Current PROP L Request:	\$261,000
Supervisoral District	District 03

REQUEST

Brief Project Description

The West Broadway Tunnel Safety project will improve safety and slow traffic speeds at the west end of the Robert C. Levy (Broadway) Tunnel. The project will design and implement a series of safety improvements to roadway markings, signage, and traffic signals on Broadway between Polk and Powell streets, while maintaining two lanes in each direction. The project also includes bike corrals at Broadway and Polk streets.

Detailed Scope, Project Benefits and Community Outreach

At the request of District 3 Supervisor Danny Sauter, SFMTA is requesting Prop L Neighborhood Program funds to design and construct safety the West Broadway Tunnel Safety Project. This project is located on Broadway between Polk Street and Powell Street. Broadway is the primary arterial street between North Beach/Chinatown and the western parts of the city. The segment between Larkin Street and Stockton Street has been identified as a Vision Zero High Injury Corridor. The project aims to address vehicle speeds and pedestrian safety concerns through a series of improvements to roadway markings, signage and existing traffic signals. Specific improvements include the following:

- Restripe vehicle traffic lanes to a narrower width to encourage lower vehicle speeds while maintaining two traffic lanes in each direction.
- Install a speed feedback radar sign facing westbound traffic at Larkin Street to increase awareness of vehicle speeds. There is a similar sign currently posted at Powell Street facing eastbound traffic.
- Add PLAYGROUND warning signs and speed limit signs between Polk Street and Larkin Street.
- Upgrade the traffic signals at the intersection of Broadway and Larkin Street with larger more visible lenses and adjust the timing to slow the progression of traffic entering the tunnel.
- Add bike parking at Broadway and Polk Street, and turn calming at Broadway and Larkin Street.

Community outreach will be conducted in partnership with District 3 Supervisor Sauter's office, who recently coordinated a community walkthrough to inform this funding request. Additional outreach to the community will be performed by SFMTA staff during the design and construction phases through online surveys and informational mailers.

The West Broadway Tunnel Safety Project will be designed and implemented by SFMTA engineering and operations staff. By funding both phases now, the project can proceed seamlessly from design engineering to project approval and construction. Many of the improvements can be implemented by SFMTA operations staff within a relatively short time frame, however the larger traffic signals and speed feedback radar sign have long lead times for equipment procurement, which are reflected in the proposed schedule.

The Transportation Authority's Neighborhood Transportation Program (NTP) is intended to strengthen project pipelines

and advance the delivery of community-supported neighborhood-scale projects, especially in Equity Priority Communities and other neighborhoods with high unmet needs.

Project Location

Broadway, from Polk Street to Powell Street

Is this project in an Equity Priority Community?	No
Does this project benefit disadvantaged populations?	Yes

Project Phase(s)

Design Engineering (PS&E), Construction (CON)

Justification for Multi-phase Request

Multi-phase allocation is recommended given short duration of design phase and potential for concurrent implementation of various project elements. Striping and signage improvements can be implemented by SFMTA staff within a relatively short time frame, however the larger traffic signals and speed feedback radar sign have long lead times for equipment procurement. Requesting funding for both phases of work will ensure that the project can be implemented as quickly as the project can be designed.

5YPP/STRATEGIC PLAN INFORMATION

Type of Project in the Prop L 5YPP/Prop AA Strategic Plan?	Project Drawn from Placeholder
Is requested amount greater than the amount programmed in the relevant 5YPP or Strategic Plan?	Less than or Equal to Programmed Amount
PROP L Amount	\$948,355.00

Total PROP L Requested:	\$261,000	Total PROP L Recommended	\$261,000

SGA Project Number:	225-907021	Name:	West Broadway Tunnel Safety [NTP]
Sponsor:	San Francisco Municipal Transportation Agency	Expiration Date:	12/31/2026
Phase:	Design Engineering	Fundshare:	100.0%

Cash Flow Distribution Schedule by Fiscal Year

Fund Source	FY2025/26	Total
PROP L EP-225	\$75,000	\$75,000

Deliverables

1. Quarterly progress reports shall include % complete of the funded phase, work performed in the prior quarter, work anticipated to be performed in the upcoming quarter, and any issues that may impact schedule, in addition to all other requirements described in the Standard Grant Agreement.
2. With the first quarterly progress report, Sponsor shall provide 2-3 photos of existing conditions.
3. Upon completion, Sponsor shall provide evidence of completion of 100% design (e.g., copy of certifications page, copy of workorder, internal design completion documentation, or similar).

Special Conditions

1. The recommended allocation is contingent upon amendment of the Neighborhood Transportation Program 5YPP to add the subject project with funds from the Neighborhood Program (NTP) Project Placeholder. See attached 5YPP amendment for details.

Notes

1. Progress reports will be shared with the District 3 Commissioner.
