

# PRIORITIZING TRANSPORTATION NEEDS

Place a dot on the *three most important* transportation needs to address in the Tenderloin

Dots	Need	Description
	Pedestrian safety	Take steps to reduce the frequency and severity of pedestrian collisions in the neighborhood
	Pedestrian conditions	Take steps to make walking more pleasant and appealing in the neighborhood
	Reduce speed of car traffic	Take steps to reduce speeds of cars traveling on neighborhood streets
	Reduce amount of car traffic	Take steps to reduce the amount of car traffic in the neighborhood
	Improve reliability of transit	Take steps to reduce bunching of buses so they arrive at stops more evenly spaced. This makes the amount of time you wait more predictable.
	Reduce cost of transit for low- income people	Increase the availability of Muni's Lifeline Pass, which allows low-income people to purchase a regular monthly pass for \$35
	Improve bus stops	Take steps to improve the condition, comfort, security, and amount of information at bus stops
	Improve conditions for bicycling	Improve conditions for bicycling to improve cyclist safety and reduce the number of cyclists that ride on the sidewalk
	Increase availability of on-street parking	Better manage parking to reduce double parking and make it easier for customers of Tenderloin businesses to find on-street spaces
	Reduce crowding on Muni	Take steps to improve the capacity of Muni routes as they run through the Tenderloin, as well as reducing bus bunching, which contributes to crowding.
