Memorandum

AGENDA ITEM 7

DATE: July 6, 2023

TO: Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 7/11/2023 Board Meeting: Allocate \$998,000 and Appropriate \$100,000 in Prop

L Funds, with Conditions, and Allocate \$300,000 in Prop AA Funds for 4 Requests

RECOMMENDATION □ Information ☒ Action	□ Fund Allocation					
Allocate \$898,000 in Prop L funds to San Francisco Public	\square Fund Programming					
Works (SFPW), with conditions, for:	\square Policy/Legislation					
1. Street Repair and Cleaning Equipment (\$380,000)	□ Plan/Study					
2. Public Sidewalk and Curb Repair (\$518,000)	□ Capital Project Oversight/Delivery					
Allocate and Appropriate \$200,000 in Prop L funds, with	,					
conditions, to the San Francisco Municipal Transportation	☐ Budget/Finance					
Agency (SFMTA) and SFCTA for:	☐ Contract/Agreement					
3. Neighborhood Transportation Program (NTP) Coordination (SFMTA \$100,000, SFCTA \$100,000)	□ Other:					
Allocate \$300,000 in Prop AA funds to Transbay Joint Powers						
Authority (TJPA) for:						
4. Salesforce Transit Center Wayfinding Phase 1B (\$300,000)						
SUMMARY						
These are the first three Prop L allocation requests to advance						
to the Board for approval. Consistent with the Expenditure						
Plan, the Prop L allocations are conditioned upon Board						
adoption of the Prop L 5-Year Prioritization Program (5YPP) for						
the relevant programs (i.e., Street Resurfacing, Rehabilitation,						
and Maintenance; Pedestrian and Bicycle Facility						
Maintenance; and the Neighborhood Transportation Program) and amendment of the Strategic Plan Baseline to incorporate						
the programming and cash flow for the recommended 5-year						
The programming and cash now for the recommended 3-year						

project lists. These actions are part of a separate item on this

Agenda Item 7 Page 2 of 3

agenda. Attachment 1 lists the requests, including phase(s) of	
work and supervisorial district(s). Attachment 2 provides brief	1
descriptions of the projects. Attachment 3 contains the staff	
recommendations. Project sponsors will attend the meeting to	
answer any questions the Board may have regarding these	
requests.

	i e e e e e e e e e e e e e e e e e e e

DISCUSSION

Attachment 1 summarizes the subject requests, including information on proposed leveraging (i.e., stretching Prop L sales tax dollars further by matching them with other fund sources) compared with the leveraging assumptions in the Prop L Expenditure Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan. Attachment 2 includes brief project descriptions. Attachment 3 summarizes the staff recommendations for each request, highlighting special conditions and other items of interest. An Allocation Request Form for each project is attached, with more detailed information on scope, schedule, budget, funding, deliverables and special conditions.

FINANCIAL IMPACT

The recommended action would allocate \$998,000 and appropriate \$100,000 in Prop L funds, with conditions, and allocate \$300,000 in Prop AA. The allocations and appropriation would be subject to the Fiscal Year Cash Flow Distribution Schedules contained in the attached Allocation Request Forms.

Attachment 4 shows the Prop L and Prop AA Fiscal Year 2023/24 allocations and appropriations approved to date, with associated annual cash flow commitments as well as the recommended allocation and cash flow amounts that are the subject of this memorandum.

Sufficient funds are included in the adopted Fiscal Year 2023/24 annual budget. Furthermore, sufficient funds will be included in future budgets to cover the recommended cash flow distributions in those fiscal years.

CAC POSITION

The CAC considered this item at its June 28, 2023, meeting and unanimously adopted a motion of support for the staff recommendation.

Attachment 1: Summary of Requests Received

_							Lev	eraging		
Source	EP Line No./ Category 1	Project Sponsor ²	Project Name	Current Prop L Request	Current Prop AA Request	Total Cost for Requested Phase(s)	Expected Leveraging by EP Line ³	Actual Leveraging by Project Phase(s) ⁴	Phase(s) Requested	District(s)
Prop L	215	SFPW	Street Repair and Cleaning Equipment	\$ 380,000		\$ 380,000	95%	0% 5	Construction	Citywide
Prop L	216	SFPW	Public Sidewalk and Curb Repair	\$ 518,000		\$ 909,760	78%	43%	Construction	Citywide
Prop L	225	SFCTA/ SFMTA	Neighborhood Transportation Program (NTP) Coordination	\$ 200,000		\$ 200,000	78%	0%	Planning	Citywide
Prop AA	703	ТЈРА	Salesforce Transit Center Wayfinding Phase 1B		\$ 300,000	\$ 300,000	NA	0%	Construction	Citywide

TOTAL	\$ 1,098,000	\$ 300,000	\$ 1,789,760

Footnotes

"EP Line No./Category" is either the Prop L Expenditure Plan line number referenced in the 2023 Prop L Strategic Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan, including: Street Repair and Reconstruction (Street), Pedestrian Safety (Ped), and Transit Reliability and Mobility Improvements (Transit) or the Traffic Congestion Mitigation Tax (TNC Tax) category referenced in the Program Guidelines.

"Expected Leveraging By EP Line" is calculated by dividing the total non-Prop L funds expected to be available for a given Prop L Expenditure Plan line item (e.g. Pedestrian and Bicycle Facilities Maintenance) by the total expected funding for that Prop L Expenditure Plan line item over the 30-year Expenditure Plan period. For example, expected leveraging of 90% indicates that on average non-Prop L funds should cover 90% of the total costs for all projects in that category, and Prop L should cover only 10%.

² Acronyms: SFCTA (San Francisco County Transportation Authority), SFPW (San Francisco Public Works), SFMTA (San Francisco Municipal Transportation Agency), TJPA (Transbay Joint Powers Authority)

⁴ "Actual Leveraging by Project Phase" is calculated by dividing the total non-Prop L, non-Prop AA, or non-TNC Tax funds in the funding plan by the total cost for the requested phase or phases. If the percentage in the "Actual Leveraging" column is lower than in the "Expected Leveraging" column, the request (indicated by yellow highlighting) is leveraging fewer non-Prop L dollars than assumed in the Expenditure Plan. A project that is well leveraged overall may have lower-than-expected leveraging for an individual or partial phase.

SFPW plans to purchase additional street repair and cleaning equipment with an estimated \$2.8 million in General Fund, subject to approval of the CCSF annual budget.

Attachment 2: Brief Project Descriptions ¹

EP Line No./ Category	Project Sponsor	Project Name	Prop L Funds Requested	Prop AA Funds Requested	Project Description
215	SFPW	Street Repair and Cleaning Equipment	\$ 380,000	\$ -	This request would fund the purchase of one full size street sweeper to replace equipment that has exceeded its useful life. The equipment will have the newest safety features available, and improve safety for workers and efficiency of street cleaning and repair work. The equipment is California Air Resources Board compliant and will meet current emissions standards. SFPW expects to receive the equipment funded by this request by March 2025.
216	SFPW	Public Sidewalk and Curb Repair	\$ 518,000	\$ -	Public Works is responsible for repairing sidewalks around City-maintained trees, adjacent to City properties, and at the angular returns of all intersections. The passage of Proposition E (2016) resulted in annual funding set-aside to maintain all street trees in the public right-of-way and for sidewalk repairs due to City-maintained trees. Any other damaged public sidewalks, curb and gutters, and angular returns, not due to tree damage, will be repaired with Prop L funds and State Transportation Development Act, Article 3 funds. SFPW expects to complete the work funded by this request by June 2024.
225	SFCTA/ SFMTA	Neighborhood Transportation Program (NTP) Coordination	\$ 200,000	\$ -	This request provides support for a Neighborhood Transportation Program (also known as the Neighborhood Program or NTP) Coordinator role at both the Transportation Authority and the SFMTA to support Transportation Authority Board members' efforts to identify potential NTP projects, to develop proposed scope, schedule, budget and funding to support allocation requests, and to conduct project delivery oversight. The attached allocation request form includes the NTP Guidelines that provide additional detail on how NTP projects are identified and developed in collaboration between SFCTA, SFMTA, and District Supervisors. This request would fund work to be done in FY 2023/24.
703	ТЈРА	Salesforce Transit Center Wayfinding Phase 1B	\$ -	\$ 300,000	Requested funds will improve the Salesforce Transit Center's wayfinding system by replacing 100 of the 318 media players at interactive and non-interactive kiosks throughout the Transit Center that have reached the end of their useful life. This project was recommended in the TJPA's Wayfinding Gap Analysis (2020) to improve the reliability and functionality of the wayfinding system. It would improve the commuter and visitor experiences by connecting them quickly and more efficiently to transit connections and to the public open space and activities provided at the Center's rooftop park. This project is consistent with the Metropolitan Transportation Commission's (MTC) current standards for wayfinding and supports a smoother rollout of MTC's new regional standards (when completed) to support seamless transit connections across the region. TJPA expects to complete the work funded by this request by December 2023.
	<u> </u>	TOTAL	\$1,098,000	\$300,000

EXPENDITURE PLAN INFORMATION

PROP L Expenditure Plans	Neighborhood Transportation Program
Current PROP L Request:	\$200,000
Supervisorial District	Citywide

REQUEST

Brief Project Description

The Transportation Authority's Neighborhood Program (NTP) funds planning, development, and implementation of community-based, neighborhood-scale transportation improvements. This request provides support for a NTP Coordinator role at both the Transportation Authority and the SFMTA to support Transportation Authority Board members' efforts to identify potential NTP projects, to develop proposed scope, schedule, budget and funding to support allocation requests, and to conduct project delivery oversight.

Detailed Scope, Project Benefits and Community Outreach

The requested Prop L funds will enable the San Francisco Municipal Transportation Agency (SFMTA) and Transportation Authority staff to work with district supervisor offices, implementing agencies, and community stakeholders to support Transportation Authority Board members' efforts to identify potential NTP projects and to develop proposed scope, schedule, budget and funding information to support allocation of NTP grants, as well as project delivery oversight. It also includes ongoing support of the NTP including regular communications with the district supervisors' offices regarding progress on NTP projects.

The NTP Guidelines are attached and provide additional detail on how NTP projects are identified and developed in collaboration between SFCTA, SFMTA, and District Supervisors.

Project Location

Funding enables support of projects in all supervisorial districts.

Overview

WHY WAS THE NEIGHBORHOOD PROGRAM CREATED?

The Transportation Authority's Neighborhood Program (also known as the Neighborhood Transportation Program) is intended to focus on community-based neighborhood-scale transportation improvements. The Transportation Authority developed the Neighborhood Program in 2014 under Prop K, the predecessor to Prop L. It was created in response to mobility and equity analysis findings from the San Francisco Transportation Plan (SFTP) 2040 and to the public and the Transportation Authority Board's desire for more focus on neighborhoods, especially in Equity Priority Communities and other underserved neighborhoods.¹ The SFTP 2050 (December 2022) reaffirmed the importance of the Neighborhood Program by including it in its investment plan, noting that neighborhood transportation plans establish a pipeline of grant-ready projects throughout the city that reflect community priorities, such as street safety, mode shift, transit accessibility, and mobility.

WHAT DO WE WANT TO ACHIEVE WITH THE NEIGHBORHOOD PROGRAM?

The purpose of the Neighborhood Program is to build community awareness of, and capacity to provide input to, the transportation planning process and to advance delivery of community-supported neighborhood-scale projects. The latter can be accomplished through strengthening project pipelines and helping move individual projects more quickly toward implementation, especially in Equity Priority Communities and other neighborhoods with high unmet needs.

WHAT TYPE OF WORK DOES THE NEIGHBORHOOD PROGRAM FUND?

Neighborhood Program Planning funds can be used for community-based planning efforts in San Francisco neighborhoods, especially in Equity Priority Communities or other underserved neighborhoods and areas with vulnerable populations (e.g. seniors, children, and/or people with disabilities). Specifically, Neighborhood Program Planning funds can be used to support neighborhood-scale efforts that identify a community's transportation needs, identify and evaluate potential solutions, and recommend next steps for meeting the identified needs. Neighborhood Program Planning funds can also be used to complete additional planning/conceptual engineering for existing planning projects that community stakeholders regard as high priority. Recommendations resulting from Neighborhood Program Planning projects should be eligible for Neighborhood Program Capital funds, other Prop L programs, and/or additional sources.

¹ https://www.sfcta.org/policies/equity-priority-communities

Neighborhood Program Capital funds can be used for implementation of Neighborhood Program Planning grant recommendations, or of other communitysupported, neighborhood-scale projects that have already been identified.

All Neighborhood Program efforts must address one or more of the following SFTP priorities:

- Improve safety for pedestrians, cyclists and/or other street users
- Encourage walking, biking, and/or transit use
- Improve transit accessibility and/or reliability
- Improve mobility for Equity Priority Communities or other underserved neighborhoods and vulnerable populations (e.g., seniors, children, and/or people with disabilities)

Ultimately, Neighborhood Program efforts should prioritize and lead to the implementation of community-supported, neighborhood-scale capital improvements that can be funded by the Transportation Authority's Prop L transportation sales tax and/or other sources.

HOW MUCH FUNDING IS AVAILABLE? ARE THERE LOCAL MATCH REQUIREMENTS?

The Neighborhood Program provides \$700,000 in Prop L funding for each supervisorial district to use over the next five years (Fiscal Years 2023/24 - 2027/28). The Neighborhood Program includes funds for Planning efforts and Capital project development and implementation. There is no prescribed proportion of funds between Planning and Capital; however, historically, \$100,000 has been programmed for Planning and \$600,000 for Capital for each district. Planning funds can be used for one planning effort or multiple smaller efforts. No local match is required for planning grants, though it is strongly encouraged.

The Neighborhood Program Capital program funds are intended as matching funds for implementation of Neighborhood Program Planning grant recommendations or to fund other community-supported, neighborhood-scale projects that already have been identified and are being prepared for delivery in the next five years. Neighborhood Program Capital funds must leverage other non-Prop L funds to help achieve the Prop L leveraging assumptions for the Neighborhood Program. Exceptions may be granted on a case-by-case basis with consideration given to, among other factors, whether other funding options exist and the status of overall Neighborhood Program leveraging to date.

Eligibility

Eligible project types are community-based neighborhood-scale transportation improvements that are eligible for other 2022 Transportation Expenditure Plan programs and result in public-facing benefits. Examples of eligible Planning and Capital efforts are described below.

WHAT TYPES OF PLANNING EFFORTS CAN BE FUNDED?

Examples of eligible planning efforts include:

- Project-level plans or conceptual designs for smaller efforts (e.g. advancing conceptual design of a high priority project identified in a prior community planning effort, safety project concepts development, and transportation demand management planning including neighborhood parking management studies).
- Identification and advancement of design of low-cost enhancements (e.g. new crosswalks, sidewalk bulbouts) to coordinate their construction with paving projects.
- District-wide needs and prioritization processes (e.g. the District 1 Multimodal Transportation Study).
- Traditional neighborhood transportation plan development (e.g. Mission Bay School Access Plan, Western Addition Community-Based Transportation Plan).
- Corridor plans (e.g. Valencia Long-Term Bikeway Study, Alemany Realignment Study, Ocean Avenue Mobility Action Plan).

The expectation is that Neighborhood Program funds will be leveraged like other Prop L funds. This leveraging would be necessary to fully fund some of the larger scale and more intensive efforts listed above. (A traditional neighborhood transportation plan might run \$300,000; a corridor plan could be much more expensive, depending on the scope). Without leveraging, a \$100,000 Neighborhood Program Planning grant could fund the smaller-scale planning efforts noted in the first three bullet points.

All Neighborhood Program Planning efforts must include a collaborative planning process with community stakeholders such as residents, business proprietors, transit agencies, human service agencies, neighborhood associations, non-profit or other community-based organizations and faith-based organizations. The purpose of this collaboration is to solicit comments from these stakeholders, review preliminary findings or designs with them, and utilize their perspective in identifying potential strategies and solutions for addressing transportation needs.

WHAT TYPES OF CAPITAL EFFORTS CAN BE FUNDED?

Neighborhood Program Capital grants are intended to advance recommendations from Neighborhood Program Planning effort recommendations or other community-supported, neighborhood-scale plans and studies. For example, Neighborhood Program Capital funds could be used to fund design of a project that could then apply for construction funding from a competitive grant source.

Examples of eligible capital efforts include, but are not limited to, design and implementation of:

- Sidewalk bulbouts, crosswalks, and traffic calming measures (e.g. speed humps)
- New and upgraded bicycle lanes and paths
- New and upgraded traffic signals, including flashing beacons to improve safety for street users
- Bus stop improvements
- Transportation Demand Management pilots (e.g. to encourage walking, biking or transit use; to implement recommendations from a neighborhood parking management study)

The expectation is that Neighborhood Program funds will be leveraged like other Prop L funds. This leveraging would be necessary to fully fund some of the larger scale and more intensive efforts listed above.

WHO CAN LEAD A NEIGHBORHOOD PROGRAM EFFORT?

Neighborhood Program efforts can be led by Prop L project sponsors, other public agencies, and/or community-based organizations. The grant recipient, however, must be one of the following Prop L-eligible sponsors: the San Francisco County Transportation Authority (Transportation Authority or SFCTA), the San Francisco Municipal Transportation Agency (SFMTA), San Francisco Public Works (SFPW), or the Planning Department. If a non-Prop L sponsor is leading the Neighborhood Program project, it will need to partner with a Prop L sponsor or request that a Prop L sponsor act as a fiscal sponsor.

HOW WILL PROPOSALS BE SCREENED FOR ELIGIBILITY?

In order to be eligible for a Neighborhood Program grant, a project proposal must satisfy all of the following screening criteria:

- Project sponsor is one of the following Prop L project sponsors:
 SFCTA, SFMTA, SFPW, San Francisco Planning Department or is a community-based organization partnering with a Prop L-eligible sponsor that is the grant recipient and fiscal sponsor.
- Project is eligible for funding from Prop L.

- If a project is seeking funds for planning/conceptual engineering phase, a modest amount of the overall grant may be applied toward environmental clearance (typically for categorical exemption types of approvals), but this may not represent a significant portion of proposed expenditures.
- Cumulative Neighborhood Program requests for a given supervisorial district do not exceed the maximum amount available for each supervisorial district (i.e., \$700,000 in each 5-year cycle).
- Project will address at least one of the SFTP priorities: improve safety
 for pedestrians, cyclists and/or other street users; encourage walking,
 biking and/or transit use; improve transit accessibility and/or reliability;
 and improve mobility for Equity Priority Communities or other
 underserved neighborhoods and at-risk populations (e.g., seniors,
 children, and/or people with disabilities).
- Project is neighborhood-oriented and the scale is at the level of a neighborhood or corridor. The project may be district-oriented for efforts such as district-wide prioritization efforts, provided that the scope is compatible with the proposed funding.
- Project must include or be recommended by a collaborative planning process with community stakeholders.
- Planning projects shall be proposed to be completed within two years.

Note that all proposed capital projects will be evaluated in accordance with Prop L prioritization criteria, specifically: readiness, urgency, benefits to disadvantaged populations, leveraging, cost effectiveness, and safety.

WHAT SPECIFIC ACTIVITIES AND EXPENSES ARE ELIGIBLE FOR REIMBURSEMENT?

Eligible Neighborhood Program Planning costs include: community surveys, data gathering and analysis, community meetings, charrettes, focus groups, planning and technical consultants, outreach assistance provided by community-based organizations, developing prioritized action plans, conceptual or 30% design drawings, cost estimates, and bilingual services for interpreting and/or translation services for meetings.

Eligible Neighborhood Program Capital costs include: final or 100% design drawings, construction-related activities, requests for contracting proposals, contracting bid selection, notice of construction, procurement of materials, and construction. Public engagement activities supporting the design and construction phases are also eligible costs.

Further details on eligible expenses are included in the Prop L Standard Grant Agreement that is executed by the Transportation Authority and the Prop L grant recipient.

Project Initiation and Scoping

WHERE DO NEIGHBORHOOD PROGRAM PROJECT IDEAS COME FROM?

The Neighborhood Program provides funds for each district supervisor to direct funds to community-based, neighborhood-scale planning and capital efforts. Ultimately, the district supervisor (acting in their capacity as a Transportation Authority Board commissioner) will recommend which project(s) will be funded with a Neighborhood Program grant. All projects must be consistent with the adopted guidelines.

Anyone can come up with a Neighborhood Program grant idea, including, but not limited to, a District Supervisor, agency staff, a community-based organization, or a community member. There is no pre-determined schedule or call for projects for the Neighborhood Program grants. Rather, each Transportation Authority Board member will contact the Transportation Authority's Neighborhood Program Coordinator when they are interested in exploring Neighborhood Program proposals. Board members may already have an idea in mind, seek help from agency staff in generating ideas, and/or solicit input from constituents and other stakeholders. See below for how these ideas are vetted and turned into Neighborhood Program grants.

HOW DOES AN IDEA DEVELOP INTO A NEIGHBORHOOD PROGRAM GRANT?

Initiating a request: The District Supervisor initiates the process by contacting the Transportation Authority's or SFMTA's Neighborhood Program Coordinator with a planning or capital proposal, a request to help identify potential planning or capital project ideas, or to help with a formal or informal call for projects for their respective district.

The Transportation Authority and the SFMTA have designated Neighborhood Program Coordinators who will work collaboratively to implement the Neighborhood Program grant program. The Neighborhood Program Coordinators will work with the District Supervisor and any relevant stakeholders throughout the Neighborhood Program proposal identification and initial scoping process. They will be responsible for seeking input from appropriate staff within their agencies, as well as from other agencies depending on the particular topic.

Vetting Ideas and Scoping: Once contacted by a District Supervisor, the SFCTA and SFMTA Neighborhood Program Coordinators will establish a dialogue with the Supervisor and agency staff to develop an understanding of the particular neighborhood's needs and concerns that could be addressed through a Neighborhood Program project, to evaluate an idea's potential for addressing identified issues, and to explore whether complementary planning or capital efforts are underway, in the pipeline, or have already occurred.

This step in the process is necessarily iterative and collaborative in nature. It involves working with the District Supervisor to identify an eligible Neighborhood Program proposal and reaching agreement on the purpose and need, what organization will lead/ support the effort, developing a summary scope, identifying desired outcomes and/or deliverables, and preparing an initial cost estimate and funding plan.

Neighborhood Program grant funds are modest, but a great deal can be accomplished depending on how the effort is scoped and how it leverages other resources (e.g., existing plans, staff, other fund sources, concurrent planning and design efforts, etc.). The checklist shown in Table 1 reflects elements that are typically necessary to support a strong Neighborhood Program proposal.

Agreement on Roles and Responsibilities: As the project scope begins to solidify, another key aspect to address is determining the lead agency and identifying the roles of other agencies and stakeholders that need to be involved. The SFCTA and

SFMTA Neighborhood Program Coordinators will assist with this effort, which requires consideration of multiple factors such as how well the Neighborhood Program proposal matches an agency's mission and goals; current priorities; staff resource availability during the proposal timeframe; and availability of consultant resources to address staff resource constraints. The Transportation Authority is willing to provide access to its on-call consultants to assist with Neighborhood Program efforts if that is found to be a viable approach to a particular proposal.

Agreeing upon the lead agency and the timing of the effort are important outcomes of the scoping phase. Based on prior experience and feedback from project sponsors, it is clear that the implementing agency's participation in the project initiation and scoping process and involvement in the effort in some form (from leading the effort to strategically providing input and reviewing key deliverables) helps ensure that the recommendations stemming from the study will be prioritized sooner rather than later in that agency's work program.

Requesting allocation of funds: The designated grant recipient must complete a Prop L allocation

Table 1.

Checklist for Developing a Strong Neighborhood Program Grant Proposal

Does your proposal have...?

- Clear purpose/need statement and goals
- Clear list of deliverables/outcomes
- Well-defined scope, schedule, and budget
- Clear and diverse community support
- Coordination with other relevant planning efforts
- Inclusive community engagement strategy
- Equity Priority Community or underserved community focus
- Appropriate funding/leveraging commensurate with proposed scope
- Implementation model (lead agency; agency and community roles defined)

request form that details the agreed-upon scope, schedule, cost and funding plan for the project. Transportation Authority staff will review the allocation request to ensure completeness and compliance with Prop L requirements. Once it is finalized, the funding request will go through the next monthly Transportation Authority Board cycle for approval. This involves review and action by the Community Advisory Committee and Transportation Authority Board.

Grant Award Terms

All Neighborhood Program projects must adhere to the Prop L Strategic Plan policies and the requirements set forth in the Prop L Standard Grant Agreement (available upon request). The sections below highlight answers to a few commonly asked questions.

For More Information

Visit the Transportation Authority's website at sfcta.org/policies/neighborhood-program or contact one of the Neighborhood Program coordinators:

TRANSPORTATION AUTHORITY

Anna LaForte 415.522.4805 anna.laforte@sfcta.org

SFMTA

Jamie Parks 415-646-2121 jamie.parks@sfmta.com

ARE THERE TIMELY USE OF FUNDS DEADLINES?

Planning efforts must be completed within two years of the grant award.

If a planning or capital grant recipient does not demonstrate adequate performance and timely use of funds, the Transportation Authority may, after consulting with the project sponsor and relevant District Supervisor, take appropriate actions, which can include termination or redirection of the grant.

WHAT ARE THE MONITORING, REPORTING, AND ATTRIBUTION REQUIREMENTS?

Neighborhood Program grants will be subject to the same monitoring, reporting and attribution requirements as for other Prop L grants. Requirements are set forth in the Prop L Standard Grant Agreement and include items such as including appropriate attribution on outreach fliers and reports, preparing quarterly progress reports, and submitting a closeout report upon project completion.

Upon completion of each planning project, project sponsors will report to the Transportation Authority Board on key findings, recommendations, and next steps, including implementation and funding strategy. For Neighborhood Program Planning grants, the Board will accept or approve the project's final report.

Neighborhood Program Planning Grant Process Flow-chart

The Neighborhood Program is funded by grants of Proposition L local transportation sales tax funds.

EXPENDITURE PLAN INFORMATION

PROP L Expenditure Plans	Pedestrian and Bicycle Facilities Maintenance	
Current PROP L Request:	\$518,000	
Supervisorial District	Citywide	

REQUEST

Brief Project Description

Repair of damaged public sidwalk, curb and gutters, and angular returns not related to street tree damage

Detailed Scope, Project Benefits and Community Outreach

Public Works is responsible for repairing sidewalks around City-maintained trees, adjacent to City properties, and at the angular returns of all intersections. The passage of Proposition E in November 2016 resulted in annual funding set-aside to maintain all street trees in the public right-of-way. Tree Maintenance Fund (TMF) funds for sidewalk repairs due to City-maintained trees. Any other damaged public sidewalks, curb and gutters, and angular returns, not due to tree damage, will be repaired with Prop L funds and State Transportation Development Act, Article 3 (TDA-3) funds.

SFPW currently has a backlog of over 1,000 requested repairs to damaged public sidewalks, curb and gutters, and angular returns not related to street tree damage. Instead, damage at these locations is typically caused by trucks driving up on curbs, old age, heavy equipment, vehicular accidents, poor original construction. Provided is a list of outstanding repair locations, which will be used to identify work for this funding request. At an average cost of \$75 per square foot, and \$300 per linear foot, SFPW expects to address approximately 200 sidewalk and curb repair requests on an annual basis with Prop L and TDA funds.

Locations are determined by a combination of SFPW inspection and public complaints, and will be prioritized based on project readiness, community support, and time sensitive urgency. In addition to these locations, SFPW anticipates that emergency response may be required at locations fronting federal, state, school, and housing authority properties, undeveloped lands, roadway structures (i.e. stairways, tunnels, bridges, and retaining walls), as well as locations with special surface sidewalks such as Market Street bricks and Mission Street tiles. Any substitutions of locations would be made in accordance with the 5YPP prioritization criteria.

New locations continuously become priorities as a result of SFPW's ongoing inspections, daily complaints, and reports of trip-and-fall accidents. The locations identified in the current prioritized sidewalk repair list may change based on higher-need locations that cannot be anticipated at this time. SFPW has the flexibility to prioritize and complete locations on an expedited basis if there is potential significant impact to pedestrian access and/or have the highest likelihood of generating

claims against the City and County of San Francisco (CCSF). However, failure to correct sidewalk deficiencies, whether they front public or private properties, increases CCSF's exposure to claims and lawsuits resulting from trip-and-fall injuries.

REQUEST

Brief Project Description

Purchase 1 piece of street repair and cleaning equipment to replace equipment that has exceeded its useful life - 1 full size street sweeper. This requested equipment is California Air Resources Board compliant and will meet current emissions standards.

Detailed Scope, Project Benefits and Community Outreach

San Francisco Public Works requests \$380,000 to purchase 1 full size street sweeper. The requested equipment is replacing equipment that has exceeded its useful life and will improve safety for workers and improve the efficiency of street cleaning and repair work. The equipment will have the newest safety features available. The regenerative air sweeper is for street cleaning. SFPW will purchase additional street repair and cleaning equipment with an estimated \$2.8 million in General Funds (subject to approval of the CCSF annual budget).

REQUEST

Brief Project Description

The Transbay Joint Powers Authority is requesting Prop AA funding to improve the Salesforce Transit Center's wayfinding system by replacing 100 media players at interactive and non-interactive kiosks throughout the Transit Center. This project would improve reliability and functionality of the wayfinding system, improving the commuter and visitor experiences by connecting them quickly and more efficiently to their transit connections and to the public open space and activities provided at the Center's rooftop park.

Detailed Scope, Project Benefits and Community Outreach

In March of 2020, Transbay Joint Powers Authority hired a consultant to provide a 'Gap Analysis' review of visitor-facing wayfinding at the Salesforce Transit Center. The project examined both static and digital information systems and identified areas of improvement around the Center. This analysis was conducted in coordination with MTC and transit operator staff. Digital signage in and around the Center is made up of over 300 screens, 300 media players, content management systems, and data infrastructure throughout the Salesforce Transit Center.

The current Wayfinding Improvement Plan at the Salesforce Transit Center includes three phases of work, meant to improve the Center's static and digital wayfinding ecosystem as it is today, identifies areas for improvement over the next 1-2 years, and provides high level cost estimates for improving Wayfinding in the long term, as high-speed rail is realized in the 2030's.

Phase 1 is primarily focused on Digital Enhancements and includes three subphases. The wayfinding improvement plan for Salesforce Transit Center was recently revised so that deliverables with independent utility could be performed immediately, with others that are co-dependent being done later. MTC and transit operator staff assisted by providing feedback in the development of this updated approach.

Phase 1.A is currently in progress, with a new Wayfinding Application expected to be completed by June 30, 2023. This work included four workstreams that focused on 1) Wayfinding Application Interface, 2) Network and Hardware research, 3) User and Market Projects, and 4) Dashboard

content management tool, and has been funded with \$275,000 in TJPA sources and \$200,000 in RM-2 bridge tolls.

Phase 1.B represents this current request for \$300,000 in Prop AA funding and would provide the baseline equipment needed to run the new Wayfinding application smoothly and consistently. Currently, most screens (standard and touch) are capable of displaying the Wayfinding Application and other media. The current Media Players are able to operate the application but are slow, less responsive to touch and commands, and often require technical support, since they are at the end of their useful life. For these reasons, TJPA is requesting to install and set up 100 (of 318 total) new Media players that will deliver immediate noticeable improvements across the Center, providing independent utility and allowing for a smoother rollout of MTC's new Regional Standards, when completed.

Phase 1.C would replace the remaining equipment around the Center, including: 218 (of 318 total) Media Players, 40 touch screens & overlays, 180 standard screens, and static directional signage to better align with MTC's current regional standards. The cost and schedule for implementing Phase 1C is dependent on securing additional funds, including a current request for Community Project funds in the FFY24 Federal transportation appropriation bill. The minimum cost estimate is \$586,700. With additional funds, more extensive static directional signage could be implemented.

Phase 2 (FY24/25) Design and install permanent physical signage using MTC's new regional standards and industry best practices. The cost estimate and schedule for this effort will be developed in coordination with MTC's roll-out of MTC's updated regional standards currently under development.

Phase 3 (FY33/34) Integration of High Speed Rail and CalTrain on levels B1 and B2 into the TJPA Wayfinding System. The cost estimate for this effort will be prepared in conjunction with the detailed design work for the DTX project.

See attached scope file for more information.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

From SFCTA Excel Application – Line 8: Detailed Scope (may attach Word document): Please describe the project scope, benefits, coordination with other projects in the area (e.g. paving, MuniForward, Vision Zero), and how the project would meet the Prop AA screening and prioritization criteria as well as other program goals (e.g., short-term project delivery to bring tangible benefits to the public quickly). Describe how this project was prioritized. Attach maps, drawings, photos of current conditions, etc. to support understanding of the project.

Brief Project Justification

The Transbay Joint Powers Authority is requesting funding to augment the Salesforce Transit Center's wayfinding system. The Salesforce Transit Center is a multimodal transportation hub in downtown San Francisco measuring over 4.5 football fields in length, over four city blocks, and with six levels. The wayfinding system within the complex features both static and digital signage with over 300 screens and media players, and robust network infrastructure that requires updating to allow riders to efficiently navigate and access the transportation connections provided by several Bay Area transportation operators at and near the facility and the four-block long rooftop park, the neighborhood open space resource. Updates to the wayfinding signage will allow better access and provide an enjoyable experience of the Center, supporting facility access for all transit passengers and visitors, including individuals with disabilities, and the many local passengers traveling on the several Title VI-designated minority transit lines serving the Center. This wayfinding project will include replacing a targeted portion of the existing signage infrastructure coupled with updating digital wayfinding software and content. Improving the wayfinding system at the Center will allow transit riders to easily get to where they need to go, while allowing nearby residents and visitors to the San Francisco Bay Area to enjoy the retail offerings and park amenities offered at the Center. The funding requested through this Prop AA funding will address the Program's programmatic goals of enhancing pedestrian safety, and improve transit mobility at the Salesforce Transit Center, located in San Francisco. As part of the TJPA's Wayfinding Program, developed as a result of a 2020 Wayfinding Gap Analysis Study, a Wayfinding Improvement Plan was created, some of which is already underway.

At the time of the Prop AA Programming, TJPA worked with consultants to identify and prioritize items that are most effective and timely in enhancing the wayfinding experience at the transit center. Originally, it was thought that replacing the screens, housing, and media players (mini computer) in (37) interactive kiosks was best. However, after researching the existing components, it was determined that replacing as many of the end-of-lifecycle media players would have the biggest and most immediate positive impact, by improving reliability and functionality of the content being displayed. While the current screens are in need of replacement, many still function well and will be enhanced by simply replacing the media player only at this time. The change in strategy is due to the screens dependence on media players and "touch overlay" to truly realize the upgrade in technology. For example, replacing 37 interactive kiosks would enhance the experience on the Ground floor, but would not address the issues present on the remaining 260+ digital signs around the Center, including the ones serving the Bus Deck – leading to an inconsistent and unreliable experience after leaving the Ground floor. By replacing the computers/media players, we can prevent outages and downtime,

Project Name: Salesforce Transit Center Wayfinding Phase 1, Page 1

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

which currently occurs with existing end-of-lifecycle media players. Not only does this strategy better support visitors, it also allows the funding to provide independent utility immediately, and does not preclude TJPA from implementing MTC's new regional standards. Thus, the TJPA followed the recommendation to instead strategically replace (100) media players in both interactive and non-interactive digital signage throughout the center.

Example of Non-interactive digital signage:

^{*}Images rotate to show bus arrival and departure times, as well as other Wayfinding content.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Example of Interactive digital signage:

^{*}Touch screens make these kiosks "interactive". The new media players work with both interactive and non-interactive digital signage.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Examples of static signage:

*Static Bus Bay directional signage and Floor specific wayfinding near elevators.

The subsequent phases for the overall Wayfinding project would include replacement of the digital screens, the housing of the kiosks, and other static wayfinding signage enhancements within the Transit Center. Implementation of physical signage changes in the Transit Center will follow MTC's new Regional Mapping Project, and is subject to securing additional funds.

About the Salesforce Transit Center

The Center is a modern regional transit hub connecting the Bay Area and ultimately the State of California through: Alameda-Contra Costa Transit (AC Transit), Bay Area Rapid Transit, Peninsula Rail Joint Powers Board (Caltrain), Golden Gate Transit, Greyhound, San Francisco Municipal Transportation Agency (SFMTA), SamTrans, WestCAT Lynx, Amtrak, paratransit and future High Speed Rail connection from San Francisco to Los Angeles/Anaheim. The Center extends four city blocks long and has 100,000 square feet of diverse retail, including a significant number of locally-owned businesses, a 5.4-acre Rooftop Park that offers free public programming and activities and a robust public art program. The Center is built to receive a GOLD Leadership in Energy and Environmental Design (LEED) certification and is highly sustainable with grand light-filled spaces

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

and a unique façade. It is a world-class iconic destination, bringing local residents, transit riders, and visitors together daily to where they need to go and/or to enjoy the many amenities this transportation hub offers: shops, public open space and public art installations. Before the pandemic, ridership statistics provided by Operators at the Transit Center show that AC Transit accounted for roughly 17,000 riders per day, and SFMTA accounted for 9,000 riders per day. In addition, Golden Gate Transit, Westcat Lynx, and Greyhound contributed roughly 4,000 riders per day. These numbers include both "ons" and "offs". Additionally, over 1,000 people visited the rooftop park daily.

The Transportation Challenge and the Wayfinding Project

The Center was completed in 2018 and included a wayfinding signage system, which consists of directional signs of the Center's levels and 37 bus bays using both digital and non-digital wayfinding systems. Shortly after the Center opened to the public, it was determined through substantial public feedback from commuters and transit agency partners, that the wayfinding and digital systems installed required enhancements. Because of the Center's multimodal makeup, four open levels, and several major entrance and exit points, along with the existence of several Bay Area transportation operators providing service in and around the Center, it is difficult for riders and visitors to navigate where they need to go and how best to get to their transit connections and/or to other parts of the Center. This causes lost time for commuters who miss transport connections, reducing the efficiency of the transit system. Currently, four of the six levels are open to the public:

- 1. The first or ground level houses the bus plaza where services from SFMTA and Golden Gate Transit are provided, with SamTrans and Amtrak located nearby on Mission Street and SF Paratransit located adjacent to the Grand Hall. Retail areas are also on the ground floor level.
- 2. The second level houses Wellness functions, including Fitness SF, Kaiser, Onsite Dental, and Spring Fertility.
- 3. The third level consists of the Bus Deck, which has 37 bays for transit operators AC Transit, Greyhound, Westcat Lynx, and SFMTA's Treasure Island buses.
- 4. The fourth level is the iconic Rooftop Park, which includes a gondola providing direct access from the public Salesforce Plaza and two pedestrian bridges connecting office and residential buildings directly to the park, with a third bridge in the planning stages.

Wayfinding Gap Analysis and Improvement Plan

In 2019, the TJPA, in collaboration with the Metropolitan Transportation Commission (MTC), brought onboard a wayfinding consultant to conduct a Wayfinding Gap Analysis of the Center, involving a comprehensive community outreach process that consisted of in-person interviews and online surveys of Bay Area commuters and visitors to the Center. Through this gap analysis, a Wayfinding Improvement Plan was created in 2020 with a project cost identified.

As part of the Wayfinding Gap Analysis, there were a battery of surveys undertaken as part of the research phase of the study. Alongside site work that assessed the physical legibility and management of the Salesforce

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Transit Center, the study included various methods for understanding the wayfinding needs and experiences of visitors to the facility. The following section summarizes the various community surveys undertaken:

- 1. Bus passengers an intercept interview with passengers waiting for services at stops on the Bus Plaza and Bus Deck. These interviews were intended to capture opinion on wayfinding from the perspective of a transit rider.
- 2. Pedestrian tracking another observational survey that tracked people covertly to watch wayfinding behavior without outside stimulation from the surveyor. This was intended to identify traits and issues for people navigating the building entirely naturally.
- 3. Test journeys an observational survey of participants with little if any previous knowledge of the building designed to question the utility and efficacy of wayfinding for unfamiliar users.
- 4. Frontline staff forums a group discussion with staff and managers who represent frontline touchpoints for visitor questions. The intent being to investigate common issues, techniques for helping people and suggestions to help improve customer service.
- 5. Digital (KC1) kiosk public tests a small sampling of intercepted participants was asked to perform simple tasks using the digital trip planning kiosks. This focused specifically on anecdotal concerns that these tools were under-used and overly complicated.
- 6. Stakeholder survey a self-completion survey of municipal transit operators and other special interests who hold a stake in the success of wayfinding at the facility to obtain insight into issues and opportunities raised by the people or organizations they represent.

These public outreach efforts informed the Wayfinding Improvement Plan, which is robust and necessary to execute this wayfinding signage improvement to enhance transit mobility in the City and throughout the Center. The Wayfinding Project is a part of MTC's Plan Bay Area 2050.

No further public outreach is planned for the installation of the new media players.

Project Cost

The total Wayfinding project cost is \$4.7 million, which is broken down into three phases and addresses the three components listed below. The Phase 1 project is the subject of this request. The Phase 1 cost is \$1,361,700, of which \$475,000 has been allocated (\$200,000 in RM-2) or allocated (\$275,000 TJPA funds). This Wayfinding Phase 1 project will enhance the physical and digital signage and digital support systems in the Center, including the elements identified below:

- 1. Physical signage: Enhance facility identity, intuitive directions, and consistency to MTC regional standards
- 2. Digital and interactive information: Kiosk-based application redesign; application front-end, back-end and content management system development; digital data dashboard design & development; research/recommendations into local network upgrade path, upgraded monitors and media players, and expanded accessibility options
- 3. Design, planning and implementation of the wayfinding and digital systems

Project Name: Salesforce Transit Center Wayfinding Phase 1, Page 6

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

The Wayfinding Program's seeks to replace the wayfinding infrastructure and digital wayfinding application by updating the digital systems and screens allowing interactive map and diagram use and accessibility; provide information to limited-English proficient visitors in accordance with the TJPA's Title VI plan; fully operationalize American Disability Act requirements while incorporating the MTC's Regional Transit Wayfinding Guidelines and Standards.

Multi-Agency Coordination and Plan Execution

Improving wayfinding at the Center is a top priority for the TJPA and transit operator partners. The TJPA hosts a monthly meeting with AC Transit, SFMTA and MTC called the Wayfinding Working Group, which seeks to enhance the wayfinding and signage at the Center, implement the Wayfinding Program and work together to pursue funding to advance this Program.

We are underway with the first stage of the Wayfinding Phase 1 project that will update the software and content and strategically replace about 10 of the 37 existing media players in interactive kiosks to enhance wayfinding and signage at the Center. The Wayfinding application development, which is funded by other non-Prop AA sources, will be done and ready for rollout by June 2023. The purchase and installation of the 100 media players (27 interactive, 70 non-interactive, and 3 spares), using Prop AA funds, will occur immediately thereafter. Work can commence upon receipt of the requested Prop AA funding and will be completed by September 2023.

Benefits to the Community

Through Prop AA funding, the updated wayfinding system will make it easier for the Bay Area's diverse communities (from San Francisco, Alameda, Contra Costa, San Mateo, Marin, and Santa Clara counties) of transit riders to navigate the Salesforce Transit Center and reach their connections. The Center is within walking distance to equity priority communities (EPC) found in the MTC's and SFCTA's EPC maps, with riders relying on accessing to their transit connections reliably and quickly.

Through our transit partners that include SFMTA, BART, AC Transit, WestCat Lynx, Golden Gate Transit, SamTrans, paratransit, commuters can take the transit connections to get them to jobs, economic opportunities, cultural destinations and housing. Through the multimodal Center, these communities are provided transit connections to not only multiple locations throughout San Francisco, but also throughout the Bay Area and megaregion. Updating the wayfinding system at this Center will only increase commuters' positive experience of taking transit and increase their motivation to take transit to their connections and increase access to the free activities offered at the rooftop park.

The Center houses SFMTA bus service from the Richmond district through the 5-Fulton and 38-Geary buses plus the Treasure Island (TI) bus service, which is the only bus connection for TI residents to get to San

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Francisco. The Center is within walking distance to other SFMTA transit connections, as well, as to the other 8 transit systems found at, within, and in near walking-proximity to the Center.

The Center is a 4-block long open space resource for the equity priority communities in MTC and SFCTA EPC maps. Through this rooftop park, these communities are able to visit and take advantage of the free activities offered throughout the week, which include fitness, crafts, birding and gardening classes.

This TJPA Wayfinding Project funding request meets the following Prop AA screening and prioritization criteria:

- 1. The TJPA is an eligible administering agency per the Prop AA Expenditure Plan guidelines.
- 2. The Wayfinding project is eligible for funding from two (pedestrian safety and transit reliability and mobility improvements) of Prop AA's three programmatic categories.
- 3. Project is seeking Prop AA funds for design, construction and/or procurement phases only.
- 4. Project is consistent with the regional transportation plan as identified through Plan Bay Area 2050.
- 5. Project is consistent with TJPA's adopted budget; existing and planned land uses; adopted standards for urban design and for the provision of pedestrian amenities; and supportiveness of planned growth in transit friendly housing, employment, and services.

For reference, Phase 1 is primarily focused on Digital Enhancements and includes three subphases. The wayfinding improvement plan for Salesforce Transit Center was recently revised so that deliverables with independent utility could be performed immediately, with others that are co-dependent being done later. MTC and transit operator staff assisted by providing feedback in the development of this updated approach.

Phase 1.A is currently in progress, with a new Wayfinding Application expected to be completed by June 30, 2023. This work included four workstreams that focused on 1) Wayfinding Application Interface, 2) Network and Hardware research, 3) User and Market Projects, and 4) Dashboard content management tool, and has been funded with \$275,000 in TJPA sources and \$200,000 in RM-2 bridge tolls.

Phase 1.B represents this current request for \$300,000 in Prop AA funding and would provide the baseline equipment needed to run the new Wayfinding application smoothly and consistently. Currently, most screens (standard and touch) are capable of displaying the Wayfinding Application and other media. The current Media Players, are able to operate the application, but are slow, less responsive to touch and commands, and often require technical support, since they are at the end of their useful life. For these reasons, TJPA is requesting to install and set up 100 (of 318 total) new Media players that will deliver immediate noticeable improvements across the Center, providing independent utility and allowing for a smoother rollout of MTC's new Regional Standards, when completed.

Phase 1.C would replace the remaining equipment around the Center, including: 218 (of 318 total) Media Players, 40 touch screens & overlays, 180 standard screens, and static directional signage to better align with MTC's current regional standards. The cost and schedule for implementing Phase 1C is dependent on securing additional funds, including a current request for Community Project funds in the FFY24 Federal transportation appropriation bill. The minimum cost estimate is \$586,700. With additional funds, more extensive static directional signage could be implemented.

Project Name: Salesforce Transit Center Wayfinding Phase 1

Project Sponsor: Transbay Joint Powers Authority

Phase 2 (FY24/25) Design and install permanent physical signage using MTC's new regional standards and industry best practices. The cost estimate and schedule for this effort will be developed in coordination with MTC's roll-out of MTC's updated regional standards currently under development.

Phase 3 (FY33/34) Integration of High Speed Rail and CalTrain on levels B1 and B2 into the TJPA Wayfinding System. The cost estimate for this effort will be prepared in conjunction with the detailed design work for the DTX project.

The Wayfinding project addresses two of the three main programmatic benefits Prop AA funding seeks to address, which include:

- 1. Pedestrian Safety the project will minimize conflicts with other modes, and reduce pedestrian hazards and it will enhance access to transit and/or schools, as there are a number of educational institutions located within the vicinity of the Transit Center.
- 2. Transit Reliability and Mobility Improvements the project will increase transit accessibility and connectivity using wayfinding signs through travel information improvements, and improved connections to regional transit). The multimodal Transit Center connects nine Bay Area transit systems and reduces congestion and transit crowding and are aligned with San Francisco's citywide travel demand management goals.

Early Regional Investment

This investment complements the MTC 's regional efforts to provide an accessible and easily navigable transportation system across the entire region of the Bay Area, with the Salesforce Transit Center at the forefront. Wayfinding is an important strategy element in the Plan Bay Area 2050 enabling a seamless mobility experience for riders. Within the past 12 years, MTC has invested over 12 million dollars into creating an increasingly seamless and coordinated wayfinding system for the region's transportation network and plans to develop regional design standards, a kit of mapping resources, a digital mapping platform, and a regional graphic identity/branding in partnership with Bay Area cities and transit operators. Our efforts at the Center will only help improve commuters' access to the Bay Area's transit system.

BD070724

RESOLUTION NO. 24-03

RESOLUTION ALLOCATING \$998,000 AND APPROPRIATING \$100,000 IN PROP L SALES TAX FUNDS, WITH CONDITIONS, AND ALLOCATING \$300,000 IN PROP AA VEHICLE REGISTRATION FEE FUNDS FOR FOUR REQUESTS

WHEREAS, The Transportation Authority received four requests for a total of \$1,098,000 in Prop L local transportation sales tax funds and \$300,000 in Prop AA vehicle registration fee funds, as summarized in Attachments 1 and 2 and detailed in the attached allocation request forms; and

WHEREAS, The requests seek funds from the following Prop L Expenditure Plan programs: Street Resurfacing, Rehabilitation and Maintenance; Pedestrian and Bicycle Facilities Maintenance; and Neighborhood Transportation Program; and from the Transit Reliability and Mobility Improvements category of the Prop AA Expenditure Plan; and

WHEREAS, As required by the voter-approved Expenditure Plans, the Transportation Authority Board has adopted a 5-Year Prioritization Program (5YPP) for the aforementioned Prop L programs and Prop AA category; and

WHEREAS, The Prop L requests are consistent with the Strategic Plan Baseline Amendment and relevant 5YPPs; and

WHEREAS, The Prop AA request is consistent with the Strategic Plan and relevant 5YPP; and

WHEREAS, After reviewing the requests, Transportation Authority staff recommends allocating \$998,000 and appropriating \$100,000 in Prop L funds, with conditions, and allocating \$300,000 in Prop AA funds, for four projects, as described in Attachment 3 and detailed in the attached allocation request forms, which include staff recommendations for Prop L and Prop AA allocation amounts, required deliverables, timely use of funds requirements, special conditions, and Fiscal Year Cash Flow Distribution Schedules; and

BD070724

WHEREAS, There are sufficient funds in the Capital Expenditures line item of the Transportation Authority's approved Fiscal Year 2023/24 budget to cover the proposed actions; and

WHEREAS, At its June 28, 2023 meeting, the Community Advisory Committee was briefed on the subject requests and unanimously adopted a motion of support for the staff recommendation; now, therefore, be it

RESOLVED, That the Transportation Authority hereby allocates and appropriates \$1,098,000 in Prop L funds, with conditions and \$300,000 in Prop AA funds as summarized in Attachment 3 and detailed in the attached allocation request forms; and be it further

RESOLVED, That the Transportation Authority finds the allocation of these funds to be in conformance with the priorities, policies, funding levels, and prioritization methodologies established in the Prop L and Prop AA Expenditure Plans, the Prop L Strategic Plan Baseline Amendment, the Prop AA Strategic Plan, and the relevant 5YPPs; and be it further

RESOLVED, That the Transportation Authority hereby authorizes the actual expenditure (cash reimbursement) of funds for these activities to take place subject to the Fiscal Year Cash Flow Distribution Schedules detailed in the attached allocation request forms; and be it further

RESOLVED, That the Capital Expenditures line item for subsequent fiscal year annual budgets shall reflect the maximum reimbursement schedule amounts adopted and the Transportation Authority does not guarantee reimbursement levels higher than those adopted; and be it further

RESOLVED, That as a condition of this authorization for expenditure, the Executive Director shall impose such terms and conditions as are necessary for the project sponsors to comply with applicable law and adopted Transportation Authority policies and execute Standard Grant Agreements to that effect; and be it further

BD070724

RESOLVED, That as a condition of this authorization for expenditure, the project sponsors shall provide the Transportation Authority with any other information it may request regarding the use of the funds hereby authorized; and be it further

RESOLVED, That the Capital Improvement Program of the Congestion

Management Program, the Prop AA Strategic Plan and the relevant 5YPPs are hereby amended, as appropriate.
