What is the SFTP?

The San Francisco Transportation Plan (SFTP) is the countywide 30-year blueprint for transportation system development and investments

- The Investment Plan is based on the expected transportation revenue for 30 years
- The Vision Plan considers potential new revenues
- Discussion of strategic initiatives
- Coordinated with updates to regional plans (Plan Bay Area)

SFTP+ Overview

The SFTP+ is a focused update incorporating post-pandemic travel data and revenue estimates

See appendix for more information on the transit fiscal cliff.

Transportation Revenues Projected to be Lower

2020 Dollars

What we've done so far

- Studied existing conditions / travel behaviors
- Updated growth projections
- Estimated what 2050 looks like if we don't invest

People Travel Less, Are More Likely to Drive

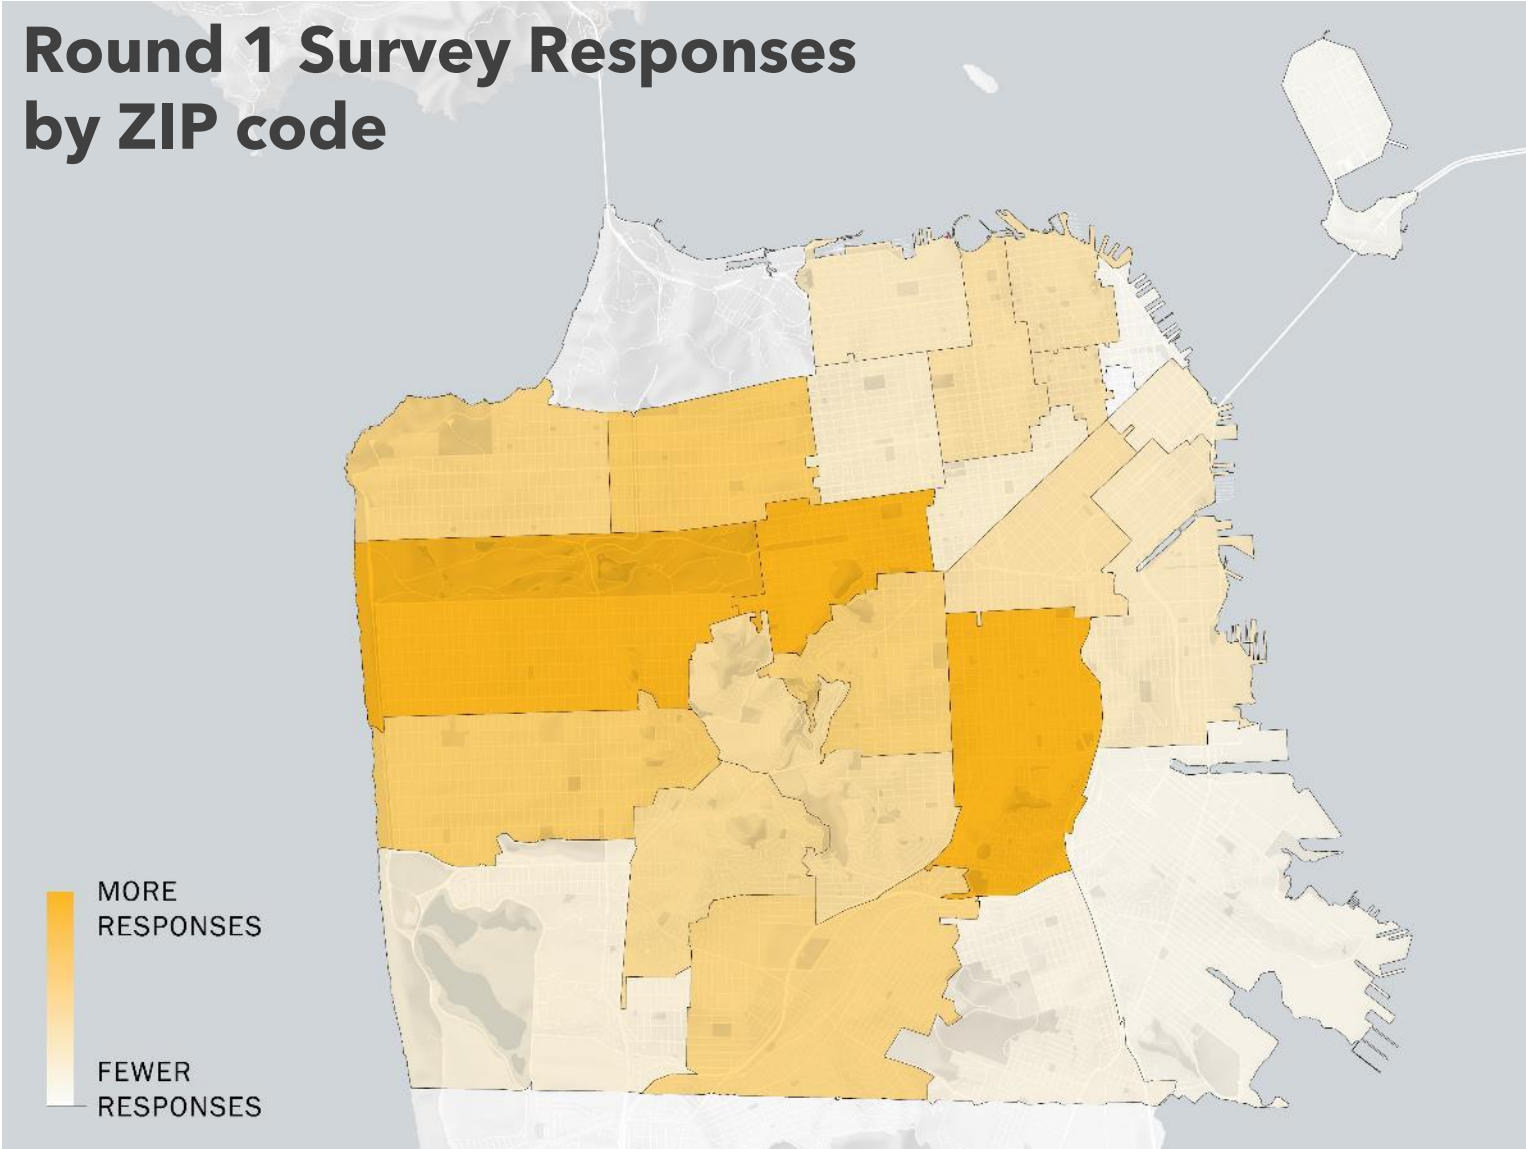

Round 1 Outreach – What We Heard

- We hosted two virtual Town Hall meetings
- We reached out to over 200 community organizations citywide and serving constituents in all 11 districts
- We heard a wide range of comments
 - Strong support for transit: better reliability, system preservation, expansion
 - Need for safety improvements
 - Concern that driving in the city was becoming more difficult

Round 1 Outreach: Who We Heard From

APPENDIX Potential Solutions for the Budget Gap

Regional Revenue Measure: The Connect Bay Area Act authorizes a five-county sales tax increase to fund San Francisco transit. If passed by voters, Muni will receive ~\$155M per year to address its structural deficit. BART will receive ~\$310M per year, Caltrain will receive ~\$70M per year, and AC Transit will receive \$50M per year.

Local Revenue Measure: As the regional measure will not fully address the structural deficit, a local parcel tax will further reduce the gap. If passed by voters, the Stronger Muni for All Measure will generate ~\$150M annually to reduce the deficit and ~\$10M to make marginal service quality improvements.

Agency Efficiencies & Revenue: Building an efficiency culture and identifying new enterprise revenues will close the remaining structural deficit for Muni. Similar efforts are underway for BART, Caltrain, and AC Transit.

In the short-term, one-time sources are needed to close the budget deficit until regional and local revenue measures are implemented.
