Application for Membership on the Community Advisory Committee

Statement of qualifications:

Statement of objectives:

- San Francisco should be taking a public health approach to meet our vision zero commitments and implement the best global practices in street design.
- The city should fund reliable Muni services in all neighborhoods with less than 8 minute headways, so the over 400,000 people using Muni every week can depend on it as the best way to get to their destination.
- San Francisco should tackle large public transit investments on a faster timeline and spend less money per mile of transit built; San Francisco should control the cost curve to meet or beat the costs achieved by Paris, London, Stockholm, Seoul.
- Transportation policy is interconnected with housing policy, and we should welcome additional residents to San Francisco so our teachers, firefighters, accountants and nurses are not commuting from hours away.
- There should not be a distinction between commute trips and other types of trips in transportation planning. School drop-offs, errands, visits with friends, destination events are all as important as commutes in and out of CBD.
- A citizen's advisory committee to a local transportation authority cannot solve all of the problems in the world, but that does not mean we should not fix things that we can and should fix to improve quality of life for all San Franciscans.
