### **Agenda**

## SAN FRANCISCO COUNTY TRANSPORTATION AUTHORITY Meeting Notice

**DATE:** Tuesday, October 24, 2023, 10:00 a.m. **LOCATION:** Legislative Chamber, Room 250, City Hall

Watch SF Cable Channel 26 or 99 (depending on your provider)

Watch www.sfgovtv.org

PUBLIC COMMENT CALL-IN: 1-415-655-0001; Access Code: 2660 908 7338 # #

To make public comment on an item, when the item is called, dial '\*3' to be added to the queue to speak. Do not press \*3 again or you will be removed from the queue. When the system says your line is unmuted, the live operator will advise that you will be allowed 2 minutes to speak. When your 2 minutes are up, we will move on to the next caller. Calls will be taken in the order in which they are received.

**COMMISSIONERS:** Mandelman (Chair), Melgar (Vice Chair), Chan, Dorsey,

Engardio, Peskin, Preston, Ronen, Safaí, Stefani, and Walton

**CLERK:** Elijah Saunders

### **Remote Participation**

Members of the public may attend the meeting to observe and provide public comment at the physical meeting location listed above or may watch SF Cable Channel 26 or 99 (depending on your provider) or may visit the SFGovTV website (www.sfgovtv.org) to stream the live meeting or may watch them on demand.

Members of the public may comment on the meeting during public comment periods in person or remotely. In-person public comment will be taken first; remote public comment will be taken after.

Written public comment may be submitted prior to the meeting by emailing the Clerk of the Transportation Authority at clerk@sfcta.org or sending written comments to Clerk of the Transportation Authority, 1455 Market Street, 22nd Floor, San Francisco, CA 94103. Written comments received by 5 p.m. on the day before the meeting will be distributed to Board members before the meeting begins.

11. Autonomous Vehicle Update - INFORMATION

Staff from the Transportation Authority, San Francisco Municipal Transportation Agency and San Francisco Fire Department will present on San Francisco's experience with driverless Autonomous Vehicles, and San Francisco's advocacy to Federal and State regulators on how to implement this new technology while maintaining safety and advancing citywide goals. Additionally, Phil Koopman, Associate Professor of Electrical and

Board Meeting Notice - Agenda

Page 3 of 3

Computer Engineering at Carnegie Mellon University will offer expert perspectives on autonomous vehicle safety.

#### Other Items

#### 12. Introduction of New Items - INFORMATION

During this segment of the meeting, Commissioners may make comments on items not specifically listed above or introduce or request items for future consideration.

- 13. Public Comment
- 14. Adjournment

#### \*Additional Materials

Items considered for final approval by the Board shall be noticed as such with **[Final Approval]** preceding the item title.

The meeting proceedings can be viewed live or on demand after the meeting at www.sfgovtv.org. To know the exact cablecast times for weekend viewing, please call SFGovTV at (415) 554-4188 on Friday when the cablecast times have been determined.

The Legislative Chamber (Room 250) and the Committee Room (Room 263) in City Hall are wheelchair accessible. Meetings are real-time captioned and are cablecast open-captioned on SFGovTV, the Government Channel 26 or 99 (depending on your provider). Assistive listening devices for the Legislative Chamber and the Committee Room are available upon request at the Clerk of the Board's Office, Room 244. To request sign language interpreters, readers, large print agendas or other accommodations, please contact the Clerk of the Transportation Authority at (415) 522-4800. Requests made at least 48 hours in advance of the meeting will help to ensure availability. Attendees at all public meetings are reminded that other attendees may be sensitive to various chemical-based products.

If any materials related to an item on this agenda have been distributed to the Board after distribution of the meeting packet, those materials are available for public inspection at the Transportation Authority at 1455 Market Street, Floor 22, San Francisco, CA 94103, during normal office hours.

Individuals and entities that influence or attempt to influence local legislative or administrative action may be required by the San Francisco Lobbyist Ordinance [SF Campaign & Governmental Conduct Code Sec. 2.100] to register and report lobbying activity. For more information about the Lobbyist Ordinance, please contact the San Francisco Ethics Commission at 25 Van Ness Avenue, Suite 220, San Francisco, CA 94102; (415) 252-3100; www.sfethics.org.

### DRAFT MINUTES

### **San Francisco County Transportation Authority**

Tuesday, October 17, 2023

### 1. Roll Call

Chair Mandelman called the meeting to order at 10:02 a.m.

**Present at Roll Call:** Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar,

Preston, Peskin, Ronen, Stefani, and Walton (10)

Absent at Roll Call: Commissioner Safai (1)

### 2. Approve the Minutes of the September 26, 2023 Meeting - ACTION

There was no public comment.

Commissioner Melgar moved to approve the minutes, seconded by Commissioner Preston.

The Consent Agenda was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, Stefani, and Walton (10)

Absent: Commissioner Safai (1)

### 3. Community Advisory Committee Report – INFORMATION

Chair Ortiz reported that the Community Advisory Committee (CAC) adopted motions of support for the Prop L 5 Year Prioritization Program and the Prop L allocations items on the agenda. He reported that they also heard a presentation about the San Francisco Municipal Transportation Agency (SFMTA's) paratransit fleet electrification plans. He highlighted that a CAC member questioned how San Francisco Public Works (SFPW) prioritized where they focused their tree planting, specifically why District 9 was not prioritized. He reported that SFPW provided an answer and offered to follow up. Finally, Chair Ortiz announced that the CAC had formed a subcommittee to investigate skateboarding infrastructure, where they would establish the existing conditions and discuss potential strategies to improve skateboarding in the city. He stated that the subcommittee would meet three times and that he would report their findings to the Transportation Authority Board.

There was no public comment.

### 4. Appoint Austin Milford-Rosales as the District 6 Representative to the Community Advisory Committee – ACTION

Maria Lombardo, Chief Deputy Director, presented the item per the staff memorandum.

Austin Milford-Rosales spoke to his interest and qualifications in being appointed to the CAC.

Board Meeting Minutes Page 2 of 4

Commissioner Dorsey stated that he was excited to nominate Mr. Milford-Rosales and commented that he was a daily transit and frequent bike user; appreciated his dedication to pedestrian safety; and commented that he was happy to nominate someone of Mr. Milford-Rosales' character and caliber. He closed by thanking outgoing CAC member Eric Rozell.

Commissioner Preston welcomed Mr. Milford-Rosales to the CAC as the new District 6 member. He then thanked Eric Rozell noting he was redistricted from District 6 into District 5 and thanked Commissioner Dorsey for allowing Mr. Rozell to continue serving on the CAC for a period of time after that. Commissioner Preston thanked Mr. Rozell for being a leading advocate on pedestrian safety in Tenderloin, including fighting for the no right on red policy, ADA accessibility, and quick-build projects on high-injury streets. He stated that while he was sad to see him leave the CAC, he was pleased that he would be continuing his great work with the Tenderloin Community Benefits District as their Director of Safe Passage Programs and co-chair of the Tenderloin Safety Task Force.

During public comment, a commenter stated that transparency and declaring conflict of interest was important.

Eric Rozell thanked Commissioner Preston for his acknowledgment as well the CAC members and Transportation Authority staff for their work. He also thanked SFMTA, BART, Caltrain and other agencies for all their hard work. He wished Mr. Milford-Rosales the best of luck.

Commissioner Dorsey moved to appoint Austin Milford-Rosales to the CAC, seconded by Commissioner Preston.

The motion to appoint Austin Milford-Rosales was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, and Stefani (9)

Absent: Commissioners Safai and Walton (2)

### 5. State and Federal Legislation Update - INFORMATION

Mark Watts, Sacramento Advocate, presented the item per the staff memorandum.

During public comment, a commenter stated that nobody had enough time to focus on all the bills on the governor's desk and therefore it was his advisors who were telling him what to do.

### 6. Adopt Eight 2023 Prop L 5-Year Prioritization Programs and Amend the Prop L Strategic Plan Baseline – ACTION

Amelia Walley, Program Analyst, presented the item per the staff memorandum.

A member of the public commented that transportation should not be weaponized.

Vice Chair Melgar moved to approve the item, seconded by Commissioner Ronen.

The item was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, and Stefani (9)

Board Meeting Minutes Page 3 of 4

Absent: Commissioners Safai and Walton (2)

### 7. Allocate \$13,724,000 and Appropriate \$651,000 in Prop L Funds, with Conditions for Five Requests – ACTION

Mike Pickford, Principal Transportation Planner, presented the item per the staff memorandum.

During public comment, a commenter commented that it was important to appreciate the sky and think about the future.

Commissioner Ronen moved to approve the item, seconded by Commissioner Dorsey.

The item was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, and Stefani (9)

Absent: Commissioners Safai and Walton (2)

### 8. Approve San Francisco's Program of Projects for the 2024 Regional Transportation Improvement Program, with Conditions – ACTION

Nick Smith, Senior Transportation Planner, presented the item per the staff memorandum.

Chair Mandelman expressed concern regarding the fact that funds for SFMTA's Train Control Project Phase I & II had lapsed, that funds for Phase III were being reprogrammed, and impacts to the overall project schedule. He asked whether the project was still on track.

Dan Howard, SFMTA Project Manager, said that the project had experienced an 11-month delay, which pushed the Notice to Proceed (NTP) from February 2024 to January 2025. He stated that the SFMTA Board approved the Request for Proposals (RFP) in January 2023, and the RFP was released in late February 2023 after the City Attorney's Office review resulting in a one-month delay. He stated that there was great interest from suppliers, who requested three extensions resulting in another 4-months of delay. Mr. Howard stated that based on this experience, SFMTA extended the schedule for contract negotiations, anticipating a more complex contract than initially planned. He added that assuming the current NTP of January 2025, SFMTA expected the rest of the milestone dates to remain the same. He said that bids were received last week. Mr. Howard outlined the current timeline and stated that SFMTA anticipated an 18-month design period, three-year pilot period with the first section coming online in 2028, the subway replacement taking place between 2027 and 2030, and the whole project completed by mid-2032.

Chair Mandelman asked about the previous NTP schedules.

Dan Howard said that pre-COVID the NTP was planned for 2021, and, prior to these most recent delays, February 2024.

Chair Mandelman asked for an update on environmental review.

Mr. Howard indicated that categorical and statutory exemptions from federal and state environmental review were pending review with the Planning Department.

Board Meeting Minutes Page 4 of 4

Chair Mandelman said this seemed like another large transit project with an extended schedule and requested an update for himself and Transportation Authority staff from SFMTA.

A member of the public commented that the project should be frozen and that transportation should not be weaponized.

Commissioner Dorsey moved to approve the item, seconded by Commissioner Preston.

The item was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, and Stefani (9)

Absent: Commissioners Safai and Walton (2)

## 9. Adopt a Resolution Directing The San Francisco Municipal Transportation Agency To Incorporate Safe Routes To All Schools in the San Francisco Unified School District In the Active Communities Plan - ACTION

Vice Chair Melgar stated that she authored the resolution and that she had heard a positive response from SFMTA. She stated that she recently biked through her district with Director Jeff Tumlin and SFMTA Chair Amanda Eaken to show them the current conditions of school routes. She stated that while SFMTA was building a network for biking and walking, they needed to pay special attention to school routes, especially for middle and high schoolers as that was when kids start to get around on their own. She stated that there was a need for both programming and infrastructure as this would help kids build more sustainable transportation habits. She thanked SFMTA staff and asked her fellow commissioners for their support.

During public comment, a commenter stated that it was important to think positively.

Vice Chair Melgar moved to approve the item, seconded by Commissioner Chan.

The item was approved without objection by the following vote:

Ayes: Commissioners Chan, Dorsey, Engardio, Mandelman, Melgar, Preston, Peskin, Ronen, and Stefani (9)

Absent: Commissioners Safai and Walton (2)

### Other Items

#### 10. Introduction of New Items - INFORMATION

There were no new items introduced.

### 11. Public Comment

During public comment, a commenter stated that the key to transportation is movement around the city.

### 12. Adjournment

The meeting was adjourned at 11:08 a.m.

1455 Market Street, 22ND Floor, San Francisco, California 94103 415-522-4800 info@sfcta.org www.sfcta.org

### Memorandum

### **AGENDA ITEM 5**

**DATE:** October 10, 2023

**TO:** Transportation Authority Board

FROM: Maria Lombardo - Chief Deputy Director

SUBJECT: 10/17/2023 Board Meeting: Appoint Austin Milford-Rosales as the District 6

Representative to the Community Advisory Committee

RECOMMENDATION □ Information ☒ Action	$\square$ Fund Allocation
Per Section 5.2(a) of the Administrative Code, each	☐ Fund Programming
Commissioner shall nominate one member to the Community	$\square$ Policy/Legislation
Advisory Committee (CAC). Neither staff nor CAC members make recommendations regarding CAC appointments.	☐ Plan/Study
	☐ Capital Project Oversight/Delivery
SUMMARY	☐ Budget/Finance
There is one open seat on the 11-member CAC for the District	•
6 representative. Commissioner Dorsey has indicated his	☐ Contract/Agreement
intent to nominate Austin Milford-Rosales to fill the District 6	☑ Other: CAC
vacancy. CAC members serve for a 2-year term. The current	Appointment
roster of CAC members is included in Attachment 1. The	
application for the District 6 candidate is included in	
Attachment 2.	

### **BACKGROUND**

As described in the Transportation Authority's Administrative Code, the CAC shall provide input to the Transportation Authority in:

- 1. Defining the mission of the Transportation Authority;
- 2. Reflecting community values in the development of the mission and program of the Transportation Authority, and channeling that mission and program back to the community;
- 3. Defining criteria and priorities for implementing the Expenditure Plan programs consistent with the intention of the half-cent sales tax funding purposes; and

Agenda Item 5 Page 2 of 2

4. Monitoring the Transportation Authority's programs and evaluating the sponsoring agencies' productivity and effectiveness.

### **DISCUSSION**

The Board appoints eleven members to the CAC and each Commissioner nominates one member to the committee.

Per Section 5.2(a) of the Administrative Code, the CAC:

"...shall include representatives from various segments of the community, such as public policy organizations, labor, business, seniors, people with disabilities, environmentalists, and neighborhoods, and reflect broad transportation interests. The committee is also intended to reflect the racial and gender diversity of San Francisco residents."

An applicant must be a San Francisco resident to be considered eligible for appointment. Applicants are asked to provide residential location and areas of interest but provide ethnicity and gender information on a voluntary basis. CAC applications are distributed and accepted on a continuous basis. CAC applications were solicited through the Transportation Authority's website, Commissioners' offices, and email blasts to community-based organizations, advocacy groups, business organizations, as well as at public meetings attended by Transportation Authority staff or hosted by the Transportation Authority. Applications can be submitted through the Transportation Authority's website at www.sfcta.org/cac.

All applicants have been advised that they need to appear before the Board in order to be appointed, unless they have previously appeared. If a candidate is unable to appear before the Board on the first appearance, they may appear at the following Board meeting in order to be eligible for appointment.

#### FINANCIAL IMPACT

The requested action would not have an impact on the adopted Fiscal Year 2023/24 budget.

#### **CAC POSITION**

None. The CAC does not make recommendations on the appointment of CAC members.

### **Statement of qualifications:**

My qualifications for this position are based on my use of transit and biking infrastructure and undergraduate coursework. I have lived near Fourth and King for two years, and do not own a car. As a result, I travel all over the city using a mixture of public transit and my bike. Since my part of town is blessed with multiple transit connections to a lot of destinations, in addition to solid bike infrastructure, I have taken different bus lines, the muni metro, and my bike to almost every place I frequent. I am very used to comparing tradeoffs between both agencies (BART vs SFMTA) and transit modes, and the time I spend on bike and on foot allows me to see and experience my neighborhood and the greater city, specifically with regards to transit infrastructure, to a greater degree than someone who exclusively drives. In addition, I completed a major in engineering and public policy as part of my undergraduate degree. Many of my courses required extensive reading of government and academic papers, and would often require us to make unofficial recommendations and even one public comment to a federal agency. Of particular note, one class involved a project where we analyzed both resurfacing and targeted pothole and crack filling for a road near our campus. Although my focus was not on civil engineering, I believe my familiarity with both analysis and decision making methods will be useful in the context of a non-professional community advisory committee.

### **Statement of objectives:**

If appointed, I hope to help support allocating funds towards programs that expand on vision zero and climate goals for the city. Vehicle caused fatalities have trended in the wrong direction since the adoption of the vision zero policy through 2022, and just last month, there was a traffic fatality outside my apartment building. I appreciated Supervisor Dorsey's near-instant support for a quick build project to improve the safety of the intersection at 4th and King, and would like to help with the longer project of

San Francisco County Transportation Authority
Application for Membership on the Community Advisory Committee

improving safety at similar intersections with multiple turn lanes as well as supporting broader initiatives that help meet vision zero goals. In addition, I plan on supporting projects that help move the city towards lowering transportation emissions. We are in a climate crisis, and projects that improve the quality of pedestrian, cycling, and public transit infrastructure will help induce more demand for those modes, lowering the number of gasoline car trips taken in the city.

### Please select all categories of affiliation or interest that apply to you:

Environment; Public Policy

Can you commit to attending regular meetings (about once a month for the Transportation Authority CAC, or once every two to three months for project CACs):

Yes

By entering your name and date below, and submitting this form, you certify that all the information on this application is true and correct.

RESOLUTION NO. 24-12

RESOLUTION APPOINTING AUSTIN MILFORD-ROSALES AS THE DISTRICT 6
REPRESENTATIVE TO THE COMMUNITY ADVISORY COMMITTEE OF THE SAN
FRANCISCO COUNTY TRANSPORTATION AUTHORITY

WHEREAS, Section 131265(d) of the California Public Utilities Code, as implemented by Section 5.2(a) of the Administrative Code of the San Francisco County Transportation Authority, requires the appointment of a Community Advisory Committee (CAC) consisting of eleven members; and

WHEREAS, There is currently a vacancy on the CAC for a District 6 representative; and

WHEREAS, At its October 17, 2023 meeting, Commissioner Dorsey nominated Austin Milford-Rosales as the District 6 CAC representative and Austin Milford-Rosales spoke to their interest and qualifications for serving on the CAC; and

WHEREAS, The Board reviewed and considered the applicant's qualifications and experience; now therefore, be it

RESOLVED, That the Board hereby appoints Austin Milford-Rosales as the District 6 representative to serve on the CAC of the San Francisco County Transportation Authority for a two-year term; and be it further

RESOLVED, That the Executive Director is authorized to communicate this information to all interested parties.

### Memorandum

#### **AGENDA ITEM 6**

**DATE:** September 28, 2023

**TO:** Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 10/17/2023 Board Meeting: Adopt Eight 2023 Prop L 5-Year Prioritization

Programs and Amend the Prop L Strategic Plan Baseline

<b>RECOMMENDATION</b> □ Information ⊠ Action	$\square$ Fund Allocation
Adopt eight 2023 Prop L 5-Year Prioritization Programs (5YPPs):	☑ Fund Programming
BART Core Capacity	☐ Policy/Legislation
<ul> <li>BART Maintenance, Rehabilitation, and Replacement</li> <li>Caltrain Maintenance, Rehabilitation, and Replacement</li> </ul>	□ Plan/Study
<ul> <li>Ferry Maintenance, Rehabilitation, and Replacement</li> <li>Bayview Caltrain Station</li> </ul>	□ Capital Project Oversight/Delivery
Curb Ramps	☐ Budget/Finance
<ul><li>Tree Planting</li><li>Vision Zero Ramps</li></ul>	☐ Contract/Agreement
Amend the Strategic Plan Baseline	□ Other:
SUMMARY	

The Prop L Expenditure Plan requires development of a 30-year Strategic Plan and for each of the 28 Expenditure Plan programs (Attachment 1), a 5YPP to identify the specific projects that will be funded over the next five years. Board adoption of these documents is a prerequisite for allocation of Prop L funds from the relevant programs. To spread out the workload for staff and project sponsors, we are bringing 5YPPs to the Board in four rounds. In July, the Board adopted the first round comprised of just four 5YPPs with time sensitive needs for allocation of funds. This second round consists of eight 5YPPs. Project sponsors have submitted allocation requests (part of a separate item on this agenda) that are conditioned upon approval of three of the subject 5YPPs. We are recommending concurrent adoption of an amendment to the Strategic Plan Baseline to incorporate the recommended programming and cash flow for the five-year project lists in the subject 5YPPs. The Strategic Plan Baseline already advanced funding BART Core Capacity and Caltrain

Page 2 of 4

Maintenance. We recommend advancing cash flow (i.e., project reimbursement) in all of the other 5YPPs in this round with the exception of the Ferry Maintenance 5YPP, which proposes cash flow consistent with the Baseline's pay-go baseline level. This results in a 4.7% (\$30.9 million) increase in debt costs compared to the baseline. We will bring the remaining 5YPPs to the Board for approval in November 2023 and in early 2024, followed by adoption of the final 2023 Strategic Plan.

#### **BACKGROUND**

The 5YPPs result in multi-year project lists with associated sales tax programming commitments that support a steady project pipeline, enabling project sponsors to plan ahead, facilitating their ability to secure other funding sources to leverage Prop L and fully fund projects and to line up staff resources to deliver projects. The 5-year look ahead also enables coordination between projects. When a project is ready to advance, the project sponsor can request allocation of funds from the Board based on the programming commitment in the relevant 5YPP.

The 5YPPs also provide transparency about how Prop L projects are prioritized. We work in close collaboration with project sponsors eligible for Prop L funds from a particular program, as well as any other interested agencies, to develop each 5YPP. Input from the Board, sponsors, and the public inform the 5YPP process.

In June 2023, the Board adopted the 2023 Prop L Strategic Plan Baseline. The Baseline establishes the amount of sales tax revenues that will be available on an annual basis to each of the 28 programs, by fiscal year, through 2053 based on their proportional share of available revenues established in the Expenditure Plan. For 23 of the 28 programs, the Baseline set the pay-as-you-go annual funding levels for each program which project sponsors will use to identify their proposed lists of projects to fund in the next five years as part of 5YPP development. Through the 5YPP process, project sponsors can make requests to advance sales tax funds for specific projects, as needed to support project delivery. For five programs (BART Core Capacity, Caltrain Downtown Rail Extension (The Portal), Muni Maintenance, Caltrain Maintenance, and Paratransit) the Baseline advanced cash flow in advance of 5YPP development. This approach provides a more realistic picture of financing costs for two major transit projects, BART Core Capacity and The Portal, while ensuring we can meet other programs' requests for advancing funds.

In July 2023, the Board approved the first round of 5YPPs including Paratransit, Street Resurfacing, Pedestrian and Bicycle Facility Maintenance, and Neighborhood Transportation Program. Attachment 1 shows the 28 5YPPs, noting which have been adopted thus far and those that are pending Board consideration.

Page 3 of 4

#### DISCUSSION

Each 5YPP document includes the following sections, the content for which is detailed in the <u>staff memorandum</u> to the Board for its July 11, 2023 meeting:

- Eligibility and Expected Fund Leveraging
- Public Engagement
- Performance Measures
- Project Delivery Snapshot
- Project Prioritization
- Project List (covering FY 2023/24 FY 2027/28)
- Project Information Forms (e.g., scope, schedule, cost, funding)

**Round 2 5YPPs.** We are recommending adoption of the eight enclosed 5YPPs. Attachment 2 lists all the proposed projects sorted by Expenditure Plan program with information such as a brief project description, amount of Prop L funds requested, proposed project phase, and fiscal year of programming. Attachment 3 summarizes leveraging and advancement of funds (i.e., cash flow or expenditures) by Expenditure Plan program. The enclosed 5YPPs contain more detail, including the project information forms.

It is important to keep in mind that the pay-go funding levels in the first five years of Prop L are about half that in year six on due to the carryforward of Prop K remaining grant balances and debt. Thus, we anticipate that most Prop L programs will request at least a modest level of advancement in this 5YPP period. For each project, we look closely at project readiness, whether there is full funding for the requested phase or phases, the amount of leveraging, timely use of funds requirements, and other factors that inform our recommendation to program funds to the project and whether to support advancement of funds beyond pay-go to support project delivery.

**Strategic Plan Baseline Amendment.** Concurrent with Board adoption of the 5YPPs, we make corresponding updates to the Strategic Plan Baseline to reflect the recommended programming and cash flow schedules for the proposed projects. The Strategic Plan model estimates financing costs for programs that advance funds. Consistent with Strategic Plan policies, financing costs are distributed proportionally across those programs that request acceleration of funds. If in future Strategic Plan updates, actual financing costs are lower, the delta is returned to the respective programs and is available for programing to eligible project costs.

As noted above, in this second round of 5YPPs, we recommend advancing funds as requested by sponsors in five of the eight 5YPPs. This results in a 4.7% (\$30.9 million) increase in estimated debt costs over the 30-year Expenditure Plan period compared

Page 4 of 4

to the Baseline, as amended. Attachment 5 shows the programming and cash flow by program by fiscal year for the proposed Strategic Plan Baseline Amendment to incorporate the subject 5YPPs.

**Next Steps.** We are working with project sponsors to develop the remaining 15 5YPPs and anticipate bringing them to the Board for adoption in two groups, in November and early 2024, followed by adoption of the final 2023 Prop L Strategic Plan. At SFMTA's request, the next round of 5YPPs will include Muni Maintenance and Safer and Complete Streets.

#### FINANCIAL IMPACT

There is no impact on the FY 2023/24 agency budget. The Prop L Strategic Plan is an important long-range financial planning tool for the Transportation Authority as it forecasts sales tax revenues and establishes the maximum annual reimbursement for each of the Expenditure Plan programs, and estimates debt needs to advance funds to support project delivery. The 5YPPs program funds to specific projects over the five fiscal years starting in FY 2023/24. However, allocation of funds and issuance of any debt are subject to separate approval actions by the Board.

### **CAC POSITION**

The Community Advisory Committee considered this item at its September 27, 2023 meeting and unanimously adopted a motion of support for the staff position.

Attachment 2
Round 2 5-Year Prioritization Programs - List of Projects by Expenditure Plan Program

#	Program	Project Sponsor: Project Name	Brief Description	District(s)	Phase	Prop L Amount	Fiscal Year of Programming
1	BART Core Capacity	BART: Fleet of the Future Vehicle Procurement (54 expansion cars)	The BART Core Capacity Program (CCP) will relieve crowding, increase ridership, and decrease greenhouse gas emissions by increasing the frequency and length of trains operating on the system. CCP includes four project elements: 306 additional Fleet of the Future rail cars; a new communications-based train control system, replacing BART's legacy 50-year-old fixed block train control system to increase reliability and enable significantly closer headways; additional rail car storage to accommodate the expanded fleet; and additional traction power substations to power the increased service. Prop L funds are requested to support purchase of 54 additional rail cars as part of 306 planned additional cars.	Citywide	Construction	\$35,296,000	FY24
2	BART Maintenance, Rehabilitation, and Replacement	BART: Next Generation Fare Gates	Requested Prop L funds for the Next Generation Fare Gates Project will upgrade BART fare gates at all eight stations in San Francisco. This effort is a part of a larger \$90 million capital project to replace all ~715 fare gates throughout the BART system. The existing fare gates have reached the end of their useful life and have consistently been identified by BART riders and community stakeholders as a priority for replacement. The new gates will increase reliability, access, and improve ridership experience and will reduce maintenance costs.	3, 5, 6, 8, 9,	Construction	\$12,525,000	FY24

### Attachment 2 Round 2 5-Year Prioritization Programs - List of Projects by Expenditure Plan Program

#	Program	Project Sponsor: Project Name	Brief Description	District(s)	Phase	Prop L Amount	Fiscal Year of Programming
3		PCJPB: Right of Way Fencing	This project will install approximately 90.4 miles of winglets, implemented in phases, onto Caltrain fencing along the railroad corridor as part of a series of improvement intended to enhance safety, including suicide prevention.	Citywide	Construction	\$462,000	FY24
4		PCJPB: State of Good Repair Maintenance of Way Track - Track Equipment FY 24	This project will support the purchase of critical track Maintenance-of-Way equipment to keep the track in a state of good repair. Renovating the infrastructure at or around the tracks improves the reliability and the safety of operations, and reduces the risk of harm and limits the impact to the customers and employees in case of an incident.	Citywide	Construction	\$2,113,000	FY24
5		PCJPB: Stations State of Good Repair FY 24	This project will make various upgrades/repairs to Caltrain Stations, which may include the 4th & King and 22nd Street Stations. Maintenance of stations improves customer and employee safety on the system and makes Caltrain a more attractive option for travel. Keeping the station areas in optimal condition contributes to on-time arrivals/departures to/from the stations.	Citywide	Construction	\$1,227,000	FY24
6	Caltrain Maintenance, Rehabilitation, and Replacement  PCJPB: Next Generation Visual Messaging Sign FY 24  PCJPB: Next Generation Visual Messaging Sign FY 25  PCJPB: State of Good Repair Maintenance of Way Track FY 25		This project will install visual messaging signs and passenger information systems for Caltrain stations, which may include the 4th & King and 22nd Street Stations. The project improves the customer experience, safety for customers	Citywide	Construction	\$1,200,000	FY24
7			and employees, and security around the facilities, as these systems are used to share safety information with passengers.	Citywide	Construction	\$2,400,000	FY25
8			This program covers the work required to keep the Caltrain railroad in a state of good repair. The type and scope of work scheduled for each year is based upon the condition of the railroad, which is determined through inspections and tests performed throughout the previous year. This project makes the transit system a safer travel option by reducing the risk of failure of infrastructure components. Work may include activites such as replacement of rail, crossies and special track components, and track surfacing.	Citywide	Construction	\$2,600,000	FY25
9		PCJPB: SF Local Capital Match Placeholder	This is a placeholder for ongoing maintenance programs on the Caltrain Corridor between the 4th & King Station in San Francisco County and Control	Citywide	TBD	\$5,000,000	FY26
10		PCJPB: SF Local Capital Match Placeholder	Point Lick, at Milepost 51.6, in Santa Clara County. Caltrain may use funding to rehabilitate rolling stock, signal systems and communications, stations and	Citywide	TBD	\$5,000,000	FY27
11		PCJPB: SF Local Capital Match Placeholder	facilities, and track and structures.	Citywide	TBD	\$5,000,000	FY28
12	Ferry Transit Maintenance, Rehabilitation, and Replacement	PORT: Ferry Gate B - Repairs and Retrofitting	This project will replace and retrofit the Gate B ferry float, which is adjacent to the San Francisco Ferry Building, with new corrosion-resistant ballast tank hatches, hydraulic lift assemblies, and electrical control systems. This project will retrofit and repair the floating passenger loading deck to ensure safe and reliable ferry access for passengers.	3	Construction	\$473,000	FY25

Attachment 2
Round 2 5-Year Prioritization Programs - List of Projects by Expenditure Plan Program

#	Program	Project Sponsor: Project Name	Brief Description	District(s)	Phase	Prop L Amount	Fiscal Year of Programming
13		TBD: Bayview Caltrain Station PA/ED This project will complete preliminary design and environmental clearance for a Caltrain station in the Bayview. The specific preferred location is currently being developed in a pre-environmental planning and conceptual engineering study led by the SFCTA.			Environmental	\$2,000,000	FY25
14	Bayview Caltrain	TBD: Bayview Caltrain Station  This project will complete final design for a new Caltrain station in the Bayview.  The specific preferred location is currently being developed in a pre-		10	Design	\$1,800,000	FY27
15	SFPW: Quint-Jerrold C			10	Right of Way	\$2,086,000	FY24
16		SFPW: Quint-Jerrold Connector Road PS&E	eliminated by the construction of a Caltrain berm. This is a Legacy Project carried forward from the Prop K Expenditure Plan.	10	Design	\$2,644,000	FY25
17		SFPW: Curb Ramps	San Francisco Public Works' Curb Ramp program meets the City's obligations	Citywide	Construction	\$575,000	FY24
18		SFPW: Curb Ramps	under federal and state accessibility statutes, regulations, and policies to provide sidewalks and crosswalks that are readily and easily usable by people	Citywide	Construction	\$1,100,000	FY25
19	Curb Ramps	SFPW: Curb Ramps	with disabilities. The Curb Ramp program, driven by requests from the	Citywide	Construction	\$1,155,000	FY26
20		SFPW: Curb Ramps	community, creates accessible and safer routes of travel to various locations	Citywide	Construction	\$1,212,000	FY27
21		SFPW: Curb Ramps	within the public right-of-way.	Citywide	Construction	\$1,275,000	FY28
22		SFPW: Tree Planting	This program funds street tree planting and establishment. Public Works and	Citywide	Construction	\$1,000,000	FY24
23		SFPW: Tree Planting	community partners will plant and water 2,050 trees over the next five years with these funds, focusing on neighborhoods with the lowest canopy coverage.	Citywide	Construction	\$1,050,000	FY25
24	Tree Planting SFPW: Tree Planting	With the passage of Proposition E in 2016, Public Works has set-aside funding	Citywide	Construction	\$1,100,000	FY26	
25		SFPW: Tree Planting	to maintain street trees in the public right-of-way.	Citywide	Construction	\$1,160,000	FY27
26		SFPW: Tree Planting		Citywide	Construction	\$1,220,000	FY28

### Attachment 2 Round 2 5-Year Prioritization Programs - List of Projects by Expenditure Plan Program

#	Program	Project Sponsor: Project Name	Brief Description	District(s)	Phase	Prop L Amount	Fiscal Year of Programming
27		SFCTA: Vision Zero Ramps Intersection Study Phase 3	Building on work down in two prrior planning studies focues on SoMA freeway ramps, this project will identify 14 freeway ramps in the southeast and western parts of San Francisco and analyze their pedestrian safety conditions for nearterm improvements to improve safety and connectivity along the City's High Injury Network. Improvements at these locations would improve safety, help maintain road infrastructure, close gaps in the pedestrian and bike networks, and improve connections to transit and key destinations.	7, 8, 9, 10, 11	Planning	\$150,000	FY24
28		TBD: Vision Zero Ramps Local Match Placeholder	This placeholder is intended to leverage discretionary grant funds to advance recommendations from previous planning efforts to boost safety and connectivity along the interfaces of San Francisco's freeway network with the city's pedestrian realm. Improvements at these locations would improve safety, help maintain road infrastructure, close gaps in the pedestrian and bike networks, and improve connections to transit and key destinations. Funds may also support further planning to revisit areas targeted for longer-term improvements.	TBD	TBD	\$90,000	FY26
29		TBD: I-280 NB Geneva Ave Off- ramp Improvement	The I-280 Northbound Geneva Avenue Off-Ramp experiences traffic queuing issues due to its proximity to the Balboa Park BART station, MUNI station, high schools, and City College of SF. The queue often backs up to the mainline freeway during rush hours which results in rear-end collisions. To improve traffic circulation and pedestrian safety, this project will upgrade the existing	11	Environmental	\$200,000	FY24
30	Vision Zero Ramps	TBD: I-280 NB Geneva Ave Off- ramp Improvement	Caltrans signals at the ramp intersections with longer mast arms poles and install vehicle detection equipment. The new traffic signals may include elements of Intelligent Transportation Systems that allow the signal controller to adjust the phase times to respond to traffic demand.	11	Design	\$350,000	FY27
31		SFCTA: I-280 SB Ocean Ave Off- ramp Realignment	The I-280 Ocean Avenue Off-Ramp Realignment Project will realign the existing Southbound Ocean Avenue Off-Ramp from a free flow right turn to a signalized T-intersection to improve safety for people who walk and bike. The project area supports a high volume of pedestrian traffic due to the vicinity of the Balboa Park BART and Muni stations, and pedestrian destinations such as City College of SF, Lick-Wilmerding High School, Balboa Park and neighborhood retail along Ocean Avenue. The project team is working closely with Caltrans, SFMTA, and City College of SF to advance this project.	7	Design	\$650,000	FY24
32		SFMTA: 13th Street Protected Bike Lanes	The 13th Street Safety Project is proposed along 13th Street between Folsom Street and Valencia Street. To address traffic safety challenges along the corridor, the SFMTA is developing a series of transportation improvements that include protected bike facilities, bike boxes, bicycle signals, traffic signal upgrades and modifications, curb modifications, and travel lane removal to make the corridor more safe, comfortable, and accessible for all road users. The elements of this project to be funded from the Vision Zero Ramps program are recommendations from the Transportation Authority's SoMa Freeway Ramp Intersection Safety Study Phase 2 (2019).	6, 9	Construction	\$1,000,000	FY24

Attachment 3
Round 2 5-Year Prioritization Programs Summary by Program

			Amount of Prop L			
#	Program	Amount Requested in 5YPP	Funds Advanced in 5YPP	Expected Leveraging	Anticipated Leveraging	Notes
	BART Core Capacity		\$25.9 million (advanced in Baseline)	97.2%	81% for this project; 97.7% anticipated for Core Capacity Program as a whole	The Transportation Authority advanced funds in the Prop L Strategic Plan Baseline to allow BART to exercise a time sensitive option on its railcar replacement contract. Alameda County Transportation Commission (ACTC) is contributing a like amount of funds in this 5YPP period for this vehicle procurement contract
2	BART Maintenance, Rehabilitation, and Replacement	\$12,525,000	\$9,213,394	93.5%	86.0%	The Next Generaton Fare Gates Project is BART's highest priority project. The requested funds for new faregates at all San Francisco stations are part of a larger \$90 million capital project to replace all ~715 fare gates throughout the BART system. We recommend advancing Prop L funds in this 5-year period for this project, which has secured significant funding to leverage Prop L, including from other BART counties, and BART already has executed a contract with a vendor and is ready to being installation with a prototype in West Oakland by year end.
3	Caltrain Maintenance, Rehabilitation, and Replacement	\$25,002,000	\$15.5 million (advanced in Baseline)	81.8%	24.1% for the projects in FY24 and FY25. This leveraging excludes project placeholders for FY26. 28.	on a project by project basis. Prop L funds will be significantly
4	Ferry Maintenance, Rehabilitation, and Replacement	\$473,000	\$0	65.0%	45.3%	

Attachment 3
Round 2 5-Year Prioritization Programs Summary by Program

#	Program	Amount Requested in 5YPP	Amount of Prop L Funds Advanced in 5YPP	Expected Leveraging	Anticipated Leveraging	Notes
5	Bayview Caltrain Station	\$8,530,000	\$4,175,332	73.0%	82.8%	The need for advancing funds is driven by the need to acquire right of way for the Quint-Jerrold Connector Road to leverage non-Prop L funding sources and avoid further cost escalation, and to keep momentum for the next phase of work for a Bayview Caltrain station. Prop L is being used for the early project development phases to develop project scopes and make them more competitive for discretionary funds for future phases. Both projects will need to extensively leverage non-Prop L funds in future phases, particularly the construction phase.
6	Curb Ramps	\$5,317,000	\$1,698,098	79.7%	79.3% in FY24; 14.3% in FY25-28	The FY24 Curb Ramp project shows the General Fund amount for Curb Ramps with anticipated leveraging of 79.3%, which is consistent with expected leveraging in the Expenditure Plan. The following four years of programming have an average leveraging of 14.3% including state Transportation Development Act Article 3 funds that SFPW uses for designing the curb ramps that are constructed using Prop L funds. This leveraging amount may increase as future General Fund contributions are secured. We will reevaluate leveraging for Fiscal Years 2024/25 - 2027/28 at time of allocation.  The need for advancing funds is due to SFPW's desire to maintain consistent Prop L annual funding levels as with Prop K. This level of funding is essential to support SFPW's construction of curb ramps, for which there are many outstanding requests.

Attachment 3
Round 2 5-Year Prioritization Programs Summary by Program

#	Program	Amount Requested in 5YPP	Amount of Prop L Funds Advanced in 5YPP	Expected Leveraging	Anticipated Leveraging	Notes
7	Tree Planting	\$5,530,000	\$2,722,653	59.2%	53.9%	In September 2023, SFPW was awarded \$12M in federal Inflation Reduction Act (IRA) funds from the US Department of Agriculture to plant and establish thousands of street trees in low-canopy disadvantaged communities over the next 5 years. With the award of this grant, Prop L leveraging for the Tree Planting program in this 5YPP period is anticipated to be 53.9%, just under the expected leveraging of 59.2% outlined in the Expenditure Plan. SFPW did not receive any General Fund support for the program in FY24. However, General Fund support is considered annually, so General Fund dollars may be programmed to Tree Planting in future fiscal years, and leveraging may exceed the Expenditure Plan expectations.  The need for advancing funds is due to SFPW's desire to maintain the funding levels from Prop K. Maintaining this level of funding is essential to maintaining forward momentum towards implementing San Francisco's Urban Forest Plan. The funds will also leverage the federal IRA grant , mentioned above.
8	Vision Zero Ramps	\$2,440,000	\$1,683,061	70.9%	94.7% average leveraging for proposed projects	overall financing in the Prop. I. Strategic Plan Further Vision Zero

BD101723

RESOLUTION NO. 24-13

RESOLUTION ADOPTING EIGHT 2023 PROP L 5-YEAR PRIORITIZATION PROGRAMS AND AMENDING THE PROP L STRATEGIC PLAN BASELINE

WHEREAS, The Prop L Expenditure Plan requires development of a 30-year Strategic Plan and for each of the 28 Expenditure Plan programs (Attachment 1), a 5-Year Prioritization Program (5YPP) to identify the specific projects that will be funded over the next five years; and

WHEREAS, Transportation Authority Board adoption of these documents is a prerequisite for allocation of Prop L funds from the relevant program; and

WHEREAS, The 5YPPs provide transparency about how Prop L projects are prioritized and the resulting 5-year project lists and associated sales tax programming commitments support a steady project development pipeline, enabling project sponsors to plan ahead, facilitating their ability to secure other funding sources to leverage Prop L and fully fund projects, to line up staff resources, and to coordinate with other planned projects; and

WHEREAS, In accordance with Expenditure Plan requirements, each 5YPP includes: a prioritization methodology to rank projects; a 5-year program or list of projects; information on scope, schedule, cost and funding (including leveraging of other fund sources); and performance measures to inform future 5YPP updates; and

WHEREAS, Through approval of Resolution 23-57, the Transportation Authority adopted the guidance to project sponsors and staff for developing the 2023 Prop L 5YPPs which cover Fiscal Years 2023/24 through 2027/28; and

WHEREAS, Through approval of Resolution 23-56, the Transportation Authority adopted the 2023 Prop L Strategic Plan Baseline which sets the amount of pay-go funding available for 23 of the 28 programs, by fiscal year, through the end of the Expenditure Plan (2053), and for the 5 remaining programs, including BART Core Capacity and Caltrain Maintenance, Rehabilitation, and Replacement, approves an accelerated cash flow schedule to support project delivery; and

BD101723

RESOLUTION NO. 24-13

WHEREAS, The Transportation Authority previously adopted four Prop L 5YPPs through approval of Resolution 24-02; and

WHEREAS, Working in collaboration with project sponsors and taking into consideration input from public engagement supporting the 5YPP development process as well as prior engagement related to the Expenditure Plan and the San Francisco Transportation Plan, Transportation Authority staff has recommended approval of the eight enclosed 2023 Prop L 5YPPs for the following programs: BART Core Capacity; BART Maintenance, Rehabilitation, and Replacement; Caltrain Maintenance, Rehabilitation, and Replacement; Ferry Transit Maintenance, Rehabilitation, and Replacement; Bayview Caltrain Station; Curb Ramps; Tree Planting; and Vision Zero Ramps; and

WHEREAS, The BART Maintenance, Rehabilitation, and Replacement; Bayview Caltrain Station; Curb Ramps; Tree Planting; and Vision Zero Ramps 5YPPs require advancement of funds beyond the pay-as-you-go annual funding levels to provide sufficient funding to support project delivery in the first five years of Prop L as described in the enclosed draft 5YPPs; and

WHEREAS, Staff has prepared a proposed amendment to the Strategic Plan Baseline to reflect recommended programming and cash flow schedules for the proposed projects in the eight 5YPPs recommended for approval (Attachment 2); and

WHEREAS, Advancing funds as requested by project sponsors and recommended by staff for the aforementioned 5YPPs results in an increase of 4.7% (\$30.9 million) over the amended Baseline, for a total of \$684.9 million in finance costs estimated in the Strategic Plan Baseline, as shown in Attachment 3; and

WHEREAS, At its September 27, 2023, meeting, the Community Advisory
Committee was briefed on the proposed 5YPPs and amendment of the Strategic Plan
Baselines and unanimously adopted a motion of support for the staff
recommendation; now, therefore, be it

BD101723

RESOLUTION NO. 24-13

RESOLVED, That the Transportation Authority hereby adopts the amended Prop L Strategic Plan Baseline; and be it further

RESOLVED, That the Transportation Authority hereby adopts the eight enclosed 2023 Prop L 5YPPs.

#### Memorandum

#### **AGENDA ITEM 7**

**DATE:** September 28, 2023

**TO:** Transportation Authority Board

FROM: Anna LaForte - Deputy Director for Policy and Programming

**SUBJECT:** 10/17/2023 Board Meeting: Allocate \$13,739,000 and Appropriate \$636,000 in

Prop L Funds, with Conditions, for 5 Requests

110p 21 unas, with conditions, for 5 requests	
RECOMMENDATION □ Information ☒ Action	
Allocate \$12,525,000 in Prop L funds, with conditions, to the	□ Fund Programming
San Francisco Bay Area Rapid Transit (BART) for:	☐ Policy/Legislation
1. BART Next Generation Fare Gates (\$12,525,000)	☐ Plan/Study
Allocate \$1,000,000 in Prop L funds, with conditions, to San Francisco Public Works (SFPW) for:	☐ Capital Project Oversight/Delivery
2. Tree Planting and Establishment (\$1,000,000)	☐ Budget/Finance
Appropriate \$150,000 in Prop L funds, with conditions, for:	
Allocate and Appropriate \$850,000 in Prop L funds, with	☐ Contract/Agreement
conditions, to the San Francisco Municipal Transportation Agency (SFMTA) and SFCTA for:	□ Other:
3. Vision Zero Ramp Intersection Study Phase 3 (SFMTA	
\$15,000, SFCTA \$135,000)	
4. Inner Sunset Multimodal Safety and Access Study [NTP] (SFMTA \$85,000, SFCTA \$265,000)	
5. Walter U Lum Place Public Space Study [NTP] (SFMTA \$114,000, SFCTA \$236,000)	

#### **SUMMARY**

This is the second batch of Prop L allocation requests to advance to the Board for approval. Consistent with the Expenditure Plan, the Prop L allocations are conditioned upon Board adoption of the Prop L 5-Year Prioritization Program (5YPP) for the relevant programs (i.e., BART Maintenance, Tree Planting, and Vision Zero Ramps) and amendment of the Strategic Plan Baseline to incorporate the programming and cash flow for the recommended 5-year project lists. These

Agenda Item 7 Page 2 of 3

actions are part of a separate item on this agenda. Attachment 1 lists the requests, including phase(s) of work and supervisorial district(s). Attachment 2 provides brief descriptions of the projects. Attachment 3 contains the staff recommendations. Project sponsors will attend the meeting to answer any questions the Board may have regarding these requests.

#### **DISCUSSION**

Attachment 1 summarizes the subject requests, including information on proposed leveraging (i.e., stretching Prop L sales tax dollars further by matching them with other fund sources) compared with the leveraging assumptions in the Prop L Expenditure Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan. Attachment 2 includes brief project descriptions. Attachment 3 summarizes the staff recommendations for each request, highlighting special conditions and other items of interest. An Allocation Request Form for each project is attached, with more detailed information on scope, schedule, budget, funding, deliverables and special conditions.

#### FINANCIAL IMPACT

The recommended action would allocate \$13,739,000 and appropriate \$636,000 in Prop L funds, with conditions. The allocations and appropriations would be subject to the Fiscal Year Cash Flow Distribution Schedules contained in the attached Allocation Request Forms.

Attachment 4 shows the Prop L Fiscal Year 2023/24 allocations and appropriations approved to date, with associated annual cash flow commitments as well as the recommended allocation and cash flow amounts that are the subject of this memorandum.

Sufficient funds are included in the Fiscal Year 2023/24 annual budget. Furthermore, sufficient funds will be included in future budgets to cover the recommended cash flow distributions in those fiscal years.

#### **CAC POSITION**

The CAC considered this item at its September 27, 2023, meeting and unanimously adopted a motion of support for the staff recommendation.

#### Footnotes

"EP Line No./Category" is either the Prop L Expenditure Plan line number referenced in the 2023 Prop L Strategic Plan or the Prop AA Expenditure Plan category referenced in the 2022 Prop AA Strategic Plan, including: BART Transit Maintenance, Rehabilitation, and Replacement, Tree Planting, Vision Zero Ramps, Neighborhood Transportation Program or the Traffic Congestion Mitigation Tax (TNC Tax) category referenced in the Program Guidelines.

14,375,000

TOTAL

"Actual Leveraging by Project Phase" is calculated by dividing the total non-Prop L, non-Prop AA, or non-TNC Tax funds in the funding plan by the total cost for the requested phase or phases. If the percentage in the "Actual Leveraging" column is lower than in the "Expected Leveraging" column, the request (indicated by yellow highlighting) is leveraging fewer non-Prop L dollars than assumed in the Expenditure Plan. A project that is well leveraged overall may have lower-than-expected leveraging for an individual or partial phase. In September 2023, SFPW was awarded \$12M in federal Inflation Reduction Act (IRA) funds from the US Department of Agriculture to plant and establish street trees in low-canopy disadvantaged communities over the next 5 years. We are awaiting an estimate of the IRA expenditures in FY 23/24 and 24/25 to calculate leveraging.

<sup>&</sup>lt;sup>2</sup> Acronyms: BART (San Francisco Bay Area Rapid Transit District), SFPW (San Francisco Public Works), SFCTA (San Francisco County Transportation Authority), SFMTA (San Francisco Municipal Transportation Agency)

<sup>&</sup>quot;Expected Leveraging By EP Line" is calculated by dividing the total non-Prop L funds expected to be available for a given Prop L Expenditure Plan line item (e.g. Pedestrian and Bicycle Facilities Maintenance) by the total expected funding for that Prop L Expenditure Plan line item over the 30-year Expenditure Plan period. For example, expected leveraging of 90% indicates that on average non-Prop L funds should cover 90% of the total costs for all projects in that category, and Prop L should cover only 10%.

EP Line No./ Category	Project Sponsor	Project Name	Prop L Funds Requested	Project Description
7	BART	BART Next Generation Fare Gates	\$ 12,525,000	Requested funds will be used to upgrade fare gates at all eight stations in San Francisco. This effort is a part of a larger \$90 million capital project to replace more than 700 fare gates throughout the BART system. The existing fare gates have reached the end of their useful life and have consistently been identified by BART riders and community stakeholders as a priority for replacement. The new gates will reduce maintenance needs, cutting costs, and will improve reliability, access, and ridership experience, and reduce maintenance costs.
20	SFPW	Tree Planting and \$ 1 Establishment	\$ 1,000,000	Funds will be used to plant 408 trees in the public right of way and water them weekly for 3 years during the tree establishment period. The trees will then receive lifetime maintenance care through StreetTreeSF's guaranteed funding from the General Fund. SFPW expects to prioritize planting in Districts 5, 6 and 10 based on tree census data and focusing on districts with the lowest canopy coverage.  In September 2023, SFPW was awarded \$12M in federal Inflation Reduction Act (IRA) funds from the US Department of Agriculture to plant and establish street trees in low-canopy disadvantaged communities over the next 5 years. We are awaiting an estimate of the IRA expenditures in FY 23/24 and 24/25 to calculate leveraging.
21	SFCTA/ SFMTA	Vision Zero Ramp Intersection Study Phase 3	\$ 150,000	This project will study 14 freeway ramps in the southeast and western parts of San Francisco and analyze their multimodal safety conditions for near- and long-term improvements to improve safety and connectivity along the city's High Injury Network. Improvements at these locations would improve safety, close gaps in the pedestrian and bike networks, and improve connections to transit and key destinations. The study would look at pedestrian, bike, and motorist safety, in addition to transit access and reliability. Transportation Authority staff anticipate completing the study and presenting it to the Board for approval in June 2025.

### Next Generation Fare Gates Attachment A

#### **Detailed Scope**

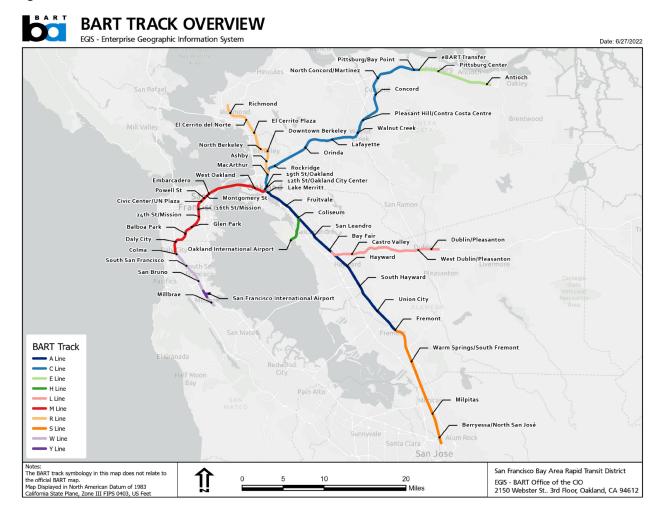

The San Francisco Bay Area Rapid Transit District (BART) requests to program \$12,500,000 of Proposition L (Prop L) funds through the 5-Year Prioritization Process (5YPP) for the Next Generation Fare Gates (NGFGs) Project. The NGFGs Project is a BART District system-wide \$90 million capital project to replace all 715 fare gates. BART is a heavy-rail public transit system that connects the San Francisco Peninsula with communities in the East Bay and South Bay. BART service currently extends as far as Millbrae, Richmond, Antioch, Dublin/Pleasanton, and Berryessa/North San José, see figure 1. BART operates in five counties (San Francisco, San Mateo, Alameda, Contra Costa, and Santa Clara) with 131 miles of track and 50 stations. BART's ridership exceeded 420,000 trips per day before the COVID-19 pandemic. During the pandemic, BART experienced unprecedented ridership pattern changes. The average daily trip count for fiscal year 2022 to 2023 was 149,433. BART anticipates ridership to increase in the next few years as the Bay Area recovers from pandemic related impact. The NGFGs Project will ensure BART continues to provide reliable transportation for Bay Area residents and visitors to reach work locations, shopping centers, tourist attractions, entertainment venues, universities, and other destinations.

Figure 1, BART System Service Map 2023

BART recognizes that existing fare gates, system-wide, have reached the end of their useful life and have consistently been identified by BART riders and community stakeholders as a priority for replacement, especially as BART continues efforts to modernize stations. New state-of-the-art NGFGs will reduce maintenance needs, cutting both costs and system downtime, and improving service to transit riders. This Project includes fare gates at the San Francisco stations along BART's M Line. The Project work will take place at eight stations: Embarcadero, Montgomery St., Powell St., Civic Center/UN Plaza, 16<sup>th</sup> St. Mission, 24<sup>th</sup> St. Mission, Glen Park, Balboa Park. These stations rank high in station activity (entries + exits), see figure 2 for information on BART track lines and table 1 for ridership activity details.

Figure 2, BART Track Lines Overview

Average Weekday Station Activity (activity = entries + exists)		
Station	June 2019	June 2023
Embarcadero	93,100	30,900
Montgomery Street	89,300	25,700
Powell Street	55,400	22,900
Civic Center / UN Plaza	49,200	17,200
16 <sup>th</sup> St. Mission	26,500	10,900
24 <sup>th</sup> St. Mission	24,600	10,300
Glen Park	15,000	6,100
Balboa Park	20,200	7,100

Table 1, Average Weekday Station Activity

The Project's scope of work includes modernization of all 152 fare gates, based on number of aisles, at the eight listed stations. The current fare gates have reached their end of useful life, as they are more than twenty years old, outdated, break down often, and require continued maintenance. In addition, spare parts for current fare gates are no longer in production. Current fare gates require recurrent maintenance to remain reliable and operational. BART's Maintenance and Engineering Department ensures fare gates are in optimum condition with its preventive maintenance practices. Currently, the fare gates undergo preventive maintenance every ten weeks. Corrective maintenance is also conducted when fare gates are underperforming. In order to minimize corrective maintenance, BART has been dedicating \$120,000 annually to preventive maintenance tasks. However, BART regularly deploys technicians to address corrective maintenance tasks and ensure fare gates perform at their optimum capacity due to issues with the outdated fare gates. BART receives an average of 2,000 annual requests/tickets to address fare gate performance challenges systemwide. In San Francisco, annual corrective maintenance is most often required at Powell Street, described as M30 below, see table 2.

San Francisco Stations Annual Corrective Maintenance				
	2019	2020	2021	2022
M16: Embarcadero	10	8	8	3
M20: Montgomery	9	6	1	0
M30: Powell	13	1	8	13
M40: Civic Center	4	0	4	5
M50: 16 <sup>th</sup> St.	3	0	0	0
M60: 24 <sup>th</sup> St.	2	1	2	0
M70: Glen Park	1	0	1	0
M80: Balboa Park	1	1	0	0

Table 2, San Francisco Annual Corrective Maintenance

In recent years, BART has been making investments to identify and develop the best way to improve current fare gates. A variety of designs were considered and rated based on reliability, maintainability, throughput capacity, effectiveness, accessibility, and ability to easily integrate with Clipper®, the region's all-in-one transit fare payment card. In 2019, the BART Board of Directors voted unanimously to adopt a swing gate style design as the standard for new gates. The new design will offer BART more control over the replacement schedule, reducing engineering and deployment time. In total, design innovations are estimated to reduce the cost of the final design and installation from \$150 to \$90 million. See figure 3 for a representation of two test designs deployed at the Richmond station.

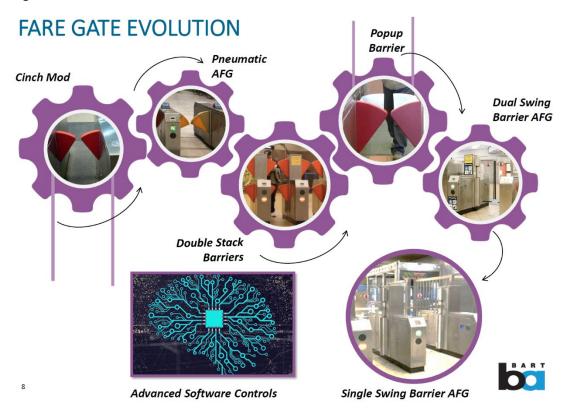

BART's Fare Collection Engineering Department has developed innovative enhancements, retrofitted existing retractable fare gates to swing style fare gates, and implemented prototypes at various locations throughout the transit system, including the Richmond, Coliseum, Concord, Bay Fair, Montgomery Street, Balboa Park, Embarcadero, and El Cerrito Plaza stations. For each installation, BART made improvements based on information gathered from the previous installation. These prototyped fare gates provided BART vital data for the Fare Collection Engineering Department to develop specific requirements and criteria for the final NGFGs. The design of multiple prototypes is shown in the Fare Gate Evolution, figure 4.

Figure 4, Fare Gate Evolution

With extensive knowledge of possible solutions, BART looked forward to launch and implement new technology systemwide. In September of 2020, BART released a Request for Expressions of Interest (RFEI) for companies to assist to develop an innovative design for the new gates. The RFEI was an opportunity for interested stakeholders to share information, provide input, and discuss with BART potential alternatives, feasibility, and challenges. The RFEI provided details on BART's design ideas and implementation approach. Information gathered through the RFEI process provided BART information to assess alternative options and opportunities for improvements. With this knowledge, BART issued a Request for Proposals (RFP) in May of 2022 and December of 2022.

The final NGFGs, selected via the RFP, will be the vendor's design meeting BART's required technical specifications with minimal customization. The gates will be swing style, and the main actuation of the gates will change from pneumatic to electric. The electric style requires lower maintenance frequency and therefore are more cost effective. The new NGFGs will have improved sensors to optimally open and close the gate able to detect patrons, wheelchairs, children, luggage and bikes accurately. The installation/construction phase of the NGFGs will include: Systems Integration and Engineering, including back-office system integration, interfaces, and Clipper integration; Startup and Launch, including O&M training documentation, engineering training, installation training, and test rollout; Program Management, including mobilization, demobilization, general conditions, and field office.

From January to March of 2023, BART reviewed proposals, interviewed responsive vendors, and chose STraffic to implement the project. The vendor selection was conducted by an evaluation panel comprised of nine BART staff from various departments. The vendors were evaluated on four categories: technical approach, qualifications of the firm and proposer's team, price, and oral interview. See figure 5 below for the final scores.

Figure 5, Vendor Evaluation Summary

The contract with STraffic is for procurement of faregates to replace the existing faregates systemwide. STraffic and/or another vendor may also be contracted for installation. This would be a separate future contract or work order.

#### Prior Community Engagement/Level and Diversity of Community Support

BART has engaged with community members and obtained input and support for prototype fare gates through various forums:

- In July of 2020, the NGFGs Project team conducted a presentation for BART's Accessibility Task Force (BATF) to provide an overview, and obtain feedback, regarding an accessible fare gate prototype deployed at BART's Richmond Station. The BATF advises the BART Board of Directors and staff on disability-related issues and advocates on behalf of people with disabilities and seniors to make the BART system accessible to and useable by people regardless of disability or age. BATF members provided very positive feedback regarding the new accessible fare gate. Mr. Roland Wong, an BATF member, stated that his "experience was positive and [he] had no problems entering and exiting the swing gates." He also stated that the "faregates did not make loud noises and were quiet."
- In March of 2022, the NGFGs Project team presented an update to the BART Board of Directors. The BART Board is comprised of nine elected officials representing the BART Districts: Contra Costa County, Alameda County, and City and County of San Francisco. Each of the nine BART Board members represents a constituency with wide-ranging needs, as each county is composed of different populations, and access and use of transit varies significantly by city within each county. Therefore,

BART Board Directors' input is representative of different segments of the San Francisco Bay Area community needs.

• In February of 2022, Chris Pangilinan, Vice President of Paratransit at the Metropolitan Transportation Authority, New York, twitted the following about one of the NGFGs installed at the Embarcadero Station "A fare gate at the Embarcadero platform has been #1 on my wish list since I first lived here in 2006, and it's here! Transfer time between Muni and BART for elevator users has been cut from 5 min to 1 min."

- In April of 2023, the NGFGs Project team provided an update to the BART Board on the vendor selection.
   A copy of the presentation is included in the programming packet, see item named "April 2023
   Presentation to BART Board."
- In June of 2023, the NGFGs Project team provided an update to the BART Accessible Task Force. A copy
  of the DRAFT minutes are included in the programming packet, please do not distribute. See item
  named "BATF 06-22-2023 Draft Minutes."

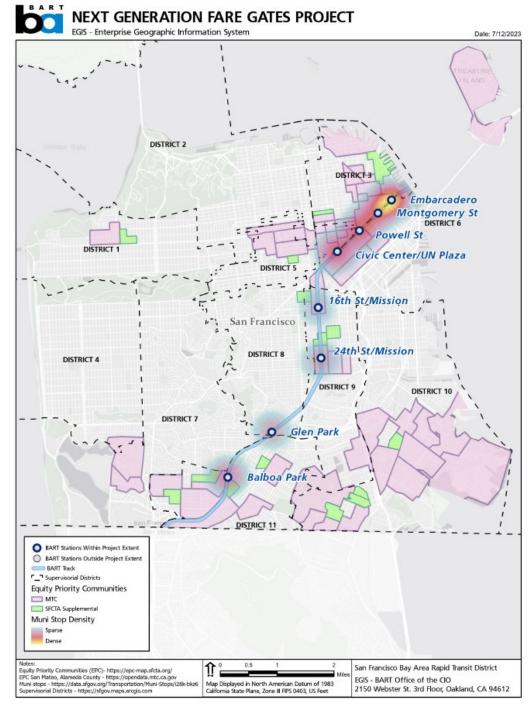

#### **Benefits to Disadvantaged Populations and Equity Priority Communities**

The Project will take place at all stations in San Francisco. These stations serve diverse populations, including historically underserved communities and Equity Priority Communities. The Project's will take place at various locations with significant densities of historically underserved communities, including ethnic and racial minorities, people who are of low income, people with disabilities, elderly, people whose household does not own a vehicle, single parent families, and people who are rent-burdened. The Project Location Map included below provides a

visual representation of combined MTC and San Francisco County Transportation Authority EPC measures, see figure 6.

Figure 6, Project Location and Equity Priority Communities

#### San Francisco Transportation Plan Alignment (SFTP)

SFTP Goal	CCP Alignment
Equity	<ul> <li>The existing BART system covers large portions of the Bay Area and bisects several communities, including those with designated minority and low-income populations. No impacts from the installation or operation of NGFGs are anticipated; therefore, no disproportionately high and adverse effects are anticipated for any surrounding communities, including any Title VI/EJ communities.</li> <li>BART, as a recipient of federal funds, is required by the FTA to comply with Title VI of the Civil Rights Act of 1964 and its amendments (Act). Title VI of the Civil Rights Act of 1964 requires that no person in the United States, on the grounds of race, color, or national original be excluded from, be denied the benefits of, or be subjected to discrimination, under any program or activity receiving federal financial assistance. Presidential Executive Order 12898 "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations" addresses environmental justice (EJ) in minority and low-income populations. Presidential Executive Order 13166 "Improving Access to Services for Persons with Limited English Proficiency" addresses services to those individuals with Limited English Proficiency (LEP). FTA Circular 4702.1B, dated October 1, 2012, titled Title VI Requirements and Guidelines for Federal Transit Administration Recipients (Title VI Circular) and FTA Circular 4703.1, dated August 15, 2012, titled Environmental Justice Policy Guidance for Federal Transit Administration Recipients (EJ Circular), require that federal funding recipients such as BART review its transportation decisions to ensure equity in the transportation decision making process and to ensure that decisions are not made on the basis of race, color, national origin, or socioeconomic status. BART's Office of Civil Rights monitors BART's compliance to these mandates, including monitoring the NGFGs Project.</li> <li>Lastly, for the NGFGs Project BART has chosen a vendor for the Project with a diverse team, incl</li></ul>
Environmental Sustainability	<ul> <li>As part of its mission, BART is committed to integrating climate adaptation and resiliency practices into daily operations and future transit investments. BART's Sustainability Policy (adopted in 2017) frames overarching resilience actions and initiatives, which are further detailed in BART's 10-year Sustainability Action Plan.</li> <li>The NGFGs have no physical features that will lead to environmental impacts. The NGFGs are Categorically Exempt.</li> </ul>

#### **Accountability &** BART has been conducting extensive outreach and engagement to diverse **Engagement** stakeholders as discussed in the section named "Prior Community Engagement." Prior to submitting their proposal, Straffic conducted extensive outreach to local Bay Area community groups. As a result, STraffic has committed to provide 2000 hours of new technical internship to Bay Area community-based organization. Hands-on STEM (science, technology, engineering and mathematics) internships provide students with the opportunity to apply theoretical knowledge gained in the classroom to real-world projects. This handson experience allows them to develop practical skills and a deeper understanding of how technical concepts are applied. It also gives them the opportunity to work with cutting-edge technologies, tools, and equipment, which can be valuable in their future careers. The Project aligns with MTC's Equity Platform, the Regional Active Transportation Plan, and the Blue-Ribbon Transit Transformation Action Plan, as the Project's work will: Modernize fare gates to preserve and improve access for all customers, including people with disabilities, seniors, cyclists, families with strollers, and travelers with luggage. Support and expand ridership as modernized fare gates may attract more riders, as customers may feel more comfortable with accessing the transit system for their transportation needs. o Support transit ridership for customers of diverse backgrounds. There are several housing developments near the San Francisco stations, and many of them are occupied by people who are of low income, people with disabilities, and seniors. BART serves as the primary mode of transportation for many of these community members given the location of the stations. BART service is also convenient to transfer to other modes of transportation as is Muni service, see Project Location and Equity Priority Communities Map, which includes Muni stop density near the stations. **Economic** Ranked by population, the Bay Area is the fourth largest metropolitan area in the Vitality United States. The nine-county region is home to more than 7.8 million people and 3.9 million jobs. The Bay Area's economy continues to grow, despite setback from the COVID-19 pandemic, driven in part by the technology sector that is vital to growing the nation's overall economy. By 2050, the region expects over ten million residents and five million jobs to be located here. 1 As one of the Bay Area's

largest transit network, BART currently operates and maintains 50 stations and 131 miles of revenue track, serving over 149,000 passengers every weekday in the counties of Alameda, Contra Costa, San Francisco, San Mateo, and Santa Clara. The NGFGs Project will support expected economic growth and vitality in

<sup>1</sup> Plan Bay Area 2050, Plan Bay Area 2050 Final Plan

	the Bay Area. The Project will help to improve access and experience for community members to travel to employment locations throughout San Francisco and the greater Bay Area. The Project is also located in areas with projected greater densities, Priority Development Areas, and Transit-Rich Areas.
Safety and	The current gates have reached their end of their useful life and break down
Livability	often. The NGFGs will be designed to provide safe access to the system for everyone, with increased attention to address the needs of people with mobility limitations, using improved detection technology to ensure they properly open and close and premature closing is reduced. Accessible NGFGs will meet American with Disabilities Act requirements. The Project will also help to improve infrastructure condition as the work directly assists to maintain the condition of BART's assets in a state of good repair.  • BART has chosen a vendor, STraffic, with extensive experience with fare gate design and installation. The vendor has experience with TR4 reader systems, modular design and readily available industrial components. The vendor has also worked extensively with ADA community. STraffic will be incorporating lessons learned to ensure the final fare gate design is equipped with top and side mounted readers, sensor technology for safe access of persons and service animals, and aisle lighting, messaging, and color-coding options. Working with STraffic, BART will be able to enhance functionality of new gates, ensuring they are safe for all patrons, and to maintain and upgrade parts in the gates over the next 20-25 years to ensure they are reliable.

FY of Allocation Action:	FY2023/24
Project Name:	Tree Planting and Establishment
Grant Recipient:	Department of Public Works

#### **EXPENDITURE PLAN INFORMATION**

PROP L Expenditure Plans	Tree Planting
Current PROP L Request:	\$1,000,000
Supervisorial Districts	District 05, District 06, District 10

#### **REQUEST**

#### **Brief Project Description**

Public Works and its community partners will plant approximately 408 trees in the public right-of-way over the next year with these funds. The trees will be added to the weekly watering schedule for 3 years then receive lifetime maintenance care through StreetTreeSF's guaranteed funding. SFPW expects to prioritize planting in Districts 5, 6 and 10 based on tree census data and focusing on districts with the lowest canopy coverage.

#### **Detailed Scope, Project Benefits and Community Outreach**

With the passage of Proposition E in November 2016, Public Works has guaranteed funding to care for all street trees in the public right-of-way. In FY23/24, Public Works will use Prop L Tree Planting program funds to plant and establish trees, which Prop E explicitly does not fund. San Francisco Public Works, in partnership with the San Francisco Planning Department, completed a comprehensive street tree census in 2016. This census identified all street trees in the public right-of-way, as well as existing empty basins and potential new planting sites. The census results, many of which still apply, indicate that the neighborhoods in the southeast area of San Francisco such as the Bayview, Excelsior, the Portola, Outer Mission, Visitacion Valley, and Crocker Amazon, have the fewest amount of street trees (canopy cover) compared to other neighborhoods. The Sunset and Richmond neighborhoods also have far fewer street trees than other neighborhoods. These are also the neighborhoods that have the greatest number of potential planting site locations. SFPW's Urban Forestry Ordinance, Article 16 of the Public Works Code, requires that a replacement tree be planted in place of trees that have been removed.

Public Works will use the tree census data to identify priority planting sites throughout San Francisco, focusing on districts with the lowest canopy coverage. With these funds, Public Works and our community partners will plant approximately 408 24" box trees in FY23-24 and water them for three years to ensure successful establishment. Once established, these trees will be maintained with Prop E funding.

In September 2023, SFPW was awarded \$12M in federal Inflation Reduction Act funds from the US Department of Agriculture to plant and establish trees in low-canopy disadvantaged communities over

the next 5 years. We are awaiting an estimate of the IRA expenditures in FY 23/24 and FY 24/25 to calculate leveraging.

#### **Project Location**

Citywide, planting prioritized in Districts 5, 6, and 10

Open for Use				
Project Completion (means last eligible expenditure)			Apr-May-Jun	2024

#### **SCHEDULE DETAILS**

Public Works will work with partners like Friends of the Urban Forest to complete this work by planting trees, participating in community meetings, and coordinating with District Supervisor offices to notify residents of upcoming tree planting projects. Public Works will partner with the Clean City Coalition and potentially Conservation Corps, pending Public Works Commission approval, to aid in watering all our young trees.

## Tree Planting Sites and Equity Priority 79 Communities

## Legend

Tree Planting Sites

• FY23/24 Priority Planting Sites

Equity Priority Communities

Other Planting Sites

FY of Allocation Action:	FY2023/24
Project Name:	Vision Zero Ramp Intersection Study Phase 3
Grant Recipient:	San Francisco County Transportation Authority

#### **EXPENDITURE PLAN INFORMATION**

PROP L Expenditure Plans	Vision Zero Ramps
Current PROP L Request:	\$150,000
Supervisorial Districts	District 07, District 08, District 09, District 10, District 11

#### **REQUEST**

#### **Brief Project Description**

This project will study 14 freeway ramps in the southeast and western parts of San Francisco and analyze their pedestrian safety conditions for near-term improvements to improve safety and connectivity along the city's High Injury Network. Improvements at these locations would improve safety, close gaps in the pedestrian and bike networks, and improve connections to transit and key destinations.

#### **Detailed Scope, Project Benefits and Community Outreach**

#### **Project Description**

Vision Zero Freeway Ramp Study Phase 3 will develop quick-build and, where applicable, permanent improvements for 14 freeway ramps in the southeast and western parts of San Francisco to improve safety and connectivity.

San Francisco's 2022 Streets and Freeways Strategy (SFS) was developed through ConnectSF and identified 14 freeway ramp locations that have a history of collisions, are on or near the HIN, and/or are within an Equity Priority Community. Improvements at these locations would improve safety, close gaps in the pedestrian and bike networks, and improve connections to transit and key destinations. Prop L sales tax funds will provide the local match to a Federal Safe Streets for All grant.

#### **Purpose**

This study would build on the Vision Zero Ramp Intersection Safety Studies 1 and 2, which designed safety improvements for freeway ramp touchdowns in the South of Market neighborhood. Safety improvements in this study would focus on ramps outside of SoMa and include quick-build solutions consistent with previous phases such as curb extensions, advanced pedestrian signals, signal improvements, and new cross walks, as well as long-term design improvement concepts. Designs will be developed through citywide and neighborhood-level, culturally relevant community engagement events and surveys both in-person and online to ensure solutions meet diverse community travel needs and support multimodal travel. The study would produce conceptual engineering design recommendations for 14 ramp touchdowns, cost estimates, implementation and funding plans.

#### Task 1: Administrative Startup and Project Management

#### Task 1.1: Project Kick-off Meetings

The SFCTA will hold a kick-off meeting with USDOT staff to discuss grant procedures and project expectations including invoicing, quarterly reporting, and all other relevant information for project management.

#### Task 1.2: Consultant Procurement and General Project Management

The SFCTA will procure a consultant through a process that meets USDOT grant requirements. Although the consultant will assist with study tasks and deliverables, the SFCTA will remain primarily responsible for all deliverables and general project management.

#### Task 1.3: Project Reporting and Invoicing

The SFCTA will manage the project and the consultant on an ongoing basis, including submitting quarterly reports and invoices to USDOT as required by the grant.

#### Deliverables:

- · Project kickoff meeting notes
- Quarterly invoicing
- Progress reports
- Consultant contract

#### Task 2: Community Outreach

#### Task 2.1 Community Engagement Plan

The project team will create an outreach plan describing how the project will engage study area travelers and the surrounding communities in the planning process. This engagement plan will include strategies to reach the diverse communities surrounding the study area and include multilingual outreach methods using in-person engagement options. The engagement plan will also identify the information we hope to obtain through outreach, including an understanding of how community members prioritize different objectives (e.g. safety versus traffic congestion), transportation needs and challenges, and which types of improvements they find most desirable. The outreach plan will also document key project messages, community groups and stakeholders, and potential events.

#### Task 2.2 Community Outreach Events and Meetings

The project team will execute the engagement plan developed in Task 2.1. The project team will seek participation via multiple methods such as reaching out to community groups and stakeholders, flyering, email, and direct outreach at community events. Additional outreach meetings will be held throughout the study period with project stakeholders and community groups to refine the study goals and existing needs, among other topic areas. Outreach activities will be divided geographically into up to 3 neighborhood areas—the Mission/Dogpatch, Bayview, and Oceanview/Excelsior. At least two outreach events will be scheduled per ramp cluster to receive site-specific feedback.

Outreach will be conducted in two phases: Phase 1 will be focused on outlining the community's perceived challenges in the ramp areas and what types of treatments are preferred. A multi-language survey will be developed and distributed for each phase of outreach.

Throughout both phases, presentations to CBOs will be offered and CBOs will receive stipends to reflect their level of support in promoting outreach.

#### Deliverables:

- Draft and Final Community Engagement Plan
- Summaries of community outreach activities

#### Task 2.3: Technical Advisory Committee

The SFCTA will form a Technical Advisory Committee (TAC). The TAC will include representatives from SFMTA, SFPW, SFDPH, SF Planning Department, Caltrans, and advocates included within San Francisco's Vision Zero Task Force. The purpose of this committee will be to provide technical feedback from experts, professionals, and advocates on the study process and proposed safety interventions. There will be up to 4 TAC meetings scheduled with key decision points outlined in this scope, meeting topics are expected to include: project understanding and goal setting; community engagement; improvement concepts; and final recommendations.

#### Deliverables:

Draft and Final TAC meeting materials and notes

#### Task 3: Study Goals, Framework, and Existing Conditions

#### Task 3.1 Study Goals and Framework

Building on Phases 1 and 2 to ensure continuity in evaluative metrics and design approaches, the Study will produce a set of planning goals and evaluation metrics to guide the development of improvement concepts and ensure concepts advance the study goals. The evaluation framework will include identification of a set of performance measures that will address all transportation modes.

#### Task 3.2 Existing Conditions Summary

Following development of the framework, SFCTA will document the existing transportation network and land uses in and around the study ramp locations. This effort will include gathering information on existing conditions including roadway and sidewalk geometries, traffic volumes, turning movements, existing rights-of-way and intersection configurations, collision data, transit ridership and performance, and pedestrian and bicycle volumes. Available data will be compiled from both internal sources and other agencies, and additional data will be collected as needed. The existing conditions memo will include the study goals, framework, and performance measures, traffic count data summary, and broader transportation and land use context.

#### Deliverables:

- Draft and Final Study Goals & Evaluation Framework Memo
- Draft and Final Existing Conditions Memo
- Traffic Count data summary

#### Task 4: Improvement Concept Development

#### Task 4.1: Improvement Concepts Memo

The SFCTA develops safety improvement concepts for each ramp location using a toolkit of measures developed from recommendations in the first and second phases of Vision Zero freeway ramp intersection safety studies and consistent with SFMTA's quick-build and Vision Zero toolkits. Both short-term quick-builds and, where applicable, long-term improvement concepts will be developed for recommendation. SFMTA will be primarily responsible for confirming feasibility, and in some cases, may be able to share short-term improvement concepts developed prior to study inception.

Up to three meetings will be held to review existing conditions, develop concept designs, incorporate community feedback, and agree on the appropriate implementation recommendations. The study team will refine proposed improvement concepts based on feedback from the TAC, community outreach findings, and technical review and analysis. Concepts will be documented in an Improvement Concepts Memo, including developing graphic sketches, and will expand to include additional concepts if needed. This memo will incorporate outreach feedback for site-specific changes and structured around identified ramp clusters.

#### Deliverables:

Draft and Final Improvement Concepts Memo

#### Task 5: Concept Evaluation, Selection, Refinement and Cost Estimates

#### Task 5.1: Evaluate improvement concepts

The Study will evaluate the improvement concept alternatives identified in Task 4 according to the evaluation framework and performance measures identified in Task 3, for the 14 ramp locations in the study area. The analysis will consider the performance of all modes, and will include a circulation analysis using the existing data and counts gathered in Task 4. Circulation analysis and traffic simulations will be conducted as needed using traffic modeling tools such as Synchro or SimTraffic. Based on this evaluation and community outreach findings, the SFCTA will recommend a preferred set of projects.

#### Task 5.2: Refine concepts, develop conceptual designs and cost estimates

Based on the evaluation in Task 5.1 and results of public outreach, the Study will refine the design concepts for the recommended improvements. The Study will produce planning-level cost estimates for all recommended projects based on individual cost elements and their per-unit costs.

#### Deliverable:

Draft and Final Evaluation of Improvement Concepts and Proposed Conceptual Designs

#### Task 6: Funding and Implementation Strategies

The project team will develop cost estimates and generate a funding strategy for all recommended projects. The strategy will identify funding sources likely to be available for the selected projects, including competitive sources and discretionary sources that local agencies could prioritize. The project team will also develop an implementation strategy including remaining project development, environmental review, and other permitting or institutional process steps required. To the extent possible, the implementation plan will also identify planned improvements that may be able to incorporate study recommendations

#### Deliverable:

Draft and Final Funding and Implementation Strategy

#### Task 7: Final Report and Presentation

The Study will summarize previous interim deliverables in a final report, including an executive summary. In addition, the Study will develop a final slide presentation to accompany the final report for purposes of community outreach and the approval process. The report will be presented to the Transportation Authority board for adoption.

#### Deliverables:

- Draft Final Report
- Final Report
- Presentation to Transportation Authority Community Advisory Committee
- Presentation to Transportation Authority Board

#### **Project Location**

14 ramp intersection locations across southern and eastern San Francisco, including the Mission/Dogpatch, Bayview, and Oceanview/Excelsior neighborhoods.

#### **SCHEDULE DETAILS**

Task-based project milestones:

- Task 1 Hold a project kick-off meeting, conduct progress reports, and sign a consultant contract.
- Task 2 Finish Community Engagement Plan, summarize feedback from outreach activities, & form TAC
- Task 3 Complete Study Goals & Framework Memo and Existing Conditions Summary.
- Task 4 Complete Improvement Concepts Memo.
- Task 5 Complete Evaluation of Improvement Concepts and Proposed Conceptual Designs.
- Task 6 Complete Funding & Implementation Strategy Memo
- Task 7 Complete Final Report and presentation slides, and present to Board.

#### **Deliverables**

- 1. Quarterly progress reports shall include % complete of the funded phase, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
- 2. With the first quarterly progress report, Sponsor shall provide 2-3 photos of existing conditions.
- 3. Upon completion of Task 2.2: Sponsor shall provide a Community Engagement Plan. QPRs shall include a summary of community outreach performed the prior quarter including feedback received.
- 4. Task 2.3: Sponsor shall provide regular Technical Advisory Committee (TAC) updates, including roster, meeting materials, and notes.
- 5. Upon completion of Task 3: Study Goals, Framework, and Existing Conditions, submit an Existing Conditions memo that includes the study goals, framework, and performance measures, traffic count data summary, and broader transportation and land use context.
- 6. Upon completion of Task 4: Improvement Concept Development, submit an Improvements Concepts Memo, including renderings of potential treatments.
- 7. Upon completion of Task 5: Concept Evaluation, Selection, Refinement and Cost Estimates, submit an Evaluation of Improvement Concepts and Proposed Conceptual Designs. The Evaluation shall include the results of circulation analysis and traffic simulations as well and planning-level cost estimates.
- 8. Upon completion of Task 6: Funding and Implementation Strategies, submit draft funding and implementation recommendations.
- 9. Prior to study completion, provide draft final report with sufficient time for Transportation Authority staff review and comment.

\$15,000

10. Upon completion of project (anticipated June 2025), Sponsor shall provide a final report. Final report shall include summaries of technical analysis and outreach, recommendations, and a funding and implementation plan. Sponsor shall present the final report to the CAC and Board for approval.

#### **Special Conditions**

1. The recommended allocation is contingent upon approval of the Prop L Vision Zero Ramps 5YPP and amendment of the Prop L Strategic Plan Baseline which is a separate item on this agenda.

#### **Notes**

1. Reminder: All flyers, brochures, posters, websites and other similar materials prepared with Proposition L funding shall comply with the attribution requirements established in the Standard Grant Agreement.

FY of Allocation Action:	: FY2023/24	
Project Name:	Project Name: Inner Sunset Multimodal Safety and Access Study [NTP]	
Grant Recipient:	San Francisco County Transportation Authority	

#### **EXPENDITURE PLAN INFORMATION**

PROP L Expenditure Plans	Neighborhood Transportation Program	
Current PROP L Request:	\$350,000	
Supervisorial District	District 07	

#### **REQUEST**

#### **Brief Project Description**

This study will identify a prioritized short list of recommendations to improve multimodal traffic safety and access in the Inner Sunset commercial core area in District 7. The recommendations will fall into 3 types: low-complexity safety or access improvements; conceptual designs; and bold concept screening. The community outreach approach will include general public engagement.

#### **Detailed Scope, Project Benefits and Community Outreach**

#### **Purpose**

The Inner Sunset Multimodal Safety and Access Study (Study) is an NTP Planning project request from the District 7 office. The goal of the Study is to identify a prioritized short list of approximately 5-6 top recommendations to improve multimodal traffic safety and access in the Inner Sunset commercial core area (see Study Area below). The recommendations should fall into 3 types:

- 1. Low-complexity improvements. Two to three simple, quick-to-implement safety or access improvements that need only funding to implement. This could include:
  - Added bike parking and/or bikeshare stations at community-identified locations.
  - Color curb modifications to reduce double-parking.
- Conceptual improvements. Two to three conceptual designs for new project improvements that have enough projected benefit and enough community support to move forward to the SFMTA for further development. These could include:
  - Additional safety and speed management treatments on Lincoln Way at 9th.
  - Transit priority treatments such as for the Muni 44-O'Shaughnessy route on 9th or the 7 Haight-Noriega route on Lincoln.
  - Bicycle network improvements, including upgrades to existing 7th Avenue bike route and improved connections to/from Golden Gate Park.

3. Bold concept screening. One to two more transformative street changes to significantly improve safety, access, and travel reliability for the commercial district. This Study would identify, and screen for fatal flaws, one or two bold concepts with community interest and potential to significantly improve on community goals, including potential for significant circulation changes and/or vehicle restrictions on commercial corridors (e.g., private vehicle restrictions and/or "transit mall" treatments on Irving Street). These recommendations would require further conceptual design, evaluation, and outreach following this Study.

#### Study Area:

The Inner Sunset Study will focus on the commercial core neighborhood bounded approximately by Lincoln Way, 7th, Judah, and 10th.

SFMTA Livable Streets will participate in this Study as a partner to lead the development of pedestrian and bicycle improvements within the study area. SFMTA Transit Division will participate in this Study as a partner to lead the development of transit priority improvements such as for the N-Judah and the 44 O'Shaughnessy within the study area.

#### Scope

#### Study will include:

- Documenting the existing conditions and needs in the study area, e.g., where multimodal safety, reliability, and access can be improved. Wherever available, this Study will make use of parallel efforts that have or will collect this documentation, including the SFMTA's Lincoln Way Quick Build after-data to be collected in Spring 2024, and data on the N-Judah to be collected by the SFMTA N Judah Muni Forward team. Lead: SFCTA with Consultant
- 2. Coordination with related concurrent efforts: Lincoln Way Quick Build and Active Communities Plan. Early pre-planning work is underway now for the Muni Forward N-Judah project and full planning and outreach is expected to begin the planning phase in mid to late 2024. This Study would not replace or modify the recommendations being planned and delivered through the QB or ACP, but in the case of Lincoln, could identify further improvements beyond the scope pending results of the SFMTA's Spring 2024 before-after study; and in the case of the ACP, further advance the design of the 7th Avenue bike facility beyond what the ACP is scoped to develop. Lead: SFMTA Livable Streets and Transit Divisions
- Quantitative analysis (e.g., Synchro modeling or microsimulation) of the potential benefits and impacts of access changes on Irving Street (e.g., conversion to a pedestrian and transit mall, vehicle access restrictions) or transit priority treatments on 9th Avenue. Lead: SFCTA with Consultant
- 4. Concept designs and visualizations of multiple options for the "bold concepts" such as access changes on Irving Street (e.g., pedestrianization, vehicle access restrictions) or a protected bike facility on 7th. Lead: SFCTA with Consultant
- Understanding curb usage in the study area through data, which provides the ability to evaluate the potential benefits and impacts of changes to curb management. Lead: SFCTA with Consultant
- 6. Identification of and conceptual recommendations to address employee / employer travel needs for those who commute to / work in the study area. Lead: SFCTA with Consultant

#### **Tasks**

#### 1. Project Management

a. Consultant procurement and agreements.

b. Inter- and intra-agency communications and technical advisory meetings.

Deliverables: Consultant contract; quarterly Progress Reports; technical advisory committee meetings

#### 2. Community Engagement

The community engagement approach for this Study will consist of general public outreach at 3 points in the Study process. Lead: SFCTA

• Public Outreach. The Study will include two major rounds of "involve"-level public outreach during the concept development phase, and one round of smaller-scale "inform"-level outreach at the point of final recommendations. Outreach will include Chinese language translation.

Deliverables: General public outreach meeting materials and events; Outreach Findings Summary Report.

#### 3. Study Area Goals and Needs

This task will work with the community to set goals for and understand multimodal transportation needs and opportunities along the stretch of Irving Street between 7th and 9th Avenues.

- 1. Assess Existing Conditions. Measure multimodal street conditions along Irving through the Inner Sunset, including
  - travel patterns: who is traveling to, from, and through the study area, for what purposes, what times of day, using what modes. The Study will use data collected through the SFCTA's Travel Diary Survey supplement to measure and distinguish employee / worker travel, from visitor/customer travel, from home-based resident trips, from commercial travel (goods movement and business-to-business tripmaking).[8] This information would be used to assess the order of magnitude, qualitative benefits and impacts of different street changes to the travelers in the study area. Lead: SFCTA with Consultant
  - Safety and conflicts analysis that incorporates Vision Zero data on collisions to identify causes and locations of collisions. Lead: SFCTA with Consultant
  - Incorporate data from the SFMTA before and after study of the planned Lincoln QB improvements.
  - Incorporate travel time, speed, and delay data for transit and mixed traffic collected by the SFMTA for the N-Judah Muni Forward project to identify causes of delays and unreliability for mixed traffic.
- 2. Establish Goals and Needs. The Study Team will summarize multimodal transportation needs in the Study Area based on the Existing Conditions data and a first round of outreach. The Study Team will draft and refine a final statement of Goals and Needs based on community input, Existing Conditions data, and the first round of Outreach.

Deliverables: Travel data summaries; existing conditions data summaries; Draft and Final Existing Conditions and Needs Memo.

#### 4. Concepts Development

This task will work with the community to identify multimodal improvements for the study area. The goal of the Study is to identify a prioritized short list of approximately 5-6 top recommendations to improve multimodal traffic safety and access in the Inner Sunset commercial core area. The recommendations should fall into 3 types:

- 1. Low-complexity improvements. Two to three simple, quick-to-implement safety or access improvements that need only funding to implement. This could include:
  - Added bike parking and/or bikeshare stations at community-identified locations.
  - Color curb modifications to reduce double-parking.
- Conceptual improvements. Two to three conceptual designs for new project improvements that have enough projected benefit and enough community support to move forward to the SFMTA for further development. These could include:
  - Additional safety and speed management treatments on Lincoln Way at 9th.
  - Transit priority treatments such as for the Muni 44-O'Shaughnessy route on 9th or the 7 Haight-Noriega route on Lincoln.
  - Bicycle network improvements, including upgrades to existing 7th Avenue bike route and improved connections to/from Golden Gate Park.
- 3. Bold concept screening. One to two more transformative street changes to significantly improve safety, access, and travel reliability for the commercial district. This Study would identify, and screen for fatal flaws, one or two bold concepts with community interest and potential to significantly improve on community goals, including potential for significant circulation changes and/or vehicle restrictions on commercial corridors (e.g., private vehicle restrictions and/or "transit mall" treatments on Irving Street). These recommendations would require further conceptual design, evaluation, and outreach following this Study.

#### Conceptual design subtasks are anticipated to include:

- 1. Lincoln Way.
  - Identify any gaps or enhancements and recommend additional measures, allowing for implementation time of the improvements.
- 2. Irving Street.
  - This task is anticipated to include fatal flaw screening of the potential benefits of and community interest in limiting motor vehicle access to this segment of Irving, although the Study will not include all the outreach and technical analysis required to bring a vehicle restriction recommendation to the SFMTA.
  - Coordinate with the SFMTA-led N Judah Muni Forward project, which is currently in early
    pre-planning and will likely begin the full planning phase in mid to late 2024. Identify
    recommendations and improvement concepts that can be considered in the N Judah Muni
    Forward planning and design. Lead: SFMTA Transit
  - Traffic modeling or microsimulation to understand the potential benefits and impacts of significant street changes within the Study Area, such as on Irving between 7th and 9th Avenues and on 9th Avenue between Judah and Lincoln. Build a multimodal (micro)simulation model of the study area in order to simulate the benefits and impacts of roadway capacity changes like lane conversions or access restrictions. This includes consideration of transit operations with any major street changes (e.g. how transit will operate on a street that has vehicle restrictions). Lead: SFCTA with Consultant
- 3. Bicycle Network and Facilities. Coordinate with the SFMTA's Active Communities Plan (ACP) to identify bike access needs for the Inner Sunset. Lead: SFMTA
  - Design options to complete a bike network gap on 7th Avenue between Lincoln and Judah.
  - Identify other access needs such as for bike racks, long-term bike parking, bike share and E-bike access.
  - Contribute insights to the SFMTA-led ACP; coordinate with ACP recommendations

- 4. Curb management. Coordinate with SFMTA's Curb Digitization project to document existing curb regulations and management approach; collect data on curb usage and activity, including double parking activity and volumes and types of goods movement, service, and passenger loading / unloading activities. Identify recommendations for improving the usage and management of the curb. Lead: SFMTA
- 5. Employer / worker mobility and access. Through outreach, identify commute and access needs for the employees who work in the study area. Coordinate with the SFCTA's parallel TDM Market Analysis to document through commute behaviors / choices. Understand existing commute benefits and challenges. Develop, refine, recommend strategies to reduce the auto mode share of workers; improve safety of the commute for all workers. Lead: SFCTA with Consultant

Deliverables: Conceptual design drawings; traffic simulation model inputs and outputs; curb management data summaries and findings; Employee travel findings. Draft and Final Conceptual Design Development Memo.

#### 5. Funding and Implementation.

SFMTA will provide cost estimates for each Study recommendation. SFCTA and SFMTA will Inventory ongoing and planned street projects to identify opportunities and efficiencies for funding and constructing this Study's recommendations. SFCTA will identify potential funding sources for each recommendation and, with SFMTA, identify the next steps and roles/responsibilities for implementing each recommendation. Lead: SFCTA

Deliverables: Draft Funding and Implementation Chapter in Final Report

#### 6. Final Report and Adoption.

SFCTA with Consultant will draft a Final Report compiling all study recommendations and bring the report to the SFCTA Board for approval.

#### Deliverables:

- Draft Final Report
- Final Report
- Presentation to Transportation Authority Community Advisory Committee
- Presentation to Transportation Authority Board

The Transportation Authority's Neighborhood Program (NTP) is intended to strengthen project pipelines and advance the delivery of community supported neighborhood-scale projects, especially in Equity Priority Communities and other neighborhoods with high unmet need.

### **Project Location**

The Inner Sunset Study will focus on the commercial core neighborhood bounded approximately by Lincoln Way, 7th Avenue, Judah, and 10th Avenue.

PROP L EP-225	\$150,000	\$115,000	\$265,000

#### **Deliverables**

- 1. Quarterly progress reports shall include % complete of the funded phase, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
- 2. With the first quarterly progress report, Sponsor shall provide 2-3 photos of existing conditions.
- 3. Upon completion of Task 2: Community Engagement (anticipated September 2024), provide an Outreach Findings Summary Report.
- 4. Upon completion of Task 3: Study Area Goals and Needs, submit the Existing Conditions and Needs memo, including travel data summaries and existing conditions data summaries.
- 5. Upon completion of Task 4: Concepts Development, submit a Conceptual Design Development Memo, including conceptual design drawings, traffic simulation inputs and outputs, curb management data summaries and findings, and employee travel findings.
- 6. Upon completion of Task 5 Funding and Implementation Coordination Opportunities, submit draft funding and implementation recommendations.
- 7. Upon completion of project (anticipated November 2024), present the final report to the CAC and Board for approval.

#### **Special Conditions**

1. The recommended allocation is contingent upon amendment of the Neighborhood Transportation Program 5YPP. See attached 5YPP amendment for details.

#### **Notes**

- 1. The Transportation Authority will share quarterly progress reports with the District 7 Commissioner for this NTP project.
- 2. Reminder: All flyers, brochures, posters, websites and other similar materials prepared with Proposition L funding shall comply with the attribution requirements established in the Standard Grant Agreement.

  Neighborhood Program (NTP) Project Placeholder: Reduced from \$3,850,000 to \$3,500,000
  Inner Sunset Multimodal Safety and Access Study [NTP]: Added project with \$350,000 in Fiscal Year 2023/24 for planning.
- <sup>2</sup> 5YPP amendment to fund Walter U Lum Place Public Space Study [NTP] (Resolution 2024-xx, 10/24/2023). Neighborhood Program (NTP) Project Placeholder: Reduced from \$3,500,000 to \$3,150,000 Walter U Lum Place Public Space Study [NTP]: Added project with \$350,000 in Fiscal Year 2023/24 for planning.

FY of Allocation Action:	FY2024/25	
Project Name:	Walter U Lum Place Public Space Study [NTP]	
Grant Recipient:	San Francisco County Transportation Authority	

#### **EXPENDITURE PLAN INFORMATION**

PROP L Expenditure Plans	Neighborhood Transportation Program	
Current PROP L Request:	\$350,000	
Supervisorial District	District 03	

#### **REQUEST**

#### **Brief Project Description**

The Walter U Lum Place Public Space Study will study various scenarios for a people-first Walter U Lum Place, such as options for a shared street, traffic-calmed street, or time-restricted vehicle access. The project will also develop an urban design strategy to connect Walter U Lum Place with other cultural destinations in Chinatown. There will be two rounds of public and stakeholder outreach.

#### **Detailed Scope, Project Benefits and Community Outreach**

#### Task 1 Project Management

The project team will manage the project, including managing the budget, setting up team meetings, and managing the RFP process to procure a technical consultant.

The outreach consultant will convene a Steering Committee made up of agency and community stakeholders of related projects. The Steering Committee will meet at major project milestones to review draft deliverables.

The project team will draft a coordinated schedule of related projects in the study area.

- Task 1.1: Steering committee
- Task 1.2: Draft coordinated schedule of related projects
- Task 1.3: Project team meetings and budget management
- Task 1.4: RFP process to procure a technical consultant

#### Deliverables:

- Steering Committee meeting notes
- Project team meeting notes
- · Draft coordinated schedule of related projects
- · Contract with technical consultant

#### **Task 2 Evaluation Framework**

The outreach consultant will develop the draft vision, goals, and objectives for the project based on community feedback from round 1 of outreach in Task 4. Next, they will develop a draft evaluation framework and metrics that respond to the community goals.

The technical consultant will refine the vision, goals, and objectives and evaluation framework into the final versions.

- Task 2.1: Develop community vision, goals, and objectives
- Task 2.2: Develop prioritization principles and evaluation measures

### Deliverables:

- Draft and Final community vision, goals, and objectives
- · Draft and Final evaluation framework

## Task 3 Existing Conditions, Gaps/Needs, and Opportunities Study

The outreach consultant will define the draft study area, identify a set of cultural initiatives and related projects to be included in the study, and identify major destinations and access paths.

The project team and technical consultant will refine and finalize the study area. The project team will document the status of related projects and identify priorities for coordination.

The technical consultant will conduct existing conditions analysis, which will include traffic and multimodal data collection for the study area. Improvements from SF Rec Park's Portsmouth Square project would be incorporated wherever relevant as the new baseline. The existing conditions report will identify gaps/needs and opportunities for multimodal access, public realm and urban design improvements.

The outreach consultant and project team will review the existing conditions report.

- Task 3.1: Define study area, land use, access paths, related projects
- Task 3.2: Traffic data collection and analysis
  - Data collection plan
  - Data collection and analysis
  - Multimodal counts at intersections
  - Tube counts
  - · Speed data
  - Loading study
- Task 3.3: Existing Conditions Report

### Deliverables:

- Draft and Final project area map
- Data collection
- Draft and Final existing conditions report

### Task 4 Public and Stakeholder Engagement

The outreach consultant will lead and conduct outreach activities, including developing an outreach plan and stakeholder list. The project team would support outreach.

There would be at least two rounds of outreach (ie. one for Tasks 2 & 3, and another round to get feedback for Tasks 5 & 6). Outreach events would be in-person and virtual. Events may include workshops/charrettes, site walks, pop-ups, interviews or focus groups, surveys, and meetings with stakeholder groups (ie. tenant groups, merchants). The project team and outreach consultant will develop materials collaboratively with the Steering Committee. The outreach consultant will attend outreach events and provide translations and interpretation.

- Task 4.1: Develop outreach plan and stakeholder list
- Task 4.2: Workshops/charrettes, site walks, pop-ups (2 rounds)
- Task 4.3: Interviews or focus groups
- Task 4.4: Survey(s)
- Task 4.5: Meetings with stakeholder groups
- Task 4.6: Translations, interpretation, materials

## 110

Task 4.7: Outreach summary

## Deliverables:

- Draft and Final outreach plan
- Stakeholder list
- Outreach materials and translations
- Notes from outreach meetings
- Outreach summary

## Task 5 Traffic Management Feasibility Study

The technical consultant will develop alternatives for Walter U Lum that promote pedestrian safety and connection to Portsmouth Square and the surrounding area. The alternatives will include a shared street (raise roadway to sidewalk-level), restricted access (vehicle access at limited hours), traffic calming (ie. raised crosswalks), and potentially another variation. Each alternative will include conceptual designs (renderings/visualizations) and cross sections. The traffic management feasibility study will look at traffic management and mitigation needs for these options (ie. traffic diversion, parking relocation), as well as community and economic impacts (ie. impacts to businesses and the Portsmouth Square Garage), constructability/risk, and cost. The alternatives will be evaluated against the evaluation framework developed in Task 2. The most feasible alternative that meets the most evaluation criteria will be the preferred concept.

The outreach consultant and project team will review the draft concepts and traffic management feasibility study.

- Task 5.1a: Alternatives development
  - Shared street
  - Time-restricted access
  - Traffic calming
  - · Other variation
- Task 5.1b: Impact analysis for all concepts in 5.1a
  - Traffic management/mitigation
  - Community and economic impacts
  - Constructability/risk
  - Cost
  - Evaluation
- Task 5.2: Conceptual designs
  - Renderings/visualizations
  - Cross sections

## Deliverables:

- Draft concepts of at least 3 alternatives for Walter U Lum street configuration
- Draft and Final traffic management feasibility study

## **Task 6 Urban Design Improvements**

The technical consultant will lead the development of an urban design strategy to cohesively connect Walter U Lum Place with other sites in Chinatown. This task will be informed by Task 3 (Existing Conditions) and Task 4 (Outreach). It will include identifying potential urban design treatments to improve the public realm/streetscape and evaluating them against the evaluation framework developed in Task 2. The preferred urban design treatments will be developed into an urban design strategy/guidelines that can be applied to varying scenarios (ie. street type, building frontage, public art). The technical consultant will create conceptual designs of the preferred urban design treatment applied to the Walter U Lum concepts and connected streets.

The outreach consultant and project team will review the draft urban design strategy and conceptual designs.

- Task 6.1: Develop urban design strategy and guidelines to connect major destinations and access paths identified in Task 3.1
  - Evaluation
- Task 6.2: Conceptual designs of preferred urban design treatment on Walter U Lum concepts and connected streets

#### Deliverables:

- Draft and Final urban design strategy/guidelines
- Draft concepts of urban design treatments applied to Walter U Lum concepts and connected streets

## **Task 7 Implementation Strategy**

The technical consultant will develop a phasing plan for implementation of the preferred Walter U Lum concept and urban design strategy. The outreach consultant and project team will review the phasing plan.

The project team will develop a funding and implementation strategy that will identify the lead agency for each step. The project team will update the coordinated schedule of related projects, identify opportunities for coordination, and identify timing constraints. The outreach consultant will review these.

- Task 7.1: Phasing plan
- Task 7.2: Funding and implementation strategy
- Task 7.3: Schedule/lead agency/coordination

### Deliverables:

- Draft phasing plan
- Draft and Final implementation strategy
- Updated coordinated schedule of related projects

## **Task 8 Final Report**

The technical consultant will develop the narrative for the final report.

The project team will compile interim deliverables and narrative into a final report that describes the planning process, outreach, concept development and preferred concept, phasing plan, and funding and implementation strategy. The outreach consultant will review the draft report.

- Task 8.1: Draft report
- Task 8.2: Review
- Task 8.3: Supervisor briefings
- Task 8.4: Final Report

#### Deliverables:

Draft and Final report

The Transportation Authority's Neighborhood Program (NTP) is intended to strengthen project pipelines and advance the delivery of community supported neighborhood-scale projects, especially in Equity Priority Communities and other neighborhoods with high unmet need

Phase:	Planning/Conceptual Engineering	Fundshare:	100.0%

### **Cash Flow Distribution Schedule by Fiscal Year**

Fund Source	FY2023/24	FY2024/25	Total
PROP L EP-225	\$170,000	\$66,000	\$236,000

### **Deliverables**

- 1. Quarterly progress reports shall include % complete of the funded phase, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
- 2. With the first quarterly progress report, Sponsor shall provide 2-3 photos of existing conditions.
- 3. Upon completion of Task 2: Evaluation Framework (anticipated March 2024), provide memo outlining community vision, goals and objectives regarding Walter U Lum Place and final evaluation framework.
- 4. Upon completion of Task 3: Existing Conditions, Gaps/Needs, and Opportunities Study (anticipated April 2024), provide a project area map and report summarizing data collection and existing conditions/survey findings.
- 5. Upon completion of Task 4: Public and Stakeholder Engagement (anticipated August 2024), provide a copy of outreach materials and translations, stakeholder list, notes from outreach meetings and summary of feedback received.
- 6. Upon completion of Task 5: Traffic Management Feasibility Study (anticipated September 2024), provide draft concepts of at least 3 alternatives for Walter U Lum street configuration and a summary report of findings from the traffic management feasibility study.
- 7. Upon completion of Task 6: Urban Design Improvements (anticipated September 2024), provide a summary report of urban design strategy/guidelines and draft concepts of urban design treatments applied to Walter U Lum Place concepts and connected streets.
- 8. Upon completion of Task 7: Implementation Strategy (anticipated January 2025), provide a draft phasing plan and final implementation strategy including updated coordinated schedule of related projects.
- 9. Upon completion of project (anticipated April 2025), present the final report to the CAC and Board for approval

### **Special Conditions**

1. The recommended allocation is contingent upon amendment of the Neighborhood Transportation Program 5YPP. See attached 5YPP amendment for details.

#### **Notes**

- 1. Quarterly progress reports will be shared with the District 3 Commissioner's office.
- 2. Reminder: All flyers, brochures, posters, websites and other similar materials prepared with Proposition K funding shall comply with the attribution requirements established in the Standard Grant Agreement.

BD101724

RESOLUTION NO. 24-14

RESOLUTION ALLOCATING \$13,739,000 AND APPROPRIATING \$636,000 IN PROP L SALES TAX FUNDS, WITH CONDITIONS, FOR FIVE REQUESTS

WHEREAS, The Transportation Authority received five requests for a total of \$14,375,000 in Prop L local transportation sales tax funds, as summarized in Attachments 1 and 2 and detailed in the attached allocation request forms; and

WHEREAS, The requests seek funds from the following Prop L Expenditure Plan programs: BART Maintenance, Tree Planting, Vision Zero Ramps, and Neighborhood Transportation Program; and

WHEREAS, As required by the voter-approved Expenditure Plans, the Transportation Authority Board has adopted a 5-Year Prioritization Program (5YPP) for the aforementioned Prop L programs; and

WHEREAS, Three of the five requests are consistent with the relevant 5YPP; and

WHEREAS, The Transportation Authority and the San Francisco Municipal Transportation Agency's (SFMTA's) requests for the Inner Sunset Multimodal Safety and Access Study [NTP] and the Walter U Lum Place Public Space Study [NTP] requires amendment of the Prop L Neighborhood Transportation 5YPP to add these projects with funding from the existing NTP placeholders as summarized in Attachment 3 and detailed in the attached allocation request forms; and

WHEREAS, After reviewing the requests, Transportation Authority staff recommended allocating a total of \$13,724,000 and appropriating \$651,000 in Prop L funds, with conditions, for five requests, as described in Attachment 3 and detailed in the attached allocation request forms, which include staff recommendations for Prop L allocation amounts, required deliverables, timely use of funds requirements, special conditions, and Fiscal Year Cash Flow Distribution Schedules; and

BD101724

RESOLUTION NO. 24-14

WHEREAS, There are sufficient funds in the Capital Expenditures line item of the Transportation Authority's approved Fiscal Year 2023/24 budget to cover the proposed actions; and

WHEREAS, At its September 27, 2023 meeting, the Community Advisory Committee was briefed on the subject requests and unanimously adopted a motion of support for the staff recommendation; now, therefore, be it

RESOLVED, That the Transportation Authority hereby amends the Prop L Neighborhood Transportation Program 5YPP as detailed in the attached allocation request forms; and be it further

RESOLVED, That the Transportation Authority hereby allocates and appropriates \$14,375,000 in Prop L funds, with conditions for five requests as summarized in Attachment 3 and detailed in the attached allocation request forms; and be it further

RESOLVED, That the Transportation Authority finds the allocation of these funds to be in conformance with the priorities, policies, funding levels, and prioritization methodologies established in the Prop L Expenditure Plans, the Prop L Strategic Plan Baseline, as amended, and the relevant 5YPPs; and be it further

RESOLVED, That the Transportation Authority hereby authorizes the actual expenditure (cash reimbursement) of funds for these activities to take place subject to the Fiscal Year Cash Flow Distribution Schedules detailed in the attached allocation request forms; and be it further

RESOLVED, That the Capital Expenditures line item for subsequent fiscal year annual budgets shall reflect the maximum reimbursement schedule amounts adopted and the Transportation Authority does not guarantee reimbursement levels higher than those adopted; and be it further

RESOLVED, That as a condition of this authorization for expenditure, the Executive Director shall impose such terms and conditions as are necessary for the project sponsors to comply with applicable law and adopted Transportation

BD101724

**RESOLUTION NO. 24-14** 

Authority policies and execute Standard Grant Agreements to that effect; and be it further

RESOLVED, That as a condition of this authorization for expenditure, the project sponsors shall provide the Transportation Authority with any other information it may request regarding the use of the funds hereby authorized; and be it further

RESOLVED, That the Capital Improvement Program of the Congestion

Management Program and the relevant 5YPPs are hereby amended, as appropriate.

## Memorandum

#### **AGENDA ITEM 8**

**DATE:** October 11, 2023

**TO:** Transportation Authority Board

**FROM:** Anna LaForte - Deputy Director for Policy and Programming

SUBJECT: 10/17/2023 Board Meeting: Approve San Francisco's Program of Projects for the

2024 Regional Transportation Improvement Program, with Conditions

#### **RECOMMENDATION** □ Information ☑ Action

Approve San Francisco's Program of Projects for the 2024 Regional Transportation Improvement Program (RTIP), with conditions, programming \$46,684,000 in RTIP funds to:

- Metropolitan Transportation Commission (MTC): Planning, Programming, and Monitoring (\$188,000)
- Transportation Authority: Planning, Programming, and Monitoring (\$927,000)
- San Francisco Municipal Transportation Agency (SFMTA): New Flyer Midlife Overhaul - Phase III (\$45,569,000, which includes \$10,642,000 proposed to be reprogrammed from SFMTA's Train Control Upgrade - Phase 3 N Judah project)

#### **SUMMARY**

As San Francisco's Congestion Management Agency (CMA), the Transportation Authority is responsible for programming San Francisco's county share RTIP funds. The Board has long-standing RTIP priorities (Attachment 1) which currently direct RTIP funds to the Central Subway (\$32.8M), MTC Advance for Presidio Parkway (\$31.0), and Caltrain Downtown Extension (The Portal)(\$17.8M) in that order until the commitments are filled. Since the Central Subway contracts have all been awarded, we cannot program RTIP funds directly to the project and are meeting the commitment instead by funding other RTIP-eligible SFMTA projects. The Portal, led by the Transbay Joint Powers Authority (TJPA), is currently working with the Federal Transit Administration (FTA) to submit its financial plan and request entry into engineering as part of its efforts to secure a \$4+ billion Capital Investment Grant (CIG). To support this time sensitive effort and position the project well, we recommend that the Board fulfill the RTIP priorities out of order by

☐ Fund Allocation
☑ Fund Programming
$\square$ Policy/Legislation
□ Plan/Study
☐ Capital Project Oversight/Delivery
☐ Budget/Finance
$\square$ Contract/Agreement
□ Other:

Agenda Item 8 Page 2 of 5

funding the \$17.8M for The Portal. This will require a fund exchange with Prop L since the project's progressive design build approach doesn't easily comply with California Transportation Commission (CTC) RTIP guidelines. SFMTA staff has agreed to a cost-neutral Prop L/RTIP fund exchange that will involve funds proposed for the New Flyer Midlife Overhaul - Phase III project in the upcoming Prop L Muni Maintenance 5YPP that will be before the Board in fall 2023. We recommend directing the remaining new RTIP funds (\$17.1M) to the New Flyer Phase III project, as well. In addition, SFMTA has requested that we reprogram \$10.6M in FY26 RTIP funds from SFMTA's Train Control Upgrade-Phase 3 N Judah project to the New Flyer project, which is a better fit with RTIP guidelines. This would result in a total of \$45.6M for the New Flyer Phase III project (Attachment 3). In order to fulfill the RTIP commitment to The Portal before MTC's RTIP commitment, MTC has conditioned its support on the Board resetting our remaining RTIP commitments to put the Central Subway (\$15.7M) and MTC (\$31.0M) commitments on equal footing for future cycles. (Attachment 4). RTIP programming is ultimately subject to approval by the MTC (anticipated in December) and the CTC (anticipated in March 2024).

#### BACKGROUND

The State Transportation Improvement Program (STIP) is a five-year investment plan for state transportation money that is updated every two years by the CTC. Regional spending plans - developed by the MTC for the nine county Bay Area region and by other agencies elsewhere in California, account for 75% of the STIP. These are known as Regional Transportation Improvement Programs or RTIPs. The RTIPs can fund a broad range of projects from bike paths to highway redesigns or rail line extensions. The remaining 25% of the STIP is a statewide spending plan known as the Interregional Transportation Improvement Program, which is developed by the state department of transportation (Caltrans) to fund projects that connect metro areas or cross regional boundaries.

The CTC's RTIP guidelines include strict timely use of funds deadlines. For instance, RTIP funds must be allocated by the CTC in the year they are programmed, and sponsors may not incur costs against RTIP funds or advertise a contract for work to be performed prior to allocation. Further, projects must have a fully funded phase (e.g. construction) to receive an allocation and must be ready to award a contract within six months of allocation. As in previous RTIP programming cycles, these and other eligibility requirements significantly narrowed the list of potential projects that are good candidates for the 2024 RTIP.

**San Francisco's Remaining RTIP Commitments.** In 2005, the Transportation Authority Board adopted a list of San Francisco RTIP priorities to help fund some of the major capital projects in the Prop K Expenditure Plan. Attachment 1 shows the three remaining RTIP priorities, which are currently Central Subway (first priority), payback to MTC of an advance for Presidio Parkway (Doyle Drive) (second priority), and the Caltrain Downtown Extension now known at

Agenda Item 8 Page 3 of 5

The Portal. We recommend a revision to the order of these priorities, described below, as part of our 2024 RTIP recommendations.

#### DISCUSSION

**Funds Available**. MTC has initiated development of the 2024 RTIP, providing guidance based on CTC-adopted guidelines and the 2024 Fund Estimate. For the 2024 RTIP, San Francisco has a total of \$36,042,000 in RTIP funds that can be programmed in Fiscal Years 2026/27 through 2028/29 to RTIP-eligible projects (Attachment 2). These funds are split into two categories: \$1,115,000 for planning, programming and monitoring and \$34,927,000 for capital projects. Due to an overcommitment of near-term RTIP funds, CTC has advised that new RTIP programming is primarily available in FYs 2027/28 and 2028/29.

Our staff recommendations for 2024 RTIP programming are summarized in Attachment 3 and described below. The Project Programming Request forms for the recommended San Francisco projects, which contain basic information about scope, schedule, budget, and funding plans are in Attachment 5.

**Recommendations for Planning, Programming and Monitoring (PPM).** CTC guidelines allow up to 5% of RTIP funds to be used for PPM activities such as regional transportation planning, program development, and oversight of state and federally funded projects. MTC and the CMAs have a long-standing arrangement to split the PPM funds in recognition of the role each agency plays in advancing the state's transportation goals. We have primarily used our PPM funds to support project delivery oversight of regionally significant major capital projects such as The Portal and Caltrain Electrification. Per CTC guidelines, \$1,115,000 in new PPM programming is available to be split between MTC (\$188,000) and the Transportation Authority (\$927,000).

**Recommendations for Capital Projects.** Our recommendations for the 2024 RTIP \$34,927,000 capital funds prioritize fulfilling the \$17,847,000 commitment to The Portal due to the critical path the project is on to enter into the FTA's CIG engineering phase which requires the project to demonstrate certain levels of non-CIG committed funds by certain deadlines. We explored various options with the TJPA to identify a scope of work that was compatible with the CTC's strict requirement that contracts not be awarded until after allocation of RTIP funds and were not able to find a viable option. Both the project's construction management contract and its large progressive design-build engineering contract will be awarded far in advance of FY 28, the earliest that new 2024 RTIP funds are available for allocation. Thus, working with SFMTA and TJPA, we are recommending meeting the RTIP commitment to The Portal through a Prop L funds exchange with SFMTA's New Flyer Mid-Life Overhaul Phase III project that will be seeking Prop L funds in the Muni Maintenance 5YPP. This exchange allows us to fulfill our commitment with flexible local Prop L funds while holding SFMTA's project harmless.

SFMTA has requested and we recommend programming the remaining \$17,080,000 in 2024 RTIP capital funds to the New Flyer Phase III project. Further, SFMTA has also requested reprogramming of \$10,642,000 in previously programmed RTIP funds from its Train Control

Agenda Item 8 Page 4 of 5

Upgrade - Phase 3 N Judah to its New Flyer Midlife Overhaul - Phase III project in FY 2026/27. SFMTA and our staff agreed that this was necessary since the procurement approach and complexity of the train control project make it difficult to comply with the RTIP timely use of funds and contracting requirements mentioned above based on lessons learned from prior RTIP projects. In March 2023, SFMTA was unable to meet timely use of funds deadlines for \$13,752,000 in previously obligated 2018 RTIP funds for Train Control Upgrade - Phases 1 & 2; thus the funds lapsed (i.e., were deobligated consistent with RTIP guidelines). We are working closely with SFMTA to support identification of Prop L and other non RTIP funding for its train control upgrade project, which is a high priority project for the SFMTA.

In all, these actions would result in a total of \$45,569,000 in FY 27 RTIP funds to the New Flyer Midlife Overhaul - Phase III project, which would help fully fund the construction phase. MTC is supporting the request for early year RTIP funds since SFMTA anticipates the project will be ready to advance then, though the year of programming will be at the CTC's discretion. Note due to color of money issues in the RTIP (i.e., because the project is not California State Constitution Article XIX-eligible and there is no capacity in the state Public Transit Account), SFMTA is seeking 100% federal funds in the RTIP, which means SFMTA must provide the 11.47% local match of \$5,226,764, proposed to be fulfilled through Prop L funds contingent on approval of the Prop L Muni Maintenance 5YPP.

The proposed 2024 RTIP funded scope of work includes scheduled midlife overhauls on 100 New Flyer trolley coaches or motor coaches. Midlife overhauls have been shown to significantly improve vehicle reliability, reduce the incidence of breakdowns, prevent service interruptions, and avoid additional costly repairs. The overhauls may include improvements such as but not limited to outfitting trolley and motor coach vehicles with upgraded engine technology and a higher capacity battery system, repainted exteriors, updated seating configurations, and improved wheelchair securements.

**Conditions.** Our 2024 RTIP recommendations required extensive coordination with the SFMTA, MTC, and the TJPA. Both SFMTA and MTC support fulfilling San Francisco's RTIP commitment to The Portal in the 2024 RTIP.MTC and SFMTA are interested in having their remaining Presidio Parkway and Central Subway commitments, respectively, treated as first priority in the 2026 RTIP. As a condition of MTC's support for elevating The Portal over payback to MTC in the 2024 RTIP, our recommendation specifies a resetting of San Francisco's RTIP commitments as shown in Attachment 4, footnote 4: when the Fund Estimate is available for the 2026 RTIP programming cycle (anticipated in 2025), we will work with MTC and SFMTA to evaluate funds available, readiness and urgency of proposed projects by each agency, and RTIP project delivery track record when developing San Francisco's 2026 RTIP programming recommendations.

**Next Steps.** After the Board adopts San Francisco's 2024 RTIP Program of Projects, we will submit the Program of Projects to MTC by its November 1, 2023 deadline. We will bring the Prop L Muni Maintenance 5YPP to the Board for approval in fall 2023, which will include the proposed Prop L/RTIP fund exchange with the SFMTA's New Flyer Midlife Overhaul – Phase III for The Portal as well as the required local match that SFMTA's project will need for the RTIP funds. The MTC Commission is expected to consider the 2024 RTIP on December 20, 2023.

Agenda Item 8 Page 5 of 5

The CTC will consider adopting the 2024 RTIP at its March 21, 2024, meeting. If approved, SFMTA would be able to request allocation of the RTIP funds for the New Flyer Midlife Overhaul - Phase III project in FY 2026/27. We plan to closely work with SFMTA to ensure that the project can successfully allocate and expend the proposed RTIP and matching funds, including Prop L.

#### FINANCIAL IMPACT

The recommended action would not have an impact on the adopted FY 2023/24 budget. The proposed PPM funds, following approval by the CTC, would be included in the agency's FY 2026/27 through FY 2028/29 budgets.

## **CAC POSITION**

The CAC considered this item at its September 27, 2023, meeting and unanimously adopted a motion of support for the staff position

## **SUPPLEMENTAL MATERIALS**

## Attachment 1 San Francisco County Transportation Authority

Current Remaining Regional Transportation Improvement Program (RTIP) Commitments<sup>1</sup>
Last Amended October 2021 (Res. 22-12), Updated with Lapsed Funds March 2023

	Initial RTIP	Remaining RTIP Commitment		Current Remaining
Project <sup>2</sup>	Commitment	(Oct. 2021)	Lapsed Funds <sup>5</sup>	RTIP Commitment
Presidio Parkway [Fulfilled]	\$84,101,000	\$0	-	\$0
Central Subway [1st priority] 3,5	\$92,000,000	\$19,027,654	(\$13,752,000)	\$32,779,654
MTC STP/CMAQ Advance for Presidio Parkway				
[2nd priority] <sup>4</sup>	\$34,000,000	\$31,000,000		\$31,000,000
Caltrain Downtown Extension [3rd priority] <sup>5</sup>	\$28,000,000	\$17,847,000		\$17,847,000
Caltrain Electrification [Fulfilled]	\$24,000,000	\$0		\$0
Total	\$262,101,000	\$67,874,654	(\$13,752,000)	\$81,626,654

<sup>&</sup>lt;sup>1</sup> Based on Transportation Authority Board-adopted RTIP priorities last amended by Resolution 22-12, October 26, 2021.

On September 22, 2021 as part of its approval of the 2022 RTIP guidelines, the MTC reduced the Transportation Authority's remaining commitment by \$3 million, contingent on the Transportation Authority allocating \$3 million in local funds to serve as MTC's contribution to the next phase of project development for the Caltrain Downtown Extension project.

<sup>&</sup>lt;sup>2</sup> Acronyms include Congestion Mitigation and Air Quality (CMAQ), Metropolitan Transportation Commission (MTC), San Francisco County Transportation Authority (SFCTA), San Francisco Municipal Transportation Agency (SFMTA), and Surface Transportation Program (STP).

<sup>&</sup>lt;sup>3</sup> Central Subway is currently the SFCTA's highest priority for future RIP funds. Since sufficient RTIP funds were unavailable when SFMTA was awarding the construction contracts, we are honoring this commitment by programming new RIP funds when they become available to other SFMTA eligible projects to comply with RTIP guidelines.

<sup>&</sup>lt;sup>4</sup> Through Resolution 12-44, the SFCTA accepted MTC's proposed advance of \$34 million in STP/CMAQ funds for Presidio Parkway to be repaid with future county share RTIP funds. Repayment of the advance, i.e. by programming RIP funds to a project or projects of MTC's choice, is the second priority after the Central Subway.

<sup>&</sup>lt;sup>5</sup> In March 2023, SFMTA was unable to meet timely use of funds deadlines for \$13,752,000 in previously-obligated 2018 RTIP funds; thus the funds lapsed (i.e., were deobligated consistent with RIP guidelines) and will be available for reprogramming in the 2024 RTIP.

#### Attachment 2.

## 2024 Regional Transportation Improvement Program (RTIP) New Funds Available for San Francisco

The 2024 RTIP covers five years (Fiscal Years (FYs) 2024/25 – 2028/29). However, the California Transportation Commission has advised that new project programming is largely available only in the last two years, FY 2027/28 and FY 2028/29, and a smaller amount in FY 2026/27.

Programming Category	San Francisco County Share – New Programming	Eligible Activities
	SFCTA: \$927,000	Up to 5% allowable per 3-year county share period (different than 5-year range of the
Planning, Programming, and Monitoring (PPM)	MTC: \$188,000	RTIP) for PPM activities including regional transportation planning, program development, and project monitoring. MTC and the CMAs have a long-standing arrangement to split the PPM in recognition of
	PPM subtotal: \$1,115,000	the role each agency plays in advancing the state's transportation goals.
	Lapsed funds <sup>1</sup> : \$13,752,000	Capital projects to improve transportation, including highways, local roads, bicycle and pedestrian facilities, and transit projects. For
Capital Projects	New formula distribution: \$21,175,000	the 2024 RTIP, transit projects must be State Constitution Article XIX compliant (e.g. no rolling stock) or must seek federal-only funding and provide required matching funds.
	Capital Projects subtotal: \$34,927,000	Can fund environmental, design, right of way and construction phases.
Total:	\$36,042,000	

<sup>&</sup>lt;sup>1</sup> In March 2023, SFMTA was unable to meet timely use of funds deadlines for \$13,752,000 in funds previously obligated to Train Control Upgrade Project Phase 1 & 2 in the 2018 RTIP; thus the funds lapsed (i.e., were deobligated consistent with RIP guidelines) and are available for programming in the 2024 RTIP.

## Attachment 3 Proposed San Francisco 2024 Regional Transportation Improvement Program (RTIP) Programming Priorities

#### Project Totals by Fiscal Year (\$ 1,000's)

CTC has advised that new project programming is largely available only in the last two years, FY 2027/28 and FY 2028/29, and a smaller amount in FY

		last two years, i i 2027/20 and i i 2020/29, and a smaller amount in i

WITO	Monitoring	Ψ100				φυσ	ΨΟΟ	11/α
Prop	osed 2024 RTIP Programming	\$46,684			\$326	\$420	\$369	
	Total RTIP Funds Available	\$46,684						
	Surplus/(Shortfall)	\$0						

<sup>&</sup>lt;sup>1</sup> Acronyms include the Metropolitan Transportation Commission (MTC), San Francisco County Transportation Authority (SFCTA), and San Francisco Municipal Transportation Agency (SFMTA).

<sup>&</sup>lt;sup>2</sup> This project was programmed as New Flyer Midlife Overhaul - Phase III in the 2022 RTIP. As part of the 2024 RTIP, SFMTA has requested that this project be renamed New Flyer Midlife Overhaul - Phase II, with minor changes to programming and scope. The 2024 RTIP recommendations include new programming for the next phase of this project called New Flyer Midlife Overhaul - Phase III.

<sup>&</sup>lt;sup>3</sup>As part of the 2024 RTIP, SFCTA recommends with SFMTA concurrence, reprogramming \$10,642,000 from Train Control Upgrade - Phase 3 N Judah to its New Flyer Midlife Overhaul - Phase III project in FY 2026/27. SFMTA's procurement process and project delivery approach for the train control project are not a good fit with the RTIP guidelines. SFMTA is seeking other funds, including Prop L, for the train control project.

<sup>&</sup>lt;sup>4</sup> The recommended programming of \$45,569,000 to the New Flyer Midlife Overhaul - Phase III project in FY 2026/27 is made up of:

<sup>- \$21,175,000</sup> in new 2024 RTIP funds (including \$17,847,000 from a proposed Prop L/RTIP exchange to fulfill the SFCTA's RTIP committment to The Portal);

<sup>- \$13,752,000</sup> in lapsed funds deprogrammed from Train Control Upgrade - Phases 1 & 2 due to SFMTA's inability to meet timely use of funds deadlines; and

<sup>- \$10,642,000</sup> reprogrammed from Train Control Upgrade - Phase 3 N Judah (see note 3).

# Attachment 4 San Francisco County Transportation Authority Proposed Remaining Regional Improvement Program (RIP) Commitments<sup>1</sup>

**Proposed October 2023** 

				Proposed
	Initial RIP	Current Remaining	Proposed New	Remaining RIP
Project <sup>2</sup>	Commitment	RIP Commitment	Funds 2024 RTIP	Commitment
Presidio Parkway [Fulfilled]	\$84,101,000	\$0		\$0
Central Subway [2026 RTIP priority TBD] 3, 4	\$92,000,000	\$32,779,654	\$17,080,000	\$15,699,654
MTC STP/CMAQ Advance for Presidio				
Parkway[2026 RTIP priority TBD] 4	\$34,000,000	\$31,000,000		\$31,000,000
Caltrain Downtown Extension [Fulfilled] 5, 6	\$28,000,000	\$17,847,000	\$17,847,000	\$0
Caltrain Electrification [Fulfilled]	\$24,000,000	\$0		\$0
Total	\$52,000,000	\$81,626,654	\$34,927,000	\$46,699,654

<sup>&</sup>lt;sup>1</sup> Based on Transportation Authority Board-adopted RTIP priorities last amended by Resolution XX-XX, DATE.

On September 22, 2021 as part of its approval of the 2022 RTIP guidelines, the MTC reduced the Transportation Authority's remaining commitment by \$3 million, contingent on the Transportation Authority allocating \$3 million in local funds to serve as MTC's contribution to the next phase of project development for the Caltrain Downtown Extension project.

<sup>&</sup>lt;sup>2</sup> Acronyms include Congestion Mitigation and Air Quality (CMAQ), Metropolitan Transportation Commission (MTC), San Francisco County Transportation Authority (SFCTA), San Francisco Municipal Transportation Agency (SFMTA), and Surface Transportation Program (STP).

<sup>&</sup>lt;sup>3</sup> Since sufficient RTIP funds were unavailable when SFMTA was awarding the Central Subway construction contracts, SFCTA is honoring this commitment by programming new RTIP funds when they become available to other SFMTA eligible projects to comply with RTIP guidelines.

<sup>&</sup>lt;sup>4</sup> Both MTC and SFMTA are interested in having their RTIP commitment treated as first priority in the 2026 RTIP. When the Fund Estimate is available for the 2026 RTIP programming cycle (anticipated in 2025), SFCTA agrees to work with MTC and SFMTA to evaluate the funds available; readiness and urgency of proposed projects by each agency; and RTIP project delivery track record when developing San Francisco's 2026 RTIP programming recommendations. SFCTA's remaining RTIP commitments to MTC and SFMTA shown above have equal priority.

<sup>&</sup>lt;sup>5</sup> Through Resolution 12-44, the SFCTA accepted MTC's proposed advance of \$34 million in STP/CMAQ funds for Presidio Parkway to be repaid with future county share RIP funds. Repayment of the advance, i.e. by programming RIP funds to a project or projects of MTC's choice, is the second priority after the Central Subway.

<sup>&</sup>lt;sup>6</sup> Fulfilling the Caltrain Downtown Extension (DTX) RIP commitment is conditioned upon Board approval of a fund exchange to program \$17,847,000 in Prop L funds from the Muni Maintenance 5-Year Prioritization Program (5YPP) to DTX, scheduled for Board consideration in November 2023, with an equal amount of RTIP funds to be programmed to SFMTA's New Flyer Midlife Overhaul - Phase III project.

## Location (Project Limits), Description (Scope of Work)

New Flyer Midlife Overhaul - Phase III

In the city and county of San Francisco. Perform midlife overhauls on one hundred (100) 40-foot and 60-foot electric trolley or motor coaches. The overhaul may include improvements such as but not limited to outfitting trolley and motor coach vehicles with upgraded engine technology and a higher capacity battery system. The overhaul may also include improvements like repainted exteriors, updated seating configurations, and improved wheelchair securements. Work may be completed with in-house forces or contracted, as deemed appropriate.

### SECTION 1 - All Projects

### Project Background

In the city and county of San Francisco. Perform midlife overhauls on seventeen (17) 40-foot and 60-foot electric trolley or motor coaches. The overhaul may include improvements such as but not limited to outfitting trolley and motor coach vehicles with upgraded engine technology and a higher capacity battery system. The overhaul may also include improvements like repainted exteriors, updated seating configurations, and improved wheelchair securements. Work may be completed with in-house forces or contracted, as deemed appropriate.

### **Programming Change Requested**

Name change, decrease local match, increased scope, milestone date updates

### Reason for Proposed Change

NAME CHANGE: New Flyer Midlife Overhaul - Phase III has had its name changed to New Flyer Midlife Overhaul - Phase II because the contracting sequence has been updated since the initial project submittal in 2019.

DECREASED LOCAL MATCH: The amount of local match has been decreased from 20% to the required 11.47%

INCREASED SCOPE: The project scope has been updated. The scale of the Midlife Overhaul Program allows the SFMTA to overhaul 17 vehicles instead of 14, even with the decreased local match.

MILESTONE DATE UPDATES: See below

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

Proposed changes are not related to changes in earlier Begin Design, later End Design, later End Construction, Begin Closeout, and End Closeout milestones. Milestone changes are the result of increased scope, alignment with the larger New Flyer Midlife Overhaul program, and schedule refinement since the 2020 STIP estimate.

The contract award date is unchanged.

Other Significant Information

### SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

Because "Not applicable" is not an choice for project milestones, Sept 30, 2023 is shown for PSR, Environmental, and ROW phases. The project will be CE/CE with regard to environmental approvals, and there is no ROW consideration.

### Approvals

I hereby certify that the above information is complete and accurate and all approvals have been obtained for the processing of this amendment request.

RESOLUTION NO. 24-15

RESOLUTION APPROVING SAN FRANCISCO'S PROGRAM OF PROJECTS FOR THE 2024 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, The State Transportation Improvement Program (STIP) is a fiveyear investment plan for state transportation money, distributed through the Regional Transportation Improvement Program (RTIP) and the Interregional Improvement Program which can fund a wide variety of projects including major transit expansion, highway repair and redesign, and bicycle and pedestrian projects; and

WHEREAS, As Congestion Management Agency (CMA) for San Francisco, the Transportation Authority is responsible for programming San Francisco's county share of RTIP funds, subject to approval by the Metropolitan Transportation Commission (MTC) and the California Transportation Commission (CTC); and

WHEREAS, The Transportation Authority has longstanding RTIP project priorities which designate the SFMTA's Central Subway first priority, MTC's Advance for Presidio Parkway second priority, and the Transbay Joint Power Authority's (TJPA's) The Portal/Caltrain Downtown Extension Project third priority until their commitments are fulfilled as shown in Attachment 1; and

WHEREAS, The Transportation Authority must submit its approved 2024 RTIP priorities to MTC by November 1, 2023; and

WHEREAS, For the 2024 RTIP, San Francisco has a total of \$36,042,000 in RTIP funds that can be programmed in Fiscal Years 2026/27 through 2028/29 and that are split into two categories: \$1,115,000 for planning, programming and monitoring (PPM) and \$34,927,000 for RTIP-eligible capital projects (Attachment 2);

WHEREAS, CTC guidelines allow a portion of RTIP funds to be used for Planning, Programming, and Monitoring (PPM) activities such as regional transportation planning, program development, and oversight of state and federally funded projects; and

**RESOLUTION NO. 24-15** 

WHEREAS, MTC and the CMAs have a long-standing arrangement to split PPM funds in recognition of the role each agency plays in advancing the state's transportation goals; and

WHEREAS, Transportation Authority staff recommend programming \$972,000 for the Transportation Authority and \$188,000 for MTC in PPM funds; and

WHEREAS, With respect to the \$34,927,000 available for RTIP-eligible capital projects, Transportation Authority staff recommend that the RTIP priorities be addressed out of order to fulfill the \$17,847,000 commitment to The Portal to support its time sensitive efforts toward securing a \$4+ billion federal Capital Investment Grant; and

WHEREAS, The Transportation Authority cannot program RTIP funds directly to The Portal because the project's progressive design-build contract is not compatible with CTC RTIP guidelines; thus, Transportation Authority staff proposes to fulfill this commitment through a cost-neutral Prop L/RTIP fund exchange that will involve funds proposed for the SFMTA's New Flyer Midlife Overhaul - Phase III project in the upcoming Prop L Muni Maintenance 5-Year Prioritization Program that will be before the Board for adoption in fall 2023; and

WHEREAS, At SFMTA's request and after evaluating the project against the CTC's and MTC's guidelines, Transportation Authority staff recommended programming the \$17,080,000 in remaining 2024 RTIP capital funds to the SFMTA's New Flyer Midlife Overhaul Phase III project, in addition to \$10,642,000 in previously programmed FY 2025/26 RTIP funds from the SFMTA's Train Control Upgrade - Phase 3 N Judah project, which isn't a good fit with the RTIP guidelines; and

WHEREAS, The staff recommendations, as shown in Attachment 3, would recommend a total of \$45,569,000 in RTIP funds for the New Flyer Midlife Overhaul Phase III project, which will improve reliability, prevent service interruptions, and reduce maintenance costs of the SFMTA's electric trolley and motor coach fleet; and

**RESOLUTION NO. 24-15** 

WHEREAS, MTC and SFMTA staff have expressed support for the recommended 2024 RTIP Program of Projects, with the condition that both MTC's and SFMTA's remaining RTIP commitments be treated with equal priority in the 2026 RTIP, which is reflected in Attachment 4 showing the Transportation Authority's proposed remaining RTP commitments; and

WHEREAS, Attachment 5 contains Project Programming Request Forms with additional detail on the scope, schedule, cost and funding for the New Flyer Midlife Overhaul Project Phase III and PPM projects; and

WHEREAS, At its September 27, 2023 meeting, the Community Advisory Committee considered the staff recommended 2024 RTIP Program of Projects and unanimously adopted a motion of support for the staff recommendation; now, therefore let it be

RESOLVED, That the Transportation Authority hereby adopts San Francisco's 2024 RTIP Program of Projects, with conditions, as shown in Attachment 3; and be it further

RESOLVED, That the Executive Director is authorized to communicate this information to MTC by its deadline and to all other relevant agencies and interested parties.

RESOLUTION NO. 24-16

RESOLUTION URGING THE SAN FRANCISCO MUNICIPAL TRANSPORTATION
AGENCY TO INCORPORATE SAFE ROUTES TO ALL SCHOOLS IN THE SAN
FRANCISCO UNIFIED SCHOOL DISTRICT IN THE ACTIVE COMMUNITIES PLAN

WHEREAS, The City and County of San Francisco first adopted a Transit-First Policy 50 years ago in 1973 in order to promote a safe and efficient transportation system. This includes promoting active mobility by encouraging safe streets for riding, convenient access to transit, and bicycle lanes; and

WHEREAS, The City and County of San Francisco began developing the Active Communities Plan in 2022 to direct investments towards active mobility, including biking, scooting, and rolling, which reduces both congestion on the streets of San Francisco and the impact of transit on our climate; and

WHEREAS, The City and County of San Francisco Board of Supervisors adopted a Climate Action Plan on July 20, 2021, and said plan committed us to decreasing our collective dependence on gasoline fueled vehicles by shifting 80% of trips to sustainable modes of transportation; and

WHEREAS, The Board of Supervisors unanimously enacted the Better Streets Policy in 2006, which requires City departments to adhere to principles for the use of street space, including "Decisions regarding the design and use of the City's limited public street space shall prioritize space for pedestrians, bicycles, and public transit over space for automobiles"; and

WHEREAS, The Transportation Authority prepared the San Francisco School Access Plan, which aims to improve the quality, availability, and safety of transportation options to school and after-school activities while reducing greenhouse gas emissions, localized congestion, and air pollution around school sites. The Plan found that over 70% of K-5 San Francisco Unified School District students had school commutes of two miles or less, distances well-suited for active

RESOLUTION NO. 24-16

transportation if safe infrastructure is available; and

WHEREAS, Studies have shown that young individuals who learn to walk, bike, and roll for their transit needs carry these habits into adulthood, resulting in improved health outcomes, a commitment to sustainable transportation methods, and increased sense of belonging. Providing opportunities for young people to safely travel within San Francisco will create a new generation of residents dedicated to sustainable transportation networks; and

WHEREAS, Throughout the history of the United States, lack of access to educational institutions has served to withhold opportunities for advancement from specific communities, including people of color, women, and indigenous communities. Advancing racial and economic justice requires the City and County of San Francisco to actively work to equalize access to a high-quality education, including through ensuring safe passage for all students; and

WHEREAS, The San Francisco Municipal Transportation Agency (SFMTA) has been completing an average of 5 school assessments per year. San Francisco's commitment to the safety and success of our students and our climate action goals requires a vast acceleration of that timeline; now, therefore, be it

RESOLVED, The Transportation Authority urges the SFMTA to include necessary infrastructure ensuring safe connections to all schools in the San Francisco Unified School District within the Active Communities Plan by May 2024 in order to encourage lifelong San Franciscans dedicated to sustainable and active transportation; now, therefore, be it

RESOLVED, That the SFMTA shall implement the necessary physical infrastructure improvements that provide physical separation from, slow, and divert vehicle traffic to ensure safe passage for all students who walk, bike, and roll to school. Implementation of these improvements shall prioritize middle schools and high schools so older students may travel independently to schools; and be it further RESOLVED, That this Resolution shall take effect from and after its adoption

RESOLUTION NO. 24-16

and approval.

**Vehicle Procurement Charging Infrastructure Maintenance** and Storage **Funding Risks** 

As part of the allocation request for Paratransit Vehicles the SFCTA Board requested that the SFMTA provide an update on the plan for the transition of paratransit vehicles.

Paratransit is integrated into the SFMTA's larger plan to move toward an entire electric transit fleet. Updates will be on-going. State of Good Repair

Resiliency

Community

**Modernize aging SFMTA** facilities in order to meet the needs of everyone who travels in San Francisco.

Improve the transportation system's resiliency to seismic events, climate change, technology changes.

Make the SFMTA a better neighbor in the parts of the city that currently host our facilities.

Started in 2017, the **Building Progress Program is a \$2+** billion planning and capital program that continues to lead in innovative project delivery, adaptability, resilient planning and community outreach.

**Kirkland Yard** Electrification

**Woods Yard Pilot** Phase II (12 BEB Chargers)

**Islais Creek Pilot** Phase I (6 BEB Chargers)

**Presidio Yard Modernization** 

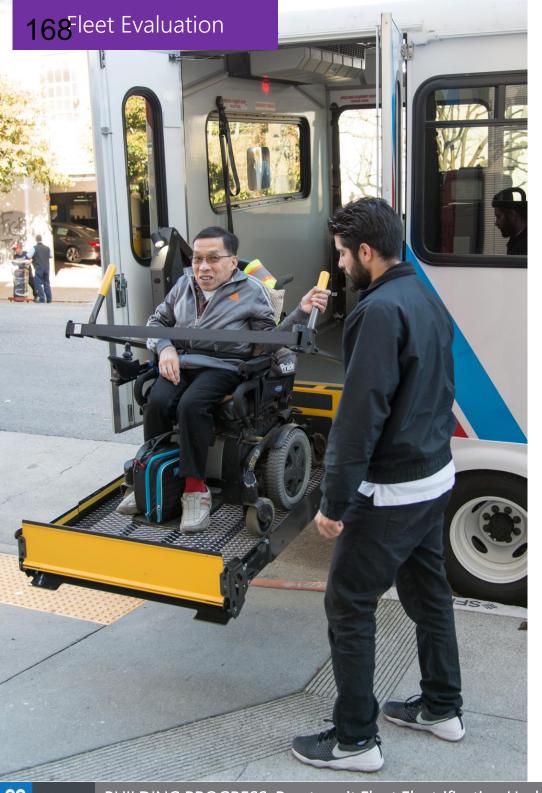

**Paratransit Electrification**  The **Electrification Program** readies the SFMTA for transition to **Zero-Emission vehicles** including Paratransit EVs.

- Reviewing fleet requirements.
- Complying with regulatory conversion schedule.

**SFMTA** 

The objective of the paratransit fleet program is to provide a clean, reliable and safe transportation experience for seniors and people with disabilities while reducing vehicle emissions by transitioning to zero-emission fleet.

- The prior allocation request funded the replacement of 17 gas powered vans.
- It also included 1 electric van that would support testing.

### The Paratransit Fleet includes 132 vehicles.

The current fleet consists of 111 cutaway vans and 21 minivans, which have useful lives of 5 years and 4 years, respectively.

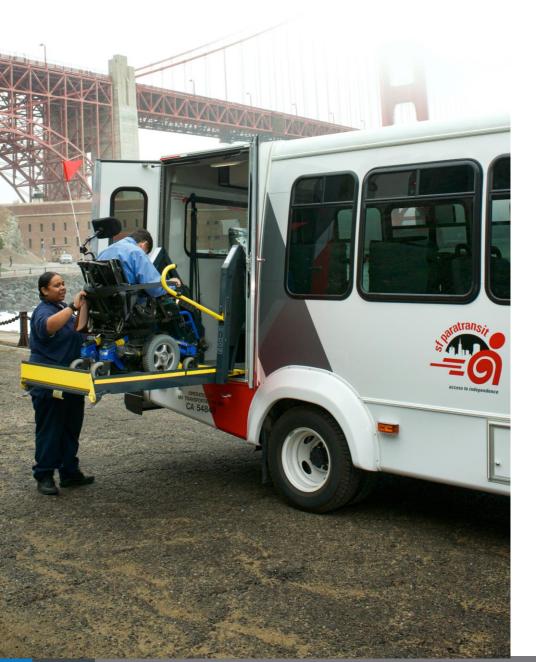

Innovative Clean Transit (ICT) regulation requires vehicles to be made electric with a gross vehicle weight greater than 14,000 pounds.

Fleet Evaluation (as of Sept 2023)

- 43 Transit 350HD Commute not required
- 68 Ford E450 Universal required
- 21 Dodge Caravan Minivan not required

While not required, the SFMTA will pursue evaluating the ability to electrify the entire fleet.

Fleet Evaluation 169

# Over the past year, the SFMTA has been testing/evaluating various vehicles.

Fleet Evaluation (as of Sept 2023) **Turtle Top** - Tested

Evaluation shows that the traction motor sits too low overall and scrapes the pavement in hilly operational conditions.

### Ford EV – Tested

Evaluation shows that there is insufficient wheelchair capacity; in addition, vehicle components also sit too low and scrapes pavement in hilly operational conditions.

**Lightening ZEV-3** — Currently being evaluated

Current risks are operational viability and price per vehicle.

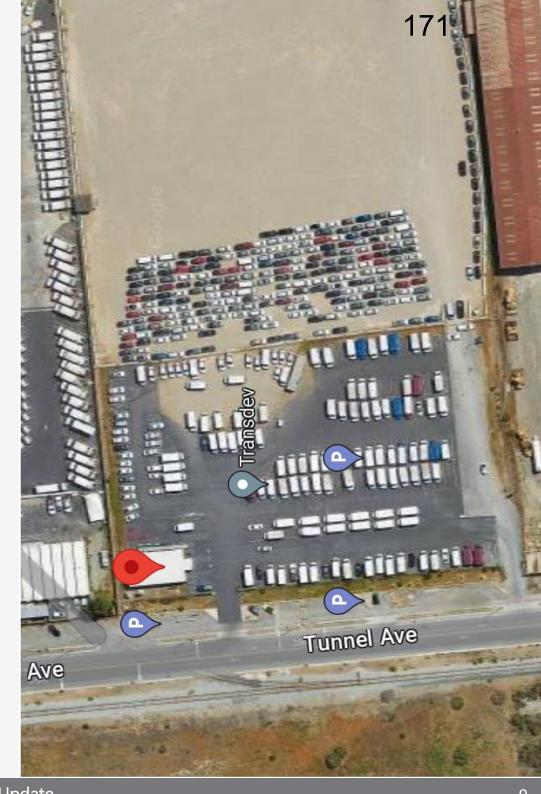

# In February 2022, the SFMTA completed its **Battery Electric Bus Facilities Master Plan**.

- Baselined projects and sequencing for charging infrastructure.
- Preliminarily identified power requirements.
- Schedule based on current aggressive regulatory requirements; currently in review.

### Charging Infrastructure/Facilities

One of the key risks identified is finally securing a **permanent fixed facility** for Paratransit, which currently operates out of various leased facilities.

- 250B Industrial Way, Brisbane (Non-Revenue & Revenue Vehicle Storage)
- 290 Industrial Way, Brisbane (Maintenance & Parts)
- 150 Executive Park #3200, Brisbane (Administration, Reservations, Dispatch)
- 575 Tunnel Ave, Brisbane (Operations, Support, Vehicle Storage)

### Permanent Facility Options

### **Potrero Yard**

(currently being analyzed

### **Presidio Yard**

(currently being analyzed)

### **Woods Yard**

(Recommended in 2017 Facilities Framework)

# A key component of the Building Progress Program is maximizing each of the SFMTA's individual sites.

SFMTA is currently reviewing **project sequencing and fleet timing**. We have developed **programmatic requirements for a permanent electric Paratransit Facility**.

### Risks include:

- Power/Load Requirements
- On and Offsite Infrastructure
- PG&E Capacity and Timing
- Funding

# Aggressive grant procurement and capital **funding advocacy will be required** to advance this program.

- Cost risks include facility costs, PG&E capacity costs, increased per vehicle costs. Facility costs are partially mitigated by colocation.
- Some funding opportunities include FTA Bus and Bus Facilities Program + FTA Lo-No Emission Vehicles Program, future CCSF GO Bonds.
- Most recently the SFMTA was successful securing approx. \$30 million for pilot charging infrastructure at Woods Yard and Islais Creek Yard.

**SFMTA** 

### Phase I Feasibility Analysis (0 – 18 months)

- Paratransit Facility
   Design Guidelines
- Paratransit Facility Location Analysis
- Paratransit Vehicle Evaluation Test
- Fleet Procurement
   Sequencing/Facility
   Requirements
- Regulatory Review
- Schedule
- Development of Funding Strategy

### Phase II Specification & Program Development (3 – 5 years)

- Finalize Specifications of Paratransit Vehicle
- Finalize of charge/ load requirements
- Analysis of cost/procurement timeline
- Identify Funding Gaps
- Procurement Schedule
- Pilot Level Facility
   Upgrades up to 20%
   of fleet, based on
   replacement schedule

### Phase III Vehicle Procurement & Facility Construction (10 – 15 years)

- Construct charging infrastructure at permanent facility to meet current and future demand.
- Facility would be required to charge 100% of vehicles, based on specified: vehicles, chargers, load requirements.

## The transition to a zero-emission Paratransit Fleet is integrated in the SFMTA's plans to transform its entire transit fleet.

- The SFMTA has completed the feasibility analysis to integrate Paratransit into its larger and comprehensive facilities capital program (Building Progress) and its fleet procurement program.
- The SFMTA will provide a full and comprehensive update on this consolidated plan to the SFCTA Board as part of the presentation of 5YPP for EP 6 the Muni Maintenance Category and is committed to providing the Board with updates on Phase II and Phase III of this framework on a regular and ongoing basis.
