is requesting \$96,252 and will allocate \$40,000 to launch one, larger paid marketing campaign targeting parents and caregivers at San Francisco schools, daycares, and childcare centers.

In both scenarios, the marketing efforts will target Spanish and Cantonese speaking audiences, as well as Equity Priority Communities.

For this new grant cycle, SF Environment will continue to promote ERH to city partners, such as the San Francisco Public Library and the San Francisco Department of Human Resources, among others.

Additional costs under both scenarios are allocated to:

- \$45,252 for program administration and staffing for outreach, customer service, and reimbursement processing;
- \$2,000 for collateral printing costs;
- \$3,000 for outreach partnerships with community based organizations;
- \$1,500 for translation services; and
- \$4,500 for program reimbursements.

Please see the attached budget and project scope for more detail on funding allocation.

Associate Tasks and Project Deliverables

For budget details associated with each task below, please refer to the budget outlined in the TFCA Info Form.

Task 1: Program Administration (Ongoing)

SF Environment staff will administer the reimbursement process, including verifying that reimbursement requests meet reimbursement criteria. Reimbursement payments will be made via check mailed to approved participants. SF Environment staff will provide customer service to program participants to manage any issues, questions, or concerns that may arise.

Task 2: Marketing and Outreach

The program will build on activities completed in the FYs 2021-23 grant cycles. Key outreach audiences will include, but not be limited to:

- Chinese and Spanish speaking parents and caregivers of SFUSD students and children in daycare
- Parents and caregivers of SFUSD students and children in daycare in Equity Priority Communities
- Local community-based organizations that can support outreach to people who live and work in targeted communities
- Spanish and Chinese speaking communities
- Businesses, specifically small- to medium-sized organizations reachable through partnerships with the Office of Workforce Development and the San Francisco Green Business program (also administered by SF Environment)
- City and County of San Francisco employees
- This year, the program will also work with community based organizations serving families in under-resourced communities to promote ERH via quarterly newsletter blurbs, social media, and tabling events.

Marketing Collateral Distribution (Ongoing): Funds requested include \$2,000 in direct costs to print marketing collateral, as well as additional budget for associated staff hours to distribute materials to community-based organizations and other relevant partners.

Translation of Marketing Materials (Ongoing): Translation of ERH materials is essential to ensuring the program is equitable and accessible. During the past grant cycle, SF Environment translated materials into Spanish, Chinese, and Filipino. In anticipation of future marketing and outreach campaigns, SF Environment is requesting \$1,500 to provide for associated translation needs and staff time to coordinate translation work, including content review, vendor management, and website updates.

Paid Media Campaign(s): SF Environment will use the funds to secure a marketing consultant to support creative concepting, media planning, and media purchasing.

The previous paid marketing campaign, which cost \$58,000, ran from January to March 2022, and resulted in 32,636 unique page views. Of these, the English language page received 17,712 views, the Chinese-language page received 14,768 views, and the Spanish page received 122 views. Overall, this was a 4,674% increase in unique page views from the previous quarter. This media buy proved very effective in increasing awareness of the program as evidenced by the amount of traffic to the ERH website and the number of reimbursement requests submitted. In Q3 (January - March 2022), SF Environment received 13 requests, compared to zero in the preceding quarter (October - December 2021) and an average of 7 per quarter in previous years.

In Scenario 1, SF Environment is proposing to split the \$60,000 for two paid media campaigns during the Winter 2024 flu season (January – March) and during Summer 2024. The Winter campaign will target Chinese and Spanish speaking parents/caregivers of SFUSD students, as well as parents/caregivers in Equity Priority Communities and will use materials that were designed in 2022. The Summer campaign will target San Francisco employees with an increased focus on Spanish language advertising, as was recommended by the consultants who SF Environment worked with on the previous campaign. While the previous paid media campaign only ran advertisements for 3 months, it was successful in spreading awareness. By running advertisements for 6 months out of the year, SF Environment will increase program awareness for both our targeted audience and for San Francisco employees more broadly.

In Scenario 2, SF Environment will use the \$40,000 for the first paid marketing campaign, outlined above, targeting parents and caregivers.

Ongoing Marketing & Outreach (Ongoing): SF Environment will continue to promote ERH through its existing marketing and outreach channels, such as on SFEnvironment.org, social media channels, public-facing tabling and outreach events, and commuter benefits presentations to CCSF employees. It will also continue to collaborate with City partners, businesses, and community partners for cross-promotion via digital channels and at relevant events and programs.

Task 3: Program Evaluation and Reporting (Ongoing)

SF Environment staff will evaluate and report on the effectiveness of the program. It will use reimbursement data to track changes in the number of program participants. With each reimbursement request, participants will be asked questions regarding program usage and typical commute modes, among others. All data will be provided in quarterly and annual reports to SFCTA.

Program Deliverables:

- Program administration: processing reimbursements, customer service support, and employer registrations
- Marketing and promotion of program: strategic marketing plan and execution
- · Quarterly and annual reports submitted to SFCTA

Resolution:	Date:	

Deliverables:

- By January 15, April 15, July 15, and October 15 of each year, submit quarterly reports updating project progress and identifying any issues which may delay project implementation.
- 2. With the October 15 quarterly report, submit Interim Project Report Form.
- **3.** By March 31, 2024, submit Final Report Form #1 (Ridesharing), including evidence of TFCA and Transportation Authority attribution. Final report shall include BAAQMD required description of Monitoring Methodolgy.

Special Conditions:

- 1. SFE will work with SFCTA staff to improve the effectiveness of the Emergency Ride Home program, including ensuring that recommendations from the Transportation Authority's Transportation Demand Management Market Analysis (underway) and future Transportation Demand Management Strategic Plan are incorporated.
- 2. SFE will work with SFCTA staff explore coordinating with and leveraging of other transportation demand management efforts like BayPass and Commuter Check outreach, and will seek to strengthen partnerships with transit operators, such as BART and Muni, that can help promote Emergency Ride Home as a way to encourage more people to return to transit.

Notes:

- 1. Deliverables shall be submitted through the Transportation Authority's online grants portal at portal.sfcta.org/.
- 2. All required forms are available at www.sfcta.org/funding/transportation-fund-clean-air#panel-sponsors

Project Name:	Short Term Bike Parking				
Implementing Agency:		SFMTA			
Project Location:	City and County of San Francisco				
Supervisorial District(s):	Citywide	TFCA Proj. N	Number:	SFCTA assigns	
Project Manager:	Jason Hyde				
Contact Information Email:	jason.hyde@sfmta.com Phone: 415.646.2434				
Partner Agencies (incl. staff contact):					
Brief Project Description (50 words max):	SFMTA will use \$422,963 in TFCA County Program Manager funds to pla coordinate, purchase, and install 1,217 bicycle parking racks in San Francisc providing an additional 2,434 bicycle parking spaces. Bicycle parking spaces will provide end-of-trip facilities for new bicycle and scooter trips, thereby replacing vehicle trips and reducing motor vehicle emissions.				
Type of Environmental Clearance:					

DETAILED SCOPE:

Please submit Detailed Scope as a separate Word document.

Guidance: Describe project location, purpose, and need, including target population of the project; describe how outcomes of the project will be evaluated. Attach maps, drawings, photos of current conditions, etc. to support understanding of the project scope.

Project Type Specific Guidance:

- -For First- and Last-Mile Connections, indicate the hours of operation, frequency of service, and transit station and employment sites/area served to ensure compliance with Air District policies.
- -For heavy-duty vehicle projects, provide the relevant CARB Executive Orders.
- -For smart growth projects, provide title and approval date of the originating plan.

PROJECT INFORMATION:

Describe benefits to Equity Priority Communities or disadvantaged populations.

In San Francisco over the last five years, approximately a third of bike racks installed citywide were located in Equity Priority Communities. SFMTA staff will continue to review requests as they come in to confirm we are filling this need as well as proactively identify corridors in Equity Priority Communities using the existing San Francisco GIS inventory, where there is a lack of bike parking.

Demonstrate community support (e.g. cite a community-based transportation plan, outreach conducted to identify locations and/or interested neighborhoods, or attach a letter of recommendation provided by the district Supervisor).

The SFMTA installs racks for short-term bike parking in the public rights-of-way by request through the SFMTA website (https://www.sfmta.com/getting-around/bike/bike-parking/request-bike-rack), email, and 311. The SFMTA receives new bike rack requests each month. Additionally we identify corridors where more parking is needed plus work with city project managers through public outreach process to identify and then install bike parking with streetscape projects and street improvement projects

Describe investment from non-public project sponsors or partners	(if applicable) including evidence of
commitment by private applicant or partner.	

NA

NOTE: Cost-effectiveness worksheets are required for all project types, available at sfcta.org/tfcacallforprojects.

SFMTA Short-Term Bike Parking: Detailed Scope of Work

The San Francisco Municipal Transportation Agency (SFMTA) requests \$422,963417,029 in FY23/24 Transportation Fund for Clean Air County Program Manager (TFCA CPM) Funds to provide 1,2171,200 bicycle racks to create 2,4342,400 bicycle parking spaces throughout San Francisco.

Providing 2,4342,400 additional bicycle parking spaces in San Francisco means that more people will be encouraged to bicycle to their destinations, knowing they will have a secure place to lock their bikes. This will increase the number of bicycle trips to city businesses, transit stops, and other destinations, which will shift trips away from motor vehicles, reduce emissions, and help achieve the San Francisco Board of Supervisors' goal of a 20% bicycle mode share.

The SFMTA maintains a list of public requests for short-term bicycle parking locations. The SFMTA currently receives 40-60 new bike rack requests each month via email, the SFMTA website, and SF311. These requests are for sites throughout the city, with the vast majority near San Francisco businesses and along transit routes. The SFMTA staff knows anecdotally and from experience that there is a latent demand for bicycle infrastructure in San Francisco; there are more people who would ride a bicycle if the proper facilities were available to support their trip.

Bicycle racks help meet this need by providing a secure parking location at trip destinations. To better serve businesses and people who bicycle throughout the city, the SFMTA has developed a proactive strategy for surveying and installing short-term bicycle parking. This citywide strategy focuses on commercial, retail and mixed-use corridors where a lack of secure bicycle parking exists (e.g., Jones, Valencia, Battery/Sansome and 17th streets, and Bayshore Boulevard), as well as Equity Priority Communities (EPCs), where the Agency targets installing 20% of all racks (approximately 30% of racks have been installed in EPCs over the last two years). Because rack requests tend to cluster in certain areas of the city, the bike parking team uses proactive installations to help ensure racks are installed in an equitable way. Proactive installation locations come from a number of sources, including:

- 1) From Project Managers working on corridor or neighborway projects in EPCs;
- 2) High-demand locations in EPCs as identified by the SFMTA's bikeshare/scootershare permittees;
- 3) High-demand locations in EPCs identified through MDS data from bikeshare/scootershare permittees and/or from other data sources such as bike counters; and
- 4) Through ongoing analysis of bike rack location data to identify and address gaps in bike rack coverage.

The bike parking team has also begun focusing some proactive installations in residential areas (especially adjacent to multi-unit buildings) where requests and installations have historically been less frequent, assuming placement guidelines such as minimum sidewalk widths and required clearances from street furniture are met. The SFMTA will continue to prioritize these types of installations in Equity Priority Communities to ensure equitable bike rack coverage across San Francisco. In addition to sidewalk locations, these funds may also be used for on-street bicycle parking corrals. The SFMTA currently receives 2-4 new bicycle corral applications each year. Bicycle corrals consist of several bicycle

racks placed in the parking lane of a roadway where demand for bike parking is higher than can be accommodated on the sidewalk. Eight to 12 bicycles can be parked in the space occupied by just one motor vehicle, making bike corrals an efficient use of public roadway space.

This application also includes a line item for bicycle rack procurement. In 2014, the SFMTA used \$541,000 in revenue bond funds to purchase 6,018 racks and the fasteners to install them. In 2022, the agency procured an additional 750 racks using TFCA County Program Manager funds. The SFMTA has a diminishing supply of approximately three-feet tall by three-feet wide zinc-coated circular steel bicycle racks. These racks provide two points of contact between the rack and a bicycle, the bicycle parking industry standard for optimal bicycle parking. Part of these requested funds will go towards procurement of more racks.

Short-term bicycle parking is defined as simple bicycle rack fixtures to park at for two hours or less, per the 2015 Association of Pedestrian and Bicycle Professionals' Bicycle Parking Guidelines. Short-term bicycle parking enables linked trips to multiple destinations (e.g., a trip from home, to the bank and to the grocery store.) Bicycle racks also provide a large quantity of bicycle storage inexpensively and are a cost-effective solution to support non-polluting transportation modes.

Project Name:	Taxi Electrification - EV Infrastructure				
Implementing Agency:	San Francisco Municipal Transportation Agency				
Project Location:	San Francisco				
Supervisorial District(s):	Various TFCA Proj. Number: 24SF04			24SF04	
Project Manager:	Forest Barnes				
Contact Information Email:	forest.barnes@sfmta.com Phone: 415-646-4761				
Partner Agencies (incl. staff contact):	n/a				
Brief Project Description (50 words max):	This project would fund a rebate program for the procurement and installation of EV charging infrastructure for shared taxi fleets.				
Type of Environmental Clearance: n/a					

DETAILED SCOPE:

Please submit Detailed Scope as a separate Word document.

Guidance: Describe project location, purpose, and need, including target population of the project; describe how outcomes of the project will be evaluated. Attach maps, drawings, photos of current conditions, etc. to support understanding of the project scope.

Project Type Specific Guidance:

- -For First- and Last-Mile Connections, indicate the hours of operation, frequency of service, and transit station and employment sites/area served to ensure compliance with Air District policies.
- -For heavy-duty vehicle projects, provide the relevant CARB Executive Orders.
- -For smart growth projects, provide title and approval date of the originating plan.

PROJECT INFORMATION:

Describe benefits to Equity Priority Communities or disadvantaged populations.

The charging infrastructure will support the use of new EV taxis which provide paratransit trips and trips for those who qualify for the SFMTA's Essential Trip Card Program.

Demonstrate community support (e.g. cite a community-based transportation plan, outreach conducted to identify locations and/or interested neighborhoods, or attach a letter of recommendation provided by the district Supervisor or a community-based organization).

The San Francisco Climate Action Plan calls for electrification of 25% of vehicles by 2030 and 100% by 2040. Aditionally, taxi service is identified in the San Francisco Transportation Plan 2050 as a supplement to paratransit service for seniors and people with disabilities who are unable to use fixed-route transit service.

Describe investment from non-public project sponsors or partners (if applicable) including evidence of commitment by private applicant or partner.

The taxi industry will pay for 100% of the upfront cost of the EV charging infrastructure and the SFMTA will reimburse the company 90% of purchase and installation price.

NOTE: Cost-effectiveness worksheets are required for all project types, available at sfcta.org/tfca.

SFMTA Taxi Electrification – EV Infrastructure: Detailed Scope of Work

The purpose of the proposed project is to reduce vehicle emissions by promoting greater use of EVs in San Francisco taxi fleets. The project would establish an SFMTA rebate program for EV charging infrastructure for taxi fleets.

Currently there are no fully EV taxis on the road in San Francisco, although nearly 90% of the current taxi fleet is some form of hybrid vehicle. SFMTA staff have spoken to the taxi industry about EV charging and there has been strong support from taxi lot owners who would like to install the infrastructure. The proposed voucher program will provide up to 90% of the cost of a fast EV charger, as well as the electrical work needed to connect the charger to the electric power supply. The SFMTA estimates, based on conversations with the taxi industry, that the full cost would be \$90,000 per charger installation. So SFMTA expects to refund \$81,000 for each of two installations. Once the electrical work to extend the power supply to the location of the battery chargers is complete, the taxi companies will be able to increase the number of charges at a lower per unit cost because the infrastructure work will have already been completed.

Charging for EV taxis will be done on taxi company lots, or if the vehicle is owner operated, wherever the taxi driver chooses to charge the vehicle. The SFMTA Taxis, Access and Mobility Services (TAMS) division staff will only rebate the procurement and installation of EV charging infrastructure and will not be the direct purchaser or installer of infrastructure. The SFMTA will also only fund rebates for EV charging infrastructure for taxi fleet charging at taxi lots.

Most taxi trips start and finish within the City of San Francisco; 32.28% of taxi trips occur in the Equity Priority Areas. EV taxis will benefit paratransit users who are eligible for subsidized taxi trips and participants in SFMTA's Essential Trip Card (ETC) program. The ETC discount program helps qualifying seniors and people with disabilities make essential trips in taxis. Although it was originally designed to support travel when Muni service was scaled back during the pandemic lockdown, the program continues today even as Muni service has been restored. Nearly 84,000 ETC trips were completed in the last Fiscal Year; about 36.2% took place in Equity Priority Communities.

PROJECT INFORMATION:

Describe benefits to Equity Priority Communities or disadvantaged populations.

The new EV taxis provide paratransit trips and trips for those who qualify for the SFMTA's Essential Trip Card Program.

Demonstrate community support (e.g. cite a community-based transportation plan, outreach conducted to identify locations and/or interested neighborhoods, or attach a letter of recommendation provided by the district Supervisor or a community-based organization).

The San Francisco Climate Action Plan calls for electrification of 25% of vehicles by 2030 and 100% by 2040. Aditionally, taxi service is identified in the San Francisco Transportation Plan 2050 as a supplement to paratransit service for seniors and people with disabilities who are unable to use fixed-route transit service.

Describe investment from non-public project sponsors or partners (if applicable) including evidence of commitment by private applicant or partner.

The taxi industry will pay for 100% of the upfront cost of the electric vehicles and the SFMTA will reimburse for a portion of the purchase price depending on the age and type of the surrendered vehicle.

NOTE: Cost-effectiveness worksheets are required for all project types, available at sfcta.org/tfca.

SFMTA Taxi Electrification – Vehicles: Detailed Scope of Work

The purpose of the proposed project is to reduce vehicle emissions by promoting greater use of EVs in San Francisco taxi fleets. The project would establish an SFMTA rebate program for EV taxis.

The total number of taxis available for operation in San Francisco is 1,692, most of which are 10-15 years old. Currently there are no fully EV taxis on the road in San Francisco, although nearly 90% of the current taxi fleet is some form of hybrid vehicle. The SFMTA has successfully implemented a hybrid vehicle grant in previous years. The EV rebate program is consistent with vehicle turnover rates, as much of the taxi fleet is over a decade old. Staff also frequently get requests from drivers for the previous rebate program for replacement vehicles. The SFMTA proposes to issue a total of \$186,000 in vouchers.

The program will provide a baseline voucher amount for the purchase of a new or used EV, however, a larger voucher amount will be provided if the taxi company also scraps an older taxi vehicle and provides documentation that it has been scrapped. The older the vehicle being scrapped, the greater the emissions reduction and thus the greater the eligible voucher amount under TFCA policies. Though it is difficult to know the exact number of vehicles that would be surrendered and the age, the SFMTA cost-effectiveness calculation assumes that approximately 21 vehicles ranging in age from 2 to 21 years old would be surrendered. The SFMTA Taxis, Access and Mobility Services (TAMS) division staff will only rebate the purchase of new and used EVs and will not be the direct purchaser of vehicles. SFMTA may open this program to rebates for plug-in hybrid electric vehicles if there is insufficient demand for fully electric vehicles, however, potential rebates would be smaller because the emissions benefits would be less.

Charging for EV taxis will be done on taxi company lots, or if the vehicle is owner operated, wherever the taxi driver chooses to charge the vehicle.

Most taxi trips start and finish within the City of San Francisco; 32.28% of taxi trips occur in the Equity Priority Areas. EV taxis will benefit paratransit users who are eligible for subsidized taxi trips and participants in SFMTA's Essential Trip Card (ETC) program. The ETC discount program helps qualifying seniors and people with disabilities make essential trips in taxis. Although it was originally designed to support travel when Muni service was scaled back during the pandemic lockdown, the program continues today even as Muni service has been restored. Nearly 84,000 ETC trips were completed in the last Fiscal Year; about 36.2% took place in Equity Priority Communities.
