Hello,

I'm unable to attend the meeting on 12/5, but wanted to offer a few comments about the quick build project on Frida Kahlo Way:

1. [Re cross section 2 on Cloud way](#), please place the bicycle lane next to the sidewalk on the interior of parked cars. This should be a standard practice. It prevents cyclists from getting doored by drivers and hit by passing vehicles.
2. While the "future phase" of the bicycle path connection [through Lee Street](#) is being worked out, I strongly advocate creating at a minimum, some sort of temporary *protected* connected infrastructure to access Frida Kahlo from Geneva and/or Harold Street. It's not enough to just say "Lee St bicycle path is coming soon."

Thank you,

Mariko Davidson
